# Memperkuat Layanan dan Menjamin Keselamatan untuk Wujudkan Keberlanjutan

*Empowering Services and Ensuring Safety to Cultivate Sustainability*

Sejalan dengan visi menjadi solusi ekosistem transportasi terbaik untuk Indonesia, PT Kereta Api Indonesia (Persero) memperkuat layanan dengan meningkatkan sarana-prasarana untuk mendukung operasional yang lebih baik. Komitmen tersebut dilakukan sebagai langkah strategis KAI dalam mewujudkan masa depan yang berkelanjutan.

Di tahun 2024, KAI melakukan transformasi dan inovasi digital untuk meningkatkan keandalan dan menjamin keselamatan bagi penumpang. KAI meluncurkan inovasi *Track-Mod* dan *Smart Rail* untuk meningkatkan keselamatan dan keamanan kereta. Inovasi ini dirancang untuk meningkatkan efisiensi operasional, penghematan biaya, dan juga jaminan keselamatan perjalanan kereta api. KAI juga meluncurkan *Carbon Footprint* yang dapat diakses melalui aplikasi *Access by KAI* sebagai solusi transportasi yang inovatif dan ramah lingkungan. Lebih lanjut, KAI menerbitkan Obligasi melalui mekanisme Penawaran Umum Berkelanjutan (PUB) Obligasi dan Sukuk Ijarah Berkelanjutan I Kereta Api Indonesia Tahap II Tahun 2024.

In line with its vision of becoming Indonesia's best transportation ecosystem solution, PT Kereta Api Indonesia (Persero) strengthens its services by improving infrastructure to aid better operations. Such commitment is carried out as KAI's strategic step in realizing a sustainable future.

In 2024, KAI conducted digital transformation and innovation to improve reliability and ensure safety for passengers. KAI launched the *Track-Mod* and *Smart Rail* innovation to increase train safety and security, designed to improve operational efficiency, cost savings, as well as ensure train travel safety. KAI also launched *Carbon Footprint* which could be accessed through the *Access by KAI* application as an innovative and environmentally friendly transportation solution. Moreover, KAI issued bonds through the Continuous Public Offering (PUB) mechanism for Continuous Bonds and Sukuk Ijarah I Kereta Api Indonesia Phase II in 2024.

### Meningkatkan Konektivitas, Mengkatalisasi Transformasi Berkelanjutan bagi Negeri

Enhancing Connectivity, Catalyzing  
Sustainable Transformation for the Nation

PT Kereta Api Indonesia (Persero) berkomitmen untuk menjadi katalisator utama dalam mendorong transformasi berkelanjutan bagi negeri melalui inisiatif yang terfokus pada peningkatan konektivitas. Sebagai pionir dalam sektor transportasi darat, perusahaan telah mengambil peran sentral dalam mempercepat pertumbuhan dan kemajuan ekonomi nasional. Dengan jaringan kereta api yang merentang dari ujung barat hingga timur, PT Kereta Api Indonesia telah menciptakan jalur komunikasi yang efisien, menghubungkan pusat-pusat ekonomi, industri, dan perdagangan di seluruh negeri. Keberadaan layanan kereta api yang andal tidak hanya memperpendek jarak antar-kota, tetapi juga memperluas aksesibilitas bagi masyarakat di daerah-daerah terpencil.

Melalui investasi strategis dalam pemeliharaan dan pengembangan infrastruktur, PT Kereta Api Indonesia memberikan kontribusi signifikan pada perubahan positif dalam sektor transportasi. Penambahan jalur kereta api, perluasan stasiun, dan peningkatan teknologi layanan merupakan upaya nyata dalam meningkatkan efisiensi dan kualitas perjalanan.

PT Kereta Api Indonesia juga mengambil peran sebagai katalisator sosial dan ekonomi, menciptakan peluang baru untuk pengembangan bisnis dan pertumbuhan ekonomi lokal. Dengan membangun kolaborasi erat dengan berbagai pemangku kepentingan, perusahaan ini mendorong transformasi berkelanjutan yang berdampak positif pada pengembangan masyarakat di sepanjang jalur kereta api.

Sebagai pilar penting dalam mobilitas dan konektivitas, PT Kereta Api Indonesia (Persero) tidak hanya menjadi penggerak utama transformasi nasional tetapi juga pendorong perubahan menuju masa depan yang lebih berkelanjutan dan inklusif bagi negeri.

PT Kereta Api Indonesia (Persero) is committed to being the primary catalyst in driving sustainable transformation for the nation through initiatives focused on enhancing connectivity. As a pioneer in the land transportation sector, the company has taken a central role in accelerating national economic growth and progress. With a railway network stretching from the western to the eastern ends of the country, PT Kereta Api Indonesia has created efficient communication routes, connecting economic, industrial, and trade centers across the nation. The existence of reliable rail services not only shortens the distance between cities but also expands accessibility for communities in remote areas.

Through strategic investments in the maintenance and development of infrastructure, PT Kereta Api Indonesia makes a significant contribution to positive changes in the transportation sector. The addition of railway lines, station expansions, and technological service improvements are tangible efforts to enhance travel efficiency and quality.

PT Kereta Api Indonesia also plays a role as a social and economic catalyst, creating new opportunities for business development and local economic growth. By building close collaborations with various stakeholders, the company promotes sustainable transformation that positively impacts community development along the railway lines.

As an essential pillar in mobility and connectivity, PT Kereta Api Indonesia (Persero) is not only a primary driver of national transformation but also a promoter of change towards a more sustainable and inclusive future for the nation.

## Berakselerasi Memperkuat Kontribusi bagi Negeri

Accelerating to Strengthen Contribution for the Nation

Seiring pemulihan situasi ekonomi dari dampak pandemi Covid-19, KAI terus memperkuat kontribusi pada sektor transportasi negeri. Hal tersebut terwujud melalui pengembangan usaha dan operasional selama 2022, yang secara mendasar mampu mendorong daya adaptasi KAI dalam menghadapi dinamika industri. Lebih dari itu, kontribusi KAI juga tercermin melalui peningkatan kinerja keberlanjutan yang terlaksana selama 2022, mencakup aspek ekonomi, sosial, dan lingkungan, sebagai upaya berkelanjutan dalam menghadirkan dukungan kuat bagi pencapaian tujuan-tujuan pembangunan berkelanjutan di Indonesia.

Sampai akhir 2022, KAI menerapkan sejumlah langkah strategis mencakup segmen angkutan penumpang dan barang. Pada angkutan penumpang, KAI menerapkan pencegahan penularan Covid-19 sesuai kebijakan Pemerintah, sebagai upaya menyeluruh dalam memberi rasa aman bagi seluruh pelanggan. KAI juga telah menerapkan sejumlah upaya pemasaran, baik secara online maupun offline, hingga melakukan *reclass*, *rerouting*, dan menghadirkan perjalanan KA tambahan. Kemudian, pada angkutan barang, KAI telah menerapkan sejumlah upaya yang diarahkan guna percepatan pembangunan infrastruktur pendukung, optimalisasi sarana dan kegiatan pemasaran, hingga menerapkan upaya efisiensi pola operasi untuk meningkatkan volume angkutan, baik pada wilayah Jawa maupun Sumatra.

Penguatan kontribusi KAI antara lain ditunjukkan melalui peningkatan kualitas operasional, baik pada aspek keselamatan, ketepatan waktu, kenyamanan, dan daya tarik perjalanan. Pada 2022, KAI berhasil meningkatkan keandalan melalui kinerja pelayanan dan keselamatan, dengan merealisasikan penurunan kecelakaan dan keterlambatan, baik pada KA penumpang maupun KA barang. Peningkatan kenyamanan dan daya tarik perjalanan KA juga tercermin melalui hadirnya KA Luxury dan KA Panoramic pada 2022.

Atas pencapaian yang diraih pada 2022, kami optimistis kontribusi KAI dapat dipertahankan dan terus ditingkatkan seiring kelanjutan laju pembangunan negeri. Kami optimistis, KAI akan tumbuh lebih kuat sebagai pengelola moda transportasi berkelas dunia, seiring pencapaian visi untuk hadir menjadi solusi ekosistem transportasi terbaik untuk Indonesia.

As the economic situation recovers from the impact of the Covid-19 pandemic, KAI continues to strengthen its contribution to the country's transportation sector. This was realized through business and operational development throughout 2022, which is fundamentally able to encourage KAI's adaptability in dealing with industrial dynamics. Moreover, KAI's contribution is also reflected in the improvement in sustainability performance that was carried out in 2022, covering economic, social, and environmental aspects, as an ongoing effort to provide strong support for achieving sustainable development goals in Indonesia.

As of the end of 2022, KAI was implementing various strategic steps covering the passenger and freight transportation segments. In passenger transportation, KAI implemented prevention of Covid-19 transmission according to Government policy, as a comprehensive effort to provide a sense of security for all customers. KAI has also implemented a number of marketing efforts, both online and offline, to reclass, reroute, and present additional train trips. Then, in the transportation of freight, KAI implemented numerous efforts aimed at accelerating the development of supporting infrastructure, optimizing marketing Rolling Stock and activities, as well as implementing operational pattern efficiency efforts to increase transportation volume, both in Java and Sumatra.

Strengthening of KAI's contribution, among others, is shown through operational quality improvement, both in the aspects of safety, punctuality, comfort, and travel attractiveness. In 2022, KAI succeeded in increasing reliability through service and safety performance, by realizing a reduction in accidents and delays, both on passenger and freight trains. The increased comfort and attractiveness of train travel are also reflected in the presence of the Luxury KA and the Panoramic KA in 2022.

For the performance achieved in 2022, we are optimistic that KAI's contribution can be maintained and continuously improved in line with the country's continued development. We are optimistic that KAI will grow stronger as a world-class mode of transportation operator, in line with achieving its vision to be present as the best transportation ecosystem solution for Indonesia.

## Semangat Bangkit Untuk Melayani Lebih Cepat dan Lebih Baik

The Spirit of Rising to Serve Faster and Better

Tahun 2021 menjadi tahun ditanamkan semangat pemulihan dari dampak pandemi COVID-19. Sinyal pemulihan ekonomi dapat terlihat dari Purchasing Managers Index (PMI) manufaktur global yang berada pada zona ekspansif. Dalam menyambut sinyal tersebut, PT Kereta Api Indonesia (Persero) atau KAI membangun strategi-strategi khusus yang dilakukan dalam upaya untuk bangkit dan kembali normal di masa Pandemi COVID-19 dengan tetap mengutamakan visi, misi serta nilai-nilai KAI.

Perseroan melakukan berbagai inisiatif dan hal-hal baru seperti perbaikan layanan tempuh kereta api (KA Argo Bromo Anggrek (Gambir - Surabaya Pasar Turi PP), Argo Willis (Bandung - Surabaya Gubeng PP), Argo Lawu (Gambir - Solo Balapan PP), Argo Dwipangga (Gambir - Solo Balapan PP), dan Taksaka (Gambir - Yogyakarta PP)), penambahan frekuensi perjalanan kereta api, penerapan *dynamic pricing*, penggunaan model skema tarif untuk angkutan sesuai dengan *cluster* kereta api unggulan, non-unggulan dan kereta api perintis. Untuk peningkatan pelayanan kepada penumpang kereta api juga dilakukan dengan menghadirkan wifi gratis dalam KA Argo Bromo Anggrek, Argo Lawu, Argo Dwipangga, Argo Willis, Taksaka, dan Argo Parahyangan serta layanan Live Cooking di atas KA Argo Bromo Anggrek, KA Argo Lawu, Argo Dwipangga, Taksaka, dan Argo Willis. KAI juga menghadirkan layanan *first mile-last mile*, layanan dompet digital KAI Pay, dan layanan *top-up* dan tagihan di Access by KAI.

Berbagai langkah terus diupayakan yang mengarah pada keselamatan, ketepatan waktu, pelayanan dan kenyamanan seperti menjaga keandalan sarana dan prasarana, peningkatan jaminan keselamatan, implementasi sistem manajemen berbasis pelanggan (*customer driven*) melanjutkan penataan SDM, intensifikasi pasar yang sudah ada, pengembangan sistem informasi yang terpadu, dan peningkatan peran bisnis non angkutan melalui penertiban aset serta pengelolaan aset secara optimal dan profesional.

Kontribusi Perseroan lainnya ditunjukkan dengan mengawal jalannya Proyek Strategis Nasional berbasis perkeretaapian yaitu LRT Jabodebek dan Kereta Cepat Jakarta-Bandung. Dengan dijakikannya KAI sebagai pimpinan konsorsium BUMN atas proyek Kereta Cepat Jakarta Bandung serta dikurirkannya dana PMN oleh Pemerintah kepada perseroan untuk pembiayaan kedua proyek tersebut, kita semakin optimis bahwa Indonesia akan segera memiliki moda transportasi tambahan untuk menunjang terciptanya ekosistem transportasi yang baik.

2021 was the year to instill the spirit of recovery from the impact of the COVID-19 pandemic. Signals of economic recovery could be seen from the global manufacturing Purchasing Managers' Index (PMI), which was in the expansion zone. In welcoming this signal, PT Kereta Api Indonesia (Persero) or KAI developed special strategies carried out in an effort to rise and return to normal during the COVID-19 pandemic while still prioritizing KAI's vision, mission and values.

The Company carried out various initiatives and new things such as improving rail travel services (KA Argo Bromo Anggrek (Gambir - Surabaya Pasar Turi PP), Argo Willis (Bandung - Surabaya Gubeng PP), Argo Lawu (Gambir - Solo Balapan PP), Argo Dwipangga (Gambir - Solo Balapan PP), and Taksaka (Gambir - Yogyakarta PP)), increasing the frequency of train trips, implementing dynamic pricing, using a tariff scheme model for transportation in accordance with the superior, nonseeded and pioneer train clusters. To enhance passenger service, free Wi-Fi has been provided on the Argo Bromo Anggrek, Argo Lawu, Argo Dwipangga, Argo Willis, Taksaka, and Argo Parahyangan trains, as well as Live Cooking services on the Argo Bromo Anggrek, Argo Lawu, Argo Dwipangga, Taksaka, and Argo Willis trains. KAI has also introduced first-mile-last-mile services, KAI Pay digital wallet services, and top-up and billing services at Access by KAI.

Various steps were continuously pursued that lead to safety, punctuality, service, and comfort such as maintaining the reliability of Rolling Stock and infrastructure, increasing safety assurance, implementing a customer-driven management system (customer-driven), continuing HR management, intensifying existing markets, developing an integrated information system and increasing the role of non-transportation businesses through asset control and optimal and professional asset management.

The Company's other contribution could be shown by overseeing the implementation of the National Strategic Projects based on the railway, namely the Jabodebek LRT and the Jakarta-Bandung high-speed train. With the appointment of KAI as the head of the SOE consortium for the Jakarta Bandung High-Speed Rail project and the Government's disbursement of PMN funds to the company to finance the two projects, we were increasingly optimistic that Indonesia could soon have additional modes of transportation to support the creation of a good transportation ecosystem.

