Investasi ini tidak hanya bertujuan untuk menekan konsumsi energi berbasis fosil, tetapi juga untuk mengurangi emisi gas rumah kaca serta biaya operasional jangka panjang. Melalui pendekatan ini, KAI memastikan bahwa inovasi dan R&D menjadi pilar penting dalam mencapai target efisiensi energi perusahaan sekaligus mendukung agenda keberlanjutan nasional.

This investment aims not only to reduce fossil-based energy consumption, but it is also to reduce greenhouse gas emissions and long-term operational costs. Through this approach, KAI ensures that innovation and R&D are crucial pillars in achieving the Company's energy efficiency targets while supporting the national sustainability agenda.

KAI berkomitmen untuk mendukung program pemerintah mewujudkan *net zero emission* melalui berbagai langkah strategis. Berawal dari komitmen tersebut, KAI telah mengganti penggunaan bahan bakar solar dengan bahan bakar biosolar, yang terbuat dari solar yang dicampur dengan minyak nabati yang bersumber dari tanaman seperti jarak dan kelapa sawit. Penggunaan bahan bakar biosolar sudah diinisiasi pemerintah sejak 2009. Penelitian dan pengembangan perlahan menaikkan persentase sumber terbarukan dari 5% minyak nabati menjadi 40% minyak nabati sebagaimana *flowchart* berikut:

KAI is committed to supporting the government's program to realize net zero emissions through various strategic steps. Based on the commitment, KAI has replaced the use of diesel fuel with biodiesel fuel, which is made from diesel mixed with vegetable oils sourced from plants such as castor and palm oil. The use of biodiesel fuel has been initiated by the government since 2009. Research and development have slowly increased the percentage of renewable sources from 5% vegetable oil to 40% vegetable oil as shown in the following flowchart:

Pada tahun 2025 KAI berencana mewujudkan bisnis yang ramah lingkungan ditunjukkan melalui penerapan B40 untuk kereta api. Uji penggunaan pada KA dilakukan untuk bahan bakar mesin lokomotif dan mesin genset KA. Uji penggunaan mesin lokomotif dilakukan pada satu kereta barang rute Jakarta-Surabaya, sedangkan uji genset dilakukan pada KA Bogowonto rute Lempuyangan-Pasar Senen. Untuk melakukan uji penggunaan, KAI membangun fasilitas *blending* (pencampuran bahan bakar) dan pengisian bahan bakar di 5 (lima) Lokasi, yaitu Cipinang (Jakarta), Aryawinangun (Cirebon), Lempuyangan (Yogyakarta), Cepu (Blora), dan Pasar Turi (Surabaya).

Selain itu, KAI juga telah melaksanakan pelatihan khusus terkait manajemen energi yang bertujuan untuk meningkatkan kesadaran dalam menurunkan konsumsi energi yang berlebihan. Pelatihan ini merupakan bentuk investasi KAI yang sejalan dengan strategi keberlanjutan, serta upaya konstruktif mengembangkan kapabilitas sumber daya manusia yang terlibat di dalamnya. Berikut ini merupakan informasi mengenai pelatihan khusus terkait manajemen energi yang dilakukan oleh KAI pada tahun 2024:

In 2025, KAI aims to implement environmentally friendly practices by adopting B40 fuel for trains. A use test was conducted to evaluate the performance of this biofuel in locomotive engines and train generator engines. The test for locomotive engines took place on a freight train operating the Jakarta-Surabaya route, while the generator engine test was conducted on the Bogowonto train along the Lempuyangan-Pasar Senen route. To facilitate these tests, KAI established blending (fuel mixing) and refueling facilities at 5 (five) locations: Cipinang (Jakarta), Aryawinangun (Cirebon), Lempuyangan (Yogyakarta), Cepu (Blora), and Pasar Turi (Surabaya).

In addition, KAI has also conducted special training related to energy management aimed at increasing awareness in reducing excessive energy consumption. This training is a form of KAI's investment in line with the sustainability strategy, as well as a constructive effort to develop the capabilities of the human resources involved in it. Information regarding special training related to energy management conducted by KAI in 2024 is as follows:

## Pelatihan dan Sertifikasi GRC dan ESGRC

### Objective Pelatihan

Pelatihan GRC dan ESGRC bagi BUMN membahas pentingnya penerapan *Governance, Risk, and Compliance* (GRC) yang terintegrasi dengan prinsip *Environmental, Social, and Governance* (ESG) dalam memperkuat daya saing dan tata kelola perusahaan negara. Materi pelatihan mencakup urgensi ESG bagi BUMN, kaitannya dengan regulasi nasional dan standar global seperti GRI, TCFD, TNFD, IFRS S1/S2, serta prinsip UN Global Compact dan ISO 37301. Selain itu, pelatihan ini juga mengangkat isu-isu iklim yang relevan bagi BUMN, termasuk transisi menuju *Net Zero Emission*, manajemen risiko perubahan iklim, strategi efisiensi energi dan air, serta peran BUMN dalam mendukung target nasional melalui praktik keberlanjutan yang terukur.

## GRC and ESGRC Training and Certification

### Training Objective

GRC and ESGRC training for State-Owned Enterprises discusses the importance of implementing Governance, Risk, and Compliance (GRC) integrated with Environmental, Social, and Governance (ESG) principles to fortify the competitiveness and governance of state-owned enterprises. The training covers the urgency of ESG for State-Owned Enterprises, its relationship to national regulations and global standards such as GRI, TCFD, TNFD, IFRS S1/S2, as well as the principles of the UN Global Compact and ISO 37301. Additionally, the training addresses climate issues relevant to State-Owned Enterprises, including the transition to Net Zero Emissions, climate change risk management, energy and water efficiency strategies, and the role of State-Owned Enterprises in supporting national targets through measurable sustainability practices.

## ASPEK AIR

### Penggunaan Air [OJK F.8][GRI 3-3, 303-1]

Kegiatan usaha KAI dibidang transportasi massal perkeretaapian yang melayani jutaan masyarakat, membutuhkan air bersih setiap harinya. Kebutuhan air bersih digunakan untuk keperluan domestik pekerja dan penumpang seperti kebutuhan di kamar kecil (toilet), wudhu dan lain sebagainya. Selain itu, air bersih juga digunakan dalam kegiatan operasional KAI, terutama untuk pencucian kereta dan gerbong setiap harinya, guna menjaga kebersihan dan kenyamanan sarana transportasi.

Sumber air yang digunakan oleh KAI sebagian besar berasal dari Perusahaan Daerah Air Minum (PDAM) dan air tanah. Perseroan menggunakan air tanah yang dipompa dengan mesin tanah, jika sewaktu-waktu PDAM bermasalah. Untuk menjaga ketersediaan air bersih, KAI melakukan berbagai upaya efisiensi penggunaan air. KAI mendorong pekerja untuk bijak dalam menggunakan air bersih. Di samping itu, KAI senantiasa memastikan penggunaan air secara internal dan untuk prosedur kebersihan dilakukan secara hemat terutama pada kawasan-kawasan operasional yang merupakan daerah rawan kekeringan.

Selain mengupayakan efisiensi penggunaan air, KAI juga terus berinovasi dalam pengelolaan air secara berkelanjutan. KAI telah mengadopsi teknologi ramah lingkungan dengan mengimplementasikan sistem *automatic train wash plant* (ATWP) di Lintas Raya Terpadu (LRT) Jakarta, Bogor, Depok, dan Bekasi (Jabodebek). Dengan sistem tersebut, pencucian kereta dilakukan secara otomatis dengan efisiensi tinggi dan penggunaan air yang lebih sedikit.

Teknologi ATWP dilengkapi dengan *water treatment system*, yang mengolah air bekas pencucian agar dapat digunakan kembali. Dengan teknologi tersebut, air yang sebelumnya digunakan untuk membersihkan kereta akan disaring untuk memisahkan kotoran, seperti tanah, pasir, oli, dan lemak. Proses tersebut memungkinkan pengurangan konsumsi air baru secara signifikan dan mendukung prinsip daur ulang air secara berkelanjutan. Selain itu, air yang digunakan untuk pembilasan akhir pada sistem ATWP adalah *demineralizing water*, yaitu air murni yang bebas dari mineral dan bahan kimia. **[GRI 303-2]** Hal itu tidak hanya menjaga kualitas kebersihan kereta, tetapi juga memastikan dampak lingkungan yang minimal. Dengan berbagai upaya efisiensi air yang dilakukan, KAI terus berkomitmen untuk mendukung pelestarian sumber daya air.

## WATER ASPECT

### Water Usage [OJK F.8][GRI 3-3, 303-1]

KAI's business activities in mass rail transportation, serving millions of people daily, require substantial clean water supplies. The clean water is used for domestic needs of employees and passengers, including restroom (toilet) facilities, ablution areas, and other similar requirements. In addition, clean water is utilized for KAI's operational activities, particularly for the daily washing of trains and carriages to maintain cleanliness and comfort of transportation facilities.

The water sources used by KAI primarily come from Local Water Utilities (PDAM) and groundwater. The Company utilizes groundwater extracted by pumps as backup in the event that PDAM experiences service disruptions. To ensure clean water availability, KAI implements various water efficiency measures. KAI encourages employees to use water resources wisely. Furthermore, KAI consistently ensures water is used efficiently for both internal purposes and cleaning procedures, especially in operational areas prone to drought conditions.

In addition to water efficiency efforts, KAI continues to innovate in sustainable water management. The Company has adopted environmentally friendly technology by implementing Automatic Train Wash Plants (ATWP) for the Jakarta, Bogor, Depok, and Bekasi (Jabodebek) LRT system. This advanced system enables efficient, automated train washing with significantly reduced water consumption.

The ATWP system incorporates a water treatment facility that processes used wash water for reuse. Through this technology, water previously used for train cleaning undergoes filtration to remove contaminants such as dirt, sand, oil, and grease. This process enables substantial reduction in freshwater consumption while supporting sustainable water recycling principles. Furthermore, the ATWP system utilizes demineralized water for final rinsing - purified water free from minerals and chemicals. **[GRI 303-2]** This approach not only maintains train cleanliness standards but also minimizes environmental impact. Through these comprehensive water management initiatives, KAI remains committed to supporting water resource conservation.

Untuk mengetahui penggunaan air, KAI melakukan perhitungan secara terperinci penggunaan air pada kantor pusat, seluruh unit di wilayah operasional, dan anak perusahaan, dengan hasil sebagai berikut:

To monitor water usage, KAI conducts detailed tracking of water consumption across its head office, all operational units, and subsidiaries, with the following results:

Jumlah konsumsi air KAI sebanding dengan jumlah air yang dibuang, sehingga total penggunaan dan pembuangan air adalah sama. Namun KAI belum melakukan pembuangan air berdasarkan tujuan secara rinci. Di tahun mendatang KAI akan melakukan penghitungan untuk meningkatkan upaya pelestarian lingkungan. **[GRI 303-4, 303-5]**

Pada tahun 2024, KAI telah mengimplementasikan strategi pengelolaan air dengan tepat. Hal ini tercermin melalui keberhasilan Perusahaan dalam menyediakan *Water Station* di sejumlah stasiun yang beroperasi. Penerapan *Water Station* ini bertujuan untuk menjaga Kesehatan Masyarakat melalui pemenuhan nutrisi mineralnya. Guna menjaga kualitas air yang baik, KAI telah melakukan pengujian laboratorium (baku mutu) berdasarkan Permenkes No.492 tahun 2010 tentang Persyaratan Kualitas air minum. Hingga akhir tahun 2024, Perseroan telah memiliki *Water Station* sebanyak 81 unit di 23 lokasi berbeda. Adapun rincian lokasi *water station* adalah sebagai berikut:

1. Stasiun Gambir
2. Stasiun Pasar Senen
3. Stasiun Bandung
4. Stasiun Kiaracondong
5. Stasiun Cirebon
6. Stasiun Cirebon Prujakan
7. Stasiun Semarang Tawang Bank Jateng
8. Stasiun Semarang Poncol
9. Stasiun Purwokerto
10. Stasiun Kutoarjo
11. Stasiun Yogyakarta
12. Stasiun Lempuyangan
13. Stasiun Solo Balapan

15. Stasiun Madiun
16. Stasiun Kertosono
17. Stasiun Kediri
18. Stasiun Blitar
19. Stasiun Surabaya Gubeng
20. Stasiun Surabaya Pasar Turi
21. Stasiun Malang
22. Stasiun Jember
23. Stasiun Tanjung Karang

KAI's water consumption is equal to the amount of water discharged; therefore, the total usage and discharge of water are equal. However, KAI has not yet conducted detailed water disposal by purpose. KAI will conduct calculations in the coming year to improve environmental conservation efforts. **[GRI 303-4, 303-5]**

In 2024, KAI has implemented a proper water management strategy as reflected in the Company's success in providing *Water Stations* at a number of operating stations. The implementation of this *Water Station* aims to maintain Public Health by fulfilling its mineral nutrition. In order to maintain good water quality, KAI has conducted laboratory testing (quality standards) based on Regulation of the Minister of Health No. 492 of 2010 on Drinking Water Quality Requirements. By the end of 2024, the Company has 81 *Water Station* units, in 23 different locations. Details on the locations of the water stations are as follows:

1. Gambir Station
2. Pasar Senen Station
3. Bandung Station
4. Kiaracondong Station
5. Cirebon Station
6. Cirebon Prujakan Station
7. Semarang Tawang Bank Jateng Station
8. Semarang Poncol Station
9. Purwokerto Station
10. Kutoarjo Station
11. Yogyakarta Station
12. Lempuyangan Station
13. Solo Balapan Station
14. Purwosari Station
15. Madiun Station
16. Kertosono Station

## Manajemen Dampak yang Berkaitan dengan Pembuangan Air [GRI 303-2]

KAI memahami pentingnya untuk menjaga kebersihan dan kualitas badan air seperti sungai, danau, dan laut karena merupakan sumber kehidupan bagi manusia dan makhluk hidup lainnya. Upaya menjaga badan air dilakukan oleh KAI dengan memastikan limbah yang dibuang ke lingkungan memenuhi standar baku mutu yang ditetapkan dan tidak mencemari sumber air. KAI melakukan pengujian terhadap kualitas air yang didaur ulang oleh Perusahaan.

Pengujian dilakukan dengan menggunakan laboratorium terakreditasi, guna memastikan bahwa kualitas air hasil daur ulang memenuhi standar dan aman untuk digunakan kembali dalam kegiatan operasional. Pengujian dilakukan pada tiap Daop dan Balai Yasa, sesuai dengan Peraturan Pemerintah (PP) Nomor 22 tahun 2021. Untuk memastikan kepatuhan terhadap peraturan lingkungan, Perseroan memberikan laporan kepada Kementerian KLHK dan Pemerintah setempat yang diberikan setiap 6 (enam) bulan sekali.

### Dampak Ekonomi dari Penghematan Air

Efisiensi penggunaan air tidak hanya berdampak positif terhadap pelestarian lingkungan, tetapi juga dapat membantu operasional KAI dalam menghemat biaya pengeluaran untuk PDAM dan biaya listrik pompa air tanah. KAI akan terus menerapkan keberlanjutan demi pelestarian lingkungan dan penguatan ekonomi.

## ASPEK KEANEKARAGAMAN HAYATI

### Dampak terhadap Keanekaragaman Hayati [OJK F.9]

Kegiatan bisnis KAI tidak berdampak secara langsung terhadap area konservasi atau memiliki keanekaragaman hayati. Walaupun demikian, KAI berkomitmen untuk menjaga dan mengelola dampak negatif terhadap ekosistem. KAI memastikan memenuhi seluruh persyaratan lingkungan mencakup Upaya Pengelolaan Lingkungan Hidup (UKL) dan Upaya Pemantauan Lingkungan Hidup (UPL), Analisis Mengenai Dampak Lingkungan (AMDAL), Dokumen Evaluasi Lingkungan Hidup (DELH) serta Dokumen Pengelolaan Lingkungan Hidup (DPLH).

Pada tahun 2024 KAI telah memiliki dan melaksanakan 37 UKL-UPL pada 12 wilayah operasional, 30 AMDAL yang berada di 7 wilayah, 12 DELH pada 4 wilayah operasional, serta 52 DPLH yang terletak pada 16 wilayah. KAI juga telah melakukan kajian untuk memetakan risiko operasional bisnis Perusahaan terhadap keanekaragaman hayati, yang telah dijabarkan dalam bab tata kelola keberlanjutan.

## Management of Water Discharge Impact [GRI 303-2]

KAI understands the importance of maintaining the cleanliness and quality of water bodies such as rivers, lakes, and seas as they are vital life sources for humans and other living creatures. KAI's efforts to protect water bodies include ensuring that waste discharged into the environment meets established quality standards and does not pollute water sources. KAI conducts testing on the quality of water recycled by the Company.

Testing is carried out using an accredited laboratory, to ensure that the quality of recycled water meets standards and is safe for reuse in operational activities. Testing is carried out at each Operational Area and Railway Workshop, in accordance with Government Regulation (PP) No. 22 of 2021. To ensure compliance with environmental regulations, the Company provides reports to the Ministry of Environment and Forestry and the local government every 6 (six) months.

### Economic Impact of Water Conservation

Water efficiency initiatives not only create positive environmental benefits but also help PT KAI reduce operational costs, including expenses for PDAM water supply and electricity for groundwater pumps. KAI remains committed to implementing sustainable practices to support both environmental preservation and economic strengthening.

## BIODIVERSITY ASPECT

### Impact on Biodiversity [OJK F.9]

KAI's business operations do not directly impact conservation areas or biodiversity-rich zones. Nevertheless, KAI remains committed to preventing and managing any potential negative impacts on ecosystems. The Company ensures compliance with all environmental requirements, including Environmental Management and Monitoring Efforts (UKL-UPL) Environmental Impact Assessments (AMDAL), Environmental Evaluation Document (DELH) and Environmental Management Document (DPLH).

In 2024, KAI has had and implemented 37 UKL-UPL in 12 operational areas, 30 AMDAL in 7 areas, 12 DELH in 4 operational areas, and 52 DPLH in 16 areas. KAI has also conducted a study to map the Company's business operational risks to biodiversity, which has been described in the sustainability governance chapter.

Selain itu, KAI berupaya kuat menghadirkan kontribusi positif terhadap upaya pelestarian lingkungan di sekitar area operasional melalui pelaksanaan Tanggung Jawab Sosial Lingkungan Peduli Lingkungan (KAI-Pling). Program KAI-Pling merupakan wujud nyata KAI dalam menyalurkan nilai manfaat terhadap lingkungan, sarana dan prasarana umum, pengelolaan sampah, serta penanaman pohon di wilayah operasional KAI. **[GRI 304-2]**

Untuk program penanaman pohon, dilakukan tidak hanya terbatas pada wilayah operasional Perusahaan, seperti area stasiun, perkantoran, dan sepanjang lintasan rel kereta api, namun juga di luar wilayah operasional bisnis Perseroan. Hal ini merupakan bukti nyata komitmen KAI dalam menjaga kelestarian lingkungan secara berkelanjutan. Sejalan dengan komitmen tersebut, Perseroan turut berkontribusi menyukseskan program BUMN Hijaukan Indonesia sebagai bentuk pelestarian lingkungan dan keanekaragaman hayati. **[GRI 304-3]**

#### **Usaha Konservasi Keanekaragaman Hayati [OJK F.10]**

Kegiatan usaha KAI dilaksanakan pada area yang seluruhnya tidak berada di dekat ataupun masuk ke dalam daerah konservasi atau yang memiliki keanekaragaman hayati untuk dilestarikan. Mengacu hal itu, maka tidak terdapat informasi mengenai usaha dan daftar spesies konservasi keanekaragaman hayati untuk diungkapkan pada bagian ini. **[GRI 304-4]** Walaupun demikian, KAI terus-menerus mendukung pelestarian keanekaragaman hayati, baik dalam bentuk penanaman pada area stasiun dan kantor KAI maupun penanaman untuk masyarakat eksternal di sekitar area operasional KAI. Selain itu, KAI juga telah melakukan pemutakhiran kebijakan terkait keanekaragaman hayati dan non-deforestasi dengan memenuhi ruang lingkup yang dibutuhkan serta memperluas cakupannya hingga ke pemasok dan mitra kerja.

Hingga tahun 2024, Perseroan telah melakukan penanaman pohon sebanyak 99.519 pohon, yang tersebar di stasiun dan kantor PT KAI sebanyak 38.558, untuk Masyarakat eksternal sebanyak 52.727, dan KAI Group sebanyak 3.234 pohon. Berikut ini merupakan informasi jumlah pohon yang ditanam oleh Perseroan selama 4 (empat) tahun terakhir:

Furthermore, KAI actively contributes to environmental conservation efforts around its operational areas through its Corporate Social and Environmental Responsibility Program - KAI Peduli Lingkungan (KAI-Pling). The KAI-Pling program demonstrates the Company's tangible contributions to environmental sustainability, including public infrastructure improvements, waste management systems, and tree planting initiatives within KAI's operational areas. **[GRI 304-2]**

The tree planting program extends beyond the Company's operational zones such as stations, offices, and railway tracks to areas outside KAI's business operations. This demonstrates KAI's concrete commitment to sustainable environmental preservation. Aligned with this commitment, the Company actively supports the "BUMN Hijaukan Indonesia" program as part of its environmental and biodiversity conservation efforts. **[GRI 304-3]**

#### **Biodiversity conservation efforts [OJK F.10]**

KAI's business operations are conducted in areas that are neither adjacent to nor located within conservation zones or biodiversity-rich areas requiring preservation. Therefore, there is no information regarding biodiversity conservation efforts or lists of species to disclose in this section. **[GRI 304-4]** Nevertheless, KAI continuously supports biodiversity conservation through tree planting initiatives both within KAI station and office areas, as well as in external communities surrounding KAI's operational zones. Moreover, KAI has also updated its policies related to biodiversity and non-deforestation by fulfilling the required scope and expanding its scope to suppliers and work partners.

As of 2024, the Company has planted 99,519 trees, spread across PT KAI stations and offices as many as 38,558, for the external community as many as 52,727, and KAI Group as many as 3,234 trees. Information on the number of trees planted by the Company during the last 4 (four) years:

| Tahun / Year | Jumlah Pohon / Number of Trees |

Pohon yang ditanam dari beragam spesies yang disesuaikan dengan lokasi penanamannya meliputi pohon mangrove, tabebuia, trembesi, buah-buahan, pule, aren, dan sebagainya. KAI juga mengikuti program Gerakan Kolaborasi “BUMN Hijaukan Indonesia” di wilayah sekitar proses bisnis KAI. Pengungkapan mengenai hal tersebut adalah sebagai berikut:

The planted trees consist of various species selected according to their planting locations, including mangrove, tabebuia, rain tree, fruit trees, pule, sugar palm, and others. KAI also participates in the collaborative “BUMN Hijaukan Indonesia” program in areas surrounding its business operations. The disclosure regarding these efforts is as follows:

Pada tahun 2024, KAI telah melakukan penilaian dan *monitoring* pada lokasi operasional yang memiliki risiko terhadap keanekaragaman hayati. Tindakan ini dilakukan untuk mengevaluasi dampak operasional yang diberikan dan menemukan mitigasi yang tepat terhadap risiko yang timbul di dalamnya. Mitigasi keanekaragaman hayati tercantum dalam matrik pengelolaan dan pemantauan dokumen lingkungan hidup. Adapun beberapa lokasi bentuk mitigasi yang dilakukan selain *monitoring* adalah dengan penanaman pohon di area longsor seperti di Daop 2 Bandung, Daop 4 Semarang dan Daop 5 Purwokerto. Mitigasi dilakukan dengan menanam rumput akar wangi atau *vetiver* di sepanjang jalur kereta api yang memiliki potensi tanah longsor: **[GRI 304-1]**

## ASPEK EMISI

### Jumlah dan Intensitas Emisi yang Dihasilkan Berdasarkan Jenisnya [OJK F.11] [GRI 3-3, 305]

Kegiatan operasional Perusahaan menghasilkan emisi Gas Rumah Kaca (GRK), yaitu emisi GRK (Cakupan 1) langsung yang bersumber dari penggunaan bahan bakar diesel, seperti pengoperasian mesin diesel dan genset; serta emisi GRK (Cakupan 2) tidak langsung yang bersumber dari penggunaan listrik. Penghitungan emisi GRK (Cakupan 1) dilakukan dengan mengalikan data konsumsi energi dengan faktor emisi. Penghitungan emisi GRK Scope 1 dan Scope 2 dilakukan pada seluruh (100%) wilayah operasional, yang meliputi Kantor Pusat, Daerah Operasi, Divisi Regional, dan Anak Perusahaan.

Per 31 Desember 2024, KAI mengukur pengurangan emisi yang dihasilkan dengan membandingkan jumlah emisi pada periode pengukuran dengan hasil yang diperoleh pada tahun sebelumnya. Sebagai upaya dalam meningkatkan kualitas pengukuran dan pelaporan aspek emisi, KAI telah menetapkan tahun 2023 sebagai *baseline* pengukuran. Penetapan *baseline* pada tahun 2023 dilakukan sebagai sasaran pencapaian ESG *Risk Ratings* yang terbaik (peringkat *low risk*) pada 2027. Pada tahun 2024, KAI menghasilkan emisi GRK (Cakupan 1) dari penggunaan bensin dan biosolar yaitu sebesar 26.086,75 Ton CO<sub>2</sub>-eq, atau menurun dibandingkan dengan tahun 2023 sebesar 33.489,26 Ton CO<sub>2</sub>-eq.

In 2024, KAI conducted assessments and monitoring at operational locations that have risks to biodiversity. This action was taken to evaluate the impact of the operations provided and find appropriate mitigation for the risks that arise therein. Biodiversity mitigation is listed in the environmental document management and monitoring matrix. In addition to monitoring, some locations of mitigation carried out are by planting trees in landslide areas, such as in Operation Area 2 Bandung, Operation Area 4 Semarang, and Operation Area 5 Purwokerto. Mitigation is carried out by planting vetiver grass along the railway line that has the potential for landslides.

## EMISSION ASPECT

### Volume and Intensity of Emissions by Type [OJK F.11] [GRI 3-3, 305]

The Company's operational activities generate Greenhouse Gas (GHG) emissions, consisting of direct GHG emissions (Scope 1) from diesel fuel use in diesel engines and generators, and indirect GHG emissions (Scope 2) from electricity consumption. Scope 1 GHG emissions are calculated by multiplying energy consumption data with emission factors. GHG emission calculations for both Scope 1 and Scope 2 are conducted across all (100%) operational areas, including Head Office, Operational Regions, Regional Divisions, and Subsidiaries.

As of December 31, 2024, KAI measures emission reductions by comparing emission volumes during the measurement period with results from the previous year. To improve the quality of emission measurement and reporting, KAI has established 2023 as the measurement baseline. The baseline measurement was carried out in 2023 as target of achieving the best ESG Risk Rating (low risk rating) by 2027. In 2024, KAI generated Scope 1 GHG emissions from gasoline and biodiesel use totaling 26,086.75 tons CO<sub>2</sub>-eq, a decrease compared to the 2023 level of 33,489.26 tons CO<sub>2</sub>-eq.

Emisi GRK yang dihasilkan dari penggunaan listrik KAI diperoleh melalui perkalian antara konsumsi listrik (dalam kWh per tahun) dengan *average grid emission factor* yang mengacu pada ketentuan PLN 2022, yaitu sebesar 0,85 kg CO<sub>2</sub> /kWh. Berdasarkan perhitungan tersebut, maka emisi GRK Cakupan 2 yang dihasilkan sepanjang tahun 2024 adalah sebagai berikut:

GHG emissions resulting from KAI electricity usage are obtained by multiplying electricity consumption (in kWh per year) by the average grid emission factor, which is based on the 2022 PLN regulations, which is 0.85 kg CO<sub>2</sub>/kWh (2017). Based on these calculations, the Scope 2 GHG emissions generated throughout 2024 are as follows:

Komitmen dan inisiatif KAI mengurangi total emisi GRK secara bertahap tercermin dengan adanya penurunan emisi setiap tahunnya. Pada tahun 2024 Emisi GRK adalah 858.648 turun dari tahun 2023 sebesar 875.908. Intensitas emisi juga menurun menjadi 0,023 Ton CO<sub>2</sub>-eq/Miliar Rupiah dari 0,025 Ton CO<sub>2</sub>-eq/Miliar Rupiah pada 2023. Pada tahun 2024, perhitungan total emisi GRK dilakukan secara internal oleh KAI dengan mengacu pada metode yang relevan dan dapat dipertanggungjawabkan. KAI memastikan bahwa perhitungan sudah sesuai dengan pedoman yang berlaku.

KAI's commitment and initiative to reduce total GHG emissions gradually are reflected in the decrease in emissions every year. In 2024, GHG emissions amounted to 858,648, down from 875,908 in 2023. Emission intensity also decreased to 0.023 Tons of CO<sub>2</sub>-eq/Billion Rupiah from 0.025 Tons of CO<sub>2</sub>-eq/Billion Rupiah in 2023. Total GHG emissions in 2024 were calculated internally by KAI by referring to relevant and accountable methods. KAI ensures that the calculations are in accordance with applicable guidelines.

KAI memahami, kegiatan operasionalnya tidak hanya menghasilkan emisi GRK yang berupa gas karbon dioksida (CO<sub>2</sub>), tetapi juga nitrogen oksida (NO<sub>2</sub>) maupun sulfur oksida (SO<sub>x</sub>). Untuk mengendalikan emisi tersebut, KAI menjalankan uji emisi pada seluruh kegiatan operasional yang berpotensi menghasilkan gas-gas tersebut, seperti lokomotif dan genset KAI. KAI melakukan uji emisi pada lokomotif dengan 2 (dua) metode, yaitu metode pengambilan sampel tanpa beban (saat lokomotif tanpa adanya pembebanan seperti rangkaian) dan metode pengambilan sampel dengan pembebanan (saat lokomotif sedang menggandeng atau terangkai dengan rangkaian dengan *safe load*). Sampel yang di ambil dari mulai tidak bergerak (*idle*) hingga *notch* (posisi tuas kontrol yang digunakan oleh masinis untuk mengatur kecepatan kereta) pertama hingga kedelapan.

KAI acknowledges that its operational activities generate greenhouse gas (GHG) emissions including carbon dioxide (CO<sub>2</sub>), nitrogen oxides (NO<sub>2</sub>), and sulfur oxides (SO<sub>x</sub>). To regulate these emissions, the Company conducts emission testing across all operational sources, particularly locomotives and generator sets (gensets). KAI employs two testing methodologies, namely Unloaded Testing (conducted when locomotives are uncoupled from railcars) and loaded testing (performed with locomotives properly coupled to railcars under safe load conditions). Testing covers all operational states from idle through Notch 8 positions (the engineer's throttle control settings for speed regulation).

Setiap *notch* mewakili tingkat daya atau percepatan yang berbeda pada lokomotif. Sistem ini memungkinkan masinis untuk mengontrol daya mesin secara bertahap, mulai dari posisi *idle* (tanpa daya) hingga daya penuh di *notch* 8. Semakin tinggi nomor *notch*, semakin besar daya yang dikeluarkan oleh mesin, dan semakin cepat kereta dapat melaju. Penggunaan *notch* mengendalikan kecepatan kereta dengan presisi,

Each notch represents different power or acceleration levels in the locomotive. This system allows train operators to gradually control engine power, from idle position (no power) to full power at notch 8. The higher the notch number, the greater the power output by the engine, and the faster the train can move. The notch system enables precise speed control, especially when the train starts moving, climbs slopes, or

terutama saat kereta mulai bergerak, mendaki tanjakan, atau saat pengereman. Seluruh hasil uji emisi lokomotif tidak melebihi baku mutu emisi gas buang lokomotif Balai Teknologi Termodinamika Motor dan Propulsi oleh Badan Riset dan Inovasi Nasional, baik kondisi lokomotif tanpa pembebanan maupun dengan pembebanan.

Sementara itu, metode pengambilan sampel emisi pada genset hanya bisa dilakukan dengan metode tanpa pembebanan. Sampel emisi diambil selama beberapa detik. Sampel tersebut menunjukkan bahwa emisi genset tidak melebihi baku mutu emisi mesin dengan pembakaran dalam atau genset yang tertera pada Peraturan Menteri Lingkungan Hidup dan Kehutanan No. 11 tahun 2021. Walau demikian, hingga periode pelaporan, KAI belum melakukan akumulasi penghitungan tahunan emisi GRK dari zat perusak ozon, nitrogen oksida, sulfur oksida, dan gas lainnya. Perseroan bertekad untuk melakukan peninjauan atas setiap sumber emisi yang dihasilkan sehingga dapat diquantifikasi lebih baik di masa mendatang. **[GRI 305-6, 305-7]**

#### **Upaya dan Pencapaian Pengurangan Emisi yang Dilakukan [OJK F.12][GRI 3-3, 305-5]**

KAI memahami pentingnya melakukan pengendalian emisi untuk mencapai pengurangan emisi yang ditargetkan. Perseroan telah menetapkan target reduksi emisi sampai dengan *Net Zero Emission* (NZE), sejalan dengan program Pemerintah yang akan terealisasi pada tahun 2060. Dalam pelaksanaannya, KAI melakukan kajian secara komprehensif dan menyusun skenario reduksi emisi yang realistis dan sesuai dengan kapasitas Perusahaan. Hal ini dilakukan sebagai langkah untuk mengatasi perubahan iklim dan bentuk komitmen Perusahaan dalam memenuhi regulasi lingkungan. Untuk itu, KAI berkomitmen melakukan pengurangan emisi Gas Rumah Kaca (GRK) mulai dari lingkup internal sampai ke lingkup pemangku kepentingan masyarakat pengguna layanan perkeretaapian melalui inisiatif-inisiatif teknologi dan kebijakan operasional, seperti peningkatan efisiensi bahan bakar, adopsi teknologi bersih, dan penggunaan energi terbarukan.

KAI terus melakukan pembangunan dan pengembangan sistem transportasi umum berbasis listrik yang rendah emisi dan ramah lingkungan, termasuk Kereta Rel Listrik (KRL) Jabodetabek dan Yogyakarta, Light Rail Transit (LRT) Jabodetabek, dan Kereta Cepat Jakarta-Bandung. Selain itu, secara rutin KAI melakukan pengecekan dan perbaikan seluruh unit kereta api hingga mengganti yang sudah tidak produktif lagi. Dalam mencukupi energi listrik, Perseroan memulai transisi ke sumber energi terbarukan dengan

brakes. All locomotive emission test results did not exceed the exhaust emission standards set by the Thermodynamics, Motor and Propulsion Technology Center of the National Research and Innovation Agency, for both unloaded and loaded conditions.