## Adaptif, Solutif, Kolaboratif Untuk Indonesia

Adaptive, Solutive, Collaboration for  
Indonesia

Perubahan adalah hal pasti. Kita hanya perlu menerimanya dengan pikiran terbuka. Pada tahun 2020 KAI memasuki era baru yang diwujudkan melalui visi Menjadi Solusi Ekosistem Transportasi Terbaik untuk Indonesia. Perseroan juga mengubah budaya dan logo perusahaan. Seluruh pembaruan ini merupakan upaya kami untuk terus beradaptasi dengan zaman, sehingga pelanggan senantiasa dapat menikmati peningkatan layanan. Kondisi yang menantang tidak menghalangi kami untuk menciptakan momentum penyegaran, melainkan menjadi fondasi untuk bertahan dan berkembang di masa mendatang.

Semangat ini kami tampilkan melalui desain sampul muka yang mengusung pendekatan fotografi. Foto kereta KAI yang sedang berjalan dalam kecepatan tinggi menjadi fokus, merepresentasikan KAI sebagai sosok perusahaan yang dinamis dan dapat beradaptasi dengan cepat untuk menghadapi tantangan di tahun 2020.

Change is a sure thing. We just need to accept it with an open mind. In 2020 KAI has entered a new era which is manifested through the vision of Becoming the Best Transportation Ecosystem Solution for Indonesia. The Company also changed its company culture and logo. All of these updates are our efforts to continue to adapt to the times, hence the customers are able to always enjoy the improvement of our service. The challenging conditions did not prevent us from creating momentum for refreshment, but rather became the foundation for survival and enhancement in the future.

We show this spirit through the face cover design that carries a photographic approach. Photo of the KAI train running at high speed is the focus, representing KAI as a dynamic company figure which can adapt quickly to face challenges in 2020.

## Kekuatan Bisnis KAI

### *KAI'S Business Advantage*

KAI terus beroperasi sebagai perusahaan penyedia jasa transportasi di Indonesia dengan kekuatan bisnis sebagai berikut:

1. Satu-satunya Perseroan BUMN di bidang kereta api di Indonesia.
2. Sebagian besar lini bisnis anak perusahaan membawa keunggulan strategis untuk KAI.
3. Memiliki pengetahuan dan kemampuan dalam menjalankan bisnis dan operasi kereta api yang telah dibangun selama beberapa dekade.
4. Telah menjadi operator untuk infrastruktur *eksisting* (jaringan kereta sepanjang utara dan selatan Pulau Jawa serta sisi utara, barat, dan selatan Pulau Sumatera).
5. Memiliki aset lahan yang sangat luas dan sebagian besar terletak di lokasi strategis.
6. Infrastruktur tetap dirawat dengan baik dan bukan merupakan penyebab utama dari gangguan yang tidak terduga.
7. Peningkatan pada aspek keselamatan yang diindikasikan dari tren positif dari penurunan jumlah kecelakaan dalam 5 (lima) tahun terakhir.
8. Memiliki dukungan dana dari Pemerintah untuk pemeliharaan dan operasi kereta api.
9. Adanya pembiayaan yang kuat.
10. Memiliki jumlah tenaga kerja yang besar.
11. Memiliki bisnis utama yakni angkutan penumpang dan angkutan barang, serta komersialisasi aset sebagai bisnis pendukung.

## PENYELESAIAN PROYEK STRATEGIS NASIONAL PROYEK KCJB DAN PROYEK LRT JABODEBEK

### PROYEK KERETA CEPAT JAKARTA BANDUNG (KCJB)

KCJB Whoosh yang diresmikan pada 2 Oktober 2023 memiliki kecepatan 350 km/jam dengan waktu tempuh dari Jakarta menuju Bandung kurang lebih sekitar 46 menit. Di tahun 2024, jumlah penumpang KCIC terus mengalami pertumbuhan rata-rata penumpang bulanan. Pada awal operasi, di Oktober 2023, rata-rata jumlah penumpang Whoosh berada di angka 13 ribu penumpang per hari. Pada Juni 2024 jumlahnya meningkat menjadi 17,8 ribu penumpang per hari dan melonjak menjadi 19,9 ribu penumpang per hari di masa libur sekolah pada Juli 2024. Puncaknya terjadi di Desember 2024, dimana Whoosh memiliki rata-rata penumpang per hari stabil di 20,2 ribu penumpang per hari.

### LRT JABODEBEK

LRT Jabodebek resmi beroperasi komersial penuh pada 28 Agustus 2023 dan diresmikan oleh Presiden Joko Widodo di Stasiun Cawang. LRT Jabodebek melayani dua *line*, yakni Dukuh Atas BNI - Jati Mulya dan Dukuh Atas BNI - Harjamukti dengan total sebanyak 18 stasiun dan panjang lintasan 44, 43 km. LRT Jabodebek memiliki 31 *Trainset* yang dibuat oleh PT INKA dengan jumlah perjalanan per hari 366 perjalanan saat *weekday* dan 270 perjalanan saat *weekend*. Pengguna LRT Jabodebek dapat melakukan pembayaran melalui Kartu Multi Trip KAI Commuter, Access by KAI, Link Saja dan Kartu Uang Elektronik.

## COMPLETION OF NATIONAL STRATEGIC PROJECTS KCJB PROJECT AND JABODEBEK LRT PROJECT

### JAKARTA-BANDUNG HIGH-SPEED TRAIN (KCJB) PROJECT

KCJB Whoosh, which was inaugurated on October 2, 2023, has a speed of 350 km/hour with a travel time from Jakarta to Bandung of approximately 46 minutes. In 2024, the average monthly number of KCIC passengers continued to grow. At the start of operations, in October 2023, the average number of Whoosh passengers was at 13 thousand passengers per day. In June 2024, the number increased to 17.8 thousand passengers per day and jumped to 19.9 thousand passengers per day during the school holidays in July 2024. The peak occurred in December 2024, when Whoosh had an average of passengers per day stable at 20.2 thousand passengers per day.

### JABODEBEK LRT

Jabodebek LRT officially began full commercial operations on August 28, 2023, and was inaugurated by President Joko Widodo at Cawang Station. Jabodebek LRT serves two lines, namely Dukuh Atas BNI-Jati Mulya and Dukuh Atas BNI-Harjamukti with a total of 18 stations and a track length of 44.43 km. Jabodebek LRT has 31 Trainsets made by PT INKA with a daily number of trips of 366 on weekdays and 270 trips on weekends. LRT Jabodebek users can make payments using the KAI Commuter Multi Trip Card, Access by KAI, LinkAja, and Electronic Money Card.

## Kontribusi KAI Untuk Indonesia KAIs Contribution To Indonesia

LRT Jabodebek menggunakan sistem *Communication-Based Train Control* (CBTC) dengan *Grade of Automation* (GoA) level 3. Sistem CBCT-GoA3 memungkinkan pengoperasian dilakukan secara otomatis tanpa masinis, namun mensyaratkan masih terdapat petugas operasional (*Train Attendant*) di dalam kereta untuk penanganan kondisi darurat dan pelayanan kepada pelanggan. LRT Jabodebek juga dilengkapi oleh *Automatic Train Protection* (ATP) serta *Interlocking & Zone Controller*. LRT Jabodebek terlindungi dari *over speed* dan jaminan pengereman yang andal. Adapun *interlocking & zone controller* berfungsi untuk menjamin tidak ada kesalahan pembentukan rute serta mendistribusikan otorisasi kontrol operasional LRT.

Jabodebek LRT uses the *Communication-Based Train Control* (CBTC) system with *Grade of Automation* (GoA) level 3. The CBCT-GoA3 system allows operations to be carried out automatically without a train driver, but it still requires Train Attendants on the train to handle emergency conditions and serve customers. Jabodebek LRT is also equipped with *Automatic Train Protection* (ATP) and *Interlocking & Zone Controller*. Jabodebek LRT is protected from *overspeeding* and guarantees reliable braking. The *interlocking & zone controller* functions to ensure that there are no errors in route formation and to distribute LRT operational control authorization.

Inovasi dan peningkatan layanan KAI pada angkutan barang, antara lain:

- **Wilayah Jawa**
  - o Petikemas
    - 1) Uji coba angkutan relasi Gedebage-Tanjung Priok dalam rangka menjalankan program pemerintah *National Logistic Ecosystem (NLE)*.
    - 2) Mengoptimalkan potensi market dengan cara mengakomodir angkutan balen limbah B3 relasi Kalimas-Nambo.
    - 3) Mengoptimalkan angkutan peti kemas dengan joint market dengan beberapa mitra angkutan.
    - 4) Penambahan Hari Operasi (HO) perjalanan Kereta Api pada beberapa mitra angkutan.

KAI's innovations and service improvements for freight transportation include:

- **Java Region**
  - o Containers
    - 1) Trial of transportation on the Gedebage-Tanjung Priok relation to implement the government's *National Logistic Ecosystem (NLE)* program.
    - 2) Optimizing market potential by accommodating transportation of hazardous waste bales on the Kalimas-Nambo relation.
    - 3) Optimizing container transportation with a joint market with several transportation partners.
    - 4) Addition of Operating Days (HO) for Train trips on several transportation partners.

- o Perkebunan  
Melakukan negosiasi dengan PTPN IV Regional I, PTPN IV Regional II dan PT SMART untuk meningkatkan realisasi angkutan dan menerapkan target minimum angkutan pada kontrak angkutan.
- o Semen & Klinker
  - 1) Melakukan negosiasi terkait peningkatan target minimum angkutan semen PT Semen Padang.
  - 2) Melakukan negosiasi terkait peningkatan target minimum angkutan semen PT Solusi Bangun Indonesia dengan mempertimbangkan realisasi volume angkutan yang menunjukkan *trend* positif.
  - 3) Melakukan negosiasi terkait penambahan volume angkutan Semen PT Semen Baturaja untuk produk semen curah.
- o Retail
  - 1) Mengoptimalkan angkutan Bank Indonesia untuk relasi wilayah Jawa Timur.
  - 2) Melakukan negosiasi dengan mitra untuk menjalankan kembali KA Parcel Selatan relasi Bandung – Surabaya.
  - 3) Mengoptimalkan volume angkutan BHP menggunakan kereta bagasi yang dirangkaikan pada KA Blambangan Ekspres relasi Pasar Senen-Ketapang.
- o Pupuk
  - 1) Telah dilakukan negosiasi penambahan hari operasi untuk angkutan Pupuk dengan tujuan Gombong, Maguwo, dan Ceper yang semula berjalan dua kali dalam seminggu menjadi tiga kali dalam seminggu.
  - 2) Melakukan negosiasi terkait target minimum angkutan yang selanjutnya dituangkan dalam Addendum Perjanjian angkutan.
- o Menawarkan kepada mitra potensi angkutan serta tarif kompetitif.
- o Melakukan kegiatan pemasaran baik secara langsung ke perusahaan-perusahaan maupun mengikuti kegiatan pameran dan forum diskusi grup.
- o Koordinasi dengan mitra untuk kelancaran alat produksinya serta pengaturan pola distribusi yang saling menguntungkan kedua belah pihak.
- o Plantations  
Negotiating with PTPN IV Regional I, PTPN IV Regional II, and PT SMART to increase transportation realization and implement minimum transportation targets in transportation contracts.
- o Cement & Clinker
  - 1) Negotiating regarding the increase in the minimum target for cement transportation of PT Semen Padang.
  - 2) Negotiating regarding the increase in the minimum target for cement transportation of PT Solusi Bangun Indonesia by considering the realization of transportation volume which shows a positive trend.
  - 3) Negotiating regarding the addition of cement transportation volume of PT Semen Baturaja for bulk cement products.
- o Retail
  - 1) Optimizing Bank Indonesia transportation for relations in the East Java region.
  - 2) Negotiating with partners to restart the South Parcel Train on the Bandung-Surabaya route.
  - 3) Optimizing the BHP transportation volume using baggage trains coupled with the Blambangan Ekspres Train on the Pasar Senen-Ketapang route.
- o Fertilizer
  - 1) Negotiations have been made to add operating days for Fertilizer transportation to Gombong, Maguwo, and Ceper, which originally ran twice a week to three times a week.
  - 2) Negotiating the minimum transportation target which will then be stated in the Transportation Agreement Addendum.
- o Offering partners potential transportation and competitive rates.
- o Carrying out marketing activities both directly to companies and participating in exhibitions and group discussion forums.
- o Coordinating with partners for the smooth running of their production equipment and arranging distribution patterns that are mutually beneficial to both parties.

## Kontribusi KAI Untuk Indonesia

*KAI's Contribution To Indonesia*

- o Mendorong mitra untuk memperbaiki infrastruktur dan percepatan perbaikan dampak gangguan alam.
- o Negosiasi target minimum dalam adendum perjanjian Angkutan.

### • Wilayah Sumatera

- o Batubara
  - 1) Optimalisasi Trainset (TS) idle mitra yang stabiling kepada mitra angkutan yang berkinerja baik.
  - 2) Penyelesaian modif KKBW 45 Ton sebagai pengganti sarana produksi Rumania.
  - 3) Optimalisasi penambahan Stamformasi (SF) 61 pada angkutan batubara PT Bukit Asam Tbk relasi Tanjungenim-Tarahan;
  - 4) Uji coba peningkatan kecepatan lintas Tanjungkarang-Tarahan untuk mendukung peningkatan frekuensi kereta api Baratarahan menjadi 26 KA/hari.
  - 5) Pembuatan *Standard Operating Procedure* (SOP) tanggap darurat antara PT Kereta Api Indonesia

- o Encouraging partners to improve infrastructure and accelerate repairs to the impact of natural disturbances.
- o Negotiating the minimum target in the Transportation Agreement Addendum.

### • Sumatra Region

- o Coal
  - 1) Optimization of idle Trainset (TS) of partners that are stable to well-performing transportation partners.
  - 2) Completion of 45-Ton KKBW modification as a replacement for Romanian production facilities.
  - 3) Optimization of the addition of Stamformation (SF) 61 on coal transportation of PT Bukit Asam Tbk on the Tanjungenim-Tarahan route.
  - 4) Trial of increasing the speed of the Tanjungkarang-Tarahan route to support the increase in the frequency of Baratarahan trains to 26 trains/day.
  - 5) Preparation of Emergency Response Standard Operating Procedure (SOP) between PT Kereta

(Persero) dan PT Bukit Asam Tbk untuk menjamin keselamatan dan keamanan dalam kegiatan operasional maupun proses *loading* dan *unloading* di lingkungan kerja.

- 6) Optimalisasi penambahan Stamformasi (SF) 61 pada angkutan batubara mitra swasta dalam hal ini telah dilakukan uji coba angkutan batubara pada mitra PT Dizamatra Powerind.
- 7) Optimalisasi kapasitas terminal dengan efisiensi Waktu Tunggu Terminal (WTT) semula 4 KA menjadi 5 KA di Muaralawai I dan semula 3,5 KA menjadi 4 KA di Merapi;
- 8) Peningkatan angkutan Barapati semula 14 KA/hari menjadi 16 KA/hari yang selanjutnya akan ditingkatkan menjadi 17 KA/hari;
- 9) Percepatan pembuatan jalur 11 (FMS) dan 12 (WBS) di Emplasemen Stasiun Simpang;
- 10) Percepatan pengoperasian double track relasi Merapi-Muaralawai;
- 11) Pemanfaatan TS GD 42 dari KA Jawa yang tidak optimal ke KA Baraswasta di Sumatera Selatan.

Api Indonesia (Persero) and PT Bukit Asam Tbk to ensure safety and security in operational activities as well as loading and unloading processes in the work environment.

- 6) Optimization of the addition of Stamformation (SF) 61 on coal transportation of private partners in this case a coal transportation trial has been carried out on the partner PT Dizamatra Powerind.
- 7) Optimization of terminal capacity with the efficiency of Terminal Waiting Time (WTT) from 4 trains to 5 trains in Muaralawai I and from 3.5 trains to 4 trains in Merapi.
- 8) Increasing Barapati transportation from 14 trains/day to 16 trains/day which will then be increased to 17 trains/day.
- 9) Acceleration of construction of lines 11 (FMS) and 12 (WBS) at Simpang Station Emplacement.
- 10) Acceleration of operation of double track for Merapi-Muaralawai relation.
- 11) Utilization of TS GD 42 from suboptimal Java trains to Baraswasta trains in South Sumatra.

### *KAI's Contribution To Indonesia*

#### **Penyelesaian Implementasi Energi Baru Terbarukan di Stasiun dan Balai Yasa**

PT Kereta Api Indonesia (Persero) terus memperkuat komitmennya terhadap pelestarian lingkungan dan pembangunan berkelanjutan melalui pemanfaatan energi baru dan terbarukan. Hingga akhir tahun 2024, KAI telah berhasil memasang Pembangkit Listrik Tenaga Surya (PLTS) di berbagai titik operasional perusahaan mulai dari stasiun, balai yasa, griya karya, hingga perkantoran. Kapasitas energi yang dihasilkan secara signifikan mengurangi ketergantungan terhadap sumber energi berbasis fosil. Instalasi PLTS ini merupakan bentuk nyata kontribusi KAI dalam mendukung program pemerintah menuju transisi energi bersih dan terbarukan.

KAI tidak hanya fokus pada layanan transportasi, tetapi juga pada keberlanjutan dan tanggung jawab lingkungan. KAI juga melakukan Upaya untuk mengatasi perubahan iklim melalui program dekarbonisasi dengan menggunakan sumber Energi Baru Terbarukan (EBT). Dalam hal ini KAI telah mengimplementasikan Pembangkit Listrik Tenaga Surya (PLTS) atau Solar Panel pada Gedung Jakarta Railway Center, 53 Stasiun KAI, Balai Yasa Lahat, Balai Yasa Surabaya Gubeng, Balai Yasa Tegal, GK Soka, GK Cipinang, GK Banjar, GK Kertosono, Kantor Daop 2, serta Kantor Divre III.

PLTS tersebut dioperasikan melalui sistem Solar Panel on Grid yang menggabungkan suplai listrik dari jaringan listrik PLN dan jaringan listrik Solar Panel untuk memenuhi kebutuhan listrik di area operasional. Hal ini menunjukkan bahwa implementasi energi bersih oleh KAI bersifat nasional dan inklusif. Stasiun dan fasilitas lainnya yang telah menggunakan PLTS kini mendapat pasokan listrik ramah lingkungan untuk mendukung operasional pada siang hari termasuk pencahayaan, pendinginan, dan sistem pendukung lainnya.

#### **Completion of Renewable Energy Implementation at Stations and Railway Workshop**

PT Kereta Api Indonesia (Persero) continues strengthening its commitment to environmental preservation and sustainable development through new and renewable energy usage. By the end of 2024, KAI successfully installed Solar Power Plants (PLTS) at various operational points of the company ranging from stations, workshops, workhouses, to offices. The energy capacity generated significantly reduces dependence on fossil-based energy sources. The installation of PLTS is a concrete form of KAI's contribution to supporting the government's program towards a clean and renewable energy transition.

KAI focuses not only on transportation services, but also on sustainability and environmental responsibility. KAI also makes efforts to address climate change through a decarbonization program using New and Renewable Energy (EBT) sources. In this case, KAI has implemented Solar Power Plants (PLTS) or Solar Panels at the Jakarta Railway Center Building, 53 KAI Stations, Lahat Railway Workshop, Surabaya Gubeng Railway Workshop, Tegal Railway Workshop, Soka GK, Cipinang GK, Banjar GK, Kertosono GK, Operational Area 2 Office, and Regional Division III Office.

The PLTS is operated through a Solar Panel on Grid system that combines electricity supply from the PLN electricity network and the Solar Panel electricity network to meet electricity needs in the operational area. This shows that the clean energy implementation by KAI is national and inclusive. Stations and other facilities that have utilized PLTS now receive environmentally friendly electricity supplies to support daytime operations including lighting, cooling, and other supporting systems.

Energi surya yang KAI gunakan tidak hanya menghemat biaya operasional, tetapi juga mengurangi emisi karbon, yang sejalan dengan misi KAI dalam mengembangkan sumber daya dan teknologi dengan mengedepankan ESG.

Pemanfaatan energi matahari ini juga diterapkan di fasilitas produksi seperti Balai Yasa untuk mendukung aktivitas perawatan sarana perkeretaapian. Hal ini diharapkan dapat memperkuat efisiensi energi dan produktivitas kerja.

Ke depan, KAI akan terus melanjutkan program pemasangan PLTS secara bertahap di stasiun-stasiun lain, Balai Yasa serta fasilitas pendukung lainnya yang berada dalam lingkungan KAI Group. Targetnya adalah membentuk sistem operasional yang sepenuhnya berbasis pada energi hijau. Dengan langkah-langkah konkret ini, KAI berharap dapat menjadi pelopor dalam menghadirkan layanan transportasi publik yang tidak hanya andal dan nyaman, tetapi juga ramah lingkungan.

#### TOTAL KAPASITAS PLTS

Di tahun 2024, KAI merealisasikan pemasangan panel surya di 20 lokasi baru sebagai berikut:

- **Stasiun (10 lokasi)**  
Total kapasitas sejumlah 368,30 kWp dan berhasil mengurangi emisi sebesar 103,33 Ton CO<sub>2</sub>.
- **Balai Yasa (4 lokasi)**  
Total kapasitas sejumlah 1.312,30 kWp dan berhasil mengurangi emisi sebesar 368,09 Ton CO<sub>2</sub>.
- **Kantor Divre (1 lokasi)**  
Total kapasitas sejumlah 122,10 kWp dan berhasil mengurangi emisi sebesar 34,25 Ton CO<sub>2</sub>.
- **Kantor Daop (1 lokasi)**  
Total kapasitas sejumlah 40,00 kWp dan berhasil mengurangi emisi sebesar 11,22 Ton CO<sub>2</sub>.
- **Griya Karya (4 lokasi)**  
Total kapasitas sejumlah 71,50 kWp dan berhasil mengurangi emisi sebesar 20,06 Ton CO<sub>2</sub>.

The solar energy that KAI uses not only saves operational costs, but it helps reduce carbon emissions as well, which is in line with KAI's mission to develop resources and technology by prioritizing ESG.

Solar energy usage is also applied in production facilities such as Balai Yasa to support railway maintenance activities. This is expected to strengthen energy efficiency and work productivity.

In the future, KAI will continue the program to install PLTS gradually at other stations, Railway Workshops, and other supporting facilities within the KAI Group environment. The target is to form an operational system entirely based on green energy. These concrete steps are hoped to assist KAI in becoming a pioneer in providing reliable, comfortable, and environmentally friendly public transportation services.

#### SOLAR PANEL TOTAL CAPACITY

In 2024, KAI installed solar panels at 20 new locations as follows:

- **Stations (10 locations)**  
Total capacity of 368.30 kWp and reduced emissions by 103.33 tons of CO<sub>2</sub>.
- **Railway Workshop (4 locations)**  
Total capacity of 1,312.30 kWp and reduced emissions by 368.09 tons of CO<sub>2</sub>.
- **Regional Division Office (1 location)**  
Total capacity of 122.10 kWp and reduced emissions by 34.25 tons of CO<sub>2</sub>.
- **Regional Operation Office (1 location)**  
Total capacity of 40.00 kWp and reduced emissions by 11.22 tons of CO<sub>2</sub>.
- **Griya Karya (4 locations)**  
Total capacity of 71.50 kWp and reduced emissions by 20.06 tons of CO<sub>2</sub>.

### Upaya Peningkatan Keselamatan, KAI Kembangkan Inovasi Track-Mod dan Smart Rail KAI Luncurkan Track-Mod dan Smart Rail untuk Tingkatkan Keselamatan Prasarana Kereta Api

PT Kereta Api Indonesia (Persero) melalui Direktorat Keselamatan dan Keamanan resmi meluncurkan dua inovasi terbaru dalam pemeliharaan prasarana kereta api, Track-Mod dan Smart Rail. Track-Mod adalah alat ukur geometri jalur yang mampu mengumpulkan data secara real-time dengan validitas tinggi dalam pemeriksaan. Alat ini dirancang khusus untuk memantau dan mengukur parameter geometri jalur kereta api 1.067 mm dengan presisi tinggi. Smart Rail hadir sebagai alat ukur portabel yang dirancang untuk mengukur kondisi jalan rel kereta api berdasarkan parameter goyangan keras. Smart Rail menggunakan sensor pengukuran deteksi tiga sumbu yang terintegrasi dengan aplikasi smartphone Android, sehingga memberikan data yang lebih objektif dan efisien dalam pemeliharaan serta deteksi anomali.

### Safety Improvement Efforts, KAI Develops Track-Mod and Smart Rail Innovations KAI Launches Track-Mod and Smart Rail to Improve Railway Infrastructure Safety

PT Kereta Api Indonesia (Persero) through the Directorate of Safety and Security officially launched two of the latest innovations in railway infrastructure maintenance, Track-Mod and Smart Rail. Track-Mod is a track geometry measuring tool that is capable of collecting data in real-time with high validity in inspections. This tool is specifically designed to monitor and measure 1,067 mm railway track geometry parameters with high precision. Smart Rail is present as a portable measuring tool designed to measure railway track conditions based on hard shaking parameters. Smart Rail uses a three-axis detection measurement sensor integrated with an Android smartphone application, thus providing more objective and efficient data in maintenance and anomaly detection.

## Analisis Makro Ekonomi 2024

### 2024 Macroeconomic Analysis

Kondisi perekonomian global masih diambang ketidakpastian. Perlambatan pertumbuhan ekonomi di negara-negara maju hanya mampu tumbuh sebesar 1,8% pada tahun 2024. Kondisi ini juga diperburuk dengan kondisi pasar negara berkembang yang juga stagnan di angka 4,2%. Menurut International Monetary Fund (IMF) dalam laporan World Economic Outlook (WEO), di tahun 2024 pertumbuhan ekonomi global hanya mencapai 3,2%, atau tumbuh 0,1% dari tahun sebelumnya sebesar 3,1%.

We express our praise and gratitude to Almighty God, for His blessings enabled KAI to record an exceptional performance achievement in 2024. The return of increasing interest in public mobility yields this good result, which becomes one of the main factors that positively impact the Company's performance growth.

This success reflects KAI's focus and discipline in building comfortable and safe railway transportation services. KAI continues striving to improve performance, efficiency, and digital transformation in accordance with global trends and develop renewable energy-based transportation. The efforts and innovations carried out have successfully brought various awards for KAI, making KAI always at the forefront, superior, and innovative.

Allow us to disclose the performance of the Board of Directors in 2024 through this report, which is a form of accountability to all shareholders and stakeholders, as well as contains the Company's performance, the Company's strategic strategies and policies, business prospects, challenges faced, and KAI's involvement in the industry.

The global economic condition is still on the verge of uncertainty. The slowdown in economic growth in developed countries was only able to grow by 1.8% in 2024, which was also exacerbated by the condition of emerging markets stagnating at 4.2%. According to the International Monetary Fund (IMF) in the World Economic Outlook (WEO) report, global economic growth only reached 3.2% in 2024, or an increase of 0.1% from the previous year of 3.1%.

Pelemahan ekonomi yang terjadi dipengaruhi oleh ketidakstabilan politik di beberapa negara Eropa dan berdampak hingga ke Asia. Hal ini mengakibatkan terjadinya ketidakseimbangan pada pasar global dan menambah kompleksitas terkait kebijakan fiskal dan moneter di beberapa negara. Selain itu, ketegangan geopolitik yang terjadi di kawasan Timur Tengah juga menjadi faktor pelemahan pada perekonomian global.

Meskipun perekonomian global masih dalam fase melemah, namun tidak demikian untuk perekonomian nasional yang mampu bertahan dengan stabil. Kami bersyukur bahwa perekonomian Indonesia berhasil tumbuh stabil dan solid sebesar 5,03% di tahun 2024. Menurut Kementerian Keuangan Republik Indonesia, pertumbuhan ini didorong oleh peningkatan sektor investasi dan manufaktur, serta permintaan dalam negeri yang membaik. Selain itu, Kementerian Koordinator Bidang Perekonomian Republik Indonesia melaporkan bahwa pemerintah bersama Bank Indonesia mampu berhasil menekan laju inflasi dan nilai tukar yang mencapai target inflasi sebesar 1,57% (YoY) dengan BI Rate 6,00%. Keberhasilan ini adalah hasil baik dari penerapan kebijakan yang konsisten, serta sinergi yang efektif dari tingkat pusat hingga daerah.

Lebih lanjut, berdasarkan data Badan Pusat Statistik (BPS) mencatat bahwa Produk Domestik Bruto (PDB) Indonesia mencapai Rp22.139,0 triliun dengan PDB per kapita mencapai Rp78,6 juta atau USD4.960,3 di tahun 2024. Kondisi ekonomi yang stabil dihasilkan dari kontribusi lapangan usaha yang terjaga. Dalam hal produksi, sektor yang memberikan kontribusi terbesar adalah Lapangan Usaha Jasa lainnya yang mencapai 9,80%. Sementara itu, dari perspektif pengeluaran, kontribusi tertinggi berasal dari Pengeluaran Konsumsi Lembaga Nonprofit yang Melayani Rumah Tangga (PK-LNPRT), yang mencapai 12,48%. Sedangkan sektor transportasi dan pergudangan yang merupakan sektor industri bisnis Perusahaan, menyumbang sebesar 8,69% terhadap PDB yang tercatat.