Meanwhile, emission sampling for generators can only be conducted using the unloaded method. Emission samples are taken for several seconds. These samples show that generator emissions do not exceed the emission standards for internal combustion engines or generators stipulated in the Minister of Environment and Forestry Regulation No. 11 of 2021. However, as of the reporting period, KAI has not conducted annual cumulative calculations of GHG emissions from ozone-depleting substances, nitrogen oxides, sulfur oxides, and other gases. The Company is committed to reviewing each emission source to enable better quantification in the future.

#### **Emission Reduction Efforts and Achievements [OJK F.12][GRI 3-3, 305-5]**

KAI acknowledges the essential role of emission control in achieving reduction targets, having established Net Zero Emission (NZE) objectives aligned with the Government's 2060 timeline. KAI conducts comprehensive studies to develop realistic, capacity-appropriate reduction scenarios as part of climate change mitigation efforts and environmental regulatory compliance. KAI commits to greenhouse gas (GHG) emission reductions across internal operations and railway stakeholders through technological initiatives and operational policies including fuel efficiency enhancement, clean technology implementation, and renewable energy utilization.

KAI continues to develop and expand low-emission, environmentally friendly electric public transportation systems, including the Jabodetabek and Yogyakarta Electric Rail Trains (KRL), Jabodetabek Light Rail Transit (LRT), and Jakarta-Bandung High-Speed Rail. Moreover, KAI routinely inspects and repairs all rail units, replacing those that are no longer productive. To meet electricity needs, the Company has begun transitioning to renewable energy by installing solar panels at a number of locations, namely the Jakarta Railway

memasang panel surya di sejumlah lokasi yakni Gedung Jakarta Railway Center, 53 Stasiun KAI, Balai Yasa Lahat, Balai Yasa Surabaya Gubeng, Balai Yasa Tegal, GK Soka, GK Cipinang, GK Banjar, GK Kertosono, Kantor Daop 2, serta Kantor Divre III. Hingga tahun 2025 Perseroan berencana akan terus melakukan pengembangan implementasi penggunaan tenaga surya di 40 lokasi.

Upaya pengurangan emisi juga dilakukan dengan melalui pemakaian bahan bakar biosolar dengan campuran solar dan minyak alami seperti minyak kelapa sawit dan jarak. Biosolar yang digunakan terdiri dari 35% minyak nabati. Saat ini KAI sedang melakukan pengujian Biosolar dengan 40% sumber terbarukan dari tanaman untuk mengetahui dampak penggunaan biosolar terhadap performa operasional kereta. Pencampuran dengan bahan alami menghasilkan emisi gas buang yang lebih rendah sehingga mengurangi pencemaran udara dan perubahan iklim.

KAI berupaya untuk melakukan pengurangan emisi di seluruh lini bisnisnya. Perseroan mengoptimalkan penggunaan aplikasi pemesanan tiket Access by KAI dengan fitur *e-boarding pass*, sehingga mengurangi penggunaan kertas dalam proses *check-in*. Di lingkup internal perusahaan, Perseroan mengembangkan aplikasi yang digunakan untuk memudahkan pekerjaan pegawai, yakni aplikasi *Rail Document System* (RDS) guna mendukung surat menyurat secara elektronik, *Safety Railway Information System* (SRI) untuk memberikan informasi pelaporan temuan keamanan dan tindak lanjutnya, *Raileo* untuk memudahkan pekerja dalam melaksanakan tugas pekerjaan, serta aplikasi lainnya yang akan terus dikembangkan untuk memberikan pelayanan yang lebih baik.

Selanjutnya, sebagai salah satu wujud komitmen dalam mengurangi emisi, pada tahun 2024 KAI meluncurkan fitur *carbon footprint* pada tiket penumpang kereta api jarak jauh. Saat penumpang telah melakukan transaksi pembelian tiket, informasi perhitungan jejak karbon kereta api dibandingkan dengan moda transportasi lain akan tercantum pada tiket penumpang dan aplikasi Access by KAI. Hal ini bertujuan memberikan informasi keunggulan kereta api dalam mendukung keberlanjutan, serta memberikan edukasi kepada penumpang bahwa kereta api merupakan moda transportasi yang lebih ramah lingkungan dibandingkan moda transportasi lain.

Untuk mengoptimalkan implementasi transformasi digital, KAI secara rutin melakukan perbaikan sarana dan prasarana pendukung digitalisasi serta melakukan perbaikan aplikasi

Center Building, 53 KAI Stations, Lahat Railway Workshop, Surabaya Gubeng Railway Workshop, Tegal Railway Workshop, Soka GK, Cipinang GK, Banjar GK, Kertosono GK, Operational Area 2 Office, and Regional Division III Office. Through 2025, the Company plans to continue developing solar power implementation at 40 additional locations.

Efforts to reduce emissions are also implemented through the use of biosolar fuel, a blend of diesel and natural oils such as palm oil and castor oil. The biosolar currently in use consists of 35% vegetable oil content. Presently, the Company is conducting trials with biosolar containing 40% renewable content from plant sources to evaluate its impact on train operational performance. Blending with natural materials produces lower exhaust emissions, thereby reducing air pollution and climate change impact.

The Company strives to reduce emissions across all business lines. We optimize the use of the Access by KAI ticket booking application with e-boarding pass features to reduce paper use in check-in processes. Internally, the Company has developed applications to facilitate employee work, including the Rail Document System (RDS) for electronic correspondence, Safety Railway Information System (SRI) for security findings reporting and follow-up, Raileo to help employees perform work tasks, and other applications that will continue to be developed to provide better service.

Furthermore, as part of its emission reduction commitment, KAI introduced a carbon footprint feature for long-distance train tickets in 2024. When passengers complete their ticket purchase, the ticket and Access by KAI app will display a comparison of the train's carbon footprint versus other transportation modes. This initiative aims to highlight rail transport's sustainability advantages while educating passengers about trains being a more environmentally friendly transportation option compared to other modes.

To optimize digital transformation implementation, the Company routinely improve digital infrastructure and enhance office applications to deliver faster and better service.

perkantoran agar mampu memberikan pelayanan yang lebih cepat dan lebih baik. Selain itu, untuk meminimalisasi penggunaan kendaraan bermotor dalam melakukan perjalanan dinas, Perseroan mengimbau para pekerja di kantor pusat untuk mengutamakan penggunaan transportasi kereta api dalam setiap perjalanan dinas. Imbauan ini tercantum dalam nota dinas internal No.5/KG.107/I/KA/2022 tentang Penggunaan Kendaraan Operasional Dinas di Lingkungan Kantor Pusat KAI.

Selain itu, KAI menetapkan peraturan sistem parkir ganjil-genap bagi pekerja kantor pusat. KAI memaksimalkan upaya pengurangan emisi internal dengan pemeliharaan kendaraan operasional dan pengujian emisi gas buang secara berkala. Di samping itu, KAI secara berkala mengganti kendaraan operasional dengan kendaraan lebih muda yang emisi gas buangnya lebih ramah lingkungan, serta secara bertahap menggunakan kendaraan operasional dengan emisi yang lebih rendah.

Untuk memastikan operasionalnya semakin ramah lingkungan, KAI telah mengadopsi konsep bangunan hijau (*green building*) yang mendapatkan sertifikasi EDGE. Adapun mengenai *low carbon product*, Perseroan telah melakukan pemetaan secara khusus mengenai persentase pendapatan dan estimasi reduksi emisi yang dihasilkan untuk jenis kereta yang berbahan dasar listrik.

#### **Kerja Sama atau Kegiatan Pengurangan Emisi GRK dengan Melibatkan Pihak Ketiga**

Hingga 31 Desember 2024 KAI melakukan pengurangan emisi GRK secara mandiri melalui penerapan berbagai inisiatif berkelanjutan. Hal ini didasari komitmen kuat KAI untuk terus-menerus meningkatkan kualitas pengurangan emisi GRK dari aktivitas operasi. KAI membuka peluang untuk melakukan kerja sama atau kegiatan pengurangan emisi GRK dengan pihak ketiga terpercaya pada tahun-tahun mendatang.

#### **Pemenuhan Target Pengurangan Emisi GRK**

KAI turut mendukung komitmen Indonesia dalam upaya pengendalian perubahan iklim melalui target penurunan emisi gas rumah kaca (GRK) secara bertahap hingga mencapai *Net Zero Emission* (NZE) pada tahun 2060. Target ini sejalan dengan Undang-undang No 16 tahun 2016. Pencapaian NZE dimulai dengan target pengurangan emisi GRK sebesar 29% pada tahun 2030, meningkat menjadi 41% pada tahun 2040 dan mencapai kondisi 100% pengurangan emisi atau Net Zero Carbon pada tahun 2060.

Furthermore, to minimize motorized vehicle use for business travel, the Company encourages head office employees to prioritize train travel for all business trips. This policy is outlined in internal memo No.5/KG.107/I/KA/2022 regarding Operational Vehicle Use at KAI Head Office.

Additionally, KAI has implemented an odd-even parking policy for head office employees. The Company maximizes internal emission reduction efforts through operational vehicle maintenance and periodic exhaust emission testing. KAI also regularly replaces operational vehicles with newer, more environmentally friendly models and gradually transitions to lower-emission operational vehicles.

To ensure its operations are increasingly environmentally friendly, KAI has adopted the concept of green buildings that have received EDGE certification. Regarding low carbon products, the Company has conducted specialized mapping of revenue percentages and emission reduction estimates for electric-based train services.

#### **Collaboration or Activities for GHG Emission Reduction with Third Parties**

As of December 31, 2024, KAI has independently reduced GHG emissions through the implementation of various sustainable initiatives. This reflects KAI's strong commitment to continuously improving the quality of GHG emission reductions from its operations. KAI remains open to collaborating with trusted third parties on GHG emission reduction initiatives in the coming years.

#### **Achievement of GHG Emission Reduction Targets**

KAI actively supports Indonesia's commitment to climate change mitigation through gradual greenhouse gas (GHG) emission reduction targets aimed at achieving Net Zero Emissions (NZE) by 2060, in alignment with Law No. 16 of 2016. The NZE implementation begins with a target of 29% GHG reduction by 2030, increasing to 41% by 2040, and ultimately reaching 100% emission reduction (Net Zero Carbon status) by 2060.

Sebagai wujud komitmen KAI dalam mengurangi emisi GRK, KAI telah menetapkan target pengurangan emisi GRK. Target pengurangan emisi GRK tercantum dalam *Roadmap* ESG periode 2024-2060. KAI telah menyusun dan memperlakukan *Roadmap* ESG periode 2024-2060 yang memuat target penghematan energi dan diharapkan berdampak pada pengurangan emisi GRK. Adapun, target pengurangan emisi yang tercantum dalam *Roadmap* ESG periode 2024-2060 adalah sebagai berikut:

Demonstrating its commitment to reducing GHG emissions, KAI has established specific emission reduction targets outlined in its 2024-2060 ESG Roadmap. The Company has developed and implemented this comprehensive ESG Roadmap, which incorporates energy efficiency targets designed to contribute significantly to GHG emission reductions. The emission reduction targets specified in the 2024-2060 ESG Roadmap are as follows:

| Emisi / Emission |                                                                                                                                                                                                                  | 2024                                                                                                                                                                                                                                                                                                                                                  | 2025                                                                                                                                                                                                     | 2026 - 2028                                                                                                                          | 2028 - 2040                                                                                                                          | 2040 - 2060                                                                                                                            | > 2060 |

### Target Penurunan Emisi Sebagai KPI Manajemen dan Evaluasinya

Per 31 Desember 2024, KAI telah memasukkan target penurunan emisi sebagai bagian penilaian KPI manajemen. Komitmen ini tercermin dalam indikator kinerja utama (KPI) Direksi yang mencakup Penyelesaian dan Pemenuhan ESG Rating KAI sebagai salah satu fokus strategis perusahaan dalam mendukung praktik bisnis berkelanjutan. KAI berhasil merealisasikan target tersebut, dengan pencapaian 100% terhadap target tahunan dan menghasilkan skor sempurna sebesar 3,00.

### ASPEK LIMBAH DAN EFLUEN

#### Jumlah Limbah dan Efluen yang Dihasilkan Berdasarkan Jenis [OJK F.13][GRI 306-3]

Aktivitas operasional Perusahaan menghasilkan limbah dan efluen yang memiliki dampak terhadap lingkungan. Untuk mengendalikan jumlah limbah dan efluen, Perseroan melakukan penghitungan limbah dan efluen yang dihasilkan. Selain itu, setiap tahunnya Perusahaan juga melaksanakan audit atau assessment terkait manajemen limbah yang terintegrasi dalam audit ISO 14001 mengenai Sistem Manajemen Lingkungan. Hasil dari assessment ini digunakan sebagai alat evaluasi untuk menilai efektivitas dan efisiensi manajemen limbah yang dijalankan, sehingga memastikan pengelolaan limbah dilakukan sesuai standar lingkungan yang berlaku. Sepanjang 2024 jenis limbah dan efluen yang dihasilkan Perseroan sebagai berikut:

#### Upaya Mengurangi Limbah

Untuk mengurangi jumlah limbah, terutama limbah plastik dan kertas, KAI memberikan perhatian terhadap limbah yang dihasilkan dari penumpang. Sejak Juli 2024, KAI telah menyediakan *water station* (dispenser) di 23 stasiun. Layanan tersebut merupakan upaya menerapkan kampanye ramah lingkungan. Selain itu, dari segi pelayanan penumpang, KAI

### Emission Reduction Targets as Management KPI and Evaluation

As of December 31, 2024, KAI has incorporated emission reduction targets into its management KPI assessment. This commitment is reflected in the key performance indicators (KPIs) established by the Board of Directors, which include the completion and fulfillment of KAI's ESG rating as a strategic focus to support sustainable business practices. KAI has successfully achieved this target, reaching 100% of the annual goal and resulting in a perfect score of 3.00.

### WASTE AND EFFLUENT ASPECTS

#### Volume of Waste and Effluent by Type [OJK F.13][GRI 306-3]

The Company's operational activities generate waste and effluent that impact the environment. To manage the volume of waste and effluent, the Company conducts regular measurements. In addition, the Company conducts an annual audit or assessment related to waste management, integrated into the ISO 14001 Environmental Management System audit. The assessment results are utilized as an evaluation tool to assess the effectiveness and efficiency of waste management, ensuring that waste management is carried out under applicable environmental standards. Throughout 2024, the types of waste and effluent generated by the Company include:

#### Hazardous Waste and Non Hazardous Waste Generated in 2024

#### Efforts to Reduce Waste

To minimize waste generation, particularly plastic and paper waste, KAI pays special attention to waste produced by passengers. Since July 2024, KAI has provided water stations (dispensers) at 23 stations. This service represents an effort to implement environmentally friendly campaigns. Additionally, for passenger services, KAI has innovated with paperless

juga melakukan inovasi berupa program paperless dengan pengembangan aplikasi digital, seperti Access by KAI dan boarding dengan *face recognition*. Perseroan juga mendukung *cashless society* dengan mengurangi penggunaan uang tunai dan *e-ticketing* pada layanan commuter. Upaya ini merupakan bagian dari program manajemen limbah yang dimiliki oleh Perseroan.

### Mekanisme Pengelolaan Limbah dan Efluen [OJK F.14] [GRI 3-3, 306-2]

KAI memahami bahwa limbah yang dihasilkan berpotensi memberi dampak negatif bagi lingkungan hidup. Berangkat dari pemahaman tersebut, Perseroan memiliki kebijakan internal, yaitu Keputusan Direksi KAI Nomor KEP. U/KS.101/IV/1/KA-2017 tanggal 4 April 2017 tentang Pengelolaan Limbah di Daerah Operasi, Divisi Regional, Balai Yasa, Gudang Persediaan, dan Anak Perusahaan. Sejalan dengan kebijakan tersebut, pengelolaan limbah menjadi bagian yang tidak terpisahkan dari rangkaian kegiatan operasional sehari-hari. KAI berkomitmen untuk menerapkan pengelolaan limbah berkesinambungan melalui prosedur yang sesuai dengan peraturan yang berlaku dan praktik terbaik.

Berdasarkan jenisnya, limbah KAI dapat dibagi menjadi 3 (tiga) golongan, sebagai berikut: [GRI 306-1]

#### a. Limbah Cair

Merupakan limbah dalam bentuk cair yang dihasilkan oleh kegiatan usaha yang dibuang ke lingkungan hidup dan diduga dapat menurunkan kualitas lingkungan hidup. Bentuk limbah cair yang dikelola KAI meliputi: tumpahan bahan bakar minyak atau oli; air cucian lokomotif, kereta, atau gerbong; ceceran oli bekas; cairan kimia, debu atau cairan lainnya sisa produksi yang terbuang dari aktivitas proses produksi melalui proses pencucian; dan limbah atau hasil pengurusan Toilet Ramah Lingkungan (TRL).

#### b. Limbah Padat

Limbah padat yang dihasilkan, antara lain sisa pembubutan (serbuk besi atau *scrap*), barang atau suku cadang bekas, limbah kantor (kertas, plastik), limbah restorasi (kertas, plastik, sisa makanan).

#### c. Limbah Bahan Berbahaya dan Beracun (B3)

Limbah B3 yang ada di KAI merupakan gabungan dari Limbah Cair dan Limbah Padat yang masuk kategori Limbah B3 seperti Tumpahan Bakar Minyak atau Oli, Air Cucian lokomotif/kereta/gerbong, Ceceran oli bekas, cairan kimia, debu, atau cairan lainnya sisa produksi yang terbuang dari aktivitas proses produksi melalui proses pencucian, sisa bubutan dan barang atau suku cadang bekas.

programs through digital application development, such as Access by KAI and facial recognition boarding. The Company also supports cashless society initiatives by reducing cash usage and implementing e-ticketing for commuter services. This effort is part of the Company's waste management program.

### Waste and Effluent Management Mechanism [OJK F.14] [GRI 3-3, 306-2]

KAI understands that generated waste may negatively impact the environment. Based on this understanding, the Company has an internal policy, namely KAI Director's Decree No. KEP.U/KS.101/IV/1/KA-2017 dated April 4, 2017 concerning Waste Management in Operational Areas, Regional Divisions, Maintenance Depots, Warehouses, and Subsidiaries. In line with this policy, waste management has become an integral part of daily operational activities. KAI is committed to implementing sustainable waste management through procedures that comply with applicable regulations and best practices.

Based on type, KAI's waste can be divided into 3 (three) categories, as follows: [GRI 306-1]

#### a. Liquid Waste

Waste in liquid form generated by business activities that is discharged into the environment and may reduce environmental quality. Liquid waste managed by KAI includes: fuel or oil spills; locomotive, train, or carriage wash water; used oil spills; chemicals, dust or other liquid production residues from production processes through washing; and waste or drainage from Eco-Friendly Toilets (TRL).

#### b. Solid Waste

Solid waste generated includes machining residues (iron powder or scrap), used items or spare parts, office waste (paper, plastic), and restoration waste (paper, plastic, food waste).

#### c. Hazardous and Toxic Waste (B3)

Hazardous waste at KAI consists of liquid and solid waste classified as hazardous, such as fuel or oil spills, locomotive/ train/ carriage wash water, used oil spills, chemicals, dust, or other liquid production residues from production processes through washing, machining residues, and used items or spare parts.

Seluruh limbah B3 dikumpulkan di Tempat Penyimpanan Sementara (TPS) Limbah B3 untuk kemudian diambil oleh pihak ketiga dan dikelola sesuai ketentuan masing-masing jenis limbah. Pihak ketiga yang mengelola limbah B3 KAI adalah mitra yang harus memiliki izin dan sertifikasi resmi untuk pengelolaannya sebagai persyaratan mitra yang sesuai dengan Peraturan Direksi PT Kereta Api Indonesia (Persero) No. PER.U/KL.104/VII/1/KA-2024 tentang Pedoman Penghapusan Barang Limbah dengan Cara Penjualan dan Pemusnahan.

Pihak ketiga secara berkala mengangkut limbah B3 dari masing-masing cabang KAI untuk kemudian dilakukan pengolahan berdasarkan jenis limbah. Untuk limbah B3, pengelolaan yang dilakukan adalah penarikan kembali oleh supplier atau pengolahan oleh pihak ketiga agar limbah tidak lagi menjadi kategori B3.

Untuk limbah non-B3, pengangkutan dilakukan oleh pihak ketiga maupun dinas kebersihan sesuai dengan jenisnya. Limbah berupa besi diangkut oleh pihak ketiga untuk diolah kembali, sementara limbah lainnya ditangani oleh dinas kebersihan setempat untuk dipilah dan dikelola sesuai kategorinya. Residu dari hasil pemilahan tersebut kemudian dikirim ke Tempat Pembuangan Akhir (TPA) di masing-masing lokasi operasional perusahaan.

All hazardous waste is collected at the Temporary Storage Site (TPS) for hazardous waste collection by a third party and managed according to the regulations for each type of waste. The third party managing KAI's hazardous waste is a partner who must possess official permits and certifications for its management, as required by the Board of Directors Regulation of PT Kereta Api Indonesia (Persero) No. PER.U/KL.104/VII/1/KA-2024 concerning Guidelines for the Elimination of Waste by Sale and Destruction.

The third party periodically transports hazardous waste from each KAI branch for processing based on the waste type. For hazardous waste, management involves either withdrawal by the supplier or processing by the third party to ensure the waste is no longer classified as hazardous and toxic.

For non-hazardous waste, transportation is handled by the third party or the sanitation department, depending on the type. Metal waste is transported by the third party for reprocessing, while other waste is handled by the local sanitation department for sorting and management according to its category. The residue from the sorting results is then sent to the Final Disposal Site (TPA) at each company's operational location.

**Waste and Effluent Management Mechanism [OJK F.14] [GRI 3-3, 306-2]**

KAI regularly monitors the impacts of operational waste and supply chain activities through the implementation of a life cycle perspective with the following details: **[GRI 306-2, 306-4, 306-5]**

Khusus limbah padat, alur pengelolaan limbah di lingkungan Perseroan diuraikan melalui skema berikut:

Specifically for solid waste, the waste management flow in the Company's environment is described through the following scheme:

Untuk menunjang pengelolaan limbah yang dilakukan di Balai Yasa, Dipo, Kantor, dan Stasiun, KAI menerapkan kebijakan sebagai berikut:

- Di setiap tempat kerja terbuka maupun tertutup yang berpotensi adanya limbah wajib disediakan tempat sampah organik dan non organik yang harus selalu dalam keadaan tertutup;
- Secara berkala sampah di Balai Yasa, dipo, kantor, dan stasiun dibuang ke Tempat Pembuangan Sementara (TPS) terdekat dan diangkut oleh dinas kebersihan setempat ke Tempat Pemrosesan Akhir (TPA);
- Sampah tidak boleh dibakar dan ditimbun di dalam tanah;
- Setiap Balai Yasa, dipo, dan stasiun harus memiliki dokumen lingkungan kemudian mengurus izin lingkungan untuk kemudian memproses izin perlindungan dan pengelolaan lingkungan hidup;
- Menyediakan gudang/tempat penyimpanan sementara (TPS) limbah padat B3 seperti komponen elektronik bekas, potongan besi, baterai, accu, lampu Tube Luminescent (TL), dan lain-lain. TPS limbah B3 harus memenuhi persyaratan dan memiliki izin penyimpanan limbah B3;
- Tempat penyimpanan limbah B3 harus memenuhi persyaratan;
- Untuk limbah B3 yang dihasilkan lebih dari 50 kg penyimpanannya paling lama 90 hari sejak limbah B3 dihasilkan, sedangkan untuk limbah B3 yang dihasilkan kurang dari 50 kg penyimpanannya paling lama 180 hari sejak limbah B3 dihasilkan;
- Limbah B3 diberi label yang berisikan nama limbah B3, identitas penghasil limbah B3, tanggal dihasilkannya limbah B3 dan tanggal pengemasan limbah B3 serta simbol dan label limbah B3.

To support waste management carried out at the Train Workshop, Depot, Office and Station, KAI implements the following policies:

- In every open or closed workplace with the potential to produce waste, organic and non-organic waste bins must be provided which must always be closed;
- Periodically, waste at Train Workshop, depots, offices and stations is disposed of at the nearest Temporary Disposal Site and transported by the local sanitation service to the Final Disposal Site;
- Garbage should not be burned and piled in the ground;
- Every service center, depot and station must have environmental documents and then process environmental permits to then process permits for environmental protection and management;
- Providing a warehouse/temporary storage place for hazardous solid waste such as used electronic components, scrap metal, batteries, accumulator, TL lamps, etc., to be sent to the Supply Warehouse/work partners who already have permits for storing and managing hazardous waste;
- The hazardous waste storage area must meet the requirements;
- For hazardous waste produced in excess of 50 kg, storage is no longer than 90 days from the time the hazardous waste is produced, whereas for hazardous waste produced less than 50 kg, storage is no later than 180 days from the time the hazardous waste is produced;
- Hazardous waste is labeled containing the name of the hazardous waste, the identity of the hazardous waste producer, the date the hazardous waste was produced and the date the hazardous waste was packaged as well as the hazardous waste symbol and label;

- i. Setelah penyimpanan melebihi jangka waktu maka seluruh (100%) limbah B3 akan diangkut ke Gudang Persediaan dan mitra kerja yang memiliki izin pengolahan limbah B3. Pengolahan limbah B3 dapat dilakukan dengan beberapa cara seperti termal, stabilisasi dan solidifikasi, dan/atau cara lain sesuai perkembangan teknologi.

KAI juga melakukan pengelolaan limbah padat di atas kereta dengan ketentuan sebagai berikut:

- a. Sampah yang berasal dari restorasi kereta api dan penumpang dipisahkan antara sampah organik dan sampah anorganik.
- b. Setelah sampai stasiun tujuan sampah dibuang ke TPS stasiun.
- c. KAI telah mengeluarkan kebijakan untuk mencegah dan mengontrol polusi dari kegiatan operasional perusahaan, tertuang dalam Kebijakan Health, Safety, Security & Environment Nomor KS.102/XII/1/ KA-2022 tanggal 16 Desember 2022.

Sebagai Perusahaan penyedia jasa layanan perkeretaapian utama di Indonesia, KAI menjalankan tanggung jawabnya melakukan pengelolaan armada bekas, salah satunya adalah gerbong kereta, yang sudah tidak dapat digunakan lagi. Prosedur penanganan armada bekas berbeda dengan limbah padat yang sudah dijelaskan sebelumnya karena merupakan aset aktiva tetap serta memiliki volume dan berat yang sangat besar.

Armada yang dinyatakan tidak dapat lagi diperbaiki atau digunakan saat penggunaannya sudah mencapai 20-40 tahun, maka akan diubah statusnya menjadi aset Aktiva Tetap Diberhentikan dari Operasi (ATDO). Kemudian Perseroan melakukan proses tender penjualan kepada usaha berbadan hukum setelah meminta persetujuan Kementerian BUMN dan Kementerian Perhubungan dalam proses penghapusbukuan dan penjualan sebagaimana tertulis dalam Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor: PER.U/KM.105/IV/1/KA 2022 tentang Pedoman Penghapusbukuan dan Penjualan Aset Sarana, Prasarana, dan Fasilitas Perawatan Diberhentikan dari Operasi.

Badan usaha seperti PT Barata Indonesia, PT Pindad, dan PT Krakatau Steel membeli armada bekas untuk mendapatkan besi, baja dan logam yang merupakan komponen armada. Selanjutnya, armada bekas diproses dengan pemotongan, penimbangan, pengangkutan untuk kemudian didistribusikan kembali atau diproses ulang menjadi produk yang berbeda. Prosedur penanganan armada bekas ini menjadi wujud nyata

- i. After storage exceeds the time limit, all (100%) hazardous waste will be transported to the Inventory Warehouse and to partners with hazardous waste processing permits. Processing of hazardous waste can be carried out through various methods such as thermal treatment, stabilization and solidification, and/or other methods in accordance with technological advancements.

The Company also manages solid waste on trains with the following provisions:

- a. Waste originating from train and passenger restoration is separated into organic waste and inorganic waste.
- b. After arriving at the destination station, the waste is disposed of at the station's temporary site disposal.
- c. KAI has issued a policy to prevent and control pollution from company operational activities as stated in Health, Safety, Security & Environment Policy No. KS.102/XII/1/ KA-2022 dated December 16, 2022.

As the principal railway service provider in Indonesia, KAI carries out its responsibility to manage used fleets, one of which is train carriages, which can no longer be used. The procedure for handling used fleets is different from solid waste as previously explained because it is a fixed asset and has a very large volume and weight.

Fleets that are declared no longer repairable or usable when their use has reached 20-40 years will have their status changed to Fixed Assets Discontinued from Operation (ATDO). Then the Company carries out a tender process for sales to legal entities after requesting approval from the Ministry of SOEs and the Ministry of Transportation in the write-off and sale process as stated in the Regulation of the Board of Directors of PT Kereta Api Indonesia (Persero) No: PER.U/KM.105/IV/1/KA 2022 concerning Guidelines for Write-off and Sale of Assets of Facilities, Infrastructure, and Maintenance Facilities Discontinued from Operation.

Business entities such as PT Barata Indonesia, PT Pindad, and PT Krakatau Steel purchase used fleets to obtain iron, steel, and metals which are components of the fleet. Furthermore, the used fleet is processed by cutting, weighing, transporting to then be redistributed or reprocessed into different products. This used fleet handling procedure is a concrete manifestation of KAI's commitment to implementing a life

komitmen KAI dalam menerapkan *life cycle perspective*, yang terbukti dapat memberikan kontribusi terhadap ekonomi sirkular.

### Limbah Cair (Effluent) [GRI 306-2]

KAI melakukan pengelolaan limbah cair secara tepat dan bijak sesuai dengan Peraturan Menteri Lingkungan Hidup Republik Indonesia Nomor 5 tahun 2014 tentang Baku Mutu Air Limbah. Selain itu juga merujuk pada ISO 14001:2015 tentang Sistem Manajemen Lingkungan untuk 4 (empat) area kerja yaitu, Balai Yasa Yogyakarta, Balai Yasa Tegal, Balai Yasa Cirebon Prujakan dan Dipo Lokomotif Cirebon.

Kebijakan tersebut diturunkan dalam kebijakan internal Surat Keputusan Nomor KEP.U/KS.10I/IV/I/KA-2017. Mengacu pada kebijakan tersebut, pengelolaan buangan limbah cair dilakukan dengan menggunakan 62 Unit Instalasi Pengolahan Air Limbah (IPAL) yang tersebar di banyak lokasi operasional. Debit air limbah yang masuk dari kegiatan operasional dan keluar dari IPAL dipastikan sama dengan pemantauan nilai *flowmeter* pada saluran masuk (*inlet*) dan saluran pembuangan (*outlet*) IPAL. KAI memastikan bahwa seluruh air yang digunakan untuk keperluan operasional dan menjadi air limbah dikelola dengan IPAL agar dapat sesuai dengan baku mutu yang ditetapkan sebelum dibuang ke badan air penerima sebagaimana bagan berikut:

cycle perspective, which has been proven to contribute to a circular economy.

### Liquid Waste (Effluent) [GRI 306-2]

KAI manages liquid waste appropriately and wisely in accordance with the Regulation of the Minister of Environment of the Republic of Indonesia No. 5 of 2014 concerning Wastewater Quality Standards. In addition, it also refers to ISO 14001: 2015 concerning the Environmental Management System for 4 (four) work areas, namely, Balai Yasa Yogyakarta, Balai Yasa Tegal, Balai Yasa Cirebon Prujakan and Depo Lokomotif Cirebon.

This policy is stated in the internal policy of Decree No. KEP.U/KS.10I/IV/I/KA-2017. Referring to the policy, wastewater management is carried out using 62 Wastewater Treatment Plant (WWTP) Units spread across many operational locations. The discharge of wastewater entering from operational activities and leaving the WWTP is ensured to be the same by monitoring the flowmeter value at the WWTP inlet and outlet. KAI ensures that all water used for operational purposes and becomes wastewater is managed by WWTP so that it can comply with the established quality standards before being discharged into the receiving water body, as shown in the following chart:

### Laporan Pemantauan Limbah

Secara berkala, KAI melalui masing-masing unit penghasil limbah melakukan pemantauan dan pengelolaan limbah serta melakukan pelaporan pengelolaan limbah kepada Dinas Lingkungan Hidup dan instansi terkait. Pada tahun 2024, Perseroan tercatat menghasilkan limbah padat sebesar 1,91 ton dan limbah cair sebesar 271.360 Liter. Berdasarkan pelaporan ini, Perseroan berhasil menekan limbah yang dihasilkan dari aktivitas operasional.

Berikut ini merupakan informasi mengenai pengelolaan limbah yang dihasilkan melalui pihak ketiga selama 3 (tiga) tahun terakhir:

KAI continues to strive to achieve quality growth through comprehensive transformation, including digitalization, service improvement, and modernization of facilities and infrastructure. The Company can support employee welfare with positive economic performance. However, the risk of financial uncertainty may occur in the future, resulting in significant operational changes in operations, especially related to employee termination. This has a major impact on employees. For this reason, the Company has determined the implementation of termination of employment for 14 working days since the Severe Disciplinary Punishment Decision Letter is delivered/notified to employees. This aims to provide an opportunity for employees to file objections to the Company's decision and this has been in accordance with the provisions as stipulated in the applicable laws and regulations.

## Kesetaraan Kesempatan Bekerja [OJK F.18][GRI 202-2]

Untuk dapat memiliki SDM yang unggul, berkarakter, dan memiliki daya saing, KAI menjalankan prinsip kesetaraan kesempatan bekerja bagi calon pekerja, tanpa memandang jenis kelamin, fisik, dan SARA. KAI melakukan rekrutmen terbuka melalui Program Perekrutan Bersama BUMN

## Equal Employment Opportunity [OJK F.18][GRI 202-2]

KAI implements the principle of equal employment opportunities for prospective employees to gain excellent HC with character and is competitive, without discriminating against genders, physique, or SARA (Ethnicity, Religion, Race, and Inter-Group). KAI conducts open recruitment through the

Putra-Putri Terbaik Papua dan Papua Barat. Di samping itu, rekrutmen KAI juga telah mengakomodasi kategori pelamar dengan disabilitas, yaitu bersumber dari Program Perekrutan Bersama BUMN.

Kesempatan bekerja yang setara juga diberlakukan untuk posisi manajemen senior. Manajemen senior di Grup KAI adalah yang menduduki jabatan Executive Vice President, Vice President dan Manager. Sebanyak 100% manajemen senior kami adalah penduduk Indonesia. **[GRI 202-2]**

Prinsip kesetaraan kesempatan bekerja tidak hanya diberikan kepada para calon pekerja tetapi juga seluruh pekerja KAI. KAI memberikan menjamin kesempatan bekerja secara objektif melalui penerapan kebijakan *Job Grade* dan *Job Class* pada proses promosi pekerja, berdasarkan Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor Per.U/KH.306/ III/1/ KA-2019 tentang Mutasi Jabatan. *Job grade* merujuk pada peringkat jabatan yang ditetapkan sebagai pedoman untuk pengaturan jalur karir dan program pengembangan bagi pekerja. Sementara *job class* merupakan peringkat jabatan dalam suatu tingkatan berdasarkan dimensi pekerjaan sebagai pedoman untuk penetapan penghasilan atau remunerasi pekerja.

#### Kesempatan Bekerja bagi Masyarakat Adat atau Komunitas Lokal

KAI tidak hanya berfokus pada perolehan laba tetapi juga bertekad untuk menghadirkan manfaat ekonomi bagi masyarakat sekitar, sebagai pemangku kepentingan yang penting dan menerima dampak langsung dari aktivitas operasi Perseroan. KAI membuka kesempatan yang setara bagi masyarakat adat ataupun komunitas lokal di sekitar area operasi Perseroan dalam proses rekrutmen pekerja. Hal tersebut merupakan bagian dari komitmen KAI untuk berkontribusi dalam pemenuhan SDGs, khususnya bagi target pekerjaan yang layak dan pertumbuhan ekonomi.

Pada tahun 2024 KAI telah melakukan identifikasi persentase pekerja dan manajemen dari masyarakat setempat pada masing-masing wilayah operasional sebagai berikut: **[GRI 202-2]**

Joint Recruitment Program for the Best Sons and Daughters of Papua and West Papua. Additionally, KAI's recruitment process accommodates applicants with disabilities through the Joint Recruitment Program of State-Owned Enterprises (SOE).

Equal employment opportunities also apply to senior management positions. Senior management in the KAI Group are those who hold the positions of Executive Vice President, Vice President and Manager. 100% of our senior management are Indonesian citizens. **[GRI 202-2]**

Equal employment opportunities are not only provided to prospective employees, but also to current employees of KAI. KAI guarantees equal employment opportunities objectively by applying a Job Grade and Job Class policy in the employee promotion process, based on the Board of Directors Regulation of PT Kereta Api Indonesia (Persero) Number Per.U/KH.306/III/1/KA-2019 concerning Job Transfers. Job grade refers to the job ranking established as a guideline for career path management and employee development programs. Job class represents the job ranking within a certain level based on job dimensions, serving as a guideline for determining employee income or remuneration.

#### Employment Opportunities for Indigenous Peoples or Local Communities

KAI does not only focus on profit gain, but it also strives to provide economic benefits for the local communities, as important stakeholders and directly impacted by the Company's operations. KAI provides equal opportunities for indigenous peoples or local communities around the Company's operational areas in the employee recruitment process. This is part of KAI's commitment to contributing to the fulfillment of the SDGs, particularly for the target of decent work and economic growth.

In 2024, KAI has identified the percentage of employees and management from local communities at each of our locations in the following table: **[GRI 202-2]**

PT Kereta Api Indonesia is committed to ensuring gender diversity as one of the main aspects of the Company's employment policy. We believe that gender diversity not only improves quality, but also strengthens the Company's

kualitas, tetapi juga memperkuat transparansi perusahaan dalam menangani isu-isu keberagaman di tempat kerja. Keberagaman ini mendorong terciptanya lingkungan yang lebih inklusif, memperkaya pertukaran ide dan perspektif yang beragam, serta meningkatkan kemampuan inovatif dan pemecahan masalah. Dengan demikian, KAI yakin dapat mampu menarik dan mempertahankan talenta terbaik, meningkatkan keterlibatan pekerja, serta mendorong efisiensi dan kinerja perusahaan yang lebih tinggi. PT Kereta Api Indonesia berinisiatif untuk meningkatkan porsi perempuan dalam angkatan kerja dan dalam posisi kepemimpinan. Hal ini ditunjukkan melalui proporsi pekerja perempuan yang tersebar di setiap level manajemen dengan detail sebagai berikut.

transparency in handling diversity issues within the workplace, which encourages the creation of a more inclusive environment, enriches the exchange of diverse ideas and perspectives, and improves innovative and problem-solving capabilities. Therefore, KAI is confident that it can attract and retain the best talent, increase employee engagement, and drive higher Company efficiency and performance. PT Kereta Api Indonesia has taken the initiative to increase the portion of women in the workforce and leadership positions. This is shown through the proportion of female employees spread across each management level with the following details.

Lebih jauh, sejalan dengan arahan Kementerian BUMN sebagaimana tercantum dalam S-23/DSI.MBU.A/11/2023, KAI juga menetapkan target rasio talenta perempuan dalam *Nominated Talent* (BOD-1) sebagai bagian dari *Key Performance Indicator* (KPI) Direksi. Pada tahun 2024, target yang ditetapkan Perusahaan sebesar 8%, sedangkan realisasi KAI berhasil melampaui target tersebut dengan capaian 11,76%. Capaian ini mencerminkan komitmen Perusahaan dalam mendorong peran perempuan di posisi strategis dan memastikan keberagaman gender menjadi bagian integral dari tata kelola sumber daya manusia di KAI.

Furthermore, in line with the direction of the Ministry of State-Owned Enterprises as stated in S-23/DSI.MBU.A/11/2023, KAI set a target ratio of female talent in *Nominated Talent* (BOD-1) as part of the Board of Directors' Key Performance Indicator (KPI). In 2024, the Company set a target of 8%, while KAI's realization successfully exceeded that target with an achievement of 11.76%. Such achievement reflects the Company's commitment to encouraging the role of women in strategic positions and ensuring gender diversity becomes an integral part of human resource governance at KAI.

#### Tenaga Kerja Anak dan Tenaga Kerja Paksa [OJK F.19] [GRI 408-1, 409-1]

Dalam menjalankan kegiatan usahanya, KAI menentang keras praktik tenaga kerja anak di lingkungan Perseroan. Hal ini tercermin dari kebijakan dan pelaksanaan rekrutmen yang dijalankan sesuai dengan Peraturan Direksi Nomor PER.U/KH.102/ VII/1/KA2017 tanggal 14 Juli 2017 sebagaimana telah beberapa kali diubah terakhir dengan Peraturan Direksi Nomor PER.U/KH.102/V/1/KA-2021 tanggal 23 September 2021. Kebijakan tersebut mengatur salah satu persyaratan yang wajib dipenuhi oleh Pelamar Pengadaan Pekerja melalui

#### Child Labor and Forced Labor [OJK F.19] [GRI 408-1, 409-1]

In carrying out its business operations, KAI condemns the use of child labor within the Company. This is reflected in its recruitment policy and implementation, in accordance with the Board of Directors Regulation Number PER.U/KH.102/ VII/1/KA-2017 dated July 14, 2017, as amended several times, most recently by the Board of Directors Regulation Number PER.U/KH.102/V/1/KA-2021 dated September 23, 2021. The policy stipulates that one of the requirements for applicants applying through the regular recruitment channel with a

jalur reguler tingkat pendidikan Sekolah Menengah Atas (SMA) adalah berusia minimal 18 (delapan belas) tahun dan maksimal 25 (dua puluh lima) tahun. Penerapan kebijakan tersebut sekaligus merupakan jaminan bahwa KAI tidak mempekerjakan tenaga kerja anak. Sampai dengan 31 Desember 2024, tidak terdapat insiden penggunaan tenaga kerja anak di dalam aktivitas operasional Perseroan.

Selain mengecam keras praktik tenaga kerja anak, KAI juga menentang keras praktik kerja paksa. KAI mengatur jam kerja berdasarkan regulasi ketenagakerjaan yang diatur dalam Perjanjian Kerja Bersama (PKB), yakni 8 jam sehari atau 40 jam dalam seminggu. Pelaksanaan sistem *shift* dilakukan sesuai dengan ketentuan hukum yang berlaku, termasuk batas jam kerja maksimum. Sistem *shift* memungkinkan operasional kereta api 24 jam, namun tetap menjaga hak istirahat dan kesejahteraan pekerja.

KAI juga memberikan hak cuti dan hari libur kepada pekerja, antara lain berupa cuti tahunan, cuti sakit, cuti menikah, cuti melahirkan/keguguran, cuti membaptiskan anak, cuti menikahkan anak, cuti istri melahirkan, cuti besar, cuti haid, cuti keagamaan, cuti menikah, cuti mengkhitan anak, cuti menghadiri wisuda anak, cuti keluarga sakit, cuti istri melahirkan/keguguran, dan cuti keluarga meninggal. Di samping itu, Perseroan mengikutsertakan seluruhnya pada program jaminan sosial pemerintah untuk kesehatan, kecelakaan, jaminan hari tua serta pensiun, dan kematian. KAI juga terbuka dengan umpan balik dan musyawarah bersama pekerja. **[GRI 401-2]**

Di sisi lain, sebagai bentuk dukungan terhadap implementasi hak asasi manusia, KAI berkomitmen untuk menjalin kerja sama dengan mitra bisnis yang memiliki prinsip dan kepedulian yang sama dengan KAI, yaitu tidak mempekerjakan pekerja anak dan kerja di bawah paksaan. Kami memastikan bahwa seluruh (100%) mitra usaha kami telah lolos seleksi standar sosial yang tinggi dan patuh terhadap regulasi dan kebijakan yang berlaku. Atas upaya itu, semua rantai pasok kami tidak memiliki dampak sosial negatif aktual dan signifikan sebagaimana yang tercantum pada Peraturan Direksi PT Kereta Api Indonesia (Persero) No: PER.U/KM.101/VII/1/KA-2022 tentang Pedoman Pengadaan Barang dan Jasa. **[GRI 2-27, 414-1, 414-2]**

#### **Cuti Melahirkan [GRI 401-3]**

Sebagai upaya menyeluruh dalam memastikan pemenuhan hak-hak pekerja, KAI memberikan hak cuti melahirkan sesuai ketentuan perundang-undangan yang berlaku. Hak cuti melahirkan diberikan kepada seluruh pekerja perempuan dan

high school education level is to be at least 18 (eighteen) years old and no more than 25 (twenty-five) years old. The implementation of this policy ensures that KAI does not employ child labor. As of December 31st, 2023, there have been no incidents of child labor in the Company's operational activities.

In addition to strongly condemning child labor practices, KAI strongly opposes forced labor practices. KAI regulates working hours according to employment regulations outlined in the Collective Labor Agreement (PKB), with employees working 8 hours a day or 40 hours a week. The implementation of the shift system is carried out in accordance with applicable legal provisions, including maximum working hour limits. The shift system allows 24-hour train operations, but still maintains the right to rest and employee welfare.

KAI also grants leave and holidays to employees, including annual leave, sick leave, marriage leave, maternity/miscarriage leave, child baptism leave, child marriage leave, spouse's maternity leave, long leave, menstrual leave, religious leave, marriage leave, circumcision leave, attendance at children's graduations leave, family illness leave, spouse's miscarriage leave, and family bereavement leave. Furthermore, the Company includes all of them in the government social security programs for health, accident, old-age benefits, pensions, and death. KAI is open to feedback and consultations with employees as well. **[GRI 401-2]**

On the other hand, as a form of support for the implementation of human rights, KAI is committed to collaborating with business partners who share KAI's principles and concerns regarding the prohibition of child labor and forced labor. We ensure that all (100%) of our business partners undergo rigorous social standards selection and comply with relevant regulations and policies. Therefore, all our supply chains are free from any actual and significant negative social impacts, as stated in the Board of Directors Regulation of PT Kereta Api Indonesia (Persero) No: PER.U/KM.101/VII/1/KA-2022 on Procurement Guidelines for Goods and Services. **[GRI 2-27, 414-1, 414-2]**

#### **Maternity Leave [GRI 401-3]**

As a comprehensive effort to ensure the fulfillment of employee rights, KAI provides maternity leave in accordance with applicable laws and regulations. Maternity leave rights are granted to all female employees and paternity leave rights

hak cuti istri melahirkan bagi seluruh pekerja laki-laki. Pekerja perempuan yang akan melahirkan mendapatkan hak cuti sejumlah 3 (tiga) bulan, sedangkan pekerja laki-laki dengan istri melahirkan mendapatkan hak cuti sejumlah 3 (tiga) hari kerja. Ketentuan hak cuti melahirkan diatur melalui Peraturan Direksi Nomor PER. U/KH.201/IX/1/KA-2022 tentang Izin Tidak Masuk Bekerja dan/atau Tidak Melakukan Pekerjaan.

Pada tahun 2024, terdapat sebanyak 1.576 pekerja perempuan yang mengambil hak cuti melahirkan, dan 100% telah kembali bekerja. Jumlah pengambilan cuti melahirkan berkurang jika dibandingkan dengan tahun sebelumnya sebanyak 1.534 orang, dan 100% telah kembali bekerja.

to male employees whose wives are giving birth. Female employees who are about to give birth are entitled to 3 (three) months of leave, while male employees whose wives are giving birth are entitled to 3 (three) working days of leave. The provision of maternity leave for KAI employees is regulated through the Director's Regulation Number PER.U/KH.201/IX/1/KA-2022 concerning Leave of Absence from Work and/or Not Performing Work.

In 2024, 1,576 female employees took their maternity leave rights, and 100% of them returned to work. The number of people taking maternity leave decreased compared to the previous year by 1,534 people, and 100% have returned to work.

### Kebijakan Remunerasi Pegawai [OJK F.20][GRI 2-19, 202-1]

KAI memberikan perhatian terhadap remunerasi pekerja sebagai upaya mendukung terwujudnya kesejahteraan pekerja. Dalam menetapkan besaran remunerasi pekerja mengacu pada standar pemenuhan kebutuhan hidup serta peraturan perundang-undangan yang berlaku terkait penetapan besaran gaji pekerja.

Kami menjamin bahwa seluruh pekerja telah mendapatkan hak pemberian upah sesuai ketentuan Kementerian Ketenagakerjaan berdasarkan kota/kabupaten wilayah operasional mereka bekerja. Kami juga memastikan tidak ada perbedaan dalam besaran remunerasi berdasarkan jenis kelamin maupun faktor SARA. Dengan demikian, gaji pokok dan remunerasi antara pekerja pria dan wanita KAI diberikan secara adil dan setara, yakni 1:1.

### Employee Remuneration Policy [OJK F.20][GRI 2-19, 202-1]

KAI pays attention to employee remuneration as a form of supporting the realization of employee welfare. Determining the amount of employee remuneration refers to the standards for meeting living needs and the applicable laws and regulations related to employee salary determination.

We ensure that all employees receive wages in accordance with the Ministry of Manpower's provisions based on the city/district of their operational work areas. We also ensure that there is no discriminatory practice in the amount of remuneration based on gender or SARA factors. Therefore, basic salaries and remuneration between male and female KAI employees are given fairly and equally, namely 1:1.

Sebagai wujud komitmen KAI dalam menyalurkan nilai ekonomi bagi pekerja sebagai pemangku kepentingan yang signifikan untuk keberlanjutan usaha, Perseroan telah memastikan bahwa upah yang diterima oleh pekerja pada tingkat paling rendah telah memenuhi atau melebihi besaran upah minimum yang ditetapkan peraturan perundang-undangan yang berlaku.

As a form of KAI's commitment to providing economic value to employees as a significant stakeholder in business sustainability, the Company ensures that wages received by employees at the lowest levels meet or exceed the minimum wage determined by applicable laws and regulations.

**Pemenuhan Kesejahteraan Pegawai setelah Berakhirnya Masa Kerja [GRI 201-3, 3-3, 404-1, 404-2]**

Perseroan menetapkan usia pensiun pekerja yaitu 56 tahun. Sebagai bentuk apresiasi atas pengabdian dan dedikasi pekerja yang telah bekerja dan berkontribusi terhadap kemajuan dan keberlanjutan bisnis KAI dalam jangka waktu yang lama, KAI berkomitmen memenuhi kesejahteraan pekerja secara menyeluruh hingga setelah berakhirnya masa kerja. Merujuk pada Peraturan Direksi Nomor PER.U/ KH.401/I/2/ KA-2023 tentang Penghasilan Pekerja Perjanjian Kerja Waktu Tidak Tertentu, pekerja KAI mendapatkan jaminan sosial hari tua dan pensiun wajib pemerintah. Besaran tunjangan pensiun yang diberikan oleh Perseroan telah diungkapkan pada bagian Tata Kelola Keberlanjutan dalam Laporan Tahunan dan Keberlanjutan ini.

**Employee Welfare After the End of Employment Period [GRI 201-3, 3-3, 404-1, 404-2]**

The Company sets the employee retirement age at 56 years. As an appreciation for the devotion and dedication of employees who have worked and contributed to the progress and sustainability of KAI's business for a long period of time, KAI is committed to fulfilling employee welfare in its entirety until after the end of their employment period. Referring to the Board of Directors Regulation No. PER.U/KH.401/I/2/ KA-2023 on Income of Workers with Indefinite Employment Agreements, KAI employees receive old-age social security and mandatory government pensions. The amount of pension benefits provided by the Company has been disclosed in the Sustainability Governance section of this Annual and Sustainability Report.

KAI juga memberikan pelatihan kepada para pekerja yang akan memasuki pensiun. Pelatihan diberikan sejak kurang 3 tahun sebelum memasuki masa pensiun. Pelatihan tersebut bertujuan untuk mempersiapkan individu memasuki masa pensiun dengan lebih baik dan sejahtera, baik secara finansial, emosional, maupun psikologis.

Selain memberikan pelatihan, tiga bulan sebelum memasuki masa pensiun, Perseroan melakukan sosialisasi persiapan pensiun kepada seluruh (100%) pekerja dengan masa kerja 3 bulan. Sebagai penguatan, ketentuan tersebut juga diatur dalam Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor: PER.U/KE.202/XII/I/KA-2018 tentang Pelatihan Kewirausahaan bagi Pekerja yang akan Memasuki Batas Usia Pensiun. Program ini dirancang tidak hanya untuk memberikan kesiapan emosional dan finansial, tetapi juga mencakup pengelolaan kesehatan serta pembekalan motivasi berwirausaha sehingga pekerja tetap dapat produktif dan mandiri secara ekonomi setelah purna tugas. Dengan manfaat-manfaat yang diterima, Perseroan berharap seluruh pekerja dapat memiliki masa pensiun yang sejahtera dan berkualitas. Pada tahun 2024 jumlah pekerja KAI yang memasuki masa pensiun mencapai 459 orang.

#### Lingkungan Bekerja yang Layak dan Aman [OJK F.21]

Aspek kenyamanan pekerja di tempat kerja merupakan salah satu perhatian manajemen KAI. Atas dasar itu, KAI senantiasa mengupayakan terciptanya lingkungan bekerja yang layak dan aman bagi seluruh pekerja. Perseroan menyediakan fasilitas kerja yang layak bagi pekerja dengan menyediakan beragam fasilitas yang nyaman, bersih, dan aman, berupa ruang kerja, toilet, dan ruang makan. KAI juga menyediakan fasilitas lain bagi pekerja, berupa tempat ibadah, kantin, *pantry*, area terbuka hijau, serta tempat parkir yang luas. Untuk meningkatkan keamanan, gedung KAI sudah memiliki alat deteksi asap serta fasilitas pembuangan sampah yang terintegrasi. Selain itu, pengelolaan kebersihan dilakukan secara terjadwal melalui penugasan *cleaning service*, yang bertugas setiap hari mengelola kebersihan area kerja baik di dalam maupun luar ruangan.

Lingkungan kerja yang nyaman, aman, dan sehat juga tercermin melalui upaya Perseroan menghadirkan fasilitas kesehatan yang berkualitas, yaitu Klinik Mediska, yang dapat diakses oleh pekerja dan keluarganya. KAI juga menyediakan sarana dan prasarana olahraga bagi pekerja pada kantor pusat dan daerah yang sekaligus dimanfaatkan sebagai sarana pencapaian prestasi olahraga perusahaan. KAI juga memberikan fasilitas kesenian dan keagamaan bagi pekerja, khususnya di kantor pusat.

KAI also provides training to employees who will retire. Training is provided since less than 3 years before entering retirement. The training aims to prepare individuals to enter retirement better and more prosperously, both financially, emotionally, and psychologically.

In addition to providing training, three months before entering retirement, the Company conducts retirement preparation dissemination to all (100%) employees with a 3-month work period. As a reinforcement, these provisions are also regulated in the Regulation of the Board of Directors of PT Kereta Api Indonesia (Persero) Number: PER.U/KE.202/XII/I/KA-2018 concerning Entrepreneurship Training for Employees Approaching Retirement. This program is designed not only to provide emotional and financial readiness, but it also includes health management and provision of entrepreneurial motivation, enabling employees to remain productive and economically independent after retirement. With the benefits received, the Company hopes that all employees can have a prosperous and quality retirement. In 2024, the number of KAI employees entering retirement reached 459 people.

#### Decent and Safe Working Environment [OJK F.21]

The aspect of employee comfort in the workplace is one of KAI management's concerns. On that basis, KAI always strives to create a decent and safe working environment for all employees. The Company provides adequate working facilities for employees, including comfortable, clean, and safe facilities such as workspaces, toilets, and dining areas. KAI also provides other facilities for employees, such as places of worship, canteens, pantries, green open spaces, and spacious parking areas. The buildings are equipped with smoke detectors and integrated waste disposal facilities. KAI maintains office cleanliness on a scheduled basis through the assignment of a cleaning service, that manages the cleanliness of work areas daily, both indoors and outdoors.

A comfortable, safe, and healthy working environment is also reflected in the Company's efforts to provide quality health facilities, namely Mediska Clinics, which can be accessed by employees and their families. KAI also provides sports Rolling Stock and infrastructure for employees at the head office and regional offices, which are also used to achieve corporate sports achievements. KAI also offers arts and religious Rolling Stock for employees, especially at the head office.

Seluruh fasilitas yang tersedia dipastikan dalam kondisi yang layak, aman, bersih, dan sehat. Bahkan lebih dari itu, fasilitas-fasilitas yang ada dilengkapi dengan suasana kerja yang inklusif dan tanpa diskriminasi. Manajemen KAI secara terus-menerus melakukan sosialisasi kepada seluruh pekerja untuk menciptakan lingkungan kerja bebas diskriminasi sebagaimana Surat Edaran Direksi PT Kereta Api Indonesia (Persero) Nomor: SE.U/KL.403/VII/1/KA-2022 tentang Kebijakan Berperilaku Saling Menghargai di Tempat Kerja. KAI juga secara tegas melarang segala bentuk pelecehan non-seksual di lingkungan kerja, termasuk intimidasi, perundungan, diskriminasi, maupun perilaku lain yang merendahkan martabat karyawan. Perseroan berkomitmen menciptakan lingkungan kerja yang saling menghormati, adil, dan inklusif bagi seluruh pekerja.

Perseroan mewajibkan seluruh pekerja untuk mengimplementasikan prinsip-prinsip *Respectful Workplace Policy* seperti mengakui dan menghargai perbedaan yang beragam dengan berbagai macam latar belakang etnis, ras, kebangsaan, warna kulit, usia, agama, jenis kelamin, disabilitas, sudut pandang, atau karakteristik individu lainnya. Sebagai wujud penguatan, KAI menegaskan komitmen tanpa toleransi terhadap segala bentuk diskriminasi, sehingga memastikan tidak ada pekerja, pelanggan, maupun mitra yang dirugikan atas dasar gender, ras, agama, usia, atau latar belakang lainnya. Dengan menerapkan prinsip-prinsip *Respectful Workplace Policy* dapat tercipta dan terbangun lingkungan kerja yang saling menghargai dan tidak melakukan diskriminasi, kekerasan, dan pelecehan dalam bentuk apapun. Pada periode 2024, tidak terdapat kejadian diskriminasi dalam bentuk apapun kepada pekerja maupun pelanggan dan mitra di ruang lingkup Perseroan. **[GRI 3-3, 406-1]**

### Kepuasan Pekerja

Kepuasan pekerja di PT Kereta Api Indonesia merupakan faktor penting dalam mendukung keberhasilan perusahaan secara keseluruhan. Pekerja yang puas cenderung lebih produktif, termotivasi, dan memiliki loyalitas yang tinggi terhadap perusahaan. Hal ini secara langsung berpengaruh pada kualitas pelayanan yang diberikan kepada pelanggan, yang merupakan salah satu prioritas utama PT Kereta Api Indonesia sebagai penyedia transportasi publik.

Perhitungan *Employee Satisfaction Index* (ESI) penting dalam menilai tingkat kepuasan pekerja di sebuah perusahaan. Angka ESI yang tinggi menunjukkan tingkat kepuasan yang baik, yang dapat berdampak positif pada produktivitas, loyalitas, dan retensi pekerja. Hal ini juga membantu perusahaan dalam

All facilities are well-maintained, safe, clean, and healthy, complemented by an inclusive and non-discriminatory work environment. KAI Management continuously communicates with all employees to create a discrimination-free work environment as outlined in the Director's Circular of PT Kereta Api Indonesia (Persero) Number: SE.U/KL.403/VII/1/KA-2022 concerning the Respectful Workplace Policy. KAI also strictly prohibits all forms of non-sexual harassment in the workplace, including intimidation, bullying, discrimination, or other behaviors demeaning the dignity of employees. The Company is committed to creating a mutually respectful, fair, and inclusive work environment for all employees.

The Company requires all workers to implement the principles of the Respectful Workplace Policy, such as acknowledging and respecting diverse differences including ethnic background, race, nationality, skin color, age, religion, gender, disability, viewpoints, or other individual characteristics. As a form of reinforcement, KAI affirms a zero-tolerance commitment to all forms of discrimination, thus ensuring that no employee, customer, or partner is disadvantaged on the basis of gender, race, religion, age, or other background. Implementing the Respectful Workplace Policy principles aims to create and build a respectful work environment free from discrimination, violence, and harassment in any form. In 2024, there have been no reported incidents of discrimination in any form towards employees, customers, or partners within the Company. **[GRI 3-3, 406-1]**

### Employee Satisfaction

Employee satisfaction at PT Kereta Api Indonesia is an important factor in supporting the overall success of the company. Satisfied employees tend to be more productive, motivated, and have high loyalty to the company. This directly affects the quality of service provided to customers, which is one of the main priorities of PT Kereta Api Indonesia as a public transportation provider.

Calculation of the *Employee Satisfaction Index* (ESI) is important in assessing the level of employee satisfaction in a company. A high ESI number indicates a good level of satisfaction, which can have a positive impact on employee productivity, loyalty, and retention. It also helps companies

mengidentifikasi potensi masalah sebelum berdampak lebih besar pada kinerja dan budaya kerja. Tingkat kepuasan pekerja KAI pada tahun 2024 meningkat dibandingkan tahun 2023, yang mencapai 4,28 (skala 5). Berikut tingkat kepuasan pekerja sepanjang 3 (tiga) tahun terakhir:

### Komunitas Perempuan

Perseroan mendirikan Persatuan Istri Pekerja dan Karyawati Kereta Api (PIKKA) dalam rangka mendukung kesetaraan gender. Komunitas ini merupakan wadah bagi para perempuan untuk meningkatkan kemampuan dan kepemimpinan. Penetapan kepengurusan PIKKA Pusat dilaksanakan melalui Surat Keputusan Ketua Umum Persatuan Istri Pekerja dan Karyawati Kereta Api Nomor 003/PIKKAP/SKEP/II/2023 tentang Pengangkatan Pengurus PIKKA Pusat.

### Women's Community

The Company established the Association of Wives of Employees and Female Employees of the Railway (PIKKA) to support gender equality. This community is a platform to enhance the skills and leadership of female stakeholders. The appointment of the central PIKKA management was made through the Decree of the Chairperson of the Association of Wives of Employees and Female Employees of the Railway Number 003/PIKKA-P/SKEP/II/2023 concerning the Appointment of Central PIKKA Management.

Perseroan percaya bahwa kesetaraan hak dan kesempatan bagi perempuan akan memberikan dampak yang berkelanjutan bagi persepsi dan keputusan bisnis Perseroan. Komitmen kuat Perseroan untuk mendukung kesetaraan gender membawa hasil positif yang dibuktikan dengan pencapaian Perseroan yang kembali berhasil meraih penghargaan *Best Woman Empowerment Company 2025 in Encouraging Woman's Right Protection to Provide Comfort and Safety* dalam ajang HerStory Indonesia Best Women Empowerment Companies Awards (WECA) 2025. Penghargaan ini diberikan sebagai bentuk apresiasi atas komitmen KAI dalam mendorong perlindungan hak perempuan serta menciptakan lingkungan kerja yang nyaman dan aman bagi perempuan, terutama dalam mendukung keberlanjutan di sektor transportasi.

The Company believes that equal rights and opportunities for women will have a sustainable impact on the Company's business perceptions and decisions. The positive results brought by the Company's strong commitment to supporting gender equality are proven through the Company's achievement in winning the Best Woman Empowerment Company 2025 in Encouraging Woman's Right Protection to Provide Comfort and Safety award at the HerStory Indonesia Best Women Empowerment Companies Awards (WECA) 2025 once again. This award was bestowed as a form of appreciation for KAI's commitment to encouraging the protection of women's rights and creating a comfortable and safe working environment for women, especially in supporting sustainability in the transportation sector.

Prestasi ini menjadi bukti bahwa KAI tidak hanya berkomitmen dalam memberikan layanan transportasi yang aman dan nyaman, tetapi juga menjadi pelopor dalam menciptakan lingkungan kerja yang mendukung kesejahteraan perempuan di industri transportasi Indonesia. KAI akan terus berupaya memastikan bahwa setiap perempuan yang bekerja di KAI merasa aman, dihargai, dan memiliki kesempatan yang sama dalam mengembangkan karier mereka. KAI meyakini, dengan lingkungan kerja yang lebih inklusif, KAI bisa menciptakan industri transportasi yang lebih baik dan berkelanjutan.

This achievement proves that KAI is not only committed to providing safe and comfortable transportation services, but it also strives to become a pioneer in creating a working environment supporting women's welfare in the Indonesian transportation industry. KAI will continue ensuring that every woman working at KAI feels safe, appreciated, and has equal opportunities to develop their career. KAI believes that creating a better, more sustainable transportation industry is possible through a more inclusive working environment.

### Keselamatan dan Kesehatan Kerja [GRI 3-3, 403-1, 403-3, 403-8]

Keselamatan dan kesehatan kerja (K3) menjadi prioritas utama bagi KAI mengingat dalam industri perkeretaapian memiliki risiko yang tinggi. Kecelakaan kerja dapat menyebabkan cedera serius atau kematian, yang berdampak pada terhambatnya kinerja operasional Perseroan.

KAI memahami, lingkungan kerja yang aman dan sehat tidak hanya melindungi pekerja, tetapi juga meningkatkan produktivitas dan moral kerja. KAI telah memiliki Kebijakan *Health, Safety, Security and Environment* (HSSE) nomor: KS.102/XII/1/KA-2022. Kebijakan tersebut merupakan wujud nyata atas komitmen PT Kereta Api Indonesia (Persero) dan Anak Perusahaan untuk menjalankan bisnis transportasi perkeretaapian dan kegiatan usaha lainnya mengacu pada nilai-nilai utama Perusahaan AKHLAK untuk mendukung tujuan, visi, dan misi Perusahaan dengan memperhatikan keselamatan dan kesehatan kerja, keselamatan perkeretaapian, keamanan dan perlindungan terhadap lingkungan hidup untuk seluruh pekerja, aktivitas bisnis, dan aset Perusahaan dari segala ancaman kerugian.

Merujuk pada kebijakan tersebut, KAI menerapkan dan meningkatkan kualitas keselamatan dan kesehatan kerja bagi seluruh (100%) pekerja baik tetap maupun mitra. KAI menerapkan standarisasi yang menjamin terpenuhinya keselamatan, kesehatan, dan keamanan di lingkungan kerja sesuai Standar Operasional Perusahaan (SOP). Hal tersebut tercermin melalui penerapan program *promotive* dan *preventive* kepada pekerja berupa *medical check-up* tahunan, pemeriksaan kebugaran pekerja, pemeriksaan awak sarana perkeretaapian sebelum berdinis, dan sosialisasi isu penyakit dan/atau kesehatan untuk pekerja dan keluarga pekerja, serta penerapan protokol kesehatan yang ketat, baik bagi pekerja maupun penumpang, sebagai upaya KAI dalam mencegah penyebaran penyakit menular di area operasional. Pemeriksaan alkohol dan narkoba bagi pekerja tertentu, khususnya para awak sarana perkeretaapian sebelum berdinis. [GRI 403-8] Selain itu, KAI juga memberikan layanan program konseling pekerja bagi pekerja yang membutuhkan tempat untuk bercerita ataupun mendapatkan dukungan psikologis melalui unit yang disediakan.

### Occupational Health and Safety [GRI 3-3, 403-1, 403-3, 403-8]

Occupational health and safety (OHS) has become the top priority to KAI, considering the high risk in the railway industry. Workplace accidents can cause serious injury or death, which has an impact on obstructing the Company's operational performance.

KAI understands that a safe and healthy work environment not only protects employees, but also enhances productivity and morale. KAI has a Health, Safety, Security, and Environment (HSSE) Policy number: KS.102/XII/1/KA-2022. The policy is a real manifestation of the commitment of PT Kereta Api Indonesia (Persero) and its subsidiaries to run the railway transportation business and other business operations referring to the Company's main values AKHLAK to support the Company's goals, vision, and mission by paying attention to occupational safety and health, railway safety, security and protection of the environment for all workers, business activities and Company assets from all threats of loss.

Referring to the policy, KAI implements and improves the quality of occupational health and safety for all (100%) employees, both permanent and partners. KAI applies standardization that ensures the fulfillment of safety, health, and security in the work environment according to the Company's Standard Operating Procedures (SOP). This is reflected through the implementation of *promotive* and *preventive* programs for workers, such as annual medical check-ups, fitness checks for workers, pre-service examinations for railway personnel, and socialization related to disease and/or health issues for workers and their families, as well as the strict implementation of health protocols for both employees and passengers to prevent the spread of infectious diseases in operational areas. Alcohol and drug screening for certain employees, especially railway crew members, before going on duty. [GRI 403-8] Apart from that, KAI also provides employee counseling program services for employees who need a place to talk or get psychological support through the units provided.