Secara spasial, kontribusi Produk Domestik Regional Bruto (PDRB), Pulau Jawa mencatatkan kontribusi terbesar sebesar 57,02% dengan tingkat pertumbuhan mencapai 4,92%. Pulau Sumatera dengan kontribusi sebesar 22,12% dengan tingkat pertumbuhan mencapai 4,45%, Pulau Kalimantan dengan kontribusi sebesar 8,24% dengan tingkat pertumbuhan mencapai 5,52%, Pulau Sulawesi dengan kontribusi sebesar

The occurring economic downturn was influenced by political instability in several European countries and had an impact on Asia, resulting in an imbalance in the global market and added complexity related to fiscal and monetary policies in several countries. In addition, geopolitical tensions in the Middle East region were a factor in the weakening of the global economy.

Although the global economy is still in a weakening phase, this is not the case for the national economy which has been able to survive stably. We are grateful that the Indonesian economy has managed to grow steadily and solidly by 5.03% in 2024. According to the Ministry of Finance of the Republic of Indonesia, this growth was driven by an increase in the investment and manufacturing sectors, as well as improving domestic demand. In addition, the Coordinating Ministry for Economic Affairs of the Republic of Indonesia reported that the government together with Bank Indonesia managed to successfully suppress both the inflation and the exchange rates which reached the inflation target of 1.57% (YoY) with a BI Rate of 6.00%. This success is a good result of consistent policy implementation, as well as effective synergy from the central to regional levels.

Furthermore, based on data from Statistics Indonesia (BPS), Indonesia's Gross Domestic Product (GDP) reached Rp22,139.0 trillion with GDP per capita reaching Rp78.6 million or USD4,960.3 in 2024. The maintained business sector contributed to stable economic conditions. In terms of production, the sector providing the largest contribution was the Other Service Business Field which reached 9.80%. Meanwhile, from an expenditure perspective, the highest contribution originated from the Consumption Expenditure of Non-Profit Institutions Serving Households (PK-LNPRT), which reached 12.48%. On the other hand, the Company's business industry sector, transportation and warehousing, contributed 8.69% to the recorded GDP.

Spatially, the Gross Regional Domestic Product (GRDP) contribution, Java Island recorded the largest contribution of 57.02% with a growth rate of 4.92%. Sumatra Island contributed 22.12% with a growth rate of 4.45%, Kalimantan Island contributed 8.24% with a growth rate of 5.52%, Sulawesi Island contributed 7.12% with a growth rate of 6.18%, Bali and Nusa Tenggara Island contributed 2.81% with a growth rate of

7,12% dengan tingkat pertumbuhan mencapai 6,18%, Pulau Bali dan Nusa Tenggara dengan kontribusi sebesar 2,81% dengan tingkat pertumbuhan mencapai 5,04% dan Pulau Maluku dan Papua dengan kontribusi sebesar 2,69% dengan tingkat pertumbuhan mencapai 7,81%.

Berdasarkan sektor industri, sektor transportasi perkeretaapian di Indonesia di tahun 2024 menunjukkan dinamika yang signifikan pada tahun 2024. Dalam perkembangannya, Pemerintah tengah melakukan pengembangan infrastruktur, mempercepat inovasi teknologi, dan meningkatkan mutu layanan terintegrasi. Upaya tersebut sejalan dengan visi Indonesia Maju dan Perseroan untuk tumbuh secara berkelanjutan di masa mendatang.

## Tinjauan Industri Usaha

### *Business Industry Review*

Peningkatan infrastruktur dan investasi sektor industri perkeretaapian di Indonesia tercermin melalui proyek-proyek strategis seperti Kereta Cepat Jakarta-Bandung (*Whoosh*). Proyek tersebut menjadi sebuah bentuk komitmen Pemerintah terhadap perkembangan dan pertumbuhan transportasi tanah air yang lebih *modern*. Melalui *Whoosh*, Indonesia memiliki transportasi dengan kecepatan yang tinggi, jauh lebih efektif dan efisiensi waktu.

Selain itu, KAI dalam mempercepat layanan melakukan inovasi teknologi melalui peningkatan sistem pembelian tiket dan penyediaan *wifi* di kereta. Lebih lanjut, KAI terus memperkuat komitmennya dalam menghadirkan moda transportasi ramah lingkungan dengan mendukung upaya penurunan jejak karbon (*carbon footprint*) melalui inovasi berkelanjutan. Salah satu langkah konkretnya adalah menyediakan fitur perhitungan emisi karbon pada tiket penumpang.

Sedangkan dalam peningkatan mutu layanan, KAI berhasil memberikan kepercayaan penuh dengan layanan terbaik kepada pelanggan. Upaya ini dilakukan agar mempermudah mobilitas masyarakat untuk mendapatkan transportasi yang andal dan berkualitas. KAI berharap dapat terus “Menggerakkan transportasi berkelanjutan, meningkatkan kualitas hidup masyarakat” di masa mendatang.

5.04% and Maluku and Papua Island contributed 2.69% with a growth rate of 7.81%.

Based on the industrial sector, the railway transportation sector in Indonesia showed significant dynamics in 2024. In its development, the Government is developing infrastructure, accelerating technological innovation, and improving the quality of integrated services. These efforts are in line with the vision of Advanced Indonesia and the Company to grow sustainably in the future.

The improvement of infrastructure and investment in the railway industry sector in Indonesia is reflected through strategic projects such as the Jakarta-Bandung High-Speed Railway (*Whoosh*). The project is a form of the Government's commitment to the development and growth of more modern domestic transportation. Indonesia has high-speed transportation through *Whoosh*, which is much more effective and time-efficient.

In addition, KAI is innovating technology to accelerate services by improving the ticket purchase system and providing Wi-Fi on trains. Furthermore, KAI continues to strengthen its commitment to presenting environmentally friendly modes of transportation by supporting efforts to reduce carbon footprints through sustainable innovation. One concrete step is to provide a carbon emission calculation feature on passenger tickets.

Meanwhile, KAI has succeeded in providing full trust with the best service to customers in an effort to improve service quality. This effort is made to facilitate public mobility to obtain reliable and quality transportation. KAI hopes to continue to “Move sustainable transportation, improve people's quality of life” in the future.

Progres investasi terealisasi sebesar Rp11,07 triliun atau 68,9% terhadap anggaran tahun 2024 sebesar Rp16,07 triliun.

#### REALIZATION OF INVESTMENT PROGRESS IN 2024

The realization of investment progress was Rp11.07 trillion or 68.9% of the 2024 budget of Rp16.07 trillion.

#### KINERJA OPERASIONAL

Dari sektor operasional, kami melakukan sejumlah peningkatan pada aspek kenyamanan dan keamanan pelanggan. Di tahun 2024, KAI telah mengimplementasikan inovasi teknologi dengan menghadirkan sistem pembelian tiket melalui Access by KAI. KAI juga melakukan perbaikan terhadap substansial berupa peremajaan rel kereta api dan

#### OPERATIONAL PERFORMANCE

From the operational sector, we have made several improvements to the aspects of customer comfort and safety. KAI implemented technological innovation in 2024 by presenting a ticket-purchasing system through Access by KAI. KAI has also made substantial improvements in the form of rejuvenating railway tracks and improving punctuality

meningkatkan layanan ketepatan waktu. Selain itu, KAI menghadirkan inovasi berkelanjutan berupa penurunan jejak karbon (*carbon footprint*) yaitu fitur perhitungan emisi karbon pada tiket penumpang. Upaya ini dilakukan untuk meningkatkan kepercayaan masyarakat yang lebih tinggi kepada Perseroan.

Total Pendapatan terdiri dari Pendapatan Angkutan Penumpang, Angkutan Barang, Pendukung Angkutan, Non angkutan dan Kompensasi Pemerintah tahun 2024, pendapatan terealisasi sebesar Rp35,93 triliun atau 108,3% dari anggaran Rp33,16 triliun.

Di tahun 2024, kinerja operasional adalah sebagai berikut:

**1. Angkutan Penumpang**

Realisasi pendapatan Angkutan Penumpang sebesar Rp11,92 triliun atau 109,2% dari anggarannya sebesar Rp10,91 triliun dan volume penumpang tercapai 453.343.189 orang atau 103,0% dari anggarannya sebesar 440.119.526 orang.

- a. KA Utama Kelas Eksekutif realisasi pendapatan sebesar Rp5,19 triliun atau 106,4% dari anggarannya sebesar Rp4,88 triliun dan volume penumpang terealisasi 18.923.496 orang atau 101,1% dari anggarannya sebesar 18.713.274 orang.
- b. KA Utama Kelas Bisnis realisasi pendapatan sebesar Rp336,96 miliar atau 104,0% dari anggarannya sebesar Rp324,12 miliar dan volume penumpang terealisasi 1.804.265 orang atau 104,9% dari anggaran 1.719.635 orang.
- c. KA Utama Kelas Ekonomi realisasi pendapatan sebesar Rp4,33 triliun atau 118,2% dari anggarannya sebesar Rp3,66 triliun dan volume penumpang tercapai 30.524.135 orang atau 107,9% dari anggarannya 28.286.026 orang.
- d. KA Lokal Ekonomi realisasi pendapatan sebesar Rp2,06 triliun atau 100,8% dari anggaran Rp2,05 triliun dan volume penumpang tercapai 402.091.293 orang atau 102,7% dari anggaran 391.400.591 orang.

Hal-hal yang telah dilakukan dalam rangka meningkatkan pendapatan angkutan penumpang tahun 2024 terdiri dari:

- a. Strategi tarif pada masa angkutan Lebaran, Libur Idul Adha, liburan sekolah, angkutan Natal 2024 dan Tahun Baru 2025, serta pada masa *peak season* lainnya;
- b. Penyesuaian alokasi *subclass* TD;
- c. Optimalisasi stamformasi dan frekuensi KA pada *peak season*;

services. Additionally, KAI presents sustainable innovation in the form of reducing the carbon footprint, namely the carbon emission calculation feature on passenger tickets, in order to increase public trust in the Company.

Total Revenues consisting of Passenger Transportation Revenue, Goods Transportation, Transportation Support, Non-Transportation and Government Compensation in 2024 were realized at Rp35.93 trillion or 108.3% of the budget of Rp33.16 trillion.

Operational performance in 2024 is as follows:

**1. Passenger Transportation**

Realization of Passenger Transportation revenue was Rp11.92 trillion or 109.2% of its budget of Rp10.91 trillion and passenger volume reached 453,343,189 people or 103.0% of its budget of 440,119,526 people.

- a. Executive Class Main Train Revenue realization was Rp5.19 trillion or 106.4% of its budget of Rp4.88 trillion and passenger volume was realized at 18,923,496 people or 101.1% of its budget of 18,713,274 people.
- b. Business Class Main Train Revenue realization was Rp336.96 billion or 104.0% of its budget of Rp324.12 billion and passenger volume was realized at 1,804,265 people or 104.9% of its budget of 1,719,635 people.
- c. Economy Class Main Train Revenue realization was Rp4.33 trillion or 118.2% of its budget of Rp3.66 trillion and passenger volume was realized 30,524,135 people or 107.9% of its budget of 28,286,026 people.
- d. Local Economy Train Revenue realization was Rp2.06 trillion or 100.8% of the budget of Rp2.05 trillion and passenger volume reached 402,091,293 people or 102.7% of the budget of 391,400,591 people.

PT KAI implemented several strategic measures to boost passenger transportation revenue throughout 2024, including:

- a. Tariff strategy during the Lebaran transportation period, Eid al-Adha holidays, school holidays, Christmas transportation 2024 and New Year 2025, and during other peak seasons;
- b. Adjustment of TD subclass allocation;
- c. Optimization of train formation and frequency during peak season;

- d. Perjalanan KA tambahan pada saat *peak season* menyesuaikan dengan demand;
- e. Kegiatan promosi;
- f. *Reclass, rerouting* dan perjalanan kereta KA tambahan dengan melakukan penambahan;
- g. Rerouting 14 KA Argo Parahyangan menjadi KA baru untuk rute-rute potensial menjadi KA baru mulai 24 Januari 2024;
- h. Perpanjangan relasi KA Blambangan Ekspres sampai dengan stasiun Pasar Denen per 25 Juli 2024;
- i. Perpanjangan relasi KA Bandara BIAS semula relasi Klaten - Stasiun Bandara Adi Soemarmo menjadi Stasiun Bandara Adi Soemarmo - Madiun per 10 Desember 2024;
- j. Melakukan Investasi di bidang Sarana dan Prasarana.

Lebih lanjut, KAI mencatatkan *On-Time Performance* (OTP) kereta api penumpang yang tinggi. Perolehan ini mencapai rekor OTP sebagai yang tertinggi selama 5 tahun terakhir. Upaya ini menjadi buah keberhasilan KAI untuk terus memberikan layanan yang berkualitas dengan ketepatan waktu keberangkatan dan kedatangan. Catatan OTP kereta api penumpang selama lima tahun terakhir adalah sebagai berikut:

| Tahun / Year | Keberangkatan / Departure (%) | Kedatangan / Arrival (%) |
|--------------|-------------------------------|--------------------------|
| <b>2024</b>  | <b>99,77%</b>                 | <b>96,05%</b>            |
| 2023         | 96,05%                        | 93,98%                   |
| 2022         | 99,71%                        | 93,42%                   |
| 2021         | 99,71%                        | 92,68%                   |
| 2020         | 99,54%                        | 93,11%                   |

Pencapaian ini mencerminkan posisi bisnis KAI yang terus tumbuh dan berkembang serta mengalami peningkatan secara berkelanjutan. PT KAI (Persero) berkomitmen untuk selalu meningkatkan ketepatan waktu perjalanan melalui optimalisasi sistem operasional, pemeliharaan prasarana dan sarana, serta pelatihan sumber daya manusia yang sesuai dengan kebutuhan bisnis Perusahaan.

Dalam hal frekuensi perjalanan kereta api penumpang, KAI menunjukkan tren peningkatan yang konsisten dalam kurun waktu 5 tahun terakhir. Upaya ini dilakukan KAI untuk senantiasa memenuhi permintaan masyarakat terhadap moda transportasi kereta api yang semakin baik. Berikut ini merupakan catatan perjalanan kereta api angkutan penumpang selama 5 tahun terakhir:

- d. Additional train trips during peak season according to demand;
- e. Promotional activities;
- f. *Reclass, rerouting*, and additional train trips by making additions;
- g. Rerouting 14 Argo Parahyangan trains into new trains for potential routes into new trains starting January 24, 2024;
- h. Extension of the Blambangan Ekspres train route to Pasar Senen station as of July 25, 2024;
- i. Extension of the BIAS Airport Train relationship, originally from Klaten - Adi Soemarmo Airport Station to Adi Soemarmo Airport Station - Madiun as of December 10, 2024;
- j. Making Investments in Facilities and Infrastructure:

Furthermore, KAI recorded high *On-Time Performance* (OTP) for passenger trains. This achievement reached the highest OTP record in the last 5 years. This effort is the result of KAI's success in continuing to provide quality services with punctuality in departure and arrival. Passenger train OTP records for the past five years are as follows:

This achievement reflects KAI's business position which continues to grow and develop, as well as experience constant improvement. PT KAI (Persero) is committed to always improving travel punctuality through optimizing operational systems, maintaining infrastructure and facilities, and training human resources in accordance with the Company's business needs.