Untuk memastikan kesehatan pekerja, KAI memiliki fasilitas kesehatan Klinik Mediska yang memberikan layanan kesehatan bagi pekerja, keluarga pekerja, dan masyarakat. Pemberian fasilitas kesehatan tersebut diatur melalui Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor PER.A/KL.104/I/1/KA-2019 tentang Standardisasi Minimum Fasilitas Klinik Mediska. Per 31 Desember 2024, terdapat 55 Klinik Mediska yang dikelola KAI yang tersebar di seluruh wilayah operasional KAI. Di samping itu, KAI memberikan jaminan kesehatan bagi pekerja, keluarga pekerja, hingga calon pekerja, yang diatur melalui Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor PER.U/KH.405/XI/1/KA-2020 tentang Jaminan Kesehatan. Dengan mengacu pada Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor PER.U/KI.103/I/1/KA-2021 tanggal 19 Januari 2021 Tentang Standar Stasiun, setiap stasiun memiliki Fasilitas Pos Kesehatan atau P3K untuk penanganan pertama pada kecelakaan dan insiden gawat darurat yang terjadi pada penumpang maupun pekerja selama 24 jam. **[GRI 403-3]**

Operasional seluruh aktivitas pelayanan kesehatan kerja KAI menjadi tanggung jawab Vice President Health. Unit khusus ini memastikan layanan kesehatan kerja dilaksanakan secara optimal, yaitu dengan perencanaan dan koordinasi pelaksanaan kebijakan yang baik, melalui penyusunan norma serta standar acuan, penetapan serta penerapan prosedur, hingga pemberian bimbingan serta supervisi bagi pihak pelaksana. Untuk menjaga kinerja operasional berjalan baik, secara berkala KAI melakukan penanganan yang sistematis, terarah, dan terukur terhadap kejadian luar biasa seperti adanya ancaman kesehatan akibat penyakit menular, wabah, epidemi, dan/atau pandemi dengan cara membuat perencanaan, berkoordinasi dan berkolaborasi dengan pihak terkait, serta memantau dan melakukan evaluasi.

Selain memberikan perhatian terhadap kualitas keselamatan dan kesehatan kerja seluruh (100%) pekerja, keluarga pekerja, maupun mitra, KAI juga senantiasa meningkatkan kualitas keselamatan dan kesehatan para penumpangnya. KAI memiliki pos kesehatan dan layanan fasilitas medis di atas kereta untuk para penumpang. Di samping itu, KAI dan entitas anaknya juga memberikan jaminan asuransi keselamatan kepada para penumpang dan para awak sarana pekerja KAI, bekerja sama dengan PT Asuransi Jasaraharja Putera. Berikut jumlah penumpang yang berkunjung ke Pos Kesehatan tahun 2021-2024 dan jumlah penumpang yang meninggal pada tahun 2021-2024:

To ensure employee health, KAI has health facilities in the form of Mediska Clinics that provide health services for employees, their families, and the community. The provision of these health facilities is regulated through the Director's Regulation of PT Kereta Api Indonesia (Persero) Number PER.A/KL.104/I/1/KA-2019 concerning Minimum Standardization of Mediska Clinic Facilities. As of December 31, 2024, there were 55 Mediska Clinics managed by KAI spread across all KAI operational areas. In addition, KAI provides health insurance for employees, their families, and prospective employees, which is regulated through the Board of Directors Regulation of PT Kereta Api Indonesia (Persero) Number PER.U/KH.405/XI/1/KA-2020 concerning Health Insurance. Referring to the Board of Directors Regulation of PT Kereta Api Indonesia (Persero) Number PER.U/KI.103/I/1/KA-2021 dated January 19, 2021, concerning Station Standards, each station has a Health Post or First Aid (P3K) facility for first aid in accidents and emergency incidents that occur to passengers or employees 24 hours a day. **[GRI 403-3]**

Operational activities of all KAI occupational health services are the responsibility of the Vice President of Health. This special unit ensures optimal implementation of occupational health services, through good policy planning and coordination, the establishment of norms and reference standards, the determination and implementation of procedures, and the provision of guidance and supervision for the implementing parties. To maintain good operational performance, KAI periodically conducts systematic, directed, and measurable handling of extraordinary events such as health threats due to infectious diseases, outbreaks, epidemics, and/or pandemics by planning, coordinating, and collaborating with related parties, as well as monitoring and evaluating.

In addition to ensuring the quality of occupational safety and health for all (100%) employees, their families, and partners, KAI continuously improves the quality of safety and health for its passengers. KAI has a health post and medical facilities on board its trains for passengers. Furthermore, KAI and its subsidiaries provide safety insurance to passengers and crew members of KAI's facilities, in collaboration with PT Asuransi Jasaraharja Putera. The following is the number of passengers who visited the Health Post in 2021-2024 and the number of passengers who passed away in 2021-2024:

**Sistem Manajemen Keselamatan dan Kesehatan Kerja [GRI 403-1]**

Untuk mengoptimalkan pelaksanaan sistem K3, sejak tahun 2020 KAI menerapkan Sistem Manajemen Keselamatan Perkeretaapian (SMKP) yang mengacu pada:

- Peraturan Pemerintah Nomor 50 tahun 2012 tentang Sistem Manajemen Keselamatan dan Kesehatan Kerja; dan
- Peraturan Menteri Perhubungan Nomor PM 69 Tahun 2018 tentang Sistem Manajemen Keselamatan Perkeretaapian. Sesuai dengan Peraturan Direksi Nomor PER.U/KS.102/III/1/KA-2020, SMKP wajib diterapkan secara berkelanjutan pada setiap satuan organisasi di Kantor Pusat dan Daerah.

Implementasi SMKP meliputi keselamatan perkeretaapian serta keselamatan dan kesehatan kerja yang berlaku di seluruh lini bisnis KAI. Untuk mengetahui efektivitas penerapan SMKP, KAI melakukan audit internal SMKP sesuai Peraturan Direksi Nomor PER.S/KS.102/IV/32/KA-2020 tentang Prosedur Audit Internal dalam Sistem Manajemen Keselamatan Perkeretaapian yang telah dilakukan oleh Direktorat Keselamatan dan Keamanan pada tahun 2024. Audit internal pada tahun 2024 telah dilakukan di 14 wilayah Daerah Operasi, Divisi Regional, Balai Yasa Sarana dan Prasarana. Audit Internal SMKP di Daop/Divre maupun Balai Yasa di tahun 2024 dilaksanakan dengan kategori tingkat yang beragam baik tingkat awal, transisi dan lanjutan.

**Occupational Health and Safety Management System [GRI 403-1]**

To optimize the implementation of the OHS system, KAI has implemented the Railway Safety Management System (SMKP) since 2020 which refers to:

- Government Regulation Number 50 of 2012 concerning the Implementation of Occupational Health and Safety Management Systems; and
- Minister of Transportation Regulation Number PM 69 of 2018 concerning the Railway Safety Management System. In accordance with the Director's Regulation Number PER.U/KS.102/III/1/KA-2020, SMKP must be continuously implemented in every organizational unit at the Head Office and Regional Offices.

The SMKP implementation includes railway safety as well as occupational health and safety applicable across all KAI business lines. To evaluate the implementation of SMKP, KAI conducts internal SMKP audits in accordance with the Director's Regulation Number PER.S/KS.102/IV/32/KA-2020 concerning Internal Audit Procedures in the Railway Safety Management System, which was carried out by the Directorate of Safety and Security in 2024. In 2024, internal audits were conducted in 14 Operational Areas, Regional Divisions, as well as Facilities and Infrastructure Railway Workshops. Internal Audits of SMKP in Operational Areas/Regional Divisions and Railway Workshops in 2024 were conducted at various level categories, namely initial, transitional, and advanced levels.

KAI memastikan sertifikasi Sistem Manajemen Keselamatan dan Kesehatan Kerja yang dimiliki telah sesuai dengan Peraturan Pemerintah Nomor 50 tahun 2012. Pada tahun 2024, terdapat 1 (satu) wilayah yang telah melakukan resertifikasi dan mendapatkan kembali bendera emas dalam pencapaian penerapan SMK3 dari Kementerian Ketenagakerjaan.

Penerapan aspek keselamatan dan kesehatan kerja (K3) yang dijalankan secara terencana dan terstruktur membawa Perseroan berhasil meraih penghargaan dalam bidang keselamatan dan kesehatan kerja pada tahun 2024 pada ajang penghargaan Indonesia Safety Excellence Award dalam rangkaian OSH's Asia Summit 2024 dengan kategori sebagai berikut:

1. The Best Safety Management in BUMN Company
2. The Best Safety Program
3. The Most Safety Culture
4. The Best Leadership on OSH Culture

Penghargaan ini merupakan bentuk apresiasi terhadap implementasi aspek keselamatan dan kesehatan kerja (K3) yang dijalankan secara baik dan berkelanjutan dalam rangka mendukung kemajuan K3 nasional.

Selain menerapkan Sistem Manajemen Keselamatan Perkeretaapian, KAI juga telah menerapkan Sistem Manajemen Lingkungan yang mengacu pada ISO 14001:2015, dimana di dalamnya memasukkan isu eksternal terkait lingkungan yang ada di sekitar Perusahaan mulai tahun 2019 secara bertahap pada Unit Pelaksana Teknis di daerah, yaitu:

1. Sertifikasi ISO 14001:2015 melalui Badan Sertifikasi Sucofindo di Balai Yasa Mekanik Cirebon Prujakan pada Tahun 2019.
2. Sertifikasi ISO 14001:2015 melalui Badan Sertifikasi Sucofindo di Balai Yasa Yogyakarta pada Tahun 2020.
3. Sertifikasi ISO 14001:2015 melalui Badan Sertifikasi Sucofindo di Dipo Lokomotif pada Taf Cirebon Tahun 2022.
4. Sertifikasi ISO 14001:2015 melalui Badan Sertifikasi Sucofindo di Balai Yasa Tegal pada Tahun 2023.

Pada tahun 2024 KAI telah melaksanakan Gap Analisis ISO 14001:2015 di Balai Yasa Surabayagubeng serta awareness maupun peningkatan kompetensi bidang lingkungan lainnya sebagai dasar dalam penerapan ISO 14001:2015 di tahun 2025. Untuk memastikan penerapan berjalan konsisten, maka Perseroan melakukan Audit Internal ISO 14001:2015 di wilayah-wilayah yang telah mengimplemetasikan ISO 14001:2015,

KAI ensures that the Occupational Health and Safety Management System certification complies with Government Regulation Number 50 of 2012. In 2024, 1 (one) region carried out recertification and once more received the gold flag in achieving the implementation of OHSMS from the Ministry of Manpower.

The health, safety, and environment (OHS) implementation carried out in a planned and structured manner managed to make the Company receive awards in the field of occupational health and safety in 2024 at the Indonesia Safety Excellence Award in the OSH's Asia Summit 2024 series with the following categories:

1. The Best Safety Management in BUMN Company
2. The Best Safety Program
3. The Most Safety Culture
4. The Best Leadership on OSH Culture

These awards were given to appreciate the proper and sustainable implementation of occupational health and safety (OHS) aspects in support of national OHS advancement.

In addition to the implementation of the Railway Safety Management System, KAI has also implemented an Environmental Management System that refers to ISO 14001:2015, which includes external issues related to social issues around the Company starting in 2019 gradually at Technical Implementation Units in the regions, namely:

1. ISO 14001:2015 certification through Sucofindo Certification at Balai Yasa Mekanik Cirebon Prujakan in 2019.
2. ISO 14001:2015 certification through Sucofindo Certification at Balai Yasa Yogyakarta in 2020.
3. ISO 14001:2015 certification through Sucofindo Certification at Dipo Lokomotif Cirebon in 2022.
5. ISO 14001:2015 certification through Sucofindo Certification at Balai Yasa Tegal in 2023.

In 2024, KAI implemented ISO 14001:2015 Gap Analysis at Surabayagubeng Railway Workshop as well as awareness and improvement of other environmental competencies as a basis for implementing ISO 14001:2015 in 2025. To ensure consistent implementation, the Company conducted an ISO 14001:2015 Internal Audit in areas that have implemented ISO 14001:2015, including Cirebonprujakan Railway Mechanical Workshop,

antara lain Balai Yasa Mekanik Cirebonprujakan, Balai Yasa Yogyakarta, Dipo Lokomotif Cirebon, dan Balai Yasa Tegal serta *Audit Surveillance* oleh badan Sertifikasi ISO 14001:2015, yaitu Sucofindo.

### Penanggulangan Keadaan Darurat dan Kecelakaan Besar pada Lingkungan Kerja

Sebagai perusahaan yang bergerak di bidang industri perkeretaapian, KAI mengelola risiko secara terstruktur agar tidak menimbulkan kerugian operasional. KAI telah menerapkan kebijakan penanggulangan keadaan darurat dan kecelakaan besar yang terjadi di lingkungan kerja. Penanganan awal pada kejadian kecelakaan mengacu pada Instruksi Direksi Nomor 13/KP.501/KA-2012 tentang Pertolongan Pertama Pada Kecelakaan (P3K) di Lingkungan Kerja PT Kereta Api Indonesia (Persero). Secara spesifik, kebijakan P3K di lingkungan KAI telah mengatur hal-hal terkait (1) petugas P3K di tempat kerja serta (2) fasilitas P3K di tempat kerja, mencakup persyaratan ruang dan kotak P3K.

Sementara penanganan keadaan darurat dan kecelakaan besar di KAI dijalankan sesuai dengan Keputusan Direksi PT Kereta Api Indonesia (Persero) Nomor KEP.U/LL.507/VII/ 2/ KA-2015 tentang Standar Operasional Prosedur Penanganan Kondisi Darurat di Wilayah Stasiun, Depo, Balai Yasa dan Dalam Perjalanan Kereta Api serta Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor PER.U/KT.204/XII/1/ KA-2018 tentang Standar Operasional Prosedur Tanggap Darurat Gangguan Operasional Kereta Api.

KAI juga menerapkan upaya pencegahan dan penanggulangan kebakaran di Balai Yasa Sarana, Balai Yasa Prasarana, Dipo Sarana, Dipo Prasarana, dan Stasiun berdasarkan Keputusan Direksi PT Kereta Api Indonesia (Persero) Nomor KEP.U/ KS.101/XII/2/KA-2016, sebagai upaya penanggulangan keadaan darurat dan kecelakaan besar pada lingkungan kerja.

### Induksi Keselamatan kepada Pihak Internal maupun Eksternal

KAI menerapkan induksi keselamatan yang diatur melalui Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor PER-S/ KS.102/IV/26/KA-2020 tentang Prosedur Induksi Keselamatan dalam Sistem Manajemen Keselamatan Perkeretaapian. Penerapan induksi keselamatan merupakan kegiatan untuk mengkomunikasikan informasi Keselamatan Perkeretaapian serta Keselamatan dan Kesehatan Kerja kepada seluruh SDM, tamu, kontraktor, pengguna jasa, pemasok, dan pemangku kepentingan lain.

Yogyakarta Railway Workshop, Cirebon Locomotive Depot, and Tegal Railway Workshop, as well as a Surveillance Audit by the ISO 14001:2015 Certification Agency, namely Sucofindo.

### Emergency and Major Accident Response in the Workplace

As a company engaged in the railway industry, KAI structurally manages risks so as not to cause operational losses. KAI has implemented policies for responding to emergencies and major accidents that occur in the workplace. Initial handling of accident incidents refers to the Director's Instruction Number 13/KP.501/KA-2012 concerning First Aid in Accidents (P3K) in the Workplace of PT Kereta Api Indonesia (Persero). Specifically, the P3K policy in the KAI environment regulates matters related to (1) P3K officers in the workplace and (2) P3K facilities in the workplace, including the requirements for P3K rooms and kits.

Meanwhile, emergency and major accident response at KAI is carried out in accordance with the Board of Directors Decree of PT Kereta Api Indonesia (Persero) Number KEP.U/LL.507/ VII/2/KA-2015 concerning Standard Operating Procedures for Emergency Handling in Station Areas, Depots, Balai Yasa, and During Train Journeys, as well as the Board of Directors Regulation of PT Kereta Api Indonesia (Persero) Number PER.U/KT.204/XII/1/KA-2018 concerning Standard Operating Procedures for Emergency Response to Train Operational Disruptions.

KAI also implements fire prevention and response efforts at Balai Yasa Sarana, Balai Yasa Prasarana, Dipo Sarana, Dipo Prasarana, and Stations based on the Board of Directors Decree of PT Kereta Api Indonesia (Persero) Number KEP.U/ KS.101/XII/2/KA-2016, as an effort to deal with emergencies and major accidents in the workplace.

### Safety Induction for Internal and External Parties

KAI implements safety induction regulated through the Board of Directors Regulation of PT Kereta Api Indonesia (Persero) Number PER-S/KS.102/IV/26/KA-2020 concerning Safety Induction Procedures in the Railway Safety Management System. The implementation of safety induction is an activity to communicate Railway Safety and Occupational Health and Safety information to all human resources, guests, contractors, service users, suppliers, and other stakeholders.

Sesuai prosedur induksi keselamatan tersebut, materi yang diberikan pada kegiatan induksi mencakup hal-hal sebagai berikut:

- Kebijakan keselamatan perkeretaapian serta keselamatan dan kesehatan kerja Perusahaan;
- Bahaya dan insiden yang mungkin ditimbulkan dari kegiatan operasional perkeretaapian dan proses kerja SDM KAI;
- Peran dan tanggung jawab SDM KAI, tamu, kontraktor, pengguna jasa, pemasok, dan pemangku kepentingan lainnya di dalam menerapkan Sistem Manajemen Keselamatan Perkeretaapian dan mengendalikan bahaya;
- Persyaratan keselamatan perkeretaapian serta keselamatan dan kesehatan kerja yang harus dipatuhi oleh SDM KAI, tamu, kontraktor, pengguna jasa, pemasok, dan pemangku kepentingan lainnya, seperti tanda/rambu yang harus dipatuhi, alat pelindung diri yang harus dikenakan, area kerja yang tidak boleh dimasuki, dan lain-lain;
- Cara melaporkan jika ada bahaya, tindakan tidak aman, kondisi tidak aman, insiden dan/atau keadaan darurat;
- Prosedur atau rencana tanggap darurat, seperti cara menyelamatkan diri, sarana jalan keluar dan evakuasi, titik kumpul dalam keadaan darurat, jenis alarm yang perlu diketahui (audible dan/atau visual), instruksi yang harus dipatuhi, serta apa yang boleh dan tidak boleh dilakukan ketika terjadi keadaan darurat;
- Fasilitas yang disediakan oleh Perusahaan serta lokasinya, seperti kamar mandi, ruang ibu menyusui, kotak P3K, klinik atau layanan kesehatan, sistem deteksi dan alarm kebakaran, alat pemadam api ringan, fasilitas ibadah, dan fasilitas lain yang dianggap perlu untuk diketahui; dan
- Imbauan penyampaian saran, umpan balik, dan keluhan mengenai keselamatan perkeretaapian serta keselamatan dan kesehatan kerja.

#### **Pengungkapan Praktik Pelanggaran Ketentuan Ketenagakerjaan pada Pekerja pada Pihak Pemasok**

Untuk memastikan seluruh pekerja pihak pemasok mematuhi peraturan perundang-undangan, KAI melakukan identifikasi terhadap praktik pelanggaran ketentuan ketenagakerjaan pada pekerja pihak pemasok yang digunakan pada 2024. Merujuk pada hasil identifikasi tersebut, tidak ditemukan adanya praktik pelanggaran terhadap ketentuan ketenagakerjaan yang dilakukan pihak pemasok atau mitra kerja KAI.

According to these safety induction procedures, the material provided in the induction activities includes the following:

- The Company's railway safety and occupational health and safety policies;
- Hazards and incidents that may arise from railway operational activities and the work processes of KAI's human resources;
- The roles and responsibilities of KAI's human resources, guests, contractors, service users, suppliers, and other stakeholders in implementing the Railway Safety Management System and controlling hazards;
- Railway safety and occupational health and safety requirements that must be adhered to by KAI's human resources, guests, contractors, service users, suppliers, and other stakeholders, such as signs that must be followed, personal protective equipment that must be worn, work areas that must not be entered, and others;
- How to report hazards, unsafe actions, unsafe conditions, incidents, and/or emergencies;
- Emergency procedures or plans, such as how to evacuate, exit routes and evacuation, emergency assembly points, types of alarms to be recognized (audible and/or visual), instructions to be followed, and what to do and not to do during an emergency;
- Facilities provided by the Company and their locations, such as bathrooms, nursing rooms, first aid kits, clinics or health services, fire detection and alarm systems, fire extinguishers, places of worship, and other facilities deemed necessary to be known; and
- Encouragement to provide suggestions, feedback, and complaints regarding railway safety and occupational health and safety.

#### **Disclosure of Labor Regulation Violations by Supplier Employees**

To ensure the compliance of all supplier employees with laws and regulations, KAI identified practices of labor regulation violations among supplier employees used in 2024. Referring to the results of this identification, no violations of labor regulations were found to have been committed by KAI's suppliers or partners.

### Daftar Pihak Pemasok Berdasarkan Klasifikasi Tingkat

Sampai dengan 2024, KAI belum melakukan klasifikasi terhadap pihak pemasok berdasarkan tingkat risiko pekerjaan. Oleh karenanya, KAI tidak mengungkapkan informasi mengenai daftar pihak pemasok berdasarkan klasifikasi tersebut pada bagian ini.

### Pengidentifikasian Bahaya, Penilaian Risiko, dan Investigasi Insiden [GRI 403-2]

Sebagai upaya preventif untuk memitigasi risiko kecelakaan kereta api, kecelakaan kerja, penyakit akibat kerja dan pencemaran lingkungan hidup, KAI menerapkan proses Identifikasi Bahaya, Penilaian dan Pengendalian Risiko Keselamatan (IBPR), sesuai dengan Kebijakan Health, Safety, Security, and Environment (HSSE) Nomor KS.I02/XII/I/KA-2022 Poin 5 dan Perjanjian Kerja Bersama Periode 2024-2026 Pasal 40. KAI mewajibkan seluruh Kepala Unit Pelaksana Teknis (UPT) di tingkat Daerah melakukan proses IBPR, untuk selanjutnya diperiksa oleh *Quality Controller* sebelum disetujui oleh Manajer unit terkait.

Penerapan IBPR ini dijalankan sesuai ketentuan yang terdapat dalam SMKP. Bahaya yang telah diidentifikasi selanjutnya akan dinilai risikonya dan ditetapkan jenis pengendalian risikonya berdasarkan hierarki pengendalian risiko keselamatan, yang mencakup eliminasi, substitusi, rekayasa teknik, administrasi, dan alat pelindung diri. IBPR yang telah disetujui oleh Manager atau Senior Manager unit terkait akan dibahas di dalam Rapat Komite Keselamatan Tingkat Daerah yang dilaksanakan secara rutin setiap bulan, yang hasilnya dikirim kepada Direktorat Keselamatan dan Keamanan.

Untuk mengetahui efektivitas penerapan IBPR, secara berkala Unit Safety Kantor Pusat melakukan evaluasi terkait dengan pelaksanaan proses IBPR yang berjalan di KAI. Hasil evaluasi dijadikan dasar bagi Perseroan dalam mengambil keputusan-keputusan strategis untuk memitigasi risiko keselamatan ataupun perbaikan terhadap pelaksanaan proses BPR yang sedang berlangsung. Setiap tahunnya, Unit Safety menyelenggarakan kegiatan sosialisasi, lokakarya, serta mendistribusikan materi IBPR di dalam pelatihan internal. Hal tersebut dilakukan sebagai upaya terus-menerus dalam meningkatkan kesadaran, pemahaman, dan kompetensi pekerja KAI terkait penerapan proses IBPR.

Di samping melakukan usaha preventif melalui proses IBPR, Perseroan juga memfasilitasi pelaporan bahaya sebagai upaya korektif untuk mencegah terjadinya kecelakaan. Pelaporan bahaya tersebut difasilitasi melalui aplikasi *Safety Railway Information (SRI)*, yang dapat diakses oleh seluruh

### List of Suppliers Based on Job Risk Classification

As of 2024, KAI has not classified suppliers based on job risk levels. Therefore, KAI does not disclose information regarding the list of suppliers based on this classification in this section.

### Hazard Identification, Risk Assessment, and Incident Investigation [GRI 403-2]

As a preventive measure to mitigate the risks of train accidents, workplace accidents, occupational diseases, and environmental pollution, KAI implements the Hazard Identification, Risk Assessment, and Safety Risk Control (IBPR) process, in accordance with the Health, Safety, Security, and Environment (HSSE) Policy No. KS.I02/XII/I/KA-2022 Point 5 and the Collective Labor Agreement for the 2024-2026 Period Article 40. KAI requires all Heads of Technical Implementation Units (UPT) at the regional level to carry out the IBPR process, which is then reviewed by the Quality Controller before being approved by the relevant unit Manager.

The implementation of IBPR is carried out in accordance with the provisions in the SMKP. Identified hazards are assessed for their risks and the type of risk control is determined based on the safety risk control hierarchy, which includes elimination, substitution, engineering controls, administrative controls, and personal protective equipment. IBPRs approved by the Manager or Senior Manager of the relevant unit are discussed in the Regional Safety Committee Meetings held monthly, with the results sent to the Directorate of Safety and Security.

To determine the effectiveness of IBPR implementation, the Central Office Safety Unit periodically evaluates the implementation of the IBPR process at KAI. The results of these evaluations become the basis for the Company in making strategic decisions for mitigating safety risks or improvements to the ongoing IBPR process. The Safety Unit conducts annual dissemination activities and workshops, as well as distributes IBPR materials in internal training. This is done as a continuous effort to increase awareness, understanding, and competence of KAI employees regarding the implementation of the IBPR process.

In addition to preventive efforts through the IBPR process, the Company also facilitates hazard reporting as a corrective measure to prevent accidents. Hazard reporting is facilitated through the *Safety Railway Information (SRI)* app, which can be accessed by all employees. For the reporting entity

pekerja. Untuk mengakomodir pelapor yang tidak memiliki akses ke aplikasi *Safety Railway Information* maka disediakan media pelaporan melalui *WhatsApp Center Safety Railway Information* yang nantinya akan diteruskan ke aplikasi SRI. KAI menerapkan kebijakan untuk menjaga kerahasiaan identitas pelapor dan memberi jaminan bahwa tidak terdapat hukuman atau sanksi apa pun yang akan dikenakan bagi pelapor, berdasarkan Keputusan Direksi PT Kereta Api Indonesia (Persero) Nomor KEP.U/KK.301/XII/1/KA-2016.

Untuk memperkuat penerapan K3, KAI memiliki kebijakan dan SOP K3, yaitu Peraturan Direksi Tentang Menghentikan Operasional Kereta Api dan/atau Pekerjaan untuk Keselamatan Operasional Perkeretaapian, Keselamatan Kesehatan Kerja dan Lingkungan (K3L), serta Keamanan Di PT Kereta Api Indonesia (Persero). Kebijakan tersebut menyatakan bahwa apabila terjadi insiden yang membahayakan keselamatan, KAI memberikan hak kepada pekerja untuk menghentikan atau meninggalkan situasi kerja yang berpotensi menimbulkan kecelakaan kerja atau penyakit akibat kerja. Perusahaan menjamin keselamatan dan kesehatan pekerja melalui mekanisme pelaporan resmi *unsafe action* dan *unsafe condition*, budaya keselamatan yang proaktif, serta komitmen manajemen dalam mendukung penerapan prinsip *stop work authority*.

Sementara itu apabila terjadi kecelakaan kerja atau penyakit akibat kerja, KAI melakukan penanganan darurat dan pertolongan pertama, melaporkan serta mencatat kejadian sesuai ketentuan, melaksanakan investigasi untuk menemukan akar penyebab, serta menjalankan tindakan perbaikan dan pencegahan agar kejadian tidak terulang. Direktur Keselamatan dan Keamanan akan segera menetapkan tim khusus yang ditugaskan untuk melakukan proses investigasi terhadap insiden tersebut. Tim Investigasi tersebut kemudian akan segera menuju lokasi kejadian untuk melaksanakan rangkaian proses investigasi meliputi pengumpulan bukti/data lapangan, pengumpulan keterangan saksi, pengolahan dan analisis data, penyusunan laporan hasil investigasi mencakup hasil kesimpulan penyebab terjadinya insiden, hingga penyusunan rekomendasi perbaikan dan pencegahan.

Dalam penerapan proses investigasi insiden kecelakaan kereta api, KAI menggunakan metode ORILIO (*Organisational Influences, Operational Risk Control, Local Factors, Individual Actions and Occurrence Events*). Adapun, terhadap insiden kecelakaan kerja, KAI menerapkan pendekatan SCAT (*Systematic Cause Analysis Techniques*).

that does not have access to the Safety Railway Information app, a reporting medium is provided through the Safety Railway Information Whatsapp Center, which will then be forwarded to the SRI app. KAI implements a policy to maintain the confidentiality of the reporting entity's identity and guarantees that no punishment or sanctions will be imposed on the reporting entity, based on the Board of Directors Decree of PT Kereta Api Indonesia (Persero) Number KEP.U/KK.301/XII/1/KA-2016.

To strengthen the OHS implementation, KAI has an OHS policy and SOP, namely the Board of Directors Regulation concerning Stopping Train Operations and/or Work for Railway Operational Safety, Occupational Health, Safety, and Environment (OHSE), and Security at PT Kereta Api Indonesia (Persero). This policy states that if an incident poses a safety risk, KAI grants employees the right to stop or leave the work situation that has the potential to cause a work accident or occupational disease. The Company ensures employee safety and health through a formal reporting mechanism for unsafe acts and unsafe conditions, a proactive safety culture, and management commitment to supporting the implementation of the stop-work authority principle.

Meanwhile, in the event of a work accident or occupational disease, KAI provides emergency response and first aid, reports and records the incident in accordance with regulations, conducts an investigation to determine the root cause, and implements corrective and preventive measures to avert unwanted events from recurring. The Managing Director of Safety and Security will immediately establish a special team assigned to investigate the incident. The Investigation Team will then promptly go to the incident location to carry out a series of investigation processes, including collecting evidence/field data, gathering witness statements, processing and analyzing data, preparing an investigation report that includes conclusions on the causes of the incident, and preparing recommendations for improvements and prevention.

In the implementation of train accident incident investigations, KAI uses the ORILIO method (*Organizational Influences, Operational Risk Control, Local Factors, Individual Actions, and Occurrence Events*). For workplace accident incidents, KAI applies the SCAT (*Systematic Cause Analysis Techniques*) approach.

Setelah rangkaian proses investigasi selesai, Direktur Keselamatan dan Keamanan menyampaikan laporan hasil investigasi kepada seluruh pihak terkait. Kemudian Unit Safety melakukan proses *monitoring* terhadap pelaksanaan *safety action* berdasarkan rekomendasi tindakan perbaikan dan pencegahan yang dihasilkan dari laporan hasil investigasi.

#### Layanan Kesehatan [GRI 403-3, 403-6]

KAI menyediakan fasilitas kesehatan milik KAI, yaitu Klinik Mediska, yang dapat dimanfaatkan oleh pekerja, keluarga pekerja, hingga masyarakat. Penyediaan layanan kesehatan kerja tersebut diatur berdasarkan Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor PER.A/KL.104/I/1/KA-2019 tanggal 8 Januari 2019 tentang Standardisasi Minimum Fasilitas Klinik Mediska.

Untuk menjaga kinerja operasional berjalan sesuai target, KAI mewajibkan para pekerja untuk melakukan pemeriksaan kesehatan pekerja secara rutin melalui program *medical check-up* tahunan, dan pemeriksaan kesehatan, sebelum berdinis kepada awak sarana perkeretaapian di Pos Pemeriksaan Kesehatan (POSRIKKES). Pemeriksaan kesehatan sebelum menjalankan pekerjaan dinas sangat penting dilakukan guna memastikan para pekerja, termasuk masinis, bebas dari pengaruh alkohol. Ini adalah bagian dari prosedur pemeriksaan kesehatan yang dilakukan sebelum masinis dan asisten masinis mulai dinas. KAI memastikan kondisi masinis dalam keadaan sehat dan prima, sehingga perjalanan kereta api dapat berlangsung aman, nyaman, selamat, dan tepat waktu. Selain pemeriksaan bebas alkohol, masinis juga diperiksa untuk suhu tubuh dan tekanan darah.

Sesuai dengan Undang-undang (UU) Nomor 24 Tahun 2011 tentang Badan Penyelenggara Jaminan Sosial dan Peraturan Menteri Kesehatan No 3 Tahun 2023 tentang Standar Tarif Pelayanan Kesehatan. Dalam Penyelenggaraan Program Jaminan Kesehatan, KAI memberikan jaminan kesehatan kepada para pekerja dan keluarga pekerja.

Mengacu pada Peraturan Direksi Nomor: PER.U/KH.405/XII/1/KA-2023 Tentang Perubahan atas Peratutan Direksi Nomor: PER.U/KH.405/XI/1/KA-2020 tentang Jaminan Kesehatan, KAI mendaftarkan para pekerjanya mengikuti asuransi BPJS Kesehatan. Selain itu, KAI mengikutsertakan para pekerja, keluarga pekerja, dan calon pekerja untuk menjadi anggota Jaminan Kesehatan Perusahaan (JKP). JKP merupakan fasilitas pelayanan Kesehatan yang diselenggarakan oleh KAI yang memberikan sejumlah manfaat, antara lain:

- Manfaat Jaminan Kesehatan pada fasilitas kesehatan terdiri dari manfaat medis dan manfaat non medis.

After the entire investigation process is completed, the Managing Director of Safety and Security will present the investigation report to all relevant parties. Subsequently, the Safety Unit will monitor the implementation of safety actions based on the corrective and preventive action recommendations resulting from the investigation report.

#### Health Services [GRI 403-3, 403-6]

KAI offers health facilities owned by KAI itself, namely Mediska Clinics, which can be utilized by employees, their families, and the community. The provision of these occupational health services is regulated by the Director's Regulation of PT Kereta Api Indonesia (Persero) Number PER.A/KL.104/I/1/KA-2019 dated January 8, 2019, concerning Minimum Standardization of Mediska Clinic Facilities.

To maintain operational performance according to the target, KAI requires employees to conduct regular health checks for workers through an annual medical check-up program and pre-service health examinations for railway personnel at Health Examination Posts (POSRIKKES). Health checks before carrying out official work are crucial to ensure that employees, including train drivers, are free from the influence of alcohol. This is part of the health check procedure carried out before train drivers and assistant train drivers start working. KAI ensures that train drivers are in good health and prime condition so that train travel can be safe, comfortable, secure, and on time. In addition to the alcohol-free check, train drivers are also checked for body temperature and blood pressure.

In accordance with Law No. 24 of 2011 concerning the Social Security Administering Body and Minister of Health Regulation No. 3 of 2023 concerning Standard Health Service Tariffs, KAI provides health insurance to employees and their families.

Referring to the Regulation of the Board of Directors Number: PER.U/KH.405/XII/1/KA-2023 concerning Amendments to the Regulation of the Board of Directors Number: PER.U/KH.405/XI/1/KA-2020 concerning Health Insurance, KAI registers its employees for BPJS Kesehatan (Social Security Agency on Health). Additionally, KAI enrolls employees, their families, and prospective employees in the Company Health Insurance (JKP). JKP is a health service facility provided by KAI that offers several benefits, including:

- Health insurance benefits at health facilities consist of medical and non-medical benefits.

- Manfaat non medis diberikan berdasarkan kelas perawatan peserta.
- Manfaat medis diberikan sesuai dengan indikasi medis dan standar pelayanan serta tidak dibedakan berdasarkan kelas JKP.

Setiap peserta JKP berhak memperoleh manfaat Jaminan Kesehatan yang bersifat pelayanan kesehatan perorangan, mencakup pelayanan promotive, preventive, kuratif dan rehabilitative, termasuk pelayanan obat, alat kesehatan dan alat medis habis pakai sesuai dengan kebutuhan medis yang diperlukan.

Pelayanan kesehatan di fasilitas kesehatan yang disediakan oleh JKP, meliputi pelayanan di:

1. Fasilitas Kesehatan Perusahaan;
2. Fasilitas Kesehatan kerja sama/rujukan.

#### Kecelakaan Kerja dan Langkah Pencegahan Insiden Kematian [GRI 403-9, 403-10]

Dalam rangka meminimalisasi adanya risiko kerja berkenaan dengan aktivitas operasi Perseroan, KAI secara berkesinambungan melakukan investigasi dan pendataan terhadap insiden kecelakaan kerja secara berkala. KAI menerapkan proses Identifikasi Bahaya, Penilaian dan Pengendalian Risiko Keselamatan (IBPR) sebagai upaya memitigasi risiko kecelakaan kerja, penyakit akibat kerja, serta insiden kematian di tempat kerja. Untuk memperkuat upaya mitigasi, KAI juga mengimplementasikan Sistem Manajemen Keselamatan Perkeretaapian dengan memastikan keandalan peralatan kerja serta memberikan pelatihan K3 kepada pekerja secara berkala, sebagai upaya sistematis pencegahan insiden penyakit, kecelakaan hingga kematian di tempat kerja.

KAI berkomitmen untuk senantiasa memastikan kinerja operasional telah memenuhi prosedur yang ditetapkan demi menjamin keamanan dan keselamatan seluruh pekerja baik pekerja KAI maupun pekerja mitra usaha kami. Upaya kuat ini membawa hasil dengan tidak terdapatnya kematian pekerja KAI pada periode 2024. Berikut rekapitulasi kecelakaan kerja pada 3 (tiga) tahun terakhir:

- Non-medical benefits are provided based on the participant's treatment class.
- Medical benefits are provided according to medical indications and service standards and do not differ based on JKP class.

Every JKP participant is entitled to receive Health Insurance benefits that are individual health services, encompassing promotive, preventive, curative, and rehabilitative services, including medication, medical devices, and consumable medical equipment as needed.

Healthcare services at health facilities provided by JKP include services at:

1. Company Health Facilities;
2. Collaborative/Referral Health Facilities.

#### Work Accidents and Incident Prevention Measures [GRI 403-9, 403-10]

KAI conducts regular investigations and documentation of work accidents as a continuous effort to minimize work-related risks associated with the Company's operational activities. As a preventive measure to mitigate the risks of work accidents, occupational diseases, and fatalities in the workplace, KAI implements the Hazard Identification, Risk Assessment, and Safety Risk Control (IBPR) process. Additionally, KAI applies the Railway Safety Management System by ensuring the reliability of work equipment and providing regular occupational health and safety (OHS) training to employees as a systematic effort to prevent incidents of disease, accidents, and fatalities in the workplace.

KAI is committed to always ensuring that operational procedures fulfill the set procedures to guarantee the safety and security of all employees, including KAI employees and our business partners' employees. This strong effort has yielded results with no KAI employee deaths still occurring in 2024. The recapitulation for the last 3 (three) years is as follows:

- \*) Perhitungan jam kerja aman dilakukan terhadap hari kerja yang bebas dari kejadian kecelakaan kerja setiap tahun. Apabila terjadi kecelakaan kerja pada tahun berjalan, maka perhitungan jam kerja aman di reset dari tanggal kejadian kecelakaan terakhir hingga tanggal akhir tahun berjalan. Hasil yang disampaikan dalam tabel diatas adalah perhitungan rata-rata jam kerja aman dalam tiap tahunnya. Jumlah jam kerja aman dipengaruhi oleh kondisi pandemi yang terjadi di tahun 2021-2022 dimana operasional KA menjadi lebih sedikit dibandingkan di tahun 2023, serta pada tahun 2023 juga mulai ada penambahan jumlah pekerja dibandingkan tahun sebelumnya. / The calculation of safe working hours is based on workdays free from work accidents each year. If a work accident occurs during the year, the calculation of safe working hours is reset from the date of the last accident until the end of the current year. The results presented in the table above are the average calculation of safe working hours each year. The number of safe working hours was influenced by the pandemic conditions in 2021-2022, where train operations were reduced compared to 2023. Additionally, in 2023, there was an increase in the number of employees compared to the previous year.

### Partisipasi, Konsultasi, dan Komunikasi pekerja Tentang Keselamatan dan Kesehatan Kerja [GRI 403-4]

Sebagai upaya kepatuhan terhadap peraturan perundangan dan implementasi Sistem Manajemen Keselamatan Perkeretaapian (SMKP) yang terintegrasi dengan Sistem Manajemen Keselamatan dan Kesehatan Kerja (SMK3), Perseroan telah membentuk Komite Keselamatan, sesuai dengan Keputusan Direksi PT Kereta Api Indonesia (Persero) Nomor: SK.U/KO.101/I/2/RA-2024 Tentang Perubahan Atas Keputusan Direksi Nomor SK.U/KO.101/IV/1/KA/2020 Tentang Pembentukan Komite Keselamatan Tingkat Pusat. Komite Keselamatan terdiri dari Ketua, Sekretaris, dan Anggota yang merupakan perwakilan pekerja yang ditunjuk.

Komite Keselamatan berperan penting dalam mendorong seluruh karyawan untuk berkontribusi aktif dalam implementasi, evaluasi, serta sosialisasi K3. Komite Keselamatan ini secara umum bertugas sebagai fasilitator dalam implementasi aspek keselamatan perkeretaapian, keselamatan dan kesehatan kerja serta lingkungan hidup di seluruh wilayah kerja KAI baik di Daerah Operasi (Daop), Divisi Regional (Divre) ataupun Balai Yasa. Setiap bulan Komite Keselamatan secara rutin melaksanakan pertemuan guna membahas isu terkait keselamatan pada wilayah-wilayah tersebut. Bila terdapat permasalahan yang tidak dapat diputuskan pada tingkat Komite Keselamatan Daop, Divre, dan Balai Yasa akan disampaikan kepada Direktur Keselamatan dan Keamanan untuk selanjutnya dibahas pada Rapat Komite Keselamatan Tingkat Pusat. Pada tahun 2024 Komite Keselamatan Tingkat Pusat telah rutin menyelenggarakan rapat setiap bulan sebanyak 12 kali, dihadiri oleh DU, D2, D3, D5 beserta jajaran EVP, VP dari direktorat lainnya

### Employee Participation, Consultation, and Communication on Occupational Health and Safety [GRI 403-4]

As an effort to comply with laws and regulations and the implementation of the Railway Safety Management System (SMKP) which is integrated with the Occupational Safety and Health Management System (SMK3), the Company has formed a Safety Committee, in accordance with the Decree of the Board of Directors of PT Kereta Api Indonesia (Persero) Number: SK.U/KO.101/I/2/RA-2024 concerning Amendments to the Decree of the Board of Directors Number SK.U/KO.101/IV/1/KA/2020 concerning the Establishment of the Central Safety Committee. The Safety Committee consists of a Chairperson, Secretary, and Members who are appointed employee representatives.

The Safety Committee plays a crucial role in encouraging all employees to actively contribute to the implementation, evaluation, and dissemination of OHS. This Safety Committee generally serves as a facilitator in the implementation of aspects of railway safety, occupational safety and health and the environment throughout KAI's work areas, both in the Operational Area (Daop), Regional Division (Divre) or Balai Yasa. Every month the Safety Committee routinely holds meetings to discuss issues related to safety in these areas. If there are problems that cannot be resolved at the Daop, Divre, and Balai Yasa Safety Committee levels, they will be submitted to the Director of Safety and Security to be further discussed at the Central Safety Committee Meeting. In 2024, the Central Safety Committee has routinely held 12 monthly meetings, attended by DU, D2, D3, D5 along with EVPs, VPs from other directorates.

### Pelatihan Pekerja Mengenai Keselamatan dan Kesehatan Kerja [GRI 403-5]

Untuk meningkatkan kualitas Keselamatan dan Kesehatan Kerja (K3), KAI menyelenggarakan program pengembangan kompetensi untuk pekerja berupa mengikuti pelatihan internal dan pelatihan sertifikasi khusus yang bekerja sama dengan Lembaga Pelatihan eksternal bagi pekerja. Untuk pelatihan internal, KAI memberikan pelatihan materi K3. Materi ini wajib dikuasai pada penyelenggaraan pelatihan di Training Center KAI. Pada pelatihan sertifikasi khusus, KAI bekerja sama dengan Lembaga Pelatihan/ Sertifikasi eksternal yang sudah mendapatkan penunjukan dari Kementerian Ketenagakerjaan, Badan Nasional Sertifikasi Profesi (BNSP), dan lainnya sesuai kebutuhan. Pada tahun 2024 pelatihan K3 yang diberikan diuraikan pada tabel berikut:

### Employee Training on Occupational Health and Safety [GRI 403-5]

To improve the quality of Occupational Health and Safety (OHS), KAI conducts competency development programs for employees in the form of participation in internal training and specialized certification training in collaboration with external training institutions for employees. In internal training, KAI includes OHS material as mandatory content that must be mastered during training sessions at the KAI Training Center. For specialized certification training, KAI collaborates with external Training Institutions that have been appointed by the Ministry of Manpower, the National Professional Certification Agency (BNSP), and others as needed. In 2024, the OHS training provided is described in the following table:

### Pencegahan dan Mitigasi Dampak-Dampak Keselamatan dan Kesehatan Kerja yang Secara Langsung Terkait Hubungan Bisnis [GRI 403-7]

Untuk mewujudkan pengelolaan risiko yang efektif dan efisien, KAI mengimplementasikan proses Identifikasi Bahaya, Penilaian dan Pengendalian Risiko Keselamatan (IBPR). Dengan menerapkan IBPR, KAI dapat melakukan upaya preventif dan mitigasi terhadap risiko keselamatan, yang mencakup risiko kecelakaan kereta api, kecelakaan kerja, penyakit akibat kerja, dan pencemaran lingkungan hidup.

IBPR telah diterapkan pada seluruh Daerah Operasional (Daop), Divisi Regional (Divre) dan Balai Yasa Sarana. Hasil IBPR yang dilakukan pada level unit, kemudian dibahas secara rutin setiap bulan di dalam Rapat Komite Keselamatan Tingkat Daerah, untuk dilaporkan kepada Direktorat Keselamatan dan Keamanan. Proses IBPR diterapkan secara terintegrasi ke dalam sistem Manajemen Risiko Terpadu (Enterprise Risk Management) yang difasilitasi melalui aplikasi Sistem Manajemen Risiko Terpadu Kereta Api (SMARTKA). Untuk menjaga kinerja operasional berjalan baik, KAI terus-menerus melakukan pengembangan terhadap proses IBPR yang dilakukan melalui evaluasi dan perbaikan secara berkesinambungan, sehingga pengelolaan risiko keselamatan dapat berjalan optimal.

### Pelatihan dan Pengembangan Kemampuan Pegawai [OJK F.22][GRI 404]

Sebagai wujud pemenuhan hak bagi pekerja untuk dapat mengembangkan kompetensi sekaligus untuk meningkatkan produktivitas kinerja pekerja, KAI menyelenggarakan program pelatihan dan pengembangan kemampuan pekerja. Secara periodik, KAI melaksanakan kegiatan pelatihan dan pendidikan pekerja, yang diharapkan mampu menghadirkan SDM yang unggul dan kompetitif sekaligus mendukung upaya peningkatan kualitas pelayanan bagi pelanggan, hubungan kerja dengan mitra usaha, serta hubungan baik dengan masyarakat.

Program pengembangan kompetensi bagi pekerja yang dirancang dan dilaksanakan oleh KAI sejalan dengan pencapaian visi dan misi Perseroan tahun 2020-2024, dan mengakomodir talenta baru bagi Perseroan. Untuk mengoptimalkan pelaksanaan program pengembangan kompetensi KAI memiliki Divisi Training & Education yang

### Prevention and Mitigation of Occupational Health and Safety Impacts Directly Linked by Business Relationships [GRI 403-7]

To realize effective and efficient risk management, KAI implements the Hazard Identification, Risk Assessment, and Safety Risk Control (IBPR) process. By implementing IBPR, KAI can take preventive and mitigation measures against safety risks, which include railway accidents, occupational accidents, work-related illnesses, and environmental pollution.

IBPR is applied across all Operational Areas (Daop), Regional Divisions (Divre), and Balai Yasa Sarana. The results of the IBPR conducted at the unit level are routinely discussed monthly in the Regional Safety Committee Meetings and reported to the Directorate of Safety and Security. The IBPR process is integrated into the Enterprise Risk Management (ERM) system, facilitated through the Integrated Railway Risk Management System (SMARTKA) app. KAI is committed to continuously implementing and developing the IBPR process through ongoing evaluation and improvement to ensure that safety risk prevention, mitigation, and management are carried out optimally.

### Employee Training and Development [OJK F.22][GRI 404]

As a form of fulfillment of employees' rights to be able to develop their competencies as well as to increase employee performance productivity, KAI organizes employee training and development programs. KAI periodically conducts employee training and education activities, which are expected to be able to produce superior and competitive human resources while supporting the improvement of service quality for customers, fostering working relationships with business partners, and maintaining good relations with the community.

The competency development program for employees designed and implemented by KAI is in line with the achievement of the Company's vision and mission for 2020-2024, and accommodates new talents for the Company. To optimize the implementation of the competency development program, KAI has a Training & Education Division that has

bertransformasi menjadi KAI Corporate University. Divisi ini bertanggung jawab dalam mengelola perencanaan, pengendalian, dan evaluasi pelaksanaan program, hingga merencanakan materi pendidikan dan pelatihan. Selain itu, divisi ini bertugas memelihara fasilitas program, menyusun standarisasi kualitas dan sertifikasi/ pengujian SDM sesuai kebutuhan Perseroan, serta melakukan pengelolaan pengembangan pegawai.

Sebagai pemenuhan hak asasi manusia dan menciptakan kualitas SDM yang berkarakter, KAI memberikan kesempatan yang sama kepada seluruh pekerja (100%) untuk mengikuti pengembangan kompetensi tanpa adanya diskriminasi apapun termasuk latar belakang mereka.

Program pelatihan dan pengembangan kompetensi pekerja dilakukan berdasarkan ketentuan internal berupa Keputusan Direksi PT Kereta Api Indonesia (Persero) tentang Petunjuk Pelaksanaan Sistem Pengembangan Karier. Berdasarkan ketentuan tersebut, pengembangan karier di dalam organisasi KAI diterapkan melalui program pendidikan dan pelatihan (Diklat), yang terdiri dari Diklat Pembentukan, Diklat Profesional, dan Diklat Manajerial. Upaya ini merupakan wujud upaya KAI dalam memberikan kesempatan yang transparan dan setara bagi seluruh pekerja (100%) untuk dapat mengisi berbagai posisi jabatan, melalui sistem promosi, jenjang karier, serta jalur pengembangan karier yang dievaluasi secara objektif berdasarkan kompetensi yang dimiliki.

### **Kebijakan dan Pelaksanaan Pengembangan Kompetensi [GRI 3-3, 404-2]**

Perseroan telah melakukan penyesuaian terhadap model kompetensi yang diterapkan untuk pekerja KAI, sebagai upaya menyesuaikan perkembangan peran SDM dan perubahan tantangan yang dihadapi. Hal ini dilakukan untuk mendukung tercapainya visi dan misi Perseroan, sejalan dengan pencapaian Rencana Jangka Panjang Perusahaan (RJPP) tahun 2020-2024. Di samping itu, penyesuaian model kompetensi dilakukan untuk mengakomodasi kapabilitas baru di dalam struktur organisasi Perseroan. Model Kompetensi KAI tersebut diberlakukan berdasarkan Peraturan Direksi PER.U/ KH.503/IX/1/KA-2021 tentang Kamus dan Profil Kompetensi.

Model Kompetensi KAI meliputi kompetensi yang bersifat non-teknis (*soft-competency*) dan teknis (*hard-competency*). Kompetensi non-teknis mengacu pada kompetensi yang berkaitan dengan kemampuan mengelola proses pekerjaan,

transformed into KAI Corporate University. This division is responsible for managing the planning, control, and evaluation of program implementation, including planning educational and training materials. In addition, this division is responsible for maintaining program facilities, preparing quality standards and HR certification/testing according to the Company's needs, and managing employee development.

As a fulfillment of human rights and to create quality human resources with character, KAI provides equal opportunities for all employees (100%) to develop their competencies without any discrimination, including based on their background.

The employee training and competency development programs are conducted based on internal regulations, specifically the Board of Directors Resolution of PT Kereta Api Indonesia (Persero) regarding the Implementation Guidelines for the Career Development System. According to these regulations, career development within KAI is implemented through education and training programs (Diklat), which include Formation Training, Professional Training, and Managerial Training. This is KAI's effort to provide transparent and equal opportunities for all (100%) employees to fill various positions through a promotion system, career paths, and career development tracks that are objectively evaluated based on their competencies.

### **Competency Development Policy and Implementation [GRI 3-3, 404-2]**

The Company has adjusted the competency model applied to KAI employees, as the role of human resources evolves and new challenges arise, which is carried out to support the achievement of the Company's vision and mission, in line with the Long-Term Corporate Plan (RJPP) for 2020-2024. Moreover, the adjustment to the competency model is made to accommodate new capabilities within the Company's organizational structure. The KAI Competency Model is implemented based on the Director's Regulation PER.U/ KH.503/IX/1/KA-2021 concerning the Competency Dictionary and Profiles.

The KAI Competency Model includes both non-technical (*soft-competency*) and technical (*hard-competency*) competencies. Non-technical competencies refer to skills related to managing work processes, interpersonal relationships,

mengelola hubungan antarmanusia, serta membangun interaksi dengan orang lain, terdiri dari *Basic*, *Core*, dan *Leadership*. Sementara kompetensi teknis merupakan keterampilan teknis yang melekat atau dibutuhkan untuk profesi/posisi tertentu, terdiri dari *Technical*, *Business*, *Digital*, dan *Management*. Berikut penjelasan mengenai Model Kompetensi KAI:

and building interactions with others, and are categorized into Basic, Core, and Leadership. Technical competencies involve the specific skills required for particular professions/positions and are divided into Technical, Business, Digital, and Management. An explanation of the KAI Competency Model can be seen in the following illustration:

- **Leadership** is a development program designed to prepare the Company's leaders to compete with other state-owned enterprises (SOEs) by fulfilling leadership competencies for executives.

Model pengembangan yang diimplementasikan oleh KAI dilakukan secara individual maupun kelompok. Secara individual, pekerja diberikan program pengembangan sesuai Prinsip 70:20:10, dengan penjelasan sebagai berikut:

- Prinsip 70 dimana pekerja setiap tahun akan dilakukan rotasi dan diberikan *project assignment* khusus.
- Prinsip 20 dimana pekerja akan diberikan pendampingan dari *coach* internal dan eksternal.
- Prinsip 10 dimana pekerja akan diberikan pelatihan dan pengembangan sesuai *Learning Development System* di atas.

Sementara secara kelompok, pekerja mendapatkan program pengembangan terintegrasi sesuai Model Kompetensi KAI.

The development model implemented by KAI is carried out both individually and in groups. Individually, employees are provided with development programs based on the 70:20:10 Principle, with the following description:

- 70 Principle Employees will undergo rotation and be assigned special projects each year.
- 20 Principle Employees will receive coaching from internal and external coaches.
- 10 Principle Employees will receive training and development according to the Learning Development System outlined above.

Meanwhile, in groups, employees receive integrated development programs according to the KAI Competency Model.

**Rata-Rata Jam Pelatihan Per Tahun Per Pegawai [GRI 404-1]**

KAI menghitung dan mengungkapkan jumlah rata-rata jam pelatihan per tahun per pekerja sebagai bagian dari upaya penerapan keuangan berkelanjutan. Hasil penghitungan tersebut dijadikan dasar dalam melakukan pengembangan program pelatihan untuk tahun selanjutnya. Pada 2024, KAI telah mengikutsertakan sejumlah 19.505 pekerja atau 197% dari total jumlah pekerja yang diprogramkan mengikuti pelatihan sebanyak 9.901. Rata-rata jam pelatihan per karyawan 80,21, dengan rincian rata-rata jam pelatihan mencapai 82,21 jam per pekerja laki-laki per tahun dan 47,17 jam per pekerja perempuan per tahun. KAI terus berupaya evaluasi agar di masa yang mendatang rata-rata jam pelatihan pekerja perempuan dan laki-laki semakin seimbang.

**Average Training Hours Per Year Per Employee [GRI 404-1]**

KAI calculates and discloses the average number of training hours per employee per year as part of its sustainable finance efforts. The results of this calculation will serve as the basis for developing the training program for the following year. In 2024, KAI had enrolled 19,505 workers, or 197% of the total number of workers programmed to participate in 9,901 trainings. The average training hours per employee was 80.21, with an average of 82.21 hours per male worker per year and 47.17 hours per female worker per year. KAI continues to evaluate its efforts to ensure a more balanced average training hours for male and female workers in the future.

## Pengembalian Investasi Sumber Daya Manusia

Untuk menjaga kelangsungan usaha, KAI berfokus untuk memberikan nilai tambah bagi Perseroan melalui pendekatan yang terintegrasi, terarah, terukur, dan akuntabel melalui penilaian *Return On Investment* (ROI). Dengan demikian, KAI dapat menghitung nilai investasi awal untuk setiap program pengembangan pekerja (*initial investment amount*) dan manfaat yang diterima oleh penerima manfaat (*impact value*) dari investasi tersebut.

## Human Capital Return on Investment

To maintain business continuity, KAI focuses on creating value for the Company with an integrated, targeted, measurable, and accountable approach through a Return On Investment (ROI) assessment. Thus, KAI can calculate the initial investment amount for each employee development program and the impact value received by beneficiaries from that investment.

## ASPEK SOSIAL-KEMASYARAKATAN

### Dampak Operasi Terhadap Masyarakat Sekitar [OJK F.23] [GRI 3-3, 413-1]

KAI tidak hanya berfokus pada perolehan laba dalam menjalankan kegiatan usahanya. KAI juga berkomitmen untuk menghadirkan nilai positif kepada masyarakat, yang diwujudkan memberikan dukungan bagi peningkatan ekonomi daerah. Aktivitas operasional KAI selama ini diupayakan dapat mendukung aksesibilitas dan mobilitas masyarakat yang semakin tinggi. Untuk itu, aktivitas bisnis KAI berfokus pada terciptanya dampak positif, antara lain percepatan pengembangan wilayah, penyerapan tenaga kerja lokal, penggunaan pemasok lokal, hingga berkontribusi dalam percepatan komunikasi penduduk antar-daerah. Aktivitas operasional KAI juga berkontribusi besar bagi pertumbuhan sektor logistik, seiring semakin mudahnya proses distribusi barang dari produsen menuju pihak konsumen. Sektor lain yang ikut menerima dampak positif adalah sektor pariwisata, karena moda transportasi kereta api mampu memenuhi kebutuhan wisatawan melalui kemudahan akses ke sejumlah destinasi wisata.

KAI berkomitmen untuk tetap hadir sebagai solusi bagi kebutuhan masyarakat sebagai moda transportasi pendukung keterhubungan antar wilayah, dan telah menghadirkan kontribusi signifikan secara sosial dan ekonomi. KAI berupaya untuk dapat terus mendukung perputaran ekonomi masyarakat dengan membangun kolaborasi yang strategis dengan segenap pemangku kepentingan. Seluruh operasi (100%) kami sudah melewati tahapan panjang penilaian

## SOCIAL AND COMMUNITY ASPECTS

### Impact of Operations on Surrounding Communities [OJK F.23] [GRI 3-3, 413-1]

KAI does not only focus on making a profit in carrying out its business activities, but it is also committed to providing positive values to the community, which is realized in providing support for improving regional economic growth. KAI's operational activities have so far been attempted to support increasing accessibility and mobility for the community. Therefore, KAI's operations focus on creating positive impacts, including regional development acceleration, local workforce absorption, the use of local suppliers, and contributing to faster inter-regional communication. KAI's operations also significantly contribute to the growth of the logistics sector, making the distribution process from producers to consumers easier. Another sector benefiting from KAI's operations is tourism, as rail transport meets tourists' needs by providing easy access to various tourist destinations.

KAI is committed to remaining present as a solution to the needs of the community as a mode of transport supporting inter-regional connectivity and has made significant social and economic contributions. KAI strives to continue supporting the community's economic circulation by building strategic collaborations with all stakeholders. All (100%) of our operations have undergone extensive environmental and social assessments approved by the government and

lingkungan dan sosial yang disetujui terutama oleh pemerintah dan masyarakat setempat. Atas dasar itu, seluruh (100%) program Tanggung Jawab Sosial dan Lingkungan (TJSL) kami telah dirancang dan dijalankan sesuai dengan pemetaan sosial yang berfokus kepada masyarakat. **[GRI 413-1]**

Nilai ekonomi yang kami hadirkan bagi pemangku kepentingan dalam bentuk program-program TJSL yang berorientasi mencapai Tujuan Pembangunan Berkelanjutan (*Sustainable Development Goals/SDGs*), diwujudkan dalam kegiatan-kegiatan penyaluran manfaat yang terbagi ke dalam aspek ekonomi, sosial, dan lingkungan. Program TJSL KAI antara lain, KAI DungMas (bakti sosial seperti paket sembako dan hewan kurban), KAI Sehat Sejahtera (bantuan peningkatan kesehatan), KAI Edu Friend (peningkatan kualitas dan fasilitas pendidikan), Kolaborasi Bantuan Pendidikan bersama Yayasan BUMN, KAI Pling (bantuan pengembangan prasarana dan sarana umum, pengelolaan sampah, dan penanaman pohon), KAI Sar-I (bantuan sarana ibadah), KAI Go Green (pengelolaan sampah dan penanaman pohon), Mitra KAI (MiKA) Hasanah (sertifikasi halal produk UMK mitra), MiKA Go Global (mengikutsertakan UMK mitra dalam pameran dalam dan luar negeri), MiKA Naik Kelas (pelatihan dan pendampingan UMK mitra), Teras UMK (menyediakan lokasi komersial untuk mitra UMK di lingkungan stasiun), dan Pendanaan UMK.

Meskipun KAI berupaya sungguh-sungguh untuk menerapkan mitigasi risiko, aktivitas operasional KAI menghadirkan dampak negatif terhadap masyarakat sekitar, antara lain terdapatnya perlintasan sebidang jalur kereta api tanpa izin dan/atau tanpa penjaga yang berpotensi menimbulkan kecelakaan atau kemacetan kendaraan akibat pergerakan kendaraan dari dan menuju stasiun. Kereta api memiliki jalur tersendiri dan tidak dapat berhenti secara tiba-tiba, sehingga masyarakat pengguna jalan harus mendahulukan perjalanan KA saat melalui perlintasan sebidang. Hal tersebut sesuai UU Nomor 23 Tahun 2007 tentang Perkeretaapian dan UU Nomor 22 Tahun 2009 tentang Lalu Lintas dan Angkutan Jalan. Berbeda dengan transportasi darat pada umumnya, kereta api memiliki karakteristik yang secara teknis tidak dapat berhenti secara mendadak. Atas dasar itu, KAI selalu mengimbau masyarakat agar lebih waspada dan berhati-hati sebelum melewati perlintasan sebidang. Perlintasan sebidang ialah area antara jalan dan jalur rel kereta api yang berada pada bidang tanah yang sama. Faktor-faktor yang menyebabkan kereta api tidak dapat mengerem mendadak adalah sebagai berikut:

#### 1. Panjang dan Berat Rangkaian Kereta Api

Semakin panjang dan berat rangkaiannya, maka jarak yang dibutuhkan kereta api untuk dapat benar-benar berhenti

local communities. On that basis, all (100%) of our Social and Environmental Responsibility (CSER) programs are designed and implemented in accordance with social mapping that focuses on society. **[GRI 413-1]**

The economic value we bring to stakeholders in the form of CSER programs oriented towards achieving Sustainable Development Goals (SDGs), manifested in activities that distribute benefits across economic, social, and environmental aspects. KAI's CSER programs include KAI DungMas (social services such as food package distribution and sacrificial animals), KAI Sehat Sejahtera (health improvement assistance), KAI Edu Friend (improving education quality and facilities), Educational Assistance Collaboration with the SOE Foundation, KAI Pling (assistance in the development of public infrastructure and Rolling Stock, waste management, and tree planting), KAI Sar-I (assistance for worship Rolling Stock), and KAI Go Green (waste management and tree planting), KAI Partner (MiKA) Hasanah (halal certification for partner MSME products), MiKA Go Global (involving partner MSMEs in domestic and international exhibitions), MiKA Naik Kelas (training and mentoring for partner MSMEs), UMK Terrace (providing commercial locations for partner MSMEs within station environments), and MSME Funding.

Although KAI truly strives to implement risk mitigation, KAI's operational activities have negative impacts on the surrounding community, particularly creating level crossings of railway tracks without permission and/or without guards, which can potentially lead to accidents or traffic congestion due to vehicle movements to and from the station. Trains have their own tracks and cannot stop suddenly, so road users must give priority to trains. All road users are required to prioritize train travel when crossing level crossings. This is in accordance with Law No. 23 of 2007 concerning Railways and Law No. 22 of 2009 concerning Road Traffic and Transportation. Unlike general land transport, trains have characteristics that technically prevent them from stopping abruptly. Therefore, KAI always urges the public to be more vigilant and cautious before crossing level crossings. A level crossing is an area where a road and a railway track intersect on the same level of ground. Factors that cause trains to be unable to brake suddenly are as follows:

#### 1. Length and Weight of the Train

The longer and heavier the train, the greater the distance required for it to come to a complete stop. KAI passenger

akan semakin panjang. Kereta penumpang KAI terdiri dari 8-12 gerbong kereta dengan bobot mencapai 600 ton, belum termasuk penumpang dan barang bawaannya. Saat sudah melaju akan dibutuhkan energi yang besar untuk membuat rangkaian kereta api berhenti.

## 2. Sistem Pengereman

Pengereman yang dipakai pada kereta KAI pada umumnya menggunakan sistem jenis rem udara. Cara kerjanya adalah dengan mengompresi udara dan disimpan hingga proses pengereman terjadi. Saat masinis mengaktifkan sistem pengereman, udara tadi akan didistribusikan melalui pipa kecil di sepanjang roda dan membuat friksi pada roda. Friksi ini yang akan membuat kereta berhenti.

Walaupun kereta api telah dilengkapi dengan sistem pengereman, kereta tetap tidak bisa berhenti mendadak. Jadi, meskipun masinis telah melihat ada yang menerobos palang kereta, lalu kemudian melakukan proses pengereman, maka tetap akan membutuhkan suatu jarak agar kereta benar-benar dapat berhenti. Hal inilah yang dapat menyebabkan kejadian tabrakan, apabila jarak pengereman tidak terpenuhi.

Sebaliknya, sistem pengereman pada roda dihubungkan ke piston dan susunan silinder. Mekanisme yang mengurangi tekanan udara di kereta api akan memaksa rem mengunci dengan roda. Jika tekanan dilepaskan secara tiba-tiba, maka akan menyebabkan pengereman yang tidak seragam, sehingga rem bekerja lebih dulu dari titik keluarnya udara. Pengereman yang tidak seragam dapat menyebabkan kereta atau gerbong tergelincir, terseret, bahkan terguling yang dapat membahayakan penumpang dan pekerja yang berada di dalamnya.

Berdasarkan UU Nomor 22 Tahun 2009 tentang Lalu Lintas Angkutan Jalan, tata cara melintas di perlintasan sebidang sesuai adalah berhenti di rambu tanda "STOP", menengok kiri dan kanan baik perlintasan tersebut dijaga maupun tidak, dan memperhatikan palang pintu, suara sirene, dan isyarat dari penjaga perlintasan. Bila sirene sudah berbunyi dan palang pintu kereta api mulai ditutup, maka seluruh pengguna jalan wajib untuk menunggu kereta api lewat.

KAI senantiasa mengimbau masyarakat pengguna jalan untuk berhenti terlebih dahulu dan menunggu hingga kereta api tersebut selesai lewat dari kedua arah meskipun kereta api sudah terlihat dan masih cukup jauh jaraknya. Masyarakat diharapkan agar berhati-hati saat akan melintasi perlintasan sebidang, disiplin mematuhi rambu-rambu, dan memastikan jalur yang akan dilalui sudah aman dengan melihat kanan dan kiri. Apabila telah yakin aman, baru melintas.

trains consist of 8-12 carriages with a weight of up to 600 tons, not including passengers and their baggage. Once in motion, a significant amount of energy is needed to stop the train.

## 2. Braking System

The braking system used on KAI trains generally employs an air brake system. It works by compressing air, which is stored until braking is required. When the train driver activates the braking system, the compressed air is distributed through small pipes along the wheels, creating friction on the wheels. This friction is what brings the train to a stop.

Although trains are equipped with braking systems, they are still unable to stop abruptly. Thus, even if the train driver sees someone bypassing the crossing barriers and initiates braking, the train will still need a certain distance to come to a complete stop. This can lead to collisions if the braking distance is not adequate.

On the other hand, the braking system involves connecting the wheels to pistons and cylinder arrangements. The mechanism that reduces air pressure in the train forces the brakes to lock with the wheels. If the pressure is suddenly released, it can cause uneven braking, with the brakes engaging before the air is fully expelled. Uneven braking can lead to the train or carriages derailing, skidding, or overturning, which poses a danger to passengers and workers inside.

According to Law No. 22 of 2009 concerning Road Traffic and Transportation, the procedure for crossing a level crossing is to stop at the "STOP" sign, look left and right regardless of whether the crossing is guarded or not, and pay attention to the crossing gates, siren sounds, and signals from the crossing guard. If the siren sounds and the railway gates start to close, all road users must wait for the train to pass.