In terms of passenger train travel frequency, KAI has shown a consistent increasing trend over the last 5 years. This effort is made by KAI to always meet public demand for better rail transportation modes. The following is a record of passenger train travel over the past 5 years:

| Tahun / Year | Perjalanan / Travel |
|--------------|---------------------|
| 2024         | 768.990             |
| 2023         | 677.154             |
| 2022         | 608.761             |
| 2021         | 467.676             |
| 2020         | 475.942             |

## 2. Angkutan Barang

Di tahun 2024, kinerja angkutan barang menunjukkan pertumbuhan yang baik. KAI berhasil memberikan efisiensi terhadap biaya yang perlu dikeluarkan, hal ini meningkatkan minat masyarakat dalam penggunaan layanan angkutan barang. Selain itu, kapasitas gerbong yang dimiliki dapat mengangkut sekitar 50 ton barang atau setara dengan 2 truk kontainer. Kapasitas angkut ini juga menjadi faktor lainnya yang dinilai penting karena angkutan barang memerlukan kapasitas yang besar.

Sepanjang tahun 2024, realisasi pendapatan angkutan barang sebesar Rp12,80 triliun atau 98,4% dari anggarannya sebesar Rp13,01 triliun dan volume barang tercapai 69.201.670 ton atau 101,3% dari anggarannya 68.319.148 ton.

## KINERJA PELAYANAN DAN KESELAMATAN

### 1. Waktu Peredaran Gerbong (WPG)

Realisasi waktu peredaran gerbong rata-rata 1,44 hari atau 71,8% terhadap toleransi yaitu 2,01 hari. Fakta di bawah toleransi menandakan kinerja operasi baik hal ini dikarenakan terpenuhinya gerbong SO untuk memenuhi stamformasi KA barang atas permintaan *customer*, berkurangnya kelambatan KA barang, serta memaksimalkan penggunaan gerbong SO, dan program WPG 2024.

### 2. Lokomotif Mogok

Realisasi frekuensi lokomotif mogok tahun 2024 terdapat 218 kejadian atau 42,8% terhadap normal kendalinya (toleransi) sebanyak 509 kejadian. Realisasi lokomotif mogok di bawah toleransi. Kategori gangguan yang terjadi pada lokomotif selama tahun 2024 yaitu sistem kontrol listrik (L) 74 kali, motor diesel (MD) 61 kali, traksi motor (TM) 31 kali, sistem udara tekan (SUT) 18 kali, main generator (MG) 14 kali, *Governor* (GOV) sebanyak 9 kali, mekanik bawah (MB) 7 kali, dan mekanik atas (MA) 4 kali. Fakta di bawah toleransi menunjukkan kinerja yang lebih baik, disebabkan karena peningkatan frekuensi perawatan

## 2. Freight Transport

In 2024, the freight transport displayed good growth. KAI has succeeded in providing efficiency in terms of necessary incurred costs, increasing public interest in using freight transport services. In addition, the capacity of carriages owned can transport around 50 tons of goods or the equivalent of 2 container trucks. This transport capacity is also another factor deemed important due to the large capacity required in freight transport.

Throughout 2024, the realization of freight transportation revenue was Rp12.80 trillion or 98.4% of the budget of Rp13.01 trillion and the volume of goods reached 69,201,670 tons or 101.3% of the budget of 68,319,148 tons.

## SERVICE AND SAFETY PERFORMANCE

### 1. Wagon Turnaround Time (WTT)

The average wagon turnaround time realization was 1.44 days or 71.8% against the tolerance of 2.01 days. The fact that it was below tolerance indicates good operational performance due to the availability of SO wagons to meet freight train formation requests from customers, reduced freight train delays, maximized utilization of SO wagons, and implementation of the 2024 WTT program.

### 2. Locomotive Breakdowns

In 2024, there were 218 locomotive breakdown incidents or 42.8% against the control limit (tolerance) of 509 incidents. The breakdown occurrences were below tolerance. The categories of locomotive failures during 2024 were: electrical control system (L) 74 times, diesel engine (MD) 61 times, traction motor (TM) 31 times, compressed air system (SUT) 18 times, main generator (MG) 14 times, governor (GOV) 9 times, undercarriage mechanical (MB) 7 times, and superstructure mechanical (MA) 4 times. The below-tolerance performance shows improved results, caused by increased frequency of

lokomotif yang dilakukan secara berkala dan optimal serta adanya kontrak kerjasama *spare part* perawatan sarana dengan pabrik.

### 3. Kecelakaan KA

Selama periode tahun 2024 terjadi 5 kali kejadian kecelakaan KA yang terdiri dari: Daop 1 Jakarta 1 kejadian, Daop 2 Bandung 2 kejadian, Daop 8 Surabaya 1 kejadian, dan Divre I Sumatera Utara 1 kejadian. Manajemen senantiasa melakukan evaluasi penyebab kecelakaan tersebut dan memastikan kejadian tersebut tidak terjadi lagi melalui koordinasi dengan pihak eksternal, memastikan budaya keselamatan telah dipahami dan diterapkan oleh seluruh Insan KAI, serta mengimplementasikan sistem manajemen keselamatan perkeretaapian.

#### Rata-rata Kelambatan KA

##### a) KA Penumpang

KA penumpang berangkat mengalami kelambatan 0,09 menit dari toleransi 0,30 menit, dan KA penumpang datang lebih cepat 3,54 menit dari toleransi kelambatan 2,00 menit. Realisasi kelambatan KA penumpang berangkat dan datang di bawah toleransi (tercapai), dikarenakan adanya peningkatan kualitas prasarana, perubahan Gapeka per 1 Juni 2023, dan rendahnya gangguan operasional.

##### b) KA Barang

KA barang berangkat lebih cepat rata-rata 76,37 menit dari toleransi kelambatan 5,00 menit dan KA barang datang lebih cepat 75,41 menit dari toleransi kelambatan 10,00 menit. Realisasi kelambatan untuk keberangkatan dan kedatangan KA barang di bawah toleransi. Hal ini karena adanya koordinasi dan pengawasan SOP bongkar/muat angkutan barang antara unit operasi dan Komersial guna menekan andil kelambatan yang diakibatkan oleh faktor tunggu bongkar/muat angkutan barang, serta taktis dalam pengaturan penyusulan/persilangan.

#### Rata-rata Ketepatan KA

##### a) KA Penumpang

Realisasi KA Penumpang berangkat adalah 99,77% dari anggaran 99,09%, dan realisasi KA Penumpang datang adalah 96,05% dari toleransi ketepatan 92,00%. Realisasi presentasi ketepatan KA penumpang berangkat dan KA penumpang datang di atas toleransi. Hal ini dikarenakan adanya beberapa peningkatan pengawasan program KA Berangkat dan KA Datang tepat waktu serta berkurangnya gangguan sarana dan prasarana.

periodic locomotive maintenance and optimization as well as spare parts maintenance cooperation agreements with manufacturers.

### 3. Train Accidents

During 2024, there were 5 train accident incidents consisting of: Daop 1 Jakarta 1 incident, Daop 2 Bandung 2 incidents, Daop 8 Surabaya 1 incident, and Divre I North Sumatra 1 incident. Management continuously evaluates the causes of these accidents and ensures they do not recur through coordination with external parties, ensuring the safety culture is understood and implemented by all KAI personnel, and implementing railway safety management systems.

#### Average Train Delays

##### a) Passenger Trains

Departing passenger trains were delayed by 0.09 minutes against the tolerance of 0.30 minutes, and arriving passenger trains were 3.54 minutes early against the delay tolerance of 2.00 minutes. The realization of passenger train departure and arrival delays was below tolerance (target achieved), due to improved infrastructure quality, timetable changes (Gapeka) effective June 1, 2023, and low operational disruptions.

##### b) Freight Trains

Departing freight trains were on average 76.37 minutes early against the delay tolerance of 5.00 minutes, and arriving freight trains were 75.41 minutes early against the delay tolerance of 10.00 minutes. The realization of freight train departure and arrival delays was below tolerance. This was due to coordination and supervision of loading/unloading SOPs between operations and Commercial units to reduce delays caused by loading/unloading wait times, as well as tactical management of train overtaking/crossing.

#### Average Train Punctuality

##### a) Passenger Trains

The realization of departing passenger train punctuality was 99.77% against the target of 99.09%, and the realization of arriving passenger train punctuality was 96.05% against the punctuality tolerance of 92.00%. The percentage realization of departing and arriving passenger train punctuality was above tolerance. This was due to several improvements in monitoring on-time departure and arrival programs as well as reduced rolling stock and infrastructure disruptions.

## b) KA Barang

Realisasi ketepatan KA Barang berangkat adalah 95,12% dari anggaran 88,00%, dan realisasi KA Barang datang adalah 90,18% dari toleransi ketepatan 85,00%. Realisasi persentase ketepatan KA barang berangkat dan datang di atas anggaran, menunjukkan kinerja yang baik. Hal ini karena adanya koordinasi dan pengawasan SOP bongkar/muat angkutan barang antara unit operasi dan komersial guna menekan andil kelambatan yang diakibatkan oleh faktor tunggu bongkar/muat angkutan barang, serta taktis dalam pengaturan penyusulan/persilangan.

## b) Freight Trains

The realization of departing freight train punctuality was 95.12% against the target of 88.00%, and the realization of arriving freight train punctuality was 90.18% against the punctuality tolerance of 85.00%. The percentage realization of departing and arriving freight train punctuality was above target, showing good performance. This was due to coordination and supervision of loading/unloading SOPs between operations and commercial units to reduce delays caused by loading/unloading wait times, as well as tactical management of train overtaking/crossing.

# Penerapan Strategi dan Kebijakan Strategis Perusahaan

*Implementation of the Company's Strategic Strategies and Policies*

Penerapan taktik bisnis yang tepat bersama dengan kebijakan yang sesuai adalah faktor kunci keberhasilan Perseroan dalam meraih hasil positif di tengah dinamisnya perkembangan bisnis usaha, terutama dalam sektor industri perkeretaapian di Indonesia. Di sepanjang tahun 2024, KAI mampu menghadapi setiap tantangan, baik yang berasal dari dalam maupun luar. Dengan langkah strategis, KAI mampu memberikan kinerja yang baik yang berorientasi pada pengendalian keuangan dan meningkatkan mutu layanan.

Implementation of correct business tactics coupled with appropriate policies is the key factor to the Company's success in achieving positive results amidst the dynamic business development, especially in the railway industry sector in Indonesia. Throughout 2024, KAI managed to face every internal and external challenge. With strategic steps, KAI is capable of providing good performance oriented towards financial control and improving service quality.

Kami memahami bahwa penerapan strategi yang baik diiringi dengan kebijakan yang strategis tepat mampu memberikan peningkatan atas kinerja Perseroan di tahun 2024. Selain itu, kinerja baik ini berdampak positif terhadap pemangku kepentingan, termasuk pekerja dan masyarakat.

We are aware that the implementation of good strategies accompanied by the right strategic policies may improve the Company's performance in 2024. Moreover, this good performance has a positive impact on stakeholders, including employees and the community.

Di tahun 2024, strategi dan kebijakan strategis yang dilakukan KAI adalah sebagai berikut:

### Program Strategis

1. Optimalisasi Pengelolaan dan Penyerapan Investasi Pengembangan dan Bisnis Eksisting;
2. Peningkatan angkutan barang Sumatera Selatan;
3. Penyelesaian Implementasi Energi Baru Terbarukan di Stasiun dan BY;
4. Penyelesaian Penataan Stasiun, Rumah Istirahat & Griya Karya;
5. *Launching* aplikasi *Rail Investment* dan Digital RAB untuk proses investasi yang lebih terukur, efektif, dan efisien;
6. Pelaksanaan program Communication Campaign 2024 dengan tema besar "Keselamatan - Keamanan - Kenyamanan";
7. Optimalisasi Penyerapan Investasi Pengembangan dan Bisnis Eksisting;

In 2024, the strategic strategies and policies carried out by KAI are as follows:

### Strategic Programs

1. Optimization of management and absorption of development and existing business investments;
2. Enhancement of freight transportation in South Sumatra;
3. Completion of renewable energy implementation at stations and workshops;
4. Completion of station arrangement, rest houses & griya karya;
5. Launch of rail investment application and digital rab for more measurable, effective, and efficient investment processes;

## Peran Direksi dalam Perumusan Strategi dan Kebijakan Strategis Perusahaan

*The Role of the Board of Directors In Formulation of the Company's Strategic Strategies and Policies*

Direksi berperan penting dalam proses perumusan strategi dan kebijakan strategis Perseroan. Perumusan strategi dan kebijakan strategis Perseroan disusun setiap tahunnya, berdasarkan arahan Dewan Komisaris dan Pemegang Saham. Direksi merumuskan strategi dan kebijakan strategi yang dituangkan dalam Rencana Jangka Panjang Perusahaan (RJPP).

RJPP disusun sebagai pedoman dalam menjalankan kegiatan operasional secara terarah dan berkesinambungan, guna mencapai visi dan misi Perseroan. RJPP juga menjadi acuan utama bagi Direksi dalam menetapkan langkah-langkah strategis agar seluruh aktivitas operasional mendukung pencapaian tujuan jangka panjang perusahaan.

Pada tahun 2024, Perseroan telah memiliki 4 (empat) strategi yang telah dijalankan yaitu strategi ESG (*Environmental, Social and Governance*), strategi manajemen risiko, strategi transformasi digital dan strategi pertumbuhan. Adapun keempat strategi tersebut telah sejalan dengan tujuan strategis yang tercantum dalam RJPP 2020-2024. KAI telah menetapkan tujuan strategis utama yang tercantum dalam RJPP, di antaranya meningkatkan pangsa pasar, meningkatkan nilai manfaat uang, transformasi kualitas layanan dan keamanan, mewujudkan keberlanjutan finansial serta tercapainya sinergi (termasuk sinergi antar BUMN).

Direksi memastikan bahwa program yang dijalankan sepanjang tahun 2024 berjalan sesuai dengan strategi dan kebijakan strategis yang telah ditetapkan. Direksi bertanggung jawab dalam mengomunikasikan strategi yang telah dirumuskan kepada seluruh jajaran manajemen dan memastikan implementasinya secara konsisten di seluruh lini operasional.

Selain itu, untuk melakukan perencanaan strategis dan kebijakan strategis, Direksi juga melakukan pengawasan dan evaluasi atas pelaksanaan investasi yang telah ditetapkan dalam RJPP. Direksi memantau pelaksanaan kebijakan strategis melalui evaluasi kinerja secara berkala, serta melakukan penyesuaian strategi bila diperlukan guna menjaga relevansi dan ketahanan perusahaan dalam menghadapi

The Board of Directors plays a crucial role in the formulation process of the Company's strategic strategies and policies. The formulation of the Company's strategic strategies and policies is prepared annually, based on the direction of the Board of Commissioners and Shareholders. The Board of Directors formulates strategic strategies and policies outlined in the Company's Long-Term Plan (RJPP).

The RJPP is prepared as a guideline for conducting operational activities in a focused and sustainable manner, in order to achieve the Company's vision and mission. The RJPP is also the main reference for the Board of Directors in determining strategic steps so that all operational activities support the achievement of the Company's long-term goals.

In 2024, the Company has 4 (four) strategies that have been implemented, namely the ESG (*Environmental, Social, and Governance*) strategy, risk management strategy, digital transformation strategy, and growth strategy. The four strategies are in line with the strategic objectives stated in the 2020-2024 RJPP. KAI has set the main strategic objectives listed in the RJPP, including increasing market share, increasing the value of money, transforming service quality and safety, realizing financial sustainability, and achieving synergy (including synergy between SOEs).

The Board of Directors ensures that the programs implemented throughout 2024 are in accordance with the strategic strategies and policies that have been set. The Board of Directors is responsible for communicating the formulated strategies to all management levels and ensuring their consistent implementation across all operational lines.

In addition, the Board of Directors supervises and evaluates the investment implementation set in the RJPP to carry out strategic planning and strategic policies. The Board of Directors monitors the implementation of strategic policies through periodic performance evaluations and makes strategic adjustments if deemed necessary to maintain the Company's relevance and resilience in facing changing

business dynamics. Supervision and evaluation are executed through intensive discussions held both at internal meetings and joint meetings with the Board of Commissioners.

## Upaya Direksi Untuk Memastikan Implementasi Strategi Berjalan dengan Optimal

*Board of Directors' Efforts to Ensure Optimal Strategy Implementation*

Dalam menjalankan perannya, Direksi memiliki tanggung jawab untuk memastikan strategi yang telah dibuat berjalan dengan optimal. Oleh karena itu, Direksi melakukan pengawasan terhadap pelaksanaan program strategis. Direksi secara aktif melakukan rapat koordinasi secara berkala dengan manajemen untuk memastikan strategi dan kebijakan strategis dijalankan dengan baik oleh seluruh unit bisnis.

In carrying out its role, the Board of Directors is responsible for ensuring that the constructed strategies are performed optimally. Therefore, the Board of Directors supervises the implementation of strategic programs. The Board of Directors actively holds regular coordination meetings with management to ensure that strategic strategies and policies are implemented properly by all business units.

Beberapa upaya yang dilakukan Direksi untuk memastikan implementasi strategi berjalan optimal di antaranya dengan memastikan proyek-proyek strategis dilaksanakan sesuai jadwalnya, memberikan dukungan dan arahan kepada pelaksanaan investasi, melakukan *update* guna mendukung mitigasi risiko dan tindaklanjutnya, serta menetapkan realisasi pelaksanaan investasi dalam KPI.

Some of the efforts made by the Board of Directors to ensure optimal strategy implementation include ensuring that strategic projects are implemented according to schedule, providing support and direction for investment implementation, conducting updates to support risk mitigation and follow-up, and determining the realization of investment implementation in KPIs.

Pada layanan angkutan barang, KAI mengambil langkah strategi dengan meningkatkan penggunaan teknologi dan sistem informasi dengan lebih optimal. Melalui pemanfaatan teknologi yang lebih andal, diharapkan dapat berdampak baik terhadap operasional. Sehingga akan menghasilkan kapasitas angkutan barang yang lebih efisien dengan keandalan layanan yang terbaik, serta mampu mengurangi kemacetan di jalur-jalur padat. Pada tahun 2024, Perseroan menggunakan sistem angkutan barang berbasis digital (*Rail Cargo Access*), peningkatan frekuensi KA yang semula 14 KA menjadi 16 KA, hingga penambahan hari operasi pada beberapa mitra.

In freight transport services, KAI takes strategic steps by increasing the use of technology and information systems more optimally. The use of more reliable technology is expected to have a positive impact on operations. Thus, it may produce a more efficient freight transport capacity with the best service reliability, and be able to reduce congestion on busy routes. In 2024, the Company utilized a digital-based freight transport system (*Rail Cargo Access*), increasing the frequency of trains from 14 trains to 16 trains, and adding operating days to several partners.

Pada layanan angkutan penumpang, Perseroan melakukan berbagai strategi untuk meningkatkan kinerja angkutan penumpang dan meningkatkan daya saing di antara moda transportasi lainnya seperti pesawat maupun bus antar kota. KAI melakukan peningkatan layanan guna meningkatkan kepuasan pelanggan seperti inovasi *Face Recognition Boarding Gate*, pengembangan aplikasi *Access by KAI*, pengadaan KA Luxury, penerapan *marketing automation*, serta peremajaan sarana 612 kereta. Selain itu di tahun 2024 KAI juga meningkatkan promosi baik secara *online* maupun *offline* untuk menarik minat pelanggan.

The Company implements various strategies in passenger transport services to improve passenger transport performance and increase competitiveness among other modes of transportation such as airplanes and intercity buses. KAI is improving services to increase customer satisfaction such as the *Face Recognition Boarding Gate* innovation, developing the *Access by KAI* application, procuring Luxury Trains, implementing marketing automation, and rejuvenating 612 train facilities. Additionally, KAI increased online and offline promotions in 2024 to attract customer interest.

KAI berkomitmen untuk memperkuat infrastruktur dan layanan KAI secara digital. Dengan mengoptimalkan penggunaan teknologi, KAI mampu meningkatkan efisiensi operasional, menghadirkan kenyamanan pengguna, dan keamanan layanan. Langkah ini menjadi bagian dari strategi adaptif Perseroan dalam menghadapi dinamika industri, sekaligus memperkuat daya saing di era transformasi digital yang terus berkembang.

## Tantangan yang Dihadapi Perusahaan

### *Challenges Faced by the Company*

Dalam pelaksanaan tugas dan tanggung jawab sepanjang tahun 2024, Direksi PT Kereta Api Indonesia (Persero) menghadapi sejumlah tantangan strategis dan operasional yang berdampak langsung terhadap pencapaian *Key Performance Indicators* (KPI) sebagaimana tertuang dalam Kontrak Manajemen Kolegial. Tantangan tersebut mencerminkan kompleksitas pengelolaan korporasi dalam konteks transformasi bisnis, eksekusi proyek strategis nasional, serta tuntutan akuntabilitas yang tinggi dalam pemanfaatan dana negara melalui Penyertaan Modal Negara (PMN).

#### 1. Kompleksitas Eksekusi Proyek Strategis PMN

Direksi mengelola sejumlah proyek berskala nasional seperti LRT Jabodebek, Kereta Cepat Jakarta-Bandung (KCJB), serta pengadaan sarana KRL Jabodetabek. Pelaksanaan proyek-proyek ini menuntut koordinasi lintas entitas dan kementerian, ketepatan waktu penyelesaian, serta kepatuhan terhadap standar teknis dan administratif. Kendala yang dihadapi meliputi dinamika pelaksanaan fisik di lapangan, proses pengadaan yang harus memenuhi tingkat kandungan dalam negeri (TKDN), serta penyesuaian terhadap perubahan skema pembiayaan.

#### 2. Tantangan Keseimbangan Finansial dan Pengelolaan Leverage

Beberapa indikator keuangan utama seperti EBITDA, ROIC-WACC, serta rasio *Interest Bearing Debt* mengindikasikan bahwa perusahaan berada dalam fase pemulihan sekaligus ekspansi. Direksi perlu menjaga stabilitas arus kas operasional di tengah beban utang dan kewajiban investasi jangka panjang. Upaya *balancing* antara solvabilitas dan agresivitas pertumbuhan menjadi salah satu tantangan kunci yang memerlukan pengelolaan keuangan yang disiplin dan fleksibel.

KAI is committed to strengthening KAI's infrastructure and services digitally. By optimizing the use of technology, KAI is able to increase operational efficiency and provide both user comfort and service security. This step is part of the Company's adaptive strategy in facing industry dynamics while strengthening competitiveness in the continuously growing era of digital transformation.

In carrying out its duties and responsibilities throughout 2024, the Board of Directors of PT Kereta Api Indonesia (Persero) faced several strategic and operational challenges that directly impacted the achievement of Key Performance Indicators (KPIs) as outlined in the Collegial Management Contract. These challenges reflect the complexity of corporate management amid business transformation, execution of national strategic projects, and high accountability demands in utilizing state funds through State Capital Participation (PMN).

#### 1. Complexity of Executing PMN Strategic Projects

The Board of Directors managed several national-scale projects, such as the LRT Jabodebek, Jakarta-Bandung High-Speed Railway (KCJB), and procurement of Jabodetabek Commuter Line (KRL) rolling stock. These projects required cross-entity and cross-ministry coordination, timely completion, and compliance with technical and administrative standards. Challenges included on-site physical execution dynamics, procurement processes that had to meet domestic content requirements (TKDN), and adjustments to financing scheme changes.

#### 2. Financial Balance and Leverage Management Challenges

Key financial indicators such as EBITDA, ROIC-WACC, and the Interest-Bearing Debt ratio indicated that the company was in a phase of recovery and expansion. The Board of Directors needed to maintain operational cash flow stability amid long-term debt obligations and investment commitments. Balancing solvency and growth aggressiveness became a key challenge, requiring disciplined yet flexible financial management.

### 3. Kesiapan SDM dan Transformasi Kompetensi

Peningkatan kapasitas SDM, baik di sektor operasional maupun teknis, menjadi fokus utama. Program pelatihan dan sertifikasi tenaga kerja, terutama dalam menyongsong pengoperasian sarana berteknologi tinggi seperti KCJB dan LRT Jabodebek, menghadapi kendala berupa keterbatasan sumber daya pelatih, waktu pelatihan yang kompetitif dengan kebutuhan operasional, serta proses sertifikasi formal yang ketat dan berjenjang.

### 4. Percepatan Digitalisasi dan Integrasi Sistem

Direksi juga menghadapi tantangan dalam optimalisasi sistem digital. Keberhasilan implementasi sangat bergantung pada kesiapan infrastruktur, adopsi budaya digital di seluruh jajaran organisasi, serta interoperabilitas antar unit kerja dan anak perusahaan.

### 5. Ketergantungan pada Persetujuan Eksternal dan Dinamika Regulatoris

Beberapa rencana aksi korporasi strategis—seperti *refinancing* obligasi, penambahan PMN, serta penyertaan modal pada anak perusahaan—memerlukan persetujuan regulator dan pemegang saham. Proses yang memakan waktu, serta dinamika pasar modal dan kebijakan fiskal, menjadi faktor eksternal yang dapat memengaruhi ketepatan waktu pelaksanaan.

## PENYELESAIAN ATAS KENDALA YANG DIHADAPI

Dalam menjalankan tugas dan tanggung jawab strategis selama tahun 2024, Direksi PT Kereta Api Indonesia (Persero) dihadapkan pada berbagai tantangan yang kompleks, baik dari sisi internal maupun eksternal. Namun demikian, seluruh jajaran Direksi menunjukkan komitmen tinggi untuk menyelesaikan kendala-kendala tersebut melalui serangkaian langkah terukur dan kolaboratif.

Pertama, dalam menyikapi kompleksitas pelaksanaan proyek-proyek strategis nasional yang didanai oleh Penyertaan Modal Negara (PMN), Direksi memperkuat tata kelola proyek melalui pembentukan tim pengendali yang bekerja lintas unit secara intensif. *Monitoring* berbasis milestone dilaksanakan secara berkala, disertai dengan komunikasi aktif dengan kementerian/lembaga dan mitra eksternal guna menjaga kelancaran proses pengadaan, konstruksi, hingga operasionalisasi. Koordinasi yang lebih erat juga dilakukan dengan Divisi Khusus seperti Divisi LRT Jabodebek, anak perusahaan seperti PT KCI dan perusahaan asosiasi seperti PT KCIC, khususnya untuk proyek Pengadaan Sarana KRL Baru PT KCI, LRT Jabodebek dan KCJB.

### 3. Workforce Readiness and Competency Transformation

Enhancing human resource capacity, both in operational and technical sectors, was a major focus. Training and certification programs, particularly in preparation for operating high-tech systems like KCJB and LRT Jabodebek, faced obstacles such as limited trainer availability, training time constraints due to operational demands, and stringent multi-level certification processes.

### 4. Accelerating Digitalization and System Integration

The Board of Directors also faced challenges in optimizing digital systems. Successful implementation heavily depended on infrastructure readiness, digital culture adoption across all organizational levels, and interoperability between business units and subsidiaries.

### 5. Dependence on External Approvals and Regulatory Dynamics

Several strategic corporate actions—such as bond refinancing, additional PMN requests, and capital injections into subsidiaries—required regulatory and shareholder approvals. Time-consuming processes, coupled with capital market dynamics and fiscal policy changes, became external factors that may affect implementation timelines.

## RESOLUTION OF CHALLENGES

In executing its strategic responsibilities throughout 2024, the Board of Directors of PT Kereta Api Indonesia (Persero) encountered complex internal and external challenges. Nevertheless, the entire Board of Directors demonstrated strong commitment to addressing these obstacles through measured and collaborative steps.

First, in responding to the complexity of executing PMN-funded national strategic projects, the Board strengthened project governance by forming intensive cross-functional control teams. Milestone-based monitoring was conducted regularly, accompanied by active communication with ministries/institutions and external partners to ensure smooth procurement, construction, and operationalization processes. Closer coordination is also carried out with Special Divisions such as the Jabodebek LRT Division, subsidiaries such as PT KCI and associated companies such as PT KCIC, especially for the New KRL Facilities Procurement project of PT KCI, Jabodebek LRT and KCJB.

Kedua, dalam menjaga stabilitas keuangan di tengah tekanan rasio utang dan kebutuhan investasi yang besar, Direksi mengoptimalkan strategi pengelolaan kas dan pembiayaan jangka panjang. Berbagai opsi *refinancing* dilaksanakan secara hati-hati untuk obligasi yang jatuh tempo, disertai efisiensi pengeluaran dan peningkatan kualitas proyeksi kas. Di sisi lain, pendapatan dari layanan angkutan barang dan inisiatif sinergi BUMN logistik diperkuat sebagai sumber pendapatan berkelanjutan.

Ketiga, penguatan sumber daya manusia menjadi fokus utama dalam menjawab kebutuhan kompetensi, terutama seiring hadirnya teknologi perkeretaapian baru. Direksi melaksanakan pelatihan intensif, sertifikasi tenaga operasional, serta program transfer *knowledge* dari mitra produsen sarana. Upaya ini juga dibarengi dengan peningkatan sistem manajemen talenta berbasis kompetensi untuk memastikan regenerasi dan distribusi talenta yang merata.

Keempat, akselerasi digitalisasi menjadi pilar penting dalam menjawab tantangan yang dihadapi KAI ke depan.

Kelima, dalam menghadapi tantangan aksi korporasi dan proses persetujuan eksternal, Direksi mengambil pendekatan proaktif dengan menyusun *roadmap* aksi korporasi yang terintegrasi. Komunikasi dengan Kementerian BUMN dan regulator dilakukan secara intensif untuk mempercepat proses persetujuan dan mengantisipasi perubahan kebijakan. Ini termasuk penambahan PMN, penerbitan surat utang, dan penyertaan modal ke anak perusahaan yang strategis.

Dengan berbagai langkah tersebut, Direksi terus berupaya memastikan bahwa setiap tantangan yang muncul direspon dengan solusi yang relevan, terukur, dan berorientasi pada hasil. Seluruh upaya ini mencerminkan semangat kepemimpinan kolejal yang adaptif, berintegritas, dan berkomitmen untuk mendorong transformasi dan pertumbuhan berkelanjutan bagi perusahaan dan bangsa.

## Analisis Prospek Usaha 2025

### *Analysis of Business Prospects 2025*

Menurut laporan Internasional Monetary Fund (IMF), pertumbuhan ekonomi dunia diperkirakan akan tetap berada pada tingkat stagnan mencapai 3,3% di tahun 2025. Selain itu, tingkat bunga global diperkirakan masih akan tetap tinggi yang berpengaruh pada pengetatan likuiditas serta terbatasnya masuknya modal ke negara-negara berkembang. Selanjutnya, ketegangan geopolitik yang melibatkan Rusia dan

Second, to maintain financial stability amid debt ratio pressures and substantial investment needs, the Board optimized cash management and long-term financing strategies. Various refinancing options were carefully implemented for maturing bonds, alongside expenditure efficiency and improved cash flow projections. Meanwhile, revenue from freight services and SOE logistics synergy initiatives was strengthened as sustainable income sources.

Third, workforce development became a primary focus in addressing competency needs, especially with the introduction of new railway technologies. The Board implemented intensive training, operational staff certification, and knowledge transfer programs with rolling stock manufacturers. These efforts were complemented by a competency-based talent management system to ensure equitable talent regeneration and distribution.

Fourth, digitalization acceleration became a crucial pillar in addressing future challenges.

Fifth, in facing corporate action challenges and external approval processes, the Board adopted a proactive approach by developing an integrated corporate action roadmap. Intensive communication with the Ministry of SOEs and regulators was maintained to expedite approval processes and anticipate policy changes, including additional PMN, debt issuance, and strategic capital injections into subsidiaries.

Through these measures, the Board of Directors continues to ensure that every emerging challenge is met with relevant, measurable, and results-oriented solutions. All these efforts reflect the spirit of adaptive, integrity-driven, and committed collegial leadership, dedicated to driving sustainable transformation and growth for the Company and the nation.

According to the International Monetary Fund (IMF) report, global economic growth is expected to remain stagnant at 3.3% in 2025. Moreover, global interest rates are expected to remain high, which will affect the tightening of liquidity and the limited inflow of capital to developing countries. Furthermore, geopolitical tensions involving Russia and Ukraine and the situation in the Middle East have not subsided,

Ukraina serta situasi di Timur Tengah masih belum reda, dan persaingan antara Amerika Serikat dan Tiongkok yang tetap berlangsung juga menjadi faktor lainnya yang menyebabkan tingkat pertumbuhan ekonomi global mengalami perlambatan.

Namun kami tetap optimis dengan proyeksi pertumbuhan ekonomi nasional yang ditargetkan mencapai 5,2% dalam Anggaran Pendapatan dan Belanja Negara untuk tahun 2025. Pemerintah juga berupaya untuk menjaga tingkat inflasi sekitar 2,5% demi mempertahankan kemampuan daya beli masyarakat. Diharapkan, langkah ini akan berdampak baik pada volume penumpang kereta api dan pendapatan Perseroan.

Pemerintah terus melakukan upaya terbaiknya untuk meningkatkan layanan kereta api kepada masyarakat. Hal ini juga menjadi rencana pemerintah di tahun 2025 untuk melakukan sejumlah kebijakan, termasuk menetapkan anggaran *Public Service Obligation* (PSO) untuk kereta api sebesar Rp4,79 triliun. Anggaran ini akan dialokasikan untuk mendukung ketersediaan tiket mudik lebaran 2025 dan agenda istimewa lainnya. Kebijakan ini bertujuan untuk menjaga aksesibilitas atau keterjangkauan terhadap layanan transportasi publik, terutama bagi sebagian masyarakat yang akan menggunakan kereta api sebagai moda utamanya.

Mengamati prospek usaha tersebut, kami melihat peluang bisnis kereta api di Indonesia masih sangat besar, berkat dukungan dari pemerintah melalui sejumlah program dan kebijakan strategisnya, kami optimis dapat meraih pencapaian kinerja yang optimal. Untuk memastikan realisasi tersebut dapat dicapai, kami telah menyusun strategi yang relevan untuk merespons prospek usaha di masa mendatang, antara lain:

1. Melakukan penyesuaian aktivitas operasional dengan penerapan transformasi digital yang berkualitas, konsep keberlanjutan yang mengedepankan aspek sosial, ekonomi, dan lingkungan, serta menganalisis potensi risiko yang dapat timbul di sepanjang tahun mendatang;
2. Meningkatkan sistem pengendalian internal untuk memastikan manajemen keuangan dapat berjalan dengan optimal;
3. Merancang program strategis *Behaviour Based Safety* (BSS) untuk menekan terjadinya human error;
4. Melakukan pengembangan jaringan perkeretaapian nasional yang mencapai 10.524 Km secara akumulatif total pada 2030, yang mana sepanjang 3.755 Km difungsikan untuk jaringan kota/perkotaan;

and the ongoing competition between the United States and China are also other factors causing the global economic growth rate to slow down.

However, we remain optimistic about the national economic growth projection which is targeted to reach 5.2% in the State Budget for 2025. The government is also trying to maintain the inflation rate at around 2.5% to maintain people's purchasing power. It is hoped that this step will have a good impact on the volume of train passengers and the Company's revenue.

The government continuously makes its best efforts to improve train services to the public. This is also the government's plan in 2025 to implement a number of policies, including setting a Public Service Obligation (PSO) budget for trains of Rp4.79 trillion. This budget will be allocated to support the availability of 2025 Eid homecoming tickets and other special agendas. This policy aims at maintaining accessibility or affordability to public transportation services, especially for some people who will use trains as their main transportation mode.

Observing the business prospects, we view that the railway business opportunities in Indonesia are still very large, thanks to the support of the government through several strategic programs and policies, and we are confident that we can achieve optimal performance. To ensure that this realization can be achieved, we have prepared relevant strategies to respond to future business prospects, including:

1. Adjusting operational activities with the implementation of quality digital transformation, sustainability concepts that prioritize social, economic, and environmental aspects, and analyzing potential risks that may arise throughout the coming year;
2. Improving the internal control system to ensure that financial management can run optimally;
3. Designing a strategic Behavior Based Safety (BSS) program to reduce human error;
4. Developing a national railway network that will reach 10,524 km cumulatively in total by 2030, of which 3,755 km will be used for city/urban networks;

5. Menerapkan skenario penggunaan energi pada transportasi perkeretaapian di tahun 2030 yang berbasis pulau dengan porsi listrik 90% dan berbasis perkotaan dengan porsi listrik sebesar 100%;
6. Mengadopsi teknologi prasarana dan konstruksi, pengembangan *roadmap* teknologi & industri kereta, penguasaan teknologi perawatan prasarana kereta standar internasional, dan lain-lain; dan
7. Memastikan keselamatan dan keamanan penumpang berupa *monitoring* dan evaluasi penyelenggaraan perkeretaapian, pengembangan manajemen sistem keamanan dalam penyelenggaraan perkeretaapian, pengujian dan sertifikasi sarana dan prasarana, serta fasilitas pendukung lainnya, dan lain-lain.

Selain itu, prospek industri jasa transportasi semakin menantang dengan kondisi global yang penuh dengan ketidakpastian dan kondisi makro ekonomi dan tingkat persaingan antarmoda yang semakin berkembang dan memberikan berbagai inovasi peningkatan pelayanan kepada penumpang.

Dari pencapaian yang terjadi di tahun 2024, Direksi optimis untuk melakukan pertumbuhan perusahaan dengan melakukan investasi pada sarana perkeretaapian dan fasilitas pendukung lainnya. Upaya ini sesuai dengan visi dan misi perusahaan, dimana PT KAI tetap menjadikan kereta api sebagai moda pilihan masyarakat Indonesia yang mengedepankan keselamatan, ketepatan waktu dan kenyamanan, ramah lingkungan, terus mengembangkan sumber daya dan teknologi, serta berperan aktif dalam pengembangan transportasi antarmoda berkelanjutan.

## Penerapan Tata Kelola Perusahaan

### *Implementation of Corporate Governance*

Secara berkelanjutan Direksi berkomitmen dalam penerapan tata kelola Perusahaan yang baik dengan mengedepankan praktik-praktik tata kelola perusahaan yang baik dengan pemenuhan aturan-aturan yang berlaku termasuk di dalamnya penyesuaian sistem dan prosedur bisnis terhadap aturan yang terbaru.

5. Implementing an energy usage scenario for railway transportation in 2030 that is island-based with 90% electricity and urban-based with 100% electricity;
6. Adopting infrastructure and construction technology, developing a roadmap for railway technology & industry, mastering international standard railway infrastructure maintenance technology, etc.; and
7. Ensuring passenger safety and security in the form of monitoring and evaluation of railway operations, developing security system management in railway operations, testing and certification of facilities and infrastructure, and other supporting facilities, etc.

In addition, the prospects for the transportation services industry are increasingly challenging with uncertain global conditions and macroeconomic conditions and the level of competition between modes that are increasingly developing and providing various innovations to improve services to passengers.

From the achievements in 2024, the Board of Directors is optimistic about growing the company by investing in railway facilities and other supporting facilities. This effort is in accordance with the Company's vision and mission, where PT KAI (Persero) continues to make trains the preferred mode of transportation for the Indonesian people who prioritize safety, punctuality and comfort, are environmentally friendly, while continuing to develop resources and technology and play an active role in the development of sustainable intermodal transportation.

The Board of Directors remains steadfast in its commitment to implementing Good Corporate Governance (GCG) by prioritizing best governance practices and ensuring compliance with all applicable regulations, including the continuous adjustment of business systems and procedures to align with the latest regulatory requirements.

Penerapan Tata Kelola Perusahaan yang Baik (*Good Corporate Governance/GCG*) yang merupakan mandatory dari Peraturan Menteri BUMN No. 2/MBU/2023 WAJIB dijadikan sebagai pondasi bagi seluruh tingkat dan jenjang organisasi dalam menjalankan tugas sehari-hari. Implementasi GCG tidak hanya wajib dilaksanakan oleh Direksi (beserta manajemen pendukungnya) tapi juga wajib diterapkan oleh aspek Dewan Komisaris dan Pemegang Saham (Kementerian BUMN).

Selain sebagai pedoman tata kelola yang baik, implementasi GCG merupakan sebuah kewajiban sesuai dengan Peraturan Menteri BUMN No. 2/MBU/2023. Peraturan tersebut wajib dijadikan pondasi bagi seluruh tingkat dan jenjang organisasi dalam menjalankan tugas sehari-hari. Implementasi GCG tidak hanya wajib dilaksanakan oleh Direksi beserta manajemen pendukungnya saja, melainkan wajib diterapkan oleh seluruh organ tata kelola termasuk Dewan Komisaris dan Pemegang Saham yakni Kementerian BUMN.

Penerapan GCG yang dilakukan oleh Perseroan, mengacu pada 5 (lima) prinsip dasar, yaitu transparansi, akuntabilitas, responsibilitas, independensi, dan kewajaran. Dengan menerapkan kelima prinsip tersebut, diharapkan dapat meningkatkan nilai perusahaan dan kepercayaan pemangku kepentingan terhadap pengelolaan Perseroan secara optimal.

Sejak tahun 2012, PT KAI melaksanakan pengukuran efisiensi dan efektivitas implementasi GCG dengan skor awal 70 predikat cukup baik, dan secara terus menerus melakukan perbaikan-perbaikan sehingga tren skor setiap tahun meningkat. Pada tahun 2024 pengukuran efisiensi dan efektivitas penerapan GCG dilaksanakan oleh pihak eksternal yakni Perwakilan Badan Pengawasan Keuangan dan Pembangunan (BPKP) Jawa Barat. Perseroan berhasil meraih skor sebesar 93,590 dengan kategori sangat baik. Capaian ini menunjukkan komitmen dan implementasi penerapan GCG di PT KAI telah dijalankan secara efektif dan efisien.

Dalam menjalankan tugas dan fungsinya Direksi di bantu oleh organ pendukung. Direksi menyadari bahwa organ pendukung merupakan bagian penting dalam mendukung pencapaian tujuan Perseroan. Terdapat 2 (dua) organ pendukung Direksi yaitu Sekretaris Perusahaan dan Satuan Pengawas Intern. Direksi memandang bahwa Sekretaris Perusahaan dan Satuan Pengawas Intern memiliki peran strategis sebagai elemen

The implementation of Good Corporate Governance, as mandated by Minister of SOEs Regulation No. 2/MBU/2023, serves as the fundamental foundation for all organizational levels in carrying out their daily responsibilities. GCG implementation is not only mandatory for the Board of Directors (along with supporting management) but must also be comprehensively applied by the Board of Commissioners and Shareholders (Ministry of SOEs).

In addition to being a guideline for good governance, the GCG implementation is an obligation following the Regulation of the Minister of State-Owned Enterprises No. 2/MBU/2023, which must be utilized as a foundation for all organizational levels in carrying out daily tasks. The GCG implementation is not only mandatory for the Board of Directors and its supporting management, but it must be implemented by all governance organs, including the Board of Commissioners and Shareholders, namely the Ministry of State-Owned Enterprises.

The GCG implementation carried out by the Company refers to 5 (five) basic principles, namely transparency, accountability, responsibility, independence, and fairness. Implementing these five principles is expected to increase the Company's value and stakeholder trust in the Company's management optimally.

Since 2012, PT KAI has been measuring the efficiency and effectiveness of GCG implementation with an initial score of 70, which is quite good, and has continuously made improvements to ensure that the score trend increases every year. In 2024, the measurement of the efficiency and effectiveness of GCG implementation was carried out by an external party, namely the Representative of the Financial and Development Supervisory Agency (BPKP) of West Java. The Company managed to achieve a score of 93.590 with a very good category. This achievement indicates that the commitment and application of GCG implementation at PT KAI have been carried out effectively and efficiently.