KAI always urges road users to stop and wait even if they see a train approaching from a distance. They should wait until the train has completely passed from both directions. The public is advised to be cautious when approaching level crossings, follow traffic signs diligently, and ensure the crossing is clear by looking to the right and left. Only cross once it is confirmed to be safe.

Walaupun telah melakukan berbagai upaya mitigasi, pada tahun 2024 KAI mencatat telah terjadi 337 kali kecelakaan di perlintasan sebidang dengan jumlah korban meninggal sebanyak 55 orang, luka berat sebanyak 22 orang, dan luka ringan sebanyak 52 orang.

Atas kejadian tersebut, KAI turut berduka cita dan prihatin serta menyampaikan ucapan turut berbelasungkawa kepada para keluarga korban. KAI memohon seluruh pihak sesuai dengan kewenangannya masing-masing agar lebih peduli dan memberikan perhatian untuk meningkatkan sistem keselamatan dan penertiban di perlintasan sebidang.

Sesuai Peraturan Menteri Perhubungan No 94 Tahun 2018 tentang Peningkatan Keselamatan Perlintasan Sebidang Antara Jalur Kereta Api dengan Jalan, wewenang untuk penanganan dan pengelolaan perlintasan sebidang antara jalur KA dan jalan dilakukan oleh pemilik jalannya. Pengelolaan untuk perlintasan sebidang yang berada di jalan nasional dilakukan oleh Menteri, Gubernur untuk perlintasan sebidang yang berada di jalan provinsi, dan Bupati/Wali Kota untuk perlintasan sebidang yang berada di jalan kabupaten/kota dan desa desa, serta badan hukum atau lembaga untuk Jalan khusus yang digunakan oleh badan hukum atau lembaga.

Sementara peningkatan keselamatan pada perlintasan sebidang kereta api, seperti menjadikan perlintasan tidak sebidang atau pemasangan pintu perlintasan bagi yang belum terpasang, merupakan wewenang pemerintah pusat atau daerah sesuai dengan kelas jalannya. Sampai saat ini, terdapat 3.693 perlintasan sebidang jalur kereta api yang terdiri dari 1.598 (43%) perlintasan dijaga dan 2.095 (56%) perlintasan tidak dijaga. Perlintasan sebidang tersebut tersebar di berbagai jenis jalan seperti jalan nasional, jalan provinsi, jalan kabupaten/kota dan jalan desa, serta jalan khusus yang digunakan oleh badan hukum atau lembaga.

Di samping memperhatikan penanganan dan pengelolaan perlintasan kereta api, KAI juga senantiasa mengimbau para pemilik jalan agar pemilik jalan melakukan evaluasi keselamatan atas keberadaan perlintasan sebidang di wilayahnya sesuai kelasnya. Keberadaan perlintasan sebidang di sebagian tempat melewati pemukiman warga dan daerah industri, sehingga rawan terjadi kecelakaan. Setiap perlintasan sebidang yang ada harus dilakukan evaluasi paling sedikit 1 (satu) tahun sekali oleh Direktur Jenderal Kementerian Perhubungan untuk jalan nasional, Gubernur untuk jalan provinsi, dan Bupati/Walikota untuk jalan kabupaten/kota dan jalan desa. Hasil evaluasi tersebut disertai rekomendasi

Despite having made various mitigation efforts, KAI has recorded 337 incidents at level crossings in 2024, with 55 fatalities, 22 people seriously injured, and 52 people with minor injuries.

Due to those incidents, KAI extends its condolences, expresses concern, and regrets all the traffic accidents that have occurred, and offers its deepest sympathy to the families of the victims. KAI urges all parties, within their respective authorities, to be more attentive and take action to improve safety systems and enforcement at level crossings.

According to Minister of Transportation Regulation No. 94 of 2018 concerning Improving the Safety of Level Crossings Between Railways and Roads, the responsibility for managing and handling level crossings between railway tracks and roads lies with the road owners. The management of level crossings on national roads is handled by the Minister, while those on provincial roads are managed by the Governor, and those on district/city and village roads are managed by the Regent/Mayor. For specialized roads used by legal entities or institutions, the responsibility falls on these entities.

Meanwhile, improvements in safety at railway level crossings, such as making them grade-separated or installing crossing gates where none exist, fall under the jurisdiction of the central or regional government, depending on the road class. Currently, there are 3,693 level crossings on railway tracks, comprising 1,598 (43%) guarded crossings and 2,095 (56%) unguarded crossings. These level crossings are distributed across various types of roads, including national, provincial, district/city, village roads, and specialized roads used by legal entities or institutions.

In addition to paying attention to the handling and management of railway crossings, KAI consistently emphasizes that road owners should conduct safety evaluations of level crossings in their areas according to their class. Many level crossings pass through residential areas and industrial zones, making them prone to accidents. Each level crossing must be evaluated at least once a year by the Director General of the Ministry of Transportation for national roads, the Governor for provincial roads, and the Regent/Mayor for district/city and village roads. The evaluation results should include recommendations on whether the crossing should be grade-separated, closed, or improved with safety measures such as signage, gates,

apakah perlintasan tersebut dibuat menjadi tidak sebidang, ditutup, atau ditingkatkan keselamatannya dengan memasang rambu-rambu, portal, palang pintu, isyarat lampu, penerangan, tulisan, suara, dan penjaga perlintasan sebidang.

KAI juga melakukan mitigasi risiko timbulnya perlintasan sebidang liar atau tidak resmi di jalur kereta api melalui pengecekan rutin dan menyeluruh di sepanjang lintasan. Ketika petugas kami menemukan adanya perlintasan liar atau tidak resmi, KAI berkoordinasi dengan pemilik jalan setempat untuk melakukan penutupan perlintasan sekaligus melakukan sosialisasi keselamatan perjalanan kereta api. Pada kurun waktu beberapa tahun terakhir sejak 2019 sampai 2024, KAI melakukan penutupan perlintasan sebidang sebanyak 1.369 perlintasan dengan pelaksanaan yang tersebar di setiap wilayah Daerah Operasi (Daop) dan Divisi Regional (Divre).

Untuk meningkatkan edukasi dan informasi kepada para pemilik jalan, KAI juga telah melakukan sosialisasi terkait keselamatan di perlintasan sebidang secara rutin setiap tahunnya. Pada tahun 2023 sampai 2024, sebanyak 2.176 kali sosialisasi telah dilakukan yang bekerja sama dengan komunitas, Dinas Perhubungan, Jasa Marga, Direktorat Jenderal Perkeretaapian, serta Kepolisian. **[GRI 413-2]**

#### Identifikasi dan Strategi dalam Memenuhi Hak Masyarakat Adat atau Masyarakat Setempat **[GRI 411-1, 413-2]**

Masyarakat lokal merupakan pemangku kepentingan yang memiliki dampak signifikan bagi Perseroan. Sebagai upaya membina hubungan yang harmonis dengan masyarakat, adat, KAI berkomitmen kuat melakukan pemenuhan hak-hak masyarakat setempat di sekitar area operasional. Secara khusus, pemenuhan hak-hak masyarakat sekitar juga mencakup pemenuhan terhadap hak-hak masyarakat adat, sebagai wujud pengakuan KAI terhadap keberadaan tradisi dan warisan budaya dari berbagai komunitas etnis yang ada di sekitar wilayah operasional kami.

Per 31 Desember 2024, kegiatan operasional KAI tidak memiliki persinggungan secara langsung dengan praktik adat ataupun warisan budaya masyarakat adat tertentu. **[GRI 411-1]**

#### Pengaduan Masyarakat **[OJK F.24]** **[GRI 2-25, 2-26, 413-1]**

Sebagai upaya untuk meningkatkan kualitas layanan kepada publik, KAI sangat terbuka terhadap saran, kritik, maupun pengaduan masyarakat lainnya. KAI memiliki sarana yang terbuka dan dapat dimanfaatkan dengan mudah oleh pemangku kepentingan untuk melaporkan atau

barriers, traffic lights, lighting, markings, audio signals, and crossing guards.

KAI also contributes to mitigating the risk of unauthorized or informal level crossings on railway tracks. Our personnel routinely conduct thorough inspections along the tracks. When an informal or unauthorized crossing is found, KAI coordinates with local road owners to close the crossing and conduct safety awareness campaigns about railway travel. Over the past few years, from 2019 to 2023, KAI has closed 1,369 level crossings, with implementation spread across various Operational Areas (Daop) and Regional Divisions (Divre).

To improve education and information for road owners, KAI has also conducted safety dissemination related to level crossings regularly every year. From 2023 to 2024, a total of 2,176 dissemination events were carried out in collaboration with communities, the Department of Transportation, Jasa Marga, the Directorate General of Railways, and the Police. **[GRI 413-2]**

#### Identification and Strategy in Fulfilling the Rights of Indigenous Peoples or Local Communities **[GRI 411-1, 413-2]**

Local communities are stakeholders that can significantly impact the Company. As an effort to build harmonious relations with society and customs, KAI is committed to fulfilling the rights of local communities around its operational areas. Specifically, fulfilling the rights of surrounding communities also includes respecting the rights of indigenous peoples, as a form of KAI's acknowledgment of the traditions and cultural heritage of various ethnic communities around our operational areas.

As of December 31, 2024, all of KAI's operations did not directly intersect with the customs or cultural heritage practices of any specific indigenous community. **[GRI 411-1]**

#### Community/Public Complaints **[OJK F.24]** **[GRI 2-25, 2-26, 413-1]**

As an effort to improve service quality to the public, KAI is very open to suggestions, criticism, and other complaints from the public. KAI provides open and easily accessible facilities to be utilized by stakeholders in reporting or filing complaints regarding findings that contradict ethics, integrity, and

menyampaikan pengaduan atas temuan yang bertentangan dengan etika, integritas, dan norma masyarakat; pengaduan atas dugaan pelanggaran peraturan atau pencemaran lingkungan hidup; hingga pengaduan-pengaduan lainnya.

Saran, kritik, dan pengaduan masyarakat tersebut dapat disampaikan melalui *Whistleblowing System* (WBS) KAI, di samping mekanisme lain seperti mekanisme pengaduan gratifikasi dan pelanggaran kode etik. Pengungkapan mengenai mekanisme WBS, kebijakan gratifikasi, penegakan kode etik, serta seluruh pelanggaran yang masuk dan telah ditindaklanjuti untuk tahun 2024, telah diuraikan pada bab Tata Kelola Perusahaan.

Di samping memiliki WBS, KAI juga mempunyai saluran pengaduan yang dapat digunakan masyarakat, yang mencakup jasa KAI berupa layanan *offline/onsite* di antaranya *Customer Service on Station* dan *Booth* Penjualan Tiket di Stasiun. Untuk layanan *online*, KAI memiliki layanan formal, antara lain alamat surat elektronik, telepon, dan pesan teks serta layanan melalui akun-akun resmi KAI pada media sosial, antara lain Instagram, Facebook, Twitter, hingga TikTok.

Hingga 31 Desember 2024 KAI menerima 179.071 pengaduan masyarakat. Dari seluruh pengaduan tersebut, kami telah menindaklanjuti pengaduan tersebut dengan tingkat penyelesaian mencapai 100%. Perincian mengenai hal tersebut dapat dilihat pada tabel di bawah ini:

societal norms; complaints about suspected regulatory violations or environmental pollution; and other grievances.

Community suggestions, criticism, and other complaints can be submitted through KAI's Whistleblowing System (WBS), in addition to other mechanisms such as the gratuity complaint mechanism and code of conduct violation reporting. Disclosure regarding the WBS mechanism, gratuity policy, code of ethics enforcement, and all reported violations that were addressed in 2024 are presented in the Corporate Governance chapter.

In addition to having WBS, KAI has complaint channels for the public, including KAI service consumers, through offline/ onsite services such as Customer Service on Stations and Ticket Sales Booths at Stations. For online services, KAI offers formal channels such as email, telephone, and text messages, as well as services through KAI's official social media accounts, including Instagram, Facebook, Twitter, and TikTok.

As of December 31, 2024, KAI received 179,071 community complaints. Of all these complaints, we have followed up on them with a resolution rate of 100%. Details regarding this can be seen in the table below:

**Kegiatan Tanggung Jawab Sosial Lingkungan (TJSL) [OJK F.25]**

Sebagai wujud komitmen dalam mendukung pencapaian pembangunan berkelanjutan, KAI melaksanakan program Tanggung Jawab Sosial dan Lingkungan (TJSL) dengan menyalurkan manfaat ekonomi, sosial, lingkungan, serta menerapkan pemenuhan pada aspek hukum dan tata kelola. Hal tersebut dilaksanakan berdasarkan prinsip pengelolaan yang terintegrasi, terarah, terukur dampaknya, serta bertanggung jawab, sebagai bagian yang tidak terpisahkan dari pendekatan bisnis Perseroan.

Pelaksanaan program TJSL KAI berorientasi pada pencapaian Tujuan Pembangunan Berkelanjutan di Indonesia serta berpedoman pada ISO 26000, sebagai upaya menjaga pelaksanaan program tetap terukur, berdampak, dan berkelanjutan.

Sebagai entitas BUMN, KAI melaksanakan program TJSL sesuai ketentuan di dalam Peraturan Menteri BUMN Nomor PER-6/MBU/09/2022 Perubahan atas Peraturan Menteri Badan Usaha Milik Negara Nomor PER-05/MBU/04/2021 Tentang Program Tanggung Jawab Sosial dan Lingkungan Badan Usaha Milik Negara. Sesuai ketentuan tersebut, program TJSL KAI diarahkan untuk memenuhi tujuan-tujuan sebagai berikut:

- Memberikan kemanfaatan bagi pembangunan ekonomi, pembangunan sosial, pembangunan lingkungan serta pembangunan hukum dan tata kelola bagi perusahaan.
- Berkontribusi pada penciptaan nilai tambah bagi perusahaan dengan prinsip yang terintegrasi, terarah dan terukur dampaknya serta akuntabel.
- Membina usaha mikro dan usaha kecil agar lebih tangguh dan mandiri serta masyarakat sekitar perusahaan.

Pada tahun 2024, KAI telah menjalankan kegiatan-kegiatan TJSL dalam rangka mendukung Tujuan Pembangunan Berkelanjutan (TPB) di Indonesia sebagai berikut:

**Social and Environmental Responsibility (CSER) [OJK F.25]**

As a form of commitment to supporting sustainable development, KAI implements the Social and Environmental Responsibility (CSER) program by delivering economic, social, and environmental benefits, as well as adhering to legal and governance aspects. This is carried out based on integrated, targeted, measurable, and responsible management principles, forming an inseparable part of the Company's business approach.

The implementation of KAI's CSER program is oriented toward achieving the Sustainable Development Goals (SDGs) in Indonesia and is guided by ISO 26000, as an effort to ensure that the program remains measurable, impactful, and sustainable.

As a State-Owned Enterprise (SOE) entity, KAI implements the CSER program following the provisions in the Minister of State-Owned Enterprises Regulation Number PER-6/MBU/09/2022, amending the Minister of State-Owned Enterprises Regulation Number PER-05/MBU/04/2021 concerning the Social and Environmental Responsibility Program for State-Owned Enterprises. According to these provisions, KAI's CSER program is directed toward achieving the following objectives:

- Provide benefits for economic, social, environmental, legal, and governance development for the company.
- Contribute to creating added value for the company with integrated, targeted, measurable, and accountable principles.
- Foster micro and small enterprises to become more resilient and independent, as well as support the communities around the company.

In 2024, KAI has carried out CSER activities to support the Sustainable Development Goals (SDGs) in Indonesia as follows:

| Jenis Kegiatan TJSL / TJSL Activity | Tujuan Pembangunan Berkelanjutan (TPB) / Sustainable Development Goals (SDGs)                     | Penjelasan / Description                                                                                                                                                                                                                                                                                                                                                              | Capaian / Achievements                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

#### Program yang Diukur dengan Metode Social Return on Investment (SROI)

KAI menjalankan tanggung jawab sosial untuk memberikan nilai tambah bagi Perseroan dengan prinsip yang terintegrasi, terarah dan terukur dampaknya serta akuntabel melalui penilaian *Return On Investment* (ROI). ROI mengukur dan menggali seberapa besar nilai sosial, lingkungan dan ekonomi yang tercipta dari implementasi program dengan membandingkan *net present value of benefits* (total outcome dari aspek ekonomi, sosial, dan lingkungan) dengan *net present value of investment* (keseluruhan input baik dana, barang, dan waktu). Perseroan dapat memperkirakan nilai investasi yang dikeluarkan untuk setiap program yang ditetapkan (*initial investment amount*) dan nilai manfaat atas investasi yang diterima oleh penerima manfaat (*impact value*). Berikut program TJSL yang dijalankan Perseroan yang diukur dengan metode *Social Return on Investment* (SROI)

#### Programs Measured by the Social Return on Investment (SROI) Method

KAI carries out its goal of contributing to value creation for the company through principles that are integrated, targeted, and measurable in their impact, as well as accountable through the assessment of return on investment (ROI). ROI measures and explores the extent of social, environmental, and economic value created from program implementation by comparing the net present value of benefits (the total outcome from economic, social, and environmental aspects) with the net present value of investment (all inputs including funds, goods, and time). The company can estimate the investment value expended for each established program (initial investment amount) and the benefit value received by the beneficiaries (impact value). The following are the CSER programs run by the Company which are measured using the Social Return on Investment (SROI) method:

### Kebijakan Hak Asasi Manusia (HAM)

Pelanggaran Hak Asasi Manusia (HAM) oleh perusahaan terhadap pekerja memiliki berbagai risiko, baik bagi pekerja sendiri maupun bagi perusahaan. Bagi pekerja, risiko utama adalah terganggunya kesehatan fisik dan psikologis, serta menurunnya produktivitas dan semangat kerja. Bagi perusahaan, risiko yang lebih besar meliputi kerusakan reputasi, peningkatan biaya, dan bahkan ancaman keberlanjutan bisnis.

KAI berkomitmen menghormati hak asasi manusia sesuai dengan Prinsip-Prinsip Panduan Perserikatan Bangsa-Bangsa tentang Bisnis dan Hak Asasi Manusia (United Nations Guiding Principles on Business and Human Rights). Berangkat dari komitmen tersebut, KAI memiliki berbagai kebijakan yang mendukung perlindungan hak asasi manusia yang telah diunggah di website resmi KAI dan dapat diakses pada link [https://ppid.kai.id/media/konten/261\\_komitmen\\_direksi\\_kai\\_tentang\\_penerapan\\_kebijakan\\_ham.pdf](https://ppid.kai.id/media/konten/261_komitmen_direksi_kai_tentang_penerapan_kebijakan_ham.pdf). Kebijakan tersebut mewajibkan seluruh insan KAI Group wajib menjunjung tinggi dan mematuhi norma kesusilaan termasuk diantaranya perbuatan pencegahan dan penanganan pelecehan seksual di lingkungan KAI.

KAI memastikan terciptanya lingkungan kerja yang inklusif, kondusif dan produktif, saling menghormati, bebas dari diskriminasi, perundungan, pelecehan dan/atau bentuk kekerasan lainnya baik mental maupun fisik sebagaimana tertuang dalam Surat Edaran Nomor SE.U/KL.403/VII/1/KA-2022 tentang Kebijakan Berperilaku Saling Menghargai di Tempat Kerja (*Respectful Workplace Policy*).

Prinsip-prinsip *Respectful Workplace Policy* secara umum menentang keras perilaku diskriminasi, kekerasan dan pelecehan seksual, serta upaya menjaga keselamatan dan kesehatan kerja. Perseroan mewajibkan seluruh pekerja untuk menerapkan prinsip-prinsip *Respectful Workplace Policy* agar dapat tercipta lingkungan kerja yang saling menghargai dan menghargai, aman, adil, serta tidak terdapat perilaku diskriminasi, kekerasan, dan pelecehan dalam bentuk apapun.

Untuk memperkuat penerapan kebijakan HAM di lingkungan Perseroan, KAI telah memetakan risiko pelanggaran hak asasi manusia yang dapat terjadi di sekitar lingkungan Perseroan.

Sebagai upaya remediasi, KAI telah memiliki Sistem Pelaporan Dugaan Pelanggaran/Whistleblowing System (WBS) sebagai media untuk melaporkan indikasi pelanggaran terkait tindak pidana korupsi, tindak pidana lain yang berkaitan

### Human Rights Policy

Human Rights Violations by companies against employees have various risks, be it for the employees themselves or the company. For employees, the main risks are disruption to physical and psychological health, as well as decreased productivity and work enthusiasm. For companies, greater risks include reputational damage, increased costs, and even threats to business sustainability.

KAI is committed to respecting human rights in accordance with the United Nations Guiding Principles on Business and Human Rights. Based on this commitment, KAI has various policies that support the protection of human rights that have been uploaded on KAI's official website and can be accessed at the link [https://ppid.kai.id/media/konten/261\\_komitmen\\_direksi\\_kai\\_tentang\\_penerapan\\_kebijakan\\_ham.pdf](https://ppid.kai.id/media/konten/261_komitmen_direksi_kai_tentang_penerapan_kebijakan_ham.pdf). This policy requires all KAI Group personnel to uphold and comply with moral norms, including the prevention and handling of sexual harassment in KAI's environment.

KAI ensures the creation of an inclusive, conducive, and productive work environment, with mutual respect, free from discrimination, bullying, harassment, and/or other forms of violence, both mental and physical, as stated in Circular Letter Number SE.U/KL.403/VII/1/KA-2022 concerning the *Respectful Workplace Policy*.

Generally, the *Respectful Workplace Policy* principles strongly oppose discriminatory behavior, violence, and sexual harassment, as well as efforts to maintain occupational safety and health. The Company requires all employees to apply the principles of the *Respectful Workplace Policy* to create a mutually respectful, appreciative, safe, and fair work environment that is free from discriminatory behavior, violence, and harassment in any form.

To strengthen the implementation of human rights policies within the Company, KAI has mapped the risks of human rights violations that may occur within the Company's environment.

As a remediation effort, KAI has a Whistleblowing System (WBS) as a medium to report indications of violations related to corruption, other crimes related to corruption, violations of the code of conduct, violations of employee discipline, acts

dengan korupsi, pelanggaran terhadap pedoman perilaku, pelanggaran disiplin pekerja, tindakan diskriminasi, tindakan kekerasan serta tindak pelecehan. Bagi pekerja yang terbukti melakukan pelanggaran HAM di lingkungan Perusahaan maka dikenakan hukuman disiplin sesuai dengan ketentuan yang berlaku di Perusahaan.

Selain memiliki Sistem Pelaporan Dugaan Pelanggaran, KAI juga menyediakan layanan konseling psikologis untuk pekerja yang menjadi korban pelanggaran HAM melalui Layanan Konseling Pekerja. Layanan ini didukung oleh Pekerja Internal KAI yang memiliki gelar psikolog profesional (bergelar S2 Profesi Psikologi) dan juga bekerja sama dengan Psikolog Profesional eksternal. Layanan Konseling pekerja ini dilakukan melalui tatap muka, telepon, chat, video call, dan mencakup isu terkait pekerjaan, keluarga, maupun masalah pribadi yang memengaruhi kinerja. Jika kasus dianggap serius, layanan internal dapat merekomendasikan rujukan ke lembaga psikologi eksternal untuk penanganan lanjutan.

Komitmen KAI menerapkan kebijakan HAM dan upaya Perseroan menentang perilaku kekerasan, pelecehan, dan anti diskriminasi membawa hasil positif yang tercermin dengan tidak terdapatnya pelanggaran HAM, perilaku kekerasan, pelecehan, dan anti diskriminasi pekerja sepanjang tahun 2024.

Kebijakan penerapan HAM tidak hanya diberlakukan di internal Perseroan, tetapi juga pada para pemasok/mitra yang bekerja sama dengan KAI. KAI mewajibkan para pemasok menghormati hak semua pekerja, mitra bisnis dan masyarakat yang terkena dampak di wilayah operasi mereka. Hal ini tertuang dalam Kode Etik Keberlanjutan Pemasok KAI dan telah diunggah di website resmi Perseroan [https://ppid.kai.id/media/konten/261\\_kodeetik.pdf](https://ppid.kai.id/media/konten/261_kodeetik.pdf).

Tujuan utama dari Kode Etik ini adalah untuk memastikan bahwa seluruh pemasok bekerja sesuai dengan standar etika yang tinggi, mendukung tata kelola perusahaan yang baik, serta berkontribusi terhadap keberlanjutan lingkungan dan sosial. KAI mewajibkan para pemasok dapat menerapkan dan mematuhi prinsip-prinsip yang diuraikan dalam Kode Etik Keberlanjutan Pemasok ini di seluruh aspek operasional mereka, baik di dalam maupun di luar Indonesia.

of discrimination, acts of violence and harassment. Workers who are proven to have committed human rights violations within the Company will be subject to disciplinary sanctions in accordance with the provisions applicable to the Company.

In addition to having a Whistleblowing System, KAI provides psychological counseling services for employees who are victims of human rights violations through the Worker Counseling Service. This service is supported by KAI Internal Workers who have professional psychology degrees (Master's degree in Psychology Profession) and also collaborate with external Professional Psychologists. This Worker Counseling Service is carried out through face-to-face, telephone, chat, video calls, and covers issues related to work, family, and personal problems that affect performance. The internal service can recommend a referral to an external psychology institution should the case be deemed serious for further treatment.

KAI's commitment to implementing human rights policies and the Company's efforts to oppose violent behavior, harassment, and anti-discrimination have brought positive results as reflected in the absence of human rights violations, violent behavior, harassment, and anti-discrimination of employees throughout 2024. (please confirm data)

The human rights implementation policy is not only applied internally to the Company, but it is to suppliers/partners who work with KAI as well. KAI requires suppliers to respect the rights of all employees, business partners, and communities affected by their operations. This is stated in the KAI Supplier Sustainability Code of Ethics and has been uploaded on the Company's official website [https://ppid.kai.id/media/konten/261\\_kodeetik.pdf](https://ppid.kai.id/media/konten/261_kodeetik.pdf).

This Code of Conduct has the main purpose of ensuring that all suppliers work in accordance with high ethical standards, support good corporate governance, and contribute to environmental and social sustainability. KAI requires suppliers to be able to implement and comply with the principles outlined in this Supplier Sustainability Code of Conduct in all aspects of their operations, both inside and outside Indonesia.

## ASPEK PELANGGAN

### Komitmen untuk Memberikan Layanan atas Produk dan/atau Jasa yang Setara kepada Konsumen [OJK F.17]

KAI berkomitmen untuk memberikan layanan atas produk dan jasa yang setara dan inklusif bagi seluruh (100%) konsumen, termasuk pelanggan difabel, lansia, anak-anak, dan wanita hamil. Komitmen ini sebagai bentuk inklusi dan kepedulian. Komitmen tersebut diwujudkan melalui penyediaan *guiding block*, ruang laktasi, loket difabel dan toilet difabel, serta kursi roda bagi penumpang yang membutuhkan. Per 31 Desember 2024, KAI memiliki 81 *guiding block*, 74 ruang laktasi, 78 loket difabel, kursi prioritas di stasiun dan kereta, serta 163 toilet difabel yang tersebar di beberapa stasiun operasional KAI.

Untuk mengoptimalkan layanan, KAI melatih petugas untuk lebih responsif dalam membantu penyandang disabilitas. KAI memberikan pelatihan kepada *frontliner* yang mencakup berbagai aspek, seperti peningkatan keterampilan komunikasi, tata rias, dan bahkan peningkatan pengetahuan tentang melayani pelanggan disabilitas.

## CUSTOMER ASPECT

### Commitment to Providing Equivalent Products and/or Services to Consumers [OJK F.17]

KAI is committed to providing equal and inclusive services for all (100%) consumers, including customers with disabilities, the elderly, children, and pregnant women. This commitment is a form of inclusion and care, which is realized by providing a guiding block, lactation room, disabled counter and disabled toilet, as well as wheelchairs for passengers who need them. As of December 31, 2024, KAI has 81 guiding blocks, 74 lactation rooms, 78 disabled counters, and 163 disabled toilets spread across several KAI operational stations.

To optimize services, KAI trains employees to be more responsive in assisting customers with disabilities. KAI provides training to frontliners which includes various aspects such as improving communication skills, makeup, and even increasing knowledge about serving customers with disabilities.

In addition, KAI provides public information services that can be accessed by people with disabilities through the website [www.ppid.kai.id](http://www.ppid.kai.id). The site is equipped with special features for people with disabilities. Visually impaired visitors can obtain information related to the Company with voice directory instructions.

Di samping itu, penyandang tuna netra yang ingin mengajukan permohonan informasi publik dapat datang langsung ke kantor PPID (Pejabat Pengelola Informasi & Dokumentasi) KAI baik di pusat maupun di Daop/Divre. KAI telah menyediakan formulir permohonan informasi dan brosur lengkap dengan menggunakan huruf Braille serta menyediakan prasarana berupa *guiding block* di pintu masuk Kantor Pusat KAI yang mengarahkan ke ruang PPID.

Layanan yang setara juga diberikan KAI kepada para penyandang disabilitas yang menggunakan kursi roda. KAI menyediakan *ramp* atau jalan khusus untuk kursi roda dari depan pintu masuk Kantor Pusat KAI menuju ke ruang PPID. Sementara itu, untuk meningkatkan kenyamanan para pelanggan disabilitas tuna rungu dan tuna wicara, KAI menyediakan fasilitas video tentang layanan informasi publik KAI di ruang PPID dan akun Youtube Kereta Api Kita yang dilengkapi dengan bahasa isyarat dan *subtitle*.

KAI juga berfokus memberikan perhatian layanan yang nyaman dan aman kepada perempuan. KAI telah memiliki gerbong khusus perempuan (KKW) di KRL dan LRT Jabodebek, yang letaknya berada di ujung rangkaian kereta, baik di depan (gerbong nomor 1) atau di belakang (gerbong terakhir), dan ditandai dengan warna *pink*. Gerbong khusus ini bertujuan untuk memberikan ruang bagi wanita yang ingin menghindari desakan atau pelecehan seksual dari penumpang laki-laki. Selain itu, gerbong khusus ini juga bertujuan untuk memberikan rasa aman dan nyaman bagi wanita yang sering bepergian sendiri atau dengan anak kecil.

Upaya lain yang dilakukan KAI untuk mencegah terjadinya pelecehan seksual di lingkungan kereta api termasuk di stasiun dan kereta, yaitu melakukan kampanye dan sosialisasi anti pelecehan seksual bersama pihak terkait, baik dalam bentuk kegiatan *offline* di stasiun dan kereta. KAI juga melakukan sosialisasi dalam bentuk imbauan di dalam kereta melalui *announcer*, menayangkan *flyer* di TV kereta api, memasang poster di stasiun, dan mempublikasikan kampanye anti pelecehan seksual di akun media sosial KAI.

KAI menolak memberikan pelayanan kepada para pelaku yang melanggar etika dan berbuat asusila. KAI akan melakukan *blacklist* terhadap penumpang yang melakukan pelecehan seksual selama dalam perjalanan kereta api. Langkah tegas ini dilakukan oleh KAI sebagai upaya untuk mencegah terjadinya kekerasan seksual pada layanan KAI.

Additionally, visually impaired individuals who wish to request public information in person can visit the PPID (Information and Documentation Management Officer) office at KAI's central offices or offices in operational areas/regional divisions. KAI has provided information request forms and brochures in Braille, as well as guiding blocks at the entrance of KAI's Head Office leading to the PPID room.

KAI also provides equivalent services to wheelchair users. KAI provides ramps or special pathways from the entrance of KAI's Head Office to the PPID room. Meanwhile, for hearing and speech-impaired individuals, KAI has provided video facilities about KAI's public information services in the PPID room and on the "Kereta Api Kita" YouTube channel, which include sign language subtitles.

KAI also focuses on providing comfortable and safe service to women in the form of women-only train cars (KKW) in KRL and LRT Jabodebek, located at the end of the train, either in front (train car number 1) or behind (last train car), and are marked with the color pink. These special train cars are aimed at providing space for women who wish to avoid being pushed or sexually harassed by male passengers. Additionally, the special train cars are intended to provide a sense of security and comfort for women who often travel alone or with small children.

Other efforts that KAI conducts to prevent sexual harassment from happening in the railway environment, both at stations and on trains, include carrying out anti-sexual harassment campaigns and dissemination together with related parties, both in the form of offline activities at stations and on trains. KAI also performs dissemination in the form of announcements on trains, displaying flyers on train TVs, putting up banners/posters at stations, and publicizing anti-sexual harassment campaigns on KAI's social media accounts.

KAI refuses to provide services to perpetrators who violate ethics and commit immoral acts as well as blacklists passengers who commit sexual harassment during train travel. This firm step is taken by KAI as an effort to prevent sexual violence from occurring on KAI services.

Untuk meningkatkan kualitas layanan, KAI menyediakan berbagai saluran komunikasi yang dapat dimanfaatkan oleh pelanggan menyampaikan keluhan, kritik, dan saran, antara lain komunikasi tatap muka (*Customer Service on-Station dan Customer Service on-Train*), via telepon, maupun komunikasi melalui media sosial.

Setiap progres penanganan keluhan dipantau hingga selesai karena seluruh saluran pelayanan pelanggan tersebut dijalankan secara terintegrasi melalui CRM (*Customer Relationship Management*). Tanggapan atas seluruh keluhan tersebut menggunakan parameter *Key Performance Indicators* (KPI) 90%. Dalam waktu 30 menit, CRM harus segera direspons dan ditindaklanjuti. Penanganan keluhan pelanggan sejak masuk ke CRM sampai selesai dipantau hingga ke tingkat Manajer. Jika petugas Customer Relation (petugas yang meneruskan dan menyelesaikan masalah) belum dapat menyelesaikan masalah dalam waktu 30 menit, maka notifikasi akan diteruskan ke *team leader*. Jika berlanjut sampai 60 menit, maka Manajer yang bersangkutan akan mendapatkan notifikasi untuk segera menyelesaikan keluhan yang diterima. Prosedur tersebut dilakukan KAI sebagai upaya terus-menerus dalam menjaga kepuasan pelanggan. [GRI 2-25, 2-26, 418-1]

Komitmen kuat KAI untuk memberikan layanan produk dan jasa yang setara kepada seluruh (100%) konsumen membawa Perseroan berhasil meraih Penghargaan Badan Publik untuk kategori BUMN pada Anugerah Keterbukaan Informasi Publik 2024. Pencapaian ini merupakan bukti nyata dari komitmen KAI dalam menerapkan prinsip *Good Corporate Governance* dan menyediakan akses informasi yang inklusif untuk seluruh masyarakat, termasuk penyandang disabilitas. Prestasi ini memotivasi KAI untuk terus meningkatkan kualitas pelayanan informasi publik dan menghadirkan inovasi baru untuk memberikan pengalaman yang lebih baik bagi masyarakat, sehingga tercipta layanan yang unggul, berkualitas, dan inklusif.

#### **Inovasi dan Pengembangan Produk/Jasa Keuangan Berkelanjutan [OJK F.26]**

Industri transportasi kini semakin dituntut untuk adaptif dan inovatif agar dapat menghadapi berbagai tantangan. Atas dasar itu, KAI berkomitmen untuk melakukan akselerasi transformasi. Salah satu transformasi yang dilakukan adalah mengembangkan inovasi digitalisasi layanan, yang tujuan memberi kemudahan pelanggan dalam mengakses produk/jasa yang dimiliki KAI serta memudahkan proses kerja pekerja.

To improve service quality, KAI provides various communication channels that customers can utilize, including face-to-face communication (*Customer Service on-Station and Customer Service on-Train*), via telephone, and through social media.

All customer service channels are integrated through a Customer Relationship Management (CRM) system, allowing the progress of each complaint to be monitored until completion. All complaints received must receive a response with a Key Performance Indicator (KPI) benchmark of 90%. Within 30 minutes, the CRM must respond and follow up on the complaint. The handling of customer complaints from the time they enter the CRM until completion is monitored up to the Manager level. If the Customer Relation officer (the officer who forwards and resolves the problem) cannot resolve the problem within 30 minutes, the notification is forwarded to the team leader. If the issue persists for 60 minutes, the manager concerned will receive a notification to resolve the complaint immediately. This procedure is carried out by KAI as a continuous effort to maintain customer satisfaction. [GRI 2-25, 2-26, 418-1]

KAI is strongly committed to providing equal service and product access to all (100%) of our customers, which leads the Company to successfully receive the Public Agency Award for the BUMN category at the 2024 Public Information Transparency Award. This achievement is concrete evidence of KAI's commitment to implementing Good Corporate Governance principles and providing inclusive access to information for the entire community, including persons with disabilities. This achievement motivates KAI to continuously improve the quality of public information services and present new innovations to provide a better experience for the community, allowing superior, quality, and inclusive services to be realized.

#### **Innovation and Development of Sustainable Financial Products/Services [OJK F.26]**

Nowadays, the transportation industry is increasingly required to be adaptive and innovative to face various challenges. On that basis, KAI is committed to accelerating transformation, and one of the transformations carried out is developing digital service innovations, aimed at facilitating customer access to KAI's products/services and simplifying employee workflows.

Terdapat empat bidang layanan inovasi BUMN, antara lain:

1. Layanan penumpang.
2. Layanan transportasi barang atau logistik.
3. Peningkatan keamanan dengan kamera CCTV di kereta, stasiun, sistem deteksi gangguan otomatis, dan petugas keamanan *on-board*.
4. Digitalisasi dan otomatisasi pekerjaan kantor yang bersifat rutin serta banyak, termasuk penggunaan sensor *Internet of Things* (IoT) untuk memantau beberapa kinerja mesin.

Inovasi layanan penumpang meliputi peluncuran kereta *compartment suite*, kelas *luxury* dan desain interior kereta baru yang lebih ergonomis; penyediaan layanan kereta wisata tematis dengan layanan eksklusif untuk segmen tertentu; serta pengembangan aplikasi Access by KAI untuk pembelian tiket kereta, *reschedule*, *refund*, dan check-in berbasis QR code.

Untuk meningkatkan kenyamanan pelanggan, KAI mengembangkan berbagai macam fitur dan layanan di aplikasi Access by KAI dengan versi terbaru yaitu versi 6.9.11 sampai 2024. KAI senantiasa menjaga pelayanan prima bagi seluruh penumpang, di antaranya dengan memberikan kemudahan kepada pelanggan dalam genggam yaitu dalam bentuk aplikasi. Hingga tahun 2024, KAI memiliki aplikasi sebagai berikut:

#### Aplikasi Mobile Access by KAI

Access by KAI terus mengalami pengembangan untuk meningkatkan kenyamanan dan kemudahan pelanggan dalam merencanakan serta menikmati perjalanan mereka. Tidak hanya berfungsi sebagai *platform* pembelian tiket kereta api jarak jauh, lokal, KRL, KA Bandara, LRT Jabodebek, dan KCJB Whoosh, aplikasi ini kini semakin terintegrasi dengan kebutuhan perjalanan multimoda dan berbagai layanan pendukung lainnya. Beberapa pengembangan dan fitur utama yang telah hadir maupun tengah dikembangkan antara lain:

1. **Integrasi Layanan Perjalanan dan Pendukung**
  - a. **Integrasi Antarmoda:** Pemesanan layanan *first mile* dan *last mile* bekerja sama dengan Taksi Bluebird dan Bus DAMRI.
  - b. **Trip Planner & Pemesanan Hotel:** Merencanakan *itinerary* lengkap dan pemesanan hotel dalam satu aplikasi.
  - c. **Live Tracking:** Pelacakan perjalanan kereta secara real-time
  - d. **Add Infant & Add Ticket:** Fitur untuk menambahkan pemesanan penumpang bayi serta memasukkan tiket dari channel pembelian lain ke dalam Access by KAI.

The four areas of SOE innovation services include:

1. Passenger services.
2. Freight or logistics transportation services.
3. Increased security with CCTV cameras on trains, stations, automatic intrusion detection systems, and on-board security officers.
4. Digitalization and automation of routine and numerous office work, including the use of Internet of Things (IoT) sensors to monitor several machine performances.

Passenger service innovations include the launch of compartment suite trains, luxury class, and new, more ergonomic train interior designs; provision of thematic tourist train services with exclusive services for certain segments; and development of the Access by KAI application for purchasing train tickets, rescheduling, refunds, and QR code-based check-in.

To increase customer comfort, KAI has developed various features and services in the Access by KAI app, with the latest version being 6.9.11 as of 2024. KAI always maintains excellent service for all passengers, which includes providing convenience to customers in the form of an application. As of 2024, KAI has the following applications:

#### Access by KAI Mobile Application

Access by KAI continues to undergo development aimed at improving customer comfort and convenience in planning and enjoying their trips. Not only functioning as a platform for purchasing long-distance, local, KRL, Airport Train, Jabodebek LRT, and KCJB Whoosh train tickets, this application is now increasingly integrated with multimodal travel needs and various other supporting services. Some of the main developments and features that have been present or are being developed include:

1. **Integration of Travel and Support Services**
  - a. **Intermodal Integration:** Booking first mile and last mile services in collaboration with Bluebird Taxis and DAMRI Buses.
  - b. **Trip Planner & Hotel Booking:** Planning a complete itinerary and hotel bookings in one application.
  - c. **Live Tracking:** Real-time train travel tracking.
  - d. **Add Infant & Add Ticket:** A feature to add infant passenger bookings and enter tickets from other purchase channels into Access by KAI.

- e. **Asuransi Perjalanan:** Menyediakan layanan tambahan pemesanan asuransi tambahan yang mencakup pengembalian dana 100% dan perlindungan diri selama perjalanan.

## 2. Layanan Transaksi dan Pembayaran

- a. **KAI Pay:** Dompet digital untuk pembayaran berbagai layanan, termasuk transaksi menggunakan QRIS.
- b. **Payment Point Online Bank (PPOB):** Pembelian pulsa, paket data, dan token listrik.
- c. **Top Up KMT:** Pengisian saldo Kartu Multi Trip milik PT KCI langsung dari aplikasi.
- d. **Tersedia Banyak Pilihan Metode Pembayaran:** Pada Access by KAI tersedia berbagai macam metode pembayaran yang mendukung layanan penumpang seperti Paylater, QRIS, E-wallet, Kartu Kredit, Direct Debit, Gerai Retail, ATM, Mobile Banking dan Internet Booking.

## 3. Kenyamanan dan Kemudahan Pengguna

- a. **Railfood:** Pemesanan makanan dan minuman yang dapat dilakukan sebelum keberangkatan atau saat dalam perjalanan.
- b. **Loyalty Program:** Pengembangan program Railpoint dimana Railpoint bisa ditukarkan untuk pembelian tiket kereta api dan juga ditukarkan dengan berbagai merchant yang bekerjasama seperti MAP Club dan Mayasari.
- c. **Layanan Hiburan Premium:** Menyediakan konten hiburan eksklusif untuk kenyamanan pelanggan selama perjalanan.
- d. **Jadwal Salat:** Informasi waktu salat berdasarkan lokasi pengguna, sebagai bentuk layanan yang inklusif.
- e. **Popup Banner:** Menampilkan informasi promosi dan pengumuman penting secara langsung dalam aplikasi.

## 4. Kemudahan Akses dan Pengelolaan Tiket

- a. **Transfer Tiket, Pembatalan & Ubah Jadwal:** Fitur yang semakin disempurnakan untuk memberikan fleksibilitas dalam pengelolaan perjalanan.
- b. **Registrasi dengan Face Recognition:** Teknologi pengenalan wajah untuk meningkatkan keamanan dan mempermudah proses registrasi akun.
- c. **ePorter:** Layanan pemesanan porter secara langsung melalui aplikasi.
- d. **Penyempurnaan UI/UX:** Berdasarkan evaluasi performa aplikasi dan masukan pelanggan.

- e. **Travel Insurance:** Provides additional insurance booking services that include a 100% refund and personal protection during the trip.

## 2. Transaction and Payment Services

- a. **KAI Pay:** Digital wallet for payment of various services, including transactions using QRIS.
- b. **Payment Point Online Bank (PPOB):** Purchase of credit, data packages, and electricity tokens.
- c. **Top Up KMT:** Top up the balance of PT KCI's Multi Trip Card directly from the application.
- d. **Many Payment Method Options Available:** Access by KAI provides various payment methods that support passenger services, such as Paylater, QRIS, E-wallet, Credit Card, Direct Debit, Retail Outlets, ATMs, Mobile Banking, and Internet Booking.

## 3. User Convenience and Ease

- a. **Railfood:** Food and beverage orders that can be made before departure or while traveling.
- b. **Loyalty Program:** Development of the Railpoint program where Railpoints can be exchanged for train ticket purchases and also exchanged with various collaborating merchants such as MAP Club and Mayasari.
- c. **Premium Entertainment Services:** Providing exclusive entertainment content for customer convenience during the trip.
- d. **Prayer Schedule:** Prayer time information based on user location, as a form of inclusive service.
- e. **Popup Banner:** Displaying promotional information and important announcements directly in the application.

## 4. Ease of Access and Ticket Management

- a. **Ticket Transfer, Cancellation & Change Schedule:** Features that are increasingly enhanced to provide flexibility in travel management.
- b. **Registration with Face Recognition:** Facial recognition technology for improving security and simplifying the account registration process.
- c. **ePorter:** Porter booking service directly through the application.
- d. **UI/UX Improvement:** Based on application performance evaluation and customer feedback.

Hingga akhir tahun 2024, aplikasi Access by KAI telah diunduh sebanyak 26.504.433 kali, dengan 21.219.291 pengguna terdaftar dan sekitar 7.347.043 pengguna aktif bulanan. Aplikasi ini terus menjadi bagian penting dalam transformasi digital PT Kereta Api Indonesia, menghadirkan solusi perjalanan yang modern, nyaman, dan terintegrasi bagi masyarakat Indonesia.

Sementara pada inovasi keamanan dalam pengangkutan rel, KAI telah berhasil melakukan pengangkutan rel untuk jenis berat 60 dengan panjang 50 meter secara lancar, aman dan tepat waktu. Inovasi ini dapat menambah kualitas dan cakupan rel kereta api sehingga semakin dapat berkontribusi bagi kemajuan Indonesia.

KAI juga melakukan inovasi pada KAI Commuter dan LRT Jabodebek. KAI Commuter terus menghadirkan inovasi, seperti CCTV *analytic*, *water station*, *shelter bike*, *vending machine* ramah disabilitas, serta peningkatan fasilitas mushola dan area tunggu. Ke depan, KAI Commuter pun akan meluncurkan kartu disabilitas, mengembangkan CCTV *analytic* lebih lanjut, dan menyediakan alat pengering payung untuk kenyamanan maksimal di stasiun.

Untuk layanan transportasi barang atau logistik, KAI mengembangkan dua inovasi yaitu:

#### 1. Pengoperasian kereta barang untuk pengiriman kargo yang lebih cepat dan efisien.

KAI mengembangkan inovasi sinergi produk berupa integrasi angkutan *general cargo* (GenCo) *Door-to-Door* (D2D) multimoda menggunakan *platform* integrator. Platform ini mengintegrasikan data dan informasi aliran barang, mulai dari pelanggan *order*, proses *pick up*, proses material *handling* di stasiun pemberangkatan, *handling* di *outlet* layanan / *drop point*, bongkar dan muat di stasiun tujuan hingga *delivery*/penghantaran ke penerima (*consignee*) di *last mile services*.

Model Angkutan GenCo Multimoda menawarkan value proposition baru kepada pelanggan, antara lain kemudahan akses, kemudahan *monitoring*, kemudahan pembayaran, dan jaminan waktu lebih cepat serta total biaya pengiriman yang kompetitif. Hasil evaluasi uji coba telah memberikan *value added* dan berdampak pada tarif logistik dan waktu pengiriman, seperti berikut:

- a. Tarif D2D (*Single Tariff*) berkurang sekitar 10% dari tarif *existing*.

The Access by KAI application had been downloaded 26,504,433 times by the end of 2024, with 21,219,291 registered users and around 7,347,043 monthly active users. This application continues to be an important part of PT Kereta Api Indonesia's digital transformation, providing modern, comfortable, and integrated travel solutions for Indonesians.

Meanwhile, in terms of rail transportation security innovation, KAI has successfully transported rails with a weight of 60 kg and a length of 50 meters smoothly, safely, and on time. This improvement will enhance the quality and coverage of railway tracks, further contributing to Indonesia's movement.

KAI innovates on KAI Commuter and LRT Jabodebek as well. KAI Commuter continues to present innovations, such as CCTV analytics, water stations, bike shelters, disability-friendly vending machines, and improvements to prayer room facilities and waiting areas. In the future, KAI Commuter will also launch disability cards, further develop CCTV analytics, and provide umbrella dryers for maximum comfort at stations.

For goods or logistics transportation services, KAI has developed two innovations, namely:

#### 1. Freight train operations for faster and more efficient cargo delivery.

KAI has developed a product synergy innovation in the form of integrated multimodal door-to-door (D2D) general cargo (GenCo) transportation using an integrator platform. This platform integrates data and information on the flow of goods, from customer orders, through the pick-up process, material handling at departure stations, handling at service outlets/drop points, loading and unloading at destination stations, and delivery to the consignee (last mile services).

The GenCo Multimodal Transportation model offers new value propositions to customers, including ease of access, monitoring, payment convenience, and guaranteed faster delivery times and competitive total shipping costs. Trial evaluation results have provided added value and impacted logistics rates and delivery times, as follows:

- a. D2D (*Single Tariff*) rates are reduced by approximately 10% compared to existing rates.

- b. *Total Traveling Time* (sebagai *Service Level Agreement/SLA*) layanan D2D yang *seamless logistics* dan dapat berkurang hingga 12 jam dari waktu *existing*.

Program pengembangan selanjutnya, antara lain menambahkan *value proposition* baru berupa deklarasi produksi emisi karbon (*carbon foot print*) dalam Angkutan GenCo D2D Multimoda.

## 2. Sinergi kerjasama dengan mitra untuk menciptakan layanan yang efektif

KAI terus melakukan inovasi sinergi kerjasama dengan mitra angkutan barang untuk menciptakan layanan angkutan barang yang lebih efektif. Sinergi kerjasama ini diwujudkan dalam koordinasi pengelolaan bongkar muat, penerapan terpadu *standard operating procedure* (SOP) di terminal barang, peningkatan efektivitas WPKA (Waktu Peredaran Kereta Api) dan WTT (Waktu Tunggu Terminal), penambahan stamformasi sarana (SF) dan optimasi kecepatan kereta api, serta integrasi sistem informasi. Sinergi kerjasama dan integrasi ini mampu meningkatkan volume angkutan barang dari 63,7 juta ton (2023) menjadi 69,2 juta ton (2024), peningkatan *on time performance* KA Barang dari 88% (2023) menjadi 95% (2024), dan pendapatan angkutan barang meningkat dari 11,6 trilyun rupiah (2023) menjadi 12,7 trilyun rupiah (2024).

KAI bertekad untuk terus melakukan pengembangan inovasi agar dapat menjawab kebutuhan pelanggannya dan meningkatkan daya saing. Melalui strategi ini, KAI dapat menjaga kelangsungan usahanya sekaligus memberikan kontribusi kepada perekonomian nasional negara serta mendukung transportasi massal, ekonomi, dan pariwisata nasional.

## 3. Sinergi Kerjasama dengan mitra menciptakan layanan yang efektif

Inovasi sinergi kerjasama dengan mitra batubara yaitu PT Bukit Asam (Persero) menciptakan layanan angkutan batubara yang lebih efektif. Pada KA Barapati relasi Tanjung Enim-Kertapati diantaranya:

1. Minimalisir kendala alat produksi *loading unloading* TLS (*Train Loading System*) dan *Affron*;
2. Penambahan tenaga bongkar untuk mengatasi kendala saat bongkar;
3. Operasional KKBW modifikasi;

- b. The total travel time (as a *Service Level Agreement/SLA*) for *seamless logistics* D2D services can be reduced by up to 12 hours compared to the existing time.

Future development programs include adding a new value proposition in the form of a carbon footprint declaration for Multimodal D2D GenCo Transportation.

## 2. Synergy with partners to create effective services

KAI continues to innovate and synergize with freight transportation partners to create more effective freight transportation services. This synergy is realized through the coordination of loading and unloading management, the integrated implementation of standard operating procedures (SOPs) at freight terminals, increasing the effectiveness of Train Circulation Time (WPKA) and Terminal Waiting Time (WTT), adding facility formations (SF) and optimizing train speeds, as well as information system integration. This synergy of collaboration and integration will increase freight transport volume from 63.7 million tons (2023) to 69.2 million tons (2024), improve freight train on-time performance from 88% (2023) to 95% (2024), and increase freight transport revenue from 11.6 trillion rupiah (2023) to 12.7 trillion rupiah (2024).

KAI is committed to continuously developing innovations to meet customer needs and increase competitiveness. Through this strategy, KAI can maintain its business continuity while contributing to the national economy and supporting mass transportation, the economy, and tourism.

## 3. Synergy of Cooperation with partners creates effective services

Innovation of synergy of cooperation with coal partners, namely PT Bukit Asam (Persero), creates more effective coal transportation services. On the Barapati Train, the Tanjung Enim-Kertapati route includes:

1. Minimizing constraints on production equipment loading and unloading TLS (*Train Loading System*) as well as *Affron*;
2. Addition of unloading personnel to overcome constraints during the unloading process;
3. Modified KKBW operations;

4. Peningkatan efektivitas WPKA (Waktu Peredaran Kereta Api) KA Barapati dari semula 0,78 menjadi 0,71 hari;
5. Pencabutan taspat (pembatas kecepatan) wilayah Divre III;
6. Penambahan SF semula 30 GB menjadi 32 GB.

Pada KA Baratarahan relasi Tanjung Enim-Tarahan dilakukan optimasi melalui:

1. Minimalisir kendala alat produksi *loading unloading* (TLS dan RCD)
2. Pencabutan taspat (pembatas kecepatan) wilayah Divre IV dan peningkatan kecepatan operasional KA;
3. Peningkatan efektivitas WPKA dari 1,92 menjadi 1,82 hari;
4. Optimasi penambahan SF 61.

Untuk optimalisasi operasional kereta api, PT Bukit Asam (Persero) dan PT Kereta Api Indonesia (Persero) melakukan integrasi data aplikasi RCS dan CISEA. Integrasi ini memudahkan pemantauan proses *loading* dan *unloading* batubara serta proses pengangkutan batubara.

Hasil inovasi sepanjang 2024, volume angkutan batubara PT Bukit Asam (Persero) tahun 2024 sebanyak 35.431.526 ton naik sebesar 9% dari kinerja volume tahun 2023.

KAI bertekad untuk terus melakukan pengembangan inovasi agar dapat menjawab kebutuhan pelanggannya dan meningkatkan daya saing. Melalui strategi ini, KAI dapat menjaga kelangsungan usahanya sekaligus memberikan kontribusi kepada perekonomian nasional negara serta mendukung transportasi massal, ekonomi, dan pariwisata nasional.

#### **Produk/Jasa yang Sudah Dievaluasi Keamanannya bagi Pelanggan [OJK F.27] [GRI 3-3, 416-1, 416-2]**

KAI mengutamakan keselamatan pelanggan dalam setiap operasionalnya karena insiden keselamatan dapat berpengaruh pada reputasi dan kepercayaan publik terhadap perusahaan. Menjaga keselamatan pelanggan diwujudkan KAI melalui berbagai upaya, antara lain menjalankan prinsip *zero accident*, sertifikasi petugas operasional, menjaga protokol keamanan, serta melakukan evaluasi keamanan pada seluruh (100%) produk dan jasa.

4. Increasing the WPKA (Train Circulation Time) effectiveness of the Barapati Train from 0.78 to 0.71 days;
5. Revocation of speed limiter in the Regional Division III area;
6. Addition of SF from 30 GB to 32 GB.

On the Baratarahan Train, Tanjung Enim-Tarahan route, optimization was carried out through:

1. Minimizing constraints on loading and unloading production equipment (TLS and RCD);
2. Revocation of speed limits in Regional Division IV and increasing operational speed of trains;
3. Increasing the WPKA effectiveness from 1.92 to 1.82 days;
4. Optimization of the addition of SF 61.

To optimize train operations, PT Bukit Asam (Persero) and PT Kereta Api Indonesia (Persero) implement the RCS and CISEA application data integration in order to facilitate monitoring of the coal loading and unloading process as well as the coal transportation process.

For the innovation results throughout 2024, the volume of coal transportation by PT Bukit Asam (Persero) in 2024 was 35,431,526 tons, which increased by 9% from the volume performance in 2023.

KAI strives to continue developing innovations to meet the needs of its customers and increase competitiveness. Through this strategy, KAI can maintain its business continuity while contributing to the country's national economy and supporting mass transportation, economy, and national tourism.

#### **Products/Services Evaluated for Customer Safety [OJK F.27] [GRI 3-3, 416-1, 416-2]**

KAI prioritizes customer safety in each of its operations, as safety incidents can impact the Company's reputation and public trust. KAI realizes customer safety through various efforts, including implementing the *zero-accident* principle, certifying operational officers, maintaining security protocols, and conducting security evaluations on all (100%) products and services.

KAI telah menerapkan standar keselamatan, kesehatan, dan keamanan bagi para pelanggan dan mitra. Upaya ini sebagai pemenuhan aspek kesehatan dan keselamatan pelanggan berdasarkan Keputusan Menteri Perhubungan No. KM 2 Tahun 2024 tentang Penugasan kepada PT Kereta Api Indonesia (Persero) untuk Menyelenggarakan Kewajiban Pelayanan Publik (PSO) Angkutan Orang dengan Kereta Api Kelas Ekonomi Tahun 2024, serta Keputusan Menteri Perhubungan No. KM 5 Tahun 2024 tentang Penugasan kepada PT Kereta Api Indonesia (Persero) untuk Menyelenggarakan Angkutan Perintis Tahun 2024.

Beberapa upaya yang dilakukan KAI untuk meningkatkan keselamatan dan keamanan sebagai berikut:

1. Inspeksi keselamatan di seluruh Daop, Divre, Balai Yasa serta Anak Perusahaan. Pada Tahun 2024 realisasi pelaksanaan inspeksi mencapai 99,4% atau sejumlah 9.233 lokasi inspeksi dari yang diprogramkan sebanyak 9.291 lokasi. Pelaksanaan inspeksi keselamatan yang dilaksanakan oleh Tim Safety Inspector salah satunya bertujuan untuk mengidentifikasi bahaya yang dapat membahayakan perjalanan kereta api, keselamatan kerja dan pencemaran lingkungan serta memberikan rekomendasi perbaikan atas hasil inspeksi yang dilakukan;
2. Pelaporan bahaya keselamatan melalui aplikasi SRI dari tahun 2020 hingga 22 Juni 2025 sudah sebanyak 276.965 hazard. Dengan persentase tindak lanjut sebanyak 98,62%.
3. Audit Internal Sistem Manajemen Keselamatan Perkeretaapian dilaksanakan di wilayah PT KAI sesuai dengan Permenhub 69 tahun 2018. Pada tahun 2024 telah dilakukan audit internal di 14 wilayah Daerah Operasi, Divisi Regional, Balai Yasa Sarana dan Prasarana. Audit Internal SMKP di Daop/Divre maupun Balai Yasa di tahun 2024 dilaksanakan dengan kategori tingkat yang beragam. Pemenuhan SMKP dengan kategori tingkat Lanjutan (218 kriteria) berlaku pada Daop 3 Cirebon, Daop 2 Bandung, Daop 4 Semarang, Daop 6 Yogyakarta, Divre II Sumatera Barat, Divre III Palembang, Balai Yasa Lahat, dan Balai Yasa Manggarai. Kemudian kategori tingkat Awal (117 kriteria) berlaku pada Balai Yasa Sintelis dan LAA Cikudapateuh, Balai Yasa Jembatan Kiaradondong, Balai Yasa Mekanik Jalan Rel Cirebonprujakan, dan Balai Yasa Mekanik Prabumulih. Selanjutnya, kategori tingkat Transisi (171 kriteria) hanya berlaku pada Divre I Sumatera Utara. Rincian informasi pemenuhan kriteria SMKP dapat dilihat dalam Lampiran II Permenhub Nomor

KAI has implemented safety, health, and security standards for customers and partners. The company adheres to customer health and safety aspects based on the Minister of Transportation Decree No. KM 2 of 2024 regarding the Assignment to PT Kereta Api Indonesia (Persero) to Provide Public Service Obligations (PSO) for Economy Class Passenger Transport in 2024, and the Minister of Transportation Decree No. KM 5 of 2024 regarding the Assignment to PT Kereta Api Indonesia (Persero) to Provide Pioneer Transport in 2024.

The following are some efforts made by KAI to improve safety and security:

1. Carrying out safety inspections throughout the Operational Areas, Regional Divisions, Railway Workshops, and Subsidiaries. In 2024, the realization of inspection implementation reached 99.4% or a total of 9,233 inspection locations from those programmed of 9,291 locations. Safety inspections carried out by the Safety Inspector Team are implemented to identify hazards that can endanger train travel, work safety, and environmental pollution, as well as provide recommendations for the inspection results carried out;
2. Reporting of safety hazards through the SRI application from 2020 to June 22, 2025, has reached 276,965 hazards, with a follow-up percentage of 98.62%.
3. Internal Audit of Railway Safety Management System is carried out in the PT KAI area under Regulation of Minister of Transportation No. 69 of 2018. In 2024, internal audits were conducted in 14 Operational Areas, Regional Divisions, and Facilities and Infrastructure Railway Workshops. Internal Audit of SMKP in Operational Areas/Regional Divisions and Railway Workshops in 2024 was carried out at various level categories. Fulfillment of SMKP with Advanced level category (218 criteria) applies to Operational Area 3 Cirebon, Operational Area 2 Bandung, Operational Area 4 Semarang, Operational Area 6 Yogyakarta, Regional Division II West Sumatera, Regional Division III Palembang, Lahat Railway Workshop, and Manggarai Railway Workshop. The Initial level category (117 criteria) then applies to Telecommunication and Electrical Signal Railway Workshop and Cikudapateuh Overhead Electricity Service Center, Kiaradondong Railway Bridge Workshop, Cirebonprujakan Railway Mechanical Workshop, and Prabumulih Railway Mechanical Workshop.

69 Tahun 2018 tentang Sistem Manajemen Keselamatan Perkeretaapian. Berdasarkan hasil audit internal yang telah dilaksanakan, tingkat pencapaian penerapan kriteria SMKP Kurang (0-59%) hanya didapati pada Balai Yasa Jembatan Kiaracondong. Untuk tingkat pencapaian penerapan kriteria SMKP di Daop/Divre dan Balai Yasa lainnya didapatkan hasil Baik (60%-84%). Selanjutnya tingkat pencapaian penerapan kriteria SMKP dengan kategori Memuaskan (85-100%) dicapai oleh Balai Yasa Pulubrayan.

Furthermore, the Transition level category (171 criteria) only applies to Regional Division I of North Sumatra. Detailed information on the fulfillment of SMKP criteria can be seen in Attachment II of the Regulation of Minister of Transportation Number 69 of 2018 concerning the Railway Safety Management System. Based on the internal audit results carried out, the achievement level of the SMKP criteria implementation of Less (0-59%) was only found at the Kiaracondong Railway Bridge Workshop. For the achievement level of the SMKP criteria implementation in the Operational Area/Regional Division and other Railway Workshops, the results were Good (60%-84%). Furthermore, the achievement level of the SMKP criteria implementation with the Satisfactory category (85-100%) was achieved by Pulubrayan Railway Workshop.

Pada tahun 2024 juga telah dilakukan Audit Eksternal SMKP oleh Direktorat Jendral Perkeretaapian yang dilakukan di Kantor Pusat PT KAI dengan wilayah observasi antara lain: Daop 1 Jakarta, Daop 8 Surabaya, Daop 9 Jember dan Divre IV Tanjungkarang. Hasil yang dicapai oleh PT KAI dari Audit Eksternal Tingkat awal (127 kriteria) dengan dengan nilai penerapan 77,68% (Baik).

In 2024, an External Audit of SMKP was also carried out by the Directorate General of Railways, carried out at the PT KAI Head Office with observation areas including: Operational Area 1 Jakarta, Operational Area 8 Surabaya, Operational Area 9 Jember, and Regional Division IV Tanjungkarang. The results achieved by PT KAI from the Initial Level External Audit (127 criteria) with an implementation value of 77.68% (Good).

4. Identifikasi Bahaya dan Penilaian Risiko (IBPR)
5. Investigasi Kecelakaan Kereta Api (KKA) dan Non Kecelakaan Kereta Api (NKKA) dilakukan untuk mengetahui akar penyebab masalah sehingga kejadian yang sama tidak terulang Kembali di tempat yang sama dan ditempat lainnya. Adapun pada tahun 2024 telah dilakukan Investigasi KKA sejumlah 5 kejadian dan Investigasi KKA sejumlah 8 kejadian.

4. Hazard Identification and Risk Assessment (IBPR).
5. Investigations of Train Accidents (KKA) and Non-Train Accidents (NKKA) are conducted to discover the root cause of the problem, thus the same incident does not happen again in the same place or other places. In 2024, KKA Investigations were conducted for 5 incidents, and KKA Investigations for 8 incidents.

Upaya KAI melaksanakan komitmennya dalam memastikan keamanan produk dan jasa serta keselamatan pelanggan membawa hasil positif dengan tidak terdapatnya insiden ketidakpatuhan terkait dampak kesehatan dan keselamatan produk/jasa. **[GRI 2-27]**

KAI's commitment to ensuring the safety of our products and services, and ultimately customer safety, is evidenced by the absence of non-compliance incidents related to the health and safety impacts of our products/services. **[GRI 2-27]**

Lebih lanjut, KAI juga mengupayakan pemenuhan aspek kesehatan dan keselamatan pelanggan pada angkutan kereta api barang, dengan merujuk pada ketentuan Peraturan Menteri Perhubungan Nomor PM 48 tahun 2014 tentang Tata Cara Pemuatan, Penyusunan, Pengangkutan, dan Pembongkaran Barang dengan Kereta Api dan aturan perubahannya.

Furthermore, KAI strives to fulfill the health and safety aspects of customers in freight train transportation, by adhering to the provisions of the Minister of Transportation Regulation No. PM 48 of 2014 concerning the Procedures for Loading, Arranging, Transporting, and Unloading Goods by Train and its amendments.

KAI senantiasa memastikan keamanan perjalanan kereta api dengan melakukan evaluasi sarana dan prasarana secara rutin dan konsisten. Pada sarana, sebelum beroperasi, petugas sarana melakukan pengecekan dan memastikan kelayakan kereta, gerbong, dan lokomotif. Pengecekan harian dilakukan sebelum sarana digunakan hingga pengecekan enam bulanan, tahunan, dua tahunan, dan empat tahunan untuk pengecekan yang semakin kompleks dan menyeluruh. Begitu juga dengan prasarana seperti jalur dan rel kereta api. Pemeriksaan rutin setiap hari dilakukan oleh Petugas Pemeriksa Jalur (PPJ) yang memastikan kondisi jalur yang akan dilewati kereta api aman dan bebas dari gangguan.

Untuk meningkatkan kepuasan para mitra, KAI terus melakukan inovasi dan peningkatan keamanan angkutan barang. KAI menjalankan protokol kesehatan dalam bentuk memberikan fasilitas tempat cuci tangan dan *hand sanitizer* di wilayah Terminal serta peningkatan pengawasan dengan memasang CCTV pada lokasi tempat muat dan bongkar. KAI juga memastikan petugas keamanan bertugas di wilayah yang dianggap rawan untuk memastikan keamanan barang terutama angkutan peti kemas. Kami juga memastikan tersedianya APAR di Kereta Bagasi dan timbangan yang sudah ditera guna mendukung kelancaran proses pengangkutan retail. Terakhir, memastikan petugas menggunakan APD dan melakukan pekerjaan sesuai dengan SOP yang ada.

Komitmen KAI dalam memprioritaskan kesehatan dan keselamatan pelanggan dan mitra bertujuan untuk memberikan produk dan jasa yang tidak hanya unggul namun juga aman kepada seluruh pelanggan. Atas dasar itu, KAI senantiasa mengutamakan penerapan standarisasi keselamatan, kesehatan, dan keamanan bagi seluruh pelanggan dan mitra usaha, dan secara terus-menerus mewujudkan peningkatan layanan kereta api pada seluruh layanannya. KAI memastikan bahwa semua (100%) petugas keamanan kami telah dilatih dalam menerapkan prosedur keamanan yang memperhatikan hak asasi manusia. **[GRI 410-1]** Berikut pelatihan terkait aspek HAM yang diikuti oleh pekerja sepanjang tahun 2024:

KAI always ensures rail travel safety through regular and consistent evaluations of facilities and infrastructure. With facilities, before operation, trains, train cars, and locomotives must be checked and deemed fit for use by Rolling Stock officers. Daily checks are conducted before use, as well as more complex and comprehensive checks every six months, annually, biennially, and quadrennially. Similarly, infrastructure such as tracks and railway lines are inspected daily by Track Inspectors (PPJ) to ensure the tracks are safe and free from obstructions.