In carrying out its duties and functions, the Board of Directors is assisted by supporting organs. The Board of Directors realizes that supporting organs are an important part of supporting the achievement of the Company's goals. There are 2 (two) supporting organs for the Board of Directors, namely the Corporate Secretary and the Internal Supervisory Unit. The Board of Directors views that the Corporate Secretary

pendukung dalam implementasi GCG, khususnya dalam memberikan saran, masukan, dan rekomendasi yang objektif untuk mendukung proses pengambilan keputusan yang tepat dan terukur.

Direksi dan Dewan Komisaris bertanggung jawab dalam memastikan implementasi tata kelola perusahaan telah sesuai dengan prinsip GCG. Untuk mendukung penerapan GCG, Perseroan menerapkan sistem manajemen risiko guna mengetahui, memantau, dan memitigasi berbagai potensi risiko yang dapat memengaruhi pencapaian tujuan perusahaan. Merujuk pada Peraturan Menteri BUMN Nomor 2 tahun 2023, KAI sebagai BUMN wajib menerapkan manajemen risiko secara efektif. Direksi juga telah menerapkan manajemen risiko dalam setiap pengambilan keputusan strategis Perusahaan dan memastikan bahwa fungsi manajemen risiko telah beroperasi secara independen. Direksi secara aktif terlibat dalam pengelolaan risiko di lingkungan perusahaan, yakni melalui penetapan kebijakan dan strategi risiko, implementasi manajemen risiko pada penyusunan RJPP dan RKAP, serta memonitor dan memastikan pelaksanaan penanganan risiko hingga pelaporan manajemen risiko.

Sepanjang tahun 2024, Kami memastikan seluruh organ Perseroan telah menjalankan tugas dan tanggung jawabnya dengan baik. Kami berkomitmen meningkatkan kualitas penerapan prinsip dan praktik GCG di seluruh lini organisasi, guna menciptakan tata kelola perusahaan yang kuat, serta dapat mendukung pertumbuhan berkelanjutan di masa depan.

#### **PANDANGAN DIREKSI TERHADAP SISTEM MANAJEMEN RISIKO PERUSAHAAN**

Dengan merujuk pada ketentuan dalam Peraturan Menteri BUMN Nomor 2 tahun 2023, dimana KAI sebagai BUMN wajib menerapkan Manajemen Risiko secara efektif yang di dalamnya meliputi pengurusan aktif oleh Direksi.

Direksi telah terlibat aktif dalam pengelolaan risiko di Perusahaan melalui penetapan kebijakan dan strategi risiko, implementasi manajemen risiko pada penyusunan RJPP dan RKAP, serta memonitor dan memastikan pelaksanaan penanganan Risiko hingga pelaporan Manajemen Risiko.

Direksi juga telah menerapkan Manajemen Risiko dalam setiap pengambilan keputusan strategis Perusahaan dan memastikan bahwa fungsi Manajemen Risiko telah beroperasi secara independen.

and the Internal Supervisory Unit have a strategic role as supporting elements in the GCG implementation, especially in providing objective advice, input, and recommendations to support the right and measurable decision-making process.

The Board of Directors and Board of Commissioners are responsible for ensuring that the implementation of corporate governance is under GCG principles. To support the GCG implementation, the Company implements a risk management system to identify, monitor, and mitigate various potential risks that may affect the achievement of the Company's goals. Referring to the Regulation of the Minister of SOEs Number 2 of 2023, KAI as a State-Owned Enterprise is required to implement risk management effectively. The Board of Directors has also implemented risk management in every strategic decision-making of the Company and guarantees that the risk management function has operated independently. The Board of Directors is actively involved in risk management in the company environment, namely through determining risk policies and strategies, implementing risk management in the preparation of RJPP and RKAP, as well as monitoring and ensuring the implementation of risk handling to risk management reporting.

Throughout 2024, We ensured that all Company organs have carried out their duties and responsibilities properly. We are committed to improving the quality of the implementation of GCG principles and practices across all lines of the organization, to create strong corporate governance and support future sustainable growth.

#### **THE BOARD OF DIRECTORS' VIEW ON THE COMPANY'S RISK MANAGEMENT SYSTEM**

In accordance with the provisions of the Minister of SOEs Regulation No.2 of 2023, KAI as a SOE is required to implement effective Risk Management which includes active management by the Board of Directors.

The Board of Directors has been actively involved in risk management in the Company through the determination of risk policies and strategies, implementation of risk management in the preparation of RJPP and RKAP, as well as monitoring and ensuring the implementation of Risk handling to Risk Management reporting.

The Board of Directors has also implemented Risk Management in every strategic decision-making of the Company and ensured that the Risk Management function has operated independently.

Lebih lanjut, sistem Tata Kelola PT KAI (Persero) telah dirancang untuk mendorong pengelolaan Perusahaan secara profesional, efisien, dan efektif.

Meskipun skor hasil pengukuran GCG sudah SANGAT BAIK namun masih ada beberapa *Area of Improvement* (AoI) atau bagian-bagian atau proses bisnis di perusahaan yang memerlukan peningkatan kinerja secara optimal.

Ke depan, Direksi memandang pentingnya kecukupan sistem tata kelola tidak hanya dalam konteks kepatuhan terhadap regulasi, tetapi juga dalam hal *agility*, kemampuan adaptasi, serta efektivitas pencegahan risiko, termasuk risiko *fraud*. Oleh karena itu, kami akan terus memperkuat mekanisme kontrol internal, meningkatkan digitalisasi dalam proses pengawasan, serta membangun budaya integritas di seluruh jenjang organisasi. Dengan demikian, sistem tata kelola perusahaan akan senantiasa relevan, memadai, dan mampu mendukung pencapaian tujuan strategis PT KAI (Persero) secara berkelanjutan.

#### PANDANGAN DIREKSI TERHADAP KINERJA KOMITE PENDUKUNG

Direksi memandang bahwa Komite Pendukung memiliki peran strategis sebagai support system dalam penerapan *Good Corporate Governance* (GCG), khususnya dalam memberikan telaahan, masukan, dan rekomendasi yang objektif untuk mendukung proses pengambilan keputusan yang tepat dan terukur.

Komite merupakan bagian penting dalam mendukung pencapaian tujuan Perusahaan. Di PT KAI (Persero) terdapat 4 Komite pendukung yaitu Komite Remunerasi, Komite Audit, Komite Pemantauan Manajemen Risiko dan Komite Tata Kelola Terintegrasi. Tugas Komite Pendukung sebagai *support system* dalam penerapan GCG bersifat strategis dalam mendukung proses pengambilan keputusan Direksi/Manajemen. Komite Pendukung telah bertindak adaptif dan responsif terhadap permasalahan ataupun peluang yang dihadapi perusahaan.

Dalam menjalankan tugasnya, Direksi melakukan pengawasan terhadap Komite Pendukung melalui:

##### a. Laporan Berkala

Komite wajib menyampaikan laporan kegiatan, hasil evaluasi, serta rekomendasi secara periodik kepada Direksi (bulanan, triwulanan, atau sesuai kebutuhan). Laporan ini menjadi dasar evaluasi Direksi terhadap efektivitas dan kontribusi Komite terhadap tujuan perusahaan.

Furthermore, PT KAI (Persero)'s Governance system has been designed to encourage the management of the Company in a professional, efficient, and effective manner.

Despite EXCELLENT GCG score, there are still several Areas of Improvement (AoI) or parts or business processes in the Company that require optimal performance improvement.

Going forward, the Board of Directors views the importance of the adequacy of the governance system not only in the context of regulatory compliance, but also in terms of agility, adaptability, and effectiveness of risk prevention, including the risk of fraud. Therefore, we will continue to strengthen internal control mechanisms, increase digitalization in the supervision process, and build a culture of integrity at all levels of the organization. Therefore, the corporate governance system will always be relevant, adequate, and able to support the achievement of PT KAI (Persero)'s strategic goals in a sustainable manner.

#### BOARD OF DIRECTORS' VIEWS ON THE PERFORMANCE OF SUPPORTING COMMITTEES

The Board of Directors views that the Supporting Committees have a strategic role as a support system in the implementation of Good Corporate Governance (GCG), especially in providing objective reviews, input, and recommendations to support the right and measurable decision-making process

The Committee is a vital part in supporting the achievement of the Company's goals. At PT KAI (Persero), there are 4 supporting committees, namely the Remuneration Committee, Audit Committee, Risk Management Monitoring Committee, and Integrated Governance Committee. The duties of the Supporting Committees as a support system in the implementation of GCG are strategic in supporting the decision-making process of the Board of Directors/Management. The Supporting Committees have acted adaptively and responsively to problems or opportunities faced by the company.

In carrying out its duties, the Board of Directors supervises the Supporting Committees through:

##### a. Periodic Reports

The Committee is required to submit periodic activity reports, evaluation results, and recommendations to the Board of Directors (monthly, quarterly, or as needed). This report is the basis for the Board of Directors' evaluation of the effectiveness and contribution of the Committee to the company's goals.

**b. Rapat Evaluasi Kinerja**

Direksi mengadakan rapat kerja dengan masing-masing komite untuk membahas capaian, hambatan, dan tindak lanjut dari rekomendasi yang telah diberikan.

Notulen dan tindak lanjut hasil rapat ini dimonitor secara ketat oleh Sekretariat Perusahaan atau unit pengendalian internal.

**c. Audit Internal dan Eksternal**

Unit Audit Internal melakukan evaluasi independen terhadap pelaksanaan kerja komite sesuai dengan GCG dan KPI yang telah ditetapkan. Hasil audit juga digunakan oleh Direksi sebagai bahan untuk pengambilan keputusan mengenai perbaikan, pembubaran, atau penguatan fungsi komite.

**d. Penggunaan Key Performance Indicators (KPI)**

Setiap komite biasanya memiliki KPI yang selaras dengan sasaran strategis Direksi dan Rencana Jangka Panjang Perusahaan (RJPP). Evaluasi pencapaian KPI menjadi dasar obyektif untuk menilai efektivitas kinerja komite.

**b. Performance Evaluation Meeting**

The Board of Directors holds a working meeting with each committee to discuss achievements, obstacles, and follow-up to recommendations that have been given.

The minutes and follow-up to the results of this meeting are closely monitored by the Company Secretariat or internal control unit.

**c. Internal and External Audit**

The Internal Audit Unit conducts an independent evaluation of the implementation of the committee's work in accordance with the established GCG and KPIs. The audit results are also used by the Board of Directors as material for decision-making regarding improvements, dissolution, or strengthening of the committee's function.

**d. Use of Key Performance Indicators (KPI)**

Each committee usually has KPIs that are in line with the Board of Directors' strategic objectives and the Company's Long-Term Plan (RJPP). Evaluation of KPI achievement is an objective basis for assessing the effectiveness of the committee's performance.

**Kinerja Keberlanjutan [OJK D.1]**

*Sustainability Performance [OJK D.1]*

Dalam menjalankan kegiatan usahanya, PT KAI (Persero) juga turut serta mendukung pencapaian Tujuan Pembangunan Berkelanjutan (TPB). Hal ini dikarenakan, kesinambungan transportasi kereta api dengan efisiensi energi dan pengurangan emisi gas rumah kaca sejalan dengan konsep ramah lingkungan. Keunggulan kereta api yang memiliki kapasitas lebih besar serta mampu menghasilkan emisi gas rumah kaca yang lebih rendah dibandingkan dengan transportasi lain, membuatnya menjadi pilihan yang tepat bagi masyarakat yang membutuhkan ruang transportasi umum sekaligus mendukung terciptanya lingkungan yang sehat.

Kinerja keberlanjutan perusahaan dari investasi sangat baik dan optimis dimana pertumbuhan investasi tumbuh lebih dari 50% di tahun 2024. Selain itu, PT KAI (Persero) juga terus memperkuat komitmen dan kinerja dalam praktik bisnis berkelanjutan, terbukti dari pencapaian skor ESG sebesar 41 dari S&P Global pada 18 Desember 2024.

In carrying out its business activities, PT KAI (Persero) also supports the achievement of Sustainable Development Goals (SDGs). This is due to the railway transportation sustainability, with energy efficiency and reduced greenhouse gas emissions is in line with the environmentally friendly concept. The advantages of trains that have a larger capacity and are able to produce lower greenhouse gas emissions compared to other transportation, make them the correct option for people who need public transportation space while supporting the creation of a healthy environment.

The Company's sustainability performance from investment is excellent and optimistic where investment growth will grow by more than 50% in 2024. In addition, PT KAI (Persero) also continues to strengthen its commitment and performance in sustainable business practices, as evidenced by the achievement of an ESG score of 41 from S&P Global on December 18, 2024.

Di sepanjang tahun 2024, KAI telah melaksanakan sejumlah inisiatif terkait aspek berkelanjutan. Inisiatif ini sejalan dengan Rencana Program Kerja Keberlanjutan KAI tahun 2024. Implementasi dan pencapaian kinerja keberlanjutan KAI di tahun 2024 adalah sebagai berikut:

## 1. Lingkungan

Langkah keberlanjutan di bidang lingkungan hidup yang dilakukan perusahaan dilakukan secara berkala setiap tahun melalui penanaman pohon baik secara program dari perusahaan dan kegiatan bantuan CSR. Pada tahun 2024 terdapat penanaman pohon dengan total 5.216 di seluruh KAI grup dan juga untuk eksternal/program CSR.

Dalam efisiensi energi yang dilakukan perusahaan adalah peralihan penggunaan B100 menjadi B30 pada tahun 2023, B35 pada tahun 2024 dan pada tahun 2025 menjadi B40. Hal ini sebagai bentuk peralihan dari energi bahan bakar fosil menjadi bahan bakar dari hayati. Selain itu untuk efisiensi penggunaan listrik beberapa stasiun dan balai yasa telah memasang panel surya untuk mengurangi konsumsi penggunaan listrik serta fitur *face recognition* dan *eboarding* juga mengurangi penggunaan kertas untuk tiket. Sedangkan di kantor penggunaan RDS untuk proses bersurat internal perusahaan juga mengurangi penggunaan kertas secara signifikan.

Aktivitas lainnya yang dilakukan KAI di bidang lingkungan hidup, antara lain:

- Penyediaan *Water Station* di Stasiun;
- Penerapan Teknologi *Face Recognition*;
- Penanaman Pohon;
- Pemanfaatan Energi Baru Terbarukan (EBT): Implementasi PLTS;
- Implementasi dan *Monitoring* Pembatasan Penggunaan Plastik dan Kertas di Lingkungan KAI Group;
- Perhitungan dan menu *Fitur Carbon Footprint* untuk Penumpang Kereta Api;
- Pelaksanaan Uji