To increase partner satisfaction, KAI continuously innovates and enhances the safety of freight transport. Health protocols implemented by KAI include providing handwashing facilities and hand sanitizers at terminals, increasing surveillance by installing CCTV at loading and unloading locations, and ensuring security personnel are stationed in vulnerable areas to ensure the safety of goods, especially container transport. We also ensure the availability of fire extinguishers (APAR) in baggage cars and calibrated scales to support the smooth retail transportation process. Lastly, we ensure that employees use personal protective equipment (PPE) and perform their duties according to existing SOPs.

KAI's commitment to prioritizing the health and safety of customers and partners is aimed at providing products and services that are not only excellent but also safe for all customers. With this understanding, KAI consistently prioritizes the implementation of safety, health, and security standards for all customers and business partners, continuously improving railway services across all its offerings. KAI ensures that all (100%) of our security personnel are trained in security procedures that respect human rights. **[GRI 410-1]** The following is training related to human rights aspects that employees will participate in throughout 2024:

| Nama Pelatihan /<br>Training Name     | Waktu dan Tempat /<br>Time and Place                   | Jumlah Peserta /<br>Number of Participants |

| Human Resources Management for Non HR | 27 Februari-4 Maret 2024 / February 27 - March 4, 2025 | Eksternal                                  |

### Dampak Produk/Jasa [OJK F.28]

KAI mengidentifikasi dampak produk dan jasanya serta mengelompokkan dampak-dampak tersebut menjadi dampak positif dan negatif. Hal ini dilakukan guna memastikan bahwa setiap produk dan jasa yang dihasilkan telah mengikuti peraturan dan kebijakan yang berlaku dengan memiliki informasi label dan/atau penjelasan dari pekerja kami yang akurat dan dapat dimengerti oleh seluruh pelanggan KAI, khususnya terkait keamanan dan dampak lingkungan atau sosial yang mungkin timbul dari penggunaan produk atau jasa.

Adapun dampak positif dari produk dan jasa kereta api, antara lain menjadi solusi mobilitas masyarakat yang berkapasitas massal dan ramah lingkungan. Kereta api penumpang satu gerbongnya dapat mengangkut 175 penumpang bahkan dapat lebih dari itu karena kereta Jabodetabek di jam pergi dan pulang kerja hingga mencapai satu juta penumpang setiap harinya.

Sedangkan pada angkutan barang satu gerbong mampu mengangkut 50 ton barang atau seukuran 2 truk kontainer. Bahkan, satu rangkaian KA angkutan batu bara di Sumatra bagian selatan dapat menarik 60 gerbong atau 3.000 ton sekaligus, yang jika diangkut dengan truk membutuhkan kurang lebih 120 truk. Pemilihan kereta api sebagai angkutan penumpang dan barang dinilai lebih efisien dan ramah lingkungan karena rendah emisi dan polusi.

Selain itu, kereta api dapat menjadi solusi efektif untuk mengatasi kemacetan, terutama di kota-kota besar. Pemanfaatan kereta api sebagai moda transportasi massal dapat mengurangi volume kendaraan di jalan raya, sehingga berpotensi mengurangi kemacetan dan polusi udara.

Dampak positif lainnya, keberadaan KAI menyerap tenaga kerja dan bekerjasama dengan pemasok lokal. Dampak positif dari produk dan jasa KAI menciptakan distribusi nilai ekonomi yang mampu meningkatkan ekonomi masyarakat, melalui penghematan biaya transportasi.

Di sisi lain, dampak negatif dari kegiatan operasional kereta api, antara lain terdapatnya kemungkinan dampak lingkungan dan khususnya perlintasan sebidang jalur kereta api tanpa izin dan/atau tanpa penjaga, yang dapat menghadirkan risiko terjadinya kecelakaan. Di samping itu, perlintasan sebidang tanpa izin dan tanpa penjaga menghadirkan dampak lain berupa kemacetan kendaraan termasuk kendaraan yang melintas baik menuju ataupun dari arah stasiun.

### Product/Service Impacts [OJK F.28]

KAI identifies the impacts of its products and services and categorizes these impacts into positive and negative effects, which is done to ensure that every product and service produced adheres to applicable regulations and policies by having label information and/or explanations from our employees that are accurate and can be understood by all KAI customers, especially regarding safety and environmental or social impacts that might occur from the use of products or services.

The positive impacts of railway products and services include providing a high-capacity and environmentally friendly mobility solution for the community. For passenger transport, one carriage can carry 175 passengers, and even more, especially for commuter trains in the Greater Jakarta area during peak hours, reaching up to one million passengers daily.

Meanwhile, for freight transport, one carriage can carry 50 tons of goods, equivalent to two container trucks. In South Sumatra, a coal transport train can pull 60 carriages or 3,000 tons at once, which would require approximately 120 trucks if transported by road. Choosing rail transport for passengers and goods is more efficient and environmentally friendly due to its low emissions and pollution.

Furthermore, trains can be an effective solution to traffic congestion, especially in large cities. Using trains as a mode of mass transportation can reduce the number of vehicles on the roads, potentially reducing congestion and air pollution.

Another positive impact is that KAI absorbs labor and collaborates with local suppliers. The positive impact of KAI products and services creates a distribution of economic value that can stimulate economic growth in the community through transportation cost savings.

On the other hand, the negative impacts of railway operations include potential environmental impacts and, specifically, unauthorized and/or unguarded railway crossings, which pose accident risks. Moreover, unauthorized and unguarded crossings cause other issues such as traffic congestion, including vehicles crossing to or from the station.

Dalam rangka menekan dampak negatif pada aktivitas bisnisnya, KAI senantiasa memastikan keamanan dan kualitas layanannya dengan mengacu pada berbagai standar dan sertifikasi nasional dan dunia, antara lain:

- a. ISO 27001:2013 Sistem Manajemen Keamanan Informasi
- b. ISO 9001:2015 Sistem Manajemen Mutu
- c. ISO 14001:2015 Sistem Manajemen Lingkungan
- d. SMK3

Sementara itu KAI juga melakukan upaya mengurangi dan memulihkan dampak negatif terhadap hak asasi manusia dalam operasionalnya, KAI mengimplementasikan berbagai langkah. Beberapa diantaranya adalah: (1) Memberikan pelatihan dan edukasi kepada pekerja tentang pentingnya hak asasi manusia dan bagaimana mengimplementasikannya dalam tugas sehari-hari. Ini termasuk pelatihan tentang anti diskriminasi, kesetaraan gender, dan hak-hak pekerja. (2) Layanan konsultasi untuk memastikan bahwa korban mendapatkan keadilan dan pemulihan yang layak, serta untuk mencegah terjadinya kembali pelanggaran hak asasi manusia di masa depan.

Komitmen kuat KAI dalam mengelola dampak membawa pencapaian positif dengan tidak terdapatnya insiden ketidakpatuhan regulasi yang berlaku terkait informasi produk dan jasa atau menyangkut pemasaran yang KAI lakukan pada tahun 2024. **[GRI 2-27, 417-1, 417-2, 417-3]**

#### **Insiden Ketidakpatuhan terkait Keamanan atau Keselamatan atas Penggunaan Produk/Jasa [GRI 416-2]**

Untuk memastikan kegiatan operasional KAI berjalan sesuai dengan peraturan dan perundang-undangan yang berlaku, secara berkala KAI melakukan penelaahan terhadap perkembangan peraturan perundang-undangan dan standar *best practices*, mencakup terkait aspek keamanan atau keselamatan pelanggan dalam penggunaan produk/jasa Perseroan. Di samping itu, KAI juga telah menerapkan mekanisme untuk memantau penerapan peraturan perundang-undangan dan standar *best practices* keamanan atau keselamatan pelanggan di lingkungan Perseroan, serta memastikan bahwa regulasi yang berlaku senantiasa diterapkan secara efektif. Sepanjang tahun 2024 tidak terdapat insiden ketidakpatuhan berkenaan dengan keamanan dan keselamatan penggunaan produk/jasa KAI. **[GRI 2-27]**

KAI always ensures the security and quality of its services to reduce the negative impact on its business activities by referring to various national and international standards and certifications, including:

- a. ISO 27001:2013 Information Security Management System
- b. ISO 9001:2015 Quality Management System
- c. ISO 14001:2015 Environmental Management System
- d. OHSMS

Meanwhile, KAI also makes efforts to reduce and restore negative impacts on human rights in its operations by implementing various steps, which include: (1) Providing training and education to employees on the importance of human rights and how to implement them in their daily duties. This includes training on anti-discrimination, gender equality, and employees' rights. (2) Offering consultation services to ensure that victims receive appropriate justice and recovery, as well as to prevent future human rights violations.

KAI's strong commitment to risk management resulted in no incidents of non-compliance with applicable regulations related to product and service information or marketing conducted by KAI in 2024. **[GRI 2-27, 417-1, 417-2, 417-3]**

#### **Incidents of Non-Compliance Concerning the Safety or Security of Product/Service Use [GRI 416-2]**

To guarantee that KAI's operations proceed in line with applicable laws and regulations, KAI periodically reviews the development of laws and regulations as well as best practice standards, including aspects related to customer safety or security in the use of the Company's products/services. Furthermore, KAI implements the necessary mechanisms to monitor the application of laws and regulations and best practice standards for customer safety or security within the Company, ensuring that applicable regulations are always effectively implemented. There were no incidents of non-compliance concerning the safety and security of KAI's products/services in 2024. **[GRI 2-27]**

**Jumlah Produk yang Ditarik Kembali [OJK F.29]**

KAI senantiasa memastikan seluruh produk dan jasa perkeretaapian terjamin keamanan dan kelancaran. Upaya tersebut berdampak dengan tidak terdapatnya produk atau jasa KAI yang ditarik kembali selama tahun 2024. Sepanjang tahun 2024 pada prasarana, terdapat kondisi rel terpasang yang rusak dan perlu diganti. Volume total penggantian rel existing pada tahun 2024 mencapai 473.950 meter. Penggantian ini dilakukan karena kondisi rel mengalami *defect*, aus, korosi, serta untuk mengakomodasi peningkatan jumlah kereta yang lebih tinggi. Sementara pada sisi sarana, terdapat gangguan operasional yang menyebabkan penarikan kembali sebanyak 102 kali pada lokomotif, dengan penyebab dominan adalah gangguan Traksi Motor (TM) dan *Fuel Transfer Pump* (FTP). Selain itu, gangguan operasional pada prasarana terjadi sebanyak 235 kali, dengan penyebab dominan adalah gangguan rel

**Kebijakan dalam Menjaga Kerahasiaan Data Pelanggan [GRI 3-3, 418-1]**

Implementasi teknologi informasi digital dapat menciptakan efisiensi operasional dan kenyamanan pelanggan. Namun di sisi lain, teknologi digital memiliki banyak kerentanan, terutama dalam terkait keamanan siber, kerentanan perangkat lunak, dan risiko data pribadi. Hal ini menjadi perhatian utama KAI dalam menjaga keamanan dan kerahasiaan data atau informasi pribadi pelanggan.

KAI menerapkan komitmen untuk menjaga kerahasiaan data pribadi masing-masing pelanggan secara ketat, antara lain melalui penggunaan Access by KAI. Kebijakan terkait kerahasiaan data pelanggan yang diterapkan oleh KAI telah disosialisasikan melalui artikel “Kebijakan Privasi” yang tersedia pada Access by KAI.

KAI juga mengimplementasikan teknologi digital *Face Recognition Boarding Gate* pada saat pelanggan melakukan *boarding pass*. Teknologi ini dilengkapi kamera untuk mengidentifikasi dan memvalidasi identitas penumpang melalui wajah yang datanya sudah diintegrasikan dengan data tiket kereta. Melalui implementasi inovasi ini, pelanggan KA Jarak Jauh tidak perlu repot lagi menunjukkan berbagai dokumen pribadi seperti *boarding pass* fisik, *e-boarding pass*, ataupun KTP.

**Number of Products Recalled [OJK F.29]**

KAI consistently strives to ensure the safety and reliability of all railway products and services. These efforts resulted in no KAI products or services being recalled during 2024. Throughout 2024 on the infrastructure, there were installed rail conditions that were damaged and needed to be replaced. The total volume of existing rail replacement in 2024 reached 473,950 meters. The replacement was necessary due to defects, wear, corrosion, and to accommodate the increased number of trains. Meanwhile, on the equipment side, 102 operational disruptions led to locomotive recalls, primarily due to issues with the Traction Motor (TM) and Fuel Transfer Pump (FTP). Additionally, there were 235 operational disruptions to infrastructure mainly due to railway disruption.

**Policy on Maintaining Customer Data Confidentiality [GRI 3-3, 418-1]**

The implementation of digital information technology can enhance operational efficiency and customer convenience. However, on the other hand, digital technology has many vulnerabilities, namely related to cybersecurity, software vulnerabilities, and personal data risks, making it KAI's main concern to maintain the security and confidentiality of customer data or personal information.

KAI implements the commitment to heavily maintain the confidentiality of each customer's personal data, including through the use of the Access by KAI application. The policy related to customer data confidentiality which is implemented by KAI has been communicated through the “Privacy Policy” article available on the Access by KAI application.

KAI also implements the Face Recognition Boarding Gate technology for customers during the boarding process. This technology is equipped with cameras to identify and validate passenger identities through facial recognition, with data integrated with the train ticket information. Through the implementation of this innovation, Long-Distance Train passengers do not need to present various documents such as physical boarding passes, e-boarding passes, or ID cards.

Registrasi *Face Recognition* dapat dilakukan melalui Access by KAI maupun di stasiun. Registrasi di stasiun dapat dilakukan pada mesin *Check-in Counter (CIC)* atau melalui petugas layanan khusus di stasiun. Bagi penumpang yang menghendaki *boarding* dengan *Face Recognition* akan terlebih dahulu dimintai persetujuan pada proses pendaftarannya, baik pendaftaran di Access by KAI ataupun di stasiun.

Untuk memastikan keamanan informasi pelanggan, KAI mengimplementasikan Sistem Manajemen Keamanan Informasi berstandar internasional ISO 27001 tentang Standardisasi Manajemen Keamanan Informasi. Data penting pelanggan seperti nama, Nomor Induk Kependudukan (NIK), dan foto wajah akan disimpan pada infrastruktur KAI dan hanya dipergunakan untuk proses *Face Recognition Boarding Gate* secara digital. Data privasi pelanggan akan disimpan dalam waktu 1 tahun dan dihapus oleh sistem setelahnya. KAI juga memberikan hak kepada pelanggan yang ingin mengajukan penghapusan data dirinya sewaktu-waktu melalui Access by KAI atau dengan mengajukan penghapusan data kepada petugas Customer Service di stasiun.

Komitmen KAI menjaga kerahasiaan pelanggan sesuai dengan Undang-Undang Nomor 27 tahun 2022 tentang Pelindungan Data Pribadi. Komitmen tersebut juga merupakan bentuk pemenuhan regulasi pemerintah bahwa penyelenggara sistem elektronik untuk pelayanan publik harus menerapkan sistem manajemen pengamanan informasi seperti tertera pada Peraturan Pemerintah Republik Indonesia Nomor 71 Tahun 2019 tentang Penyelenggaraan Sistem dan Transaksi Elektronik, Peraturan Badan Siber dan Sandi Negara (BSSN) Nomor 8 Tahun 2020 tentang Sistem Pengamanan dalam Penyelenggaraan Sistem Elektronik, dan Peraturan Presiden Nomor 95 Tahun 2018 tentang Sistem Pemerintahan Berbasis Elektronik.

Untuk memperkuat implementasi kebijakan menjaga kerahasiaan pelanggan, KAI memiliki kebijakan internal yang mengatur penjagaan kerahasiaan data pelanggan, yang termuat di dalam Manajemen Keamanan Data berdasarkan Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor PER.K/KL.104/VIII/1/KA-2022 tentang Pedoman Tata Kelola Data (Data Governance) Direktur Keuangan dan Manajemen Risiko dan Peraturan Direksi PT Kereta Api Indonesia (Persero) Nomor PER.U/KK.303/IV/1/KA-2025 tentang Penerapan Pelindungan Data Pribadi.

The Face Recognition registration process can be completed either through the Access by KAI application or at the station. Registration at the station can be done at the Check-in Counter (CIC) machines or with the help of special service personnel. Passengers who wish to board with Face Recognition will first be asked for approval during the registration process, either by registering on the Access by KAI application or at the station.

To ensure customer information security, KAI implements an Information Security Management System compliant with the international ISO 27001 standard for Information Security Management. Important data such as names, National Identity Numbers (NIK), and facial photos are stored on KAI's infrastructure and are used solely for the Face Recognition Boarding Gate process in a digital format. Passenger privacy data will be retained for one year and then deleted by the system. Passengers also have the right to request data deletion at any time after registration through the Access by KAI app or by contacting Customer Service at the station.

KAI's commitment to maintaining customer data confidentiality aligns with Law No. 27 of 2022 on Personal Data Protection, and such commitment is also a form of government regulation fulfillment that electronic system operators for public services to implement information security management systems as stated in Government Regulation of the Republic of Indonesia No. 71 of 2019 on Electronic System and Transaction Implementation, Regulation of the National Cyber and Crypto Agency (BSSN) No. 8 of 2020 on Security Systems in Electronic System Implementation, and Presidential Regulation No. 95 of 2018 on Electronic-Based Government Systems.

To strengthen the implementation of customer confidentiality policies, KAI has an internal policy regulating the maintenance of customer data confidentiality, as outlined in the Data Governance guidelines based on the Board of Directors Regulation No. PER.K/KL.104/VIII/1/KA-2022 on Data Governance, overseen by the Finance and Risk Management Director and the Regulation of the Board of Directors of PT Kereta Api Indonesia (Persero) Number PER.U/KK.303/IV/1/KA-2025 concerning the Implementation of Personal Data Protection.

Di samping memiliki kebijakan internal, KAI di tahun 2024 juga melakukan *Information Technology Maturity and Capability Assessment* berdasarkan *Control Objectives for Information and Related Technology (COBIT) 2019* dengan nilai 3,76 dari 5 untuk 33 GAMO. KAI telah menerapkan *cyber security tools* terbaik dan memiliki *IT Security Operation Center* yang dapat mengidentifikasi dan menangani ancaman keamanan siber secepat mungkin sebelum kerusakan signifikan terjadi. Untuk memperkuat upaya pencegahan insiden siber, KAI membentuk Tim Tanggap Insiden Siber yang sudah terintegrasi dengan BSSN melalui Keputusan Direksi SK.U.KO.101/VII/3/KA-2023. Perseroan secara rutin melakukan pemantauan ketat terkait keamanan informasi yang meliputi aspek *confidentiality*, *integrity*, dan *availability*. Sampai dengan 31 Desember 2024, KAI tidak menerima pengaduan pelanggaran privasi pelanggan.

#### Pengukuran Standar Layanan Penyediaan Produk/Jasa dan Publikasi Hasilnya

KAI berkomitmen memprioritaskan keselamatan dan kenyamanan pelanggan pada seluruh layanan yang ditawarkan. Sebagai wujud nyata dari komitmen tersebut, KAI memahami pentingnya sosialisasi standar layanan kepada pelanggan agar pemenuhan standar pelayanan dapat terlaksana secara efektif. Secara rutin KAI memantau dan mengevaluasi standar layanan bagi pelanggan untuk menjamin keamanan dan keandalan layanan.

In addition to having an internal policy, in 2024, KAI conducted an *Information Technology Maturity and Capability Assessment* according to *Control Objectives for Information and Related Technology (COBIT) 2019*, scoring 3.76 for 33 GAMOs. KAI has implemented top-tier cybersecurity tools and maintains an *IT Security Operation Center* to identify and address cyber threats promptly before significant damage occurs. Recognizing the reality of cybersecurity threats, KAI manages cyber incidents through an *Incident Response Team* integrated with BSSN, as stipulated in the Board of Directors Decree SK.U.KO.101/VII/3/KA-2023. The Company continuously ensures controls related to information security, focusing on confidentiality, integrity, and availability. As of December 31, 2024, KAI did not receive any complaints related to customer privacy violations.

#### Measurement of Service Standards for Product/Service Provision and Publication of Results

KAI is committed to prioritizing customer safety and comfort in each service provided. As a real manifestation of this commitment, KAI understands the importance of disseminating service standards to customers to ensure effective implementation. Periodically, KAI reviews service standards for customers as a continuous effort to ensure service safety and reliability.

Selain itu, KAI juga mempublikasikan standar layanan yang diterapkan bagi pelanggan yang disampaikan melalui berbagai media, antara lain website [kai.id](http://kai.id), sosial media, laporan tahunan dan kanal keterbukaan informasi publik. Dengan demikian, masyarakat dapat memperoleh informasi yang diperlukan, kecuali data yang sifatnya dikecualikan menurut undang-undang.

Pengukuran standar pelayanan angkutan penumpang, dilakukan berdasarkan dua aspek utama yaitu stasiun dan kereta, dengan pengukuran standar pelayanan dilakukan pada dimensi fisik dan nonfisik. Dimensi fisik adalah layanan yang memiliki wujud atau bersifat *tangible*, sedangkan dimensi non-fisik adalah layanan yang tidak memiliki wujud atau bersifat *intangible* namun tetap memiliki dampak yang besar pada kepuasan pelanggan, dan seluruh aspek tersebut dilakukan pengukuran dalam bentuk Survei Kepuasan Pelanggan yang dilakukan dua kali dalam setahun.

Standar layanan yang dibuat oleh KAI senantiasa memperhatikan seluruh lingkaran pelayanan yang dimiliki, misalnya dalam pelayanan angkutan penumpang, KAI memiliki standar layanan bahkan sebelum pelanggan memulai perjalanan atau pra perjalanan, selama perjalanan, sampai dengan purna perjalanan. KAI memiliki layanan yang dapat digunakan pelanggan sebelum perjalanan, seperti website [kai.id](http://kai.id) dan Access by KAI yang memuat informasi dan prosedur perjalanan dengan kereta api. KAI juga mempunyai layanan *Contact Center 121* yang meliputi sosial media, e-mail, telepon, dan pesan teks. Setelah itu, saat pelanggan akan melakukan perjalanan, KAI memiliki standar layanan mulai dari *gate parkir* stasiun keberangkatan, proses layanan di stasiun dan kereta, sampai dengan pelanggan tiba di tujuan dan meninggalkan area stasiun.

KAI juga memiliki layanan purna-perjalanan, yaitu *Lost and Found*. Layanan ini untuk membantu pelanggan yang kehilangan barang atau memiliki barang yang tertinggal di area stasiun atau kereta. Pelanggan dapat melaporkan kehilangan kepada petugas stasiun atau melalui *Contact Center KAI 121*.

Selain itu, terdapat sejumlah layanan lain yang disediakan KAI, dengan semuanya memiliki standar layanan atau *Service Level Agreement (SLA)* yang terukur dan selalu terevaluasi dengan baik.

Moreover, KAI has published the service standards applied to customers through the website [kai.id](http://kai.id), social media, the annual report, and public information disclosure channels, as media where the public can obtain any necessary information, except for data excluded by laws.

The passenger transport service standards at KAI are measured based on two main aspects, namely stations and trains, with service standard measurements conducted on both physical and non-physical dimensions. The physical dimension includes tangible services, while the non-physical dimension includes intangible services that still have a significant impact on customer satisfaction, and all these aspects are measured through a Customer Satisfaction Survey conducted twice a year.

Service standards created by KAI always consider the entire circle of service, such as in passenger transport services, KAI has service standards even before the journey begins (pre-journey), during the journey, and post-journey. KAI has various services available to customers before starting their journey, including the availability of the website [kai.id](http://kai.id) and the Access by KAI application, which contain information and procedures for train travel. Additionally, KAI offers the *Contact Center 121* service, which includes social media, email, telephone, and text messages. When customers are about to travel, KAI has service standards from the departure station parking gate, and service processes at the station and on the train, to the point where customers arrive at their destination and leave the station area.

Additionally, KAI has post-journey services, namely *Lost and Found*. This service is to help customers who lose items or have items left behind in the station or train area. Customers can report the loss to station officers or through the *KAI 121 Contact Center*.

Additionally, KAI provides several other services, all of which have measurable service standards or *Service Level Agreements (SLAs)* that are regularly evaluated.

### Survei Kepuasan Pelanggan [OJK F.30]

Untuk meningkatkan kualitas layanan dan menjaga kepercayaan pelanggan, KAI senantiasa melakukan evaluasi, yang dilakukan melalui riset pasar secara berkala setiap semester pada beberapa stasiun kereta di kota-kota besar Jawa dan Sumatra. Riset pasar dilaksanakan melalui wawancara langsung kepada responden, untuk menilai sejumlah aspek terkait kereta api dan stasiun. Pada riset tersebut, kami meminta penilaian layanan kereta api kepada masyarakat. Penilaian tersebut mencakup sejumlah aspek, yang meliputi aspek fisik dan non fisik di stasiun dan kereta api. Di stasiun aspek fisik meliputi fasilitas dan bangunan, aspek non fisik meliputi informasi dan keramahan petugas. Sementara itu di kereta api aspek fisik meliputi fasilitas dan sarana, aspek non fisik meliputi informasi dan keramahan petugas.

Atas dasar penilaian tersebut, pada semester II dan II tahun 2024 survei kepuasan pelanggan KAI berhasil mencapai skor *Customer Satisfaction Index* (CSI) masing-masing sebesar 4,51 dan 4,49 dari skala 1 (sangat tidak puas) sampai skala 5 (sangat puas). KAI juga melakukan evaluasi dalam rangka meningkatkan pelayanan kepada pelanggan untuk periode selanjutnya. Hasil survei tersebut selanjutnya akan dijadikan dasar bagi KAI untuk menyusun prioritas perbaikan untuk periode berikutnya.

### Customer Satisfaction Survey [OJK F.30]

To improve service quality and maintain customer trust, KAI consistently conducts evaluations, conducted through periodic market research every semester at several train stations in major cities in Java and Sumatra. Market research is conducted through direct interviews with respondents to assess several aspects related to trains and stations. In this research, we ask the public to evaluate train services. This assessment covers several aspects, including physical and non-physical aspects of the station and train. At the station, physical aspects include facilities and buildings, while non-physical aspects include information and staff friendliness. Meanwhile, on the train, physical aspects include facilities and infrastructure, and non-physical aspects include information and staff friendliness.

Based on this assessment, in the first and second semesters of 2024, KAI's customer satisfaction survey managed to achieve Customer Satisfaction Index (CSI) scores of 4.51 and 4.49, respectively, on a scale of 1 (very dissatisfied) to a scale of 5 (very satisfied). KAI also conducts an evaluation to improve customer service for the next period. The survey results will then be used as a basis for KAI to set improvement priorities for the next period.

## Tanggapan Terhadap Umpan Balik Laporan Keberlanjutan Tahun Sebelumnya [OJK G.3]

*Response to Feedback on the Previous Year's Sustainability Report [OJK G.3]*

Sepanjang tahun 2024 KAI tidak menerima umpan balik terhadap Laporan Keberlanjutan tahun 2023. Kendati demikian, kami akan terus meningkatkan kualitas Laporan Keberlanjutan Perseroan agar dapat memenuhi kepentingan para pemangku kepentingan.

Throughout 2024, KAI did not receive any feedback on the 2023 Sustainability Report. Nevertheless, we will continue to improve the quality of the Company's Sustainability Report to meet the interests of stakeholders.

## Assurance Oleh Pihak Eksternal [OJK G.1] [GRI 2-5]

### External Assurance [OJK G.1] [GRI 2-5]

Untuk memastikan kualitas dan keandalan informasi Laporan Keberlanjutan ini, KAI menunjuk PT Superintending Company of Indonesia (SUCOFINDO) sebagai pihak yang menyediakan jasa *independent assurance* untuk Laporan Keberlanjutan periode 1 Januari 2024–31 Desember 2024. Proses penunjukan pihak penyedia jasa *independent assurance* dilakukan melalui mekanisme tender dengan mempertimbangkan kredibilitas, pengalaman kerja, serta kapabilitas yang dimiliki. KAI tidak memiliki hubungan kerja lain dengan SUCOFINDO selain hubungan dan penugasan dalam proses pemeriksaan laporan ini.

To ensure the quality and reliability of information within the Sustainability Report, KAI appointed PT Superintending Company of Indonesia (SUCOFINDO) as a party providing independent assurance services for the Sustainability Report for the period of January 1, 2024–December 31, 2024. The process of appointing the independent assurance service provider is carried out through a tender mechanism by considering credibility, work experience, and capabilities. KAI does not have any other collaborations with SUCOFINDO other than the relationship and assignment in the process of examining this report.

## Independent Assurance Statement

### No. 1428/KSP-VIII/2025

#### To the management and stakeholders of PT Kereta Api Indonesia (Persero),

We were engaged by PT Kereta Api Indonesia (Persero) (KAI) to provide assurance regarding its Annual and Sustainability Report 2024 ('the Report'). The assurance engagement was conducted by our assurance team, which possesses extensive relevant professional and technical competencies and experience. The team comprised certified sustainability reporting specialists and certified sustainability reporting assurers to ensure a high level of competency in executing the engagement.

#### Independence

We carried out all assurance undertakings with independence and autonomy, having not been involved in the preparation of any key part of the Report, nor did we provide any services to PT Kereta Api Indonesia (Persero) during 2024 that could conflict with the independence of the assurance engagement.

#### Assurance Standards, Levels, and Criteria

Our work was carried out in accordance with AA1000 Assurance Standards v3 (AA1000AS v3) issued by AccountAbility and International Standard on Assurance Engagements ISAE 3000 (Revised), 'Assurance Engagements other than Audits or Reviews of Historical Financial Information,' issued by the International Auditing and Assurance Standards Board.

By designing our evidence-gathering procedures to obtain a moderate level of assurance as set out in AA1000AS v3, readers of the report can be confident that all risks or errors have been reduced to a very low level, although not necessarily to zero. Moreover, PT Kereta Api Indonesia (Persero) adherence to the AccountAbility Principles (AP) was evaluated in accordance with the criteria of AA1000AP (2018) on Inclusivity, Materiality, Responsiveness, and Impact. In addition, the Report, within the agreed scope, has been assessed according to the GRI Standards criteria.

#### Limitations

Our scope of work was limited to a review of the accuracy and reliability of specified data and interviews with data providers, persons in charge of data collection and processing, as well as persons in charge of sustainability performance-related information.

#### Responsibility

PT Kereta Api Indonesia (Persero) is responsible for the preparation of the report and all information and claims therein, which include establishing sustainability management targets, performance management, data collection, and other performance actions.

In performing this engagement, meanwhile, our responsibility to the management of PT Kereta Api Indonesia (Persero) is solely for the purpose of verifying the statements it has made in relation to its sustainability performance, specifically as described in the agreed scope, and expressing our opinion on the conclusions reached.

#### Methodology

In order to assess the veracity of certain assertions and specified data sets included within the Report, as well as the systems and processes used to manage and report them, the following methods were employed during the engagement process:

Reviews were conducted on the Report, internal policies, documentation, management and information systems, and included interviews with relevant staff in sustainability-related management and reporting. This also involved following data trails to the initial aggregated source and checking data samples in greater depth.

#### Scope of Assurance

We provided a Type 2 assurance engagement under AA1000AS v3. This involved:

- 1) Assessment of PT Kereta Api Indonesia (Persero) adherence to the AA1000AP (2018); and
- 2) Assessment of the accuracy and quality of the specified sustainability performance information contained within the Report, in relation to the agreed scope of GRI Standards:
  201. Economic Performance
  302. Energy
  403. Occupational Health and Safety
  404. Training and Education

#### Conclusions

PT Kereta Api Indonesia (Persero) adherence to the AA1000 AP (2018) principles of Inclusivity, Materiality, Responsiveness, and Impact is assessed as follow:

#### Inclusivity

PT Kereta Api Indonesia (Persero) has demonstrated a strong commitment to inclusivity through clear stakeholder policies, active engagement with diverse groups including marginalized communities, and mechanisms that ensure non-discriminatory access to services. The company maintains responsive two-way communication via focus group discussions, media gatherings, CRM systems, and multiple public feedback channels, enabling timely action and continuous improvement.

To build on this progress, PT Kereta Api Indonesia (Persero) is encouraged to adopt targeted strategies for attracting and retaining a diverse workforce, strengthen inclusive practices, and refine policies to address existing gaps and mitigate risks of bias or discrimination. Deepening stakeholder engagement and trust will reinforce business resilience, enhance accountability, and support long-term sustainability.

### Materiality

Our assessment found that PT Kereta Api Indonesia (Persero) has a robust process to identify and prioritize material sustainability issues, engaging internal and external stakeholders as well as experts to ensure diverse perspectives. These issues have been effectively integrated into sustainability reporting, core business strategies, policies, and the ESG roadmap.

To build on this foundation, we recommend that PT Kereta Api Indonesia (Persero) conduct regular assessments to continuously refine and prioritize sustainability factors that inform strategic decision-making. This proactive approach will help align with evolving stakeholder expectations and further strengthen the company's sustainability initiatives.

### Responsiveness

PT Kereta Api Indonesia (Persero) has demonstrated a strong commitment to responsiveness by effectively identifying, prioritizing, and addressing stakeholder concerns, including those of marginalized groups such as persons with disabilities, women, the elderly, and children. The company has also established mechanisms to manage potentially conflicting interests, supported by accessible grievance channels such as the Whistleblowing System (WBS), environmental reporting systems, and various customer service platforms.

To build on these strengths, PT Kereta Api Indonesia (Persero) is encouraged to further enhance its responsiveness framework by fostering deeper collaboration, integrating more inclusive dialogue platforms, aligning engagement strategies with evolving expectations, and adopting best practices in conflict resolution.

### Impact

PT Kereta Api Indonesia (Persero) has demonstrated a strong commitment to assessing and managing the positive and negative impacts of its operations across social, environmental, and economic dimensions. The company applies a risk management framework to prioritize significant impacts, ensures transparency through disclosures in its Annual and Sustainability Report,

and PPID website, and actively involves stakeholders in setting targets and monitoring progress via FGD and reconciliation forums. This proactive approach has contributed to PT Kereta Api Indonesia (Persero)'s positive reputation and cultivated trust-based relationships with stakeholders.

To further enhance stakeholder engagement, we recommend prioritizing the measurement and transparent reporting of social performance indicators, aiming to mitigate adverse effects while enhancing positive outcomes for communities and stakeholders.

### Conclusion on the accuracy and quality of the specified sustainability performance.

Based on our limited assurance engagement, nothing has come to our attention that causes us to believe the data of the Report, in relation to the agreed scope, has been materially misstated.

All key assurance findings are included herein, while detailed observations and follow-up recommendations have been submitted to PT Kereta Api Indonesia (Persero) management in a separate report.
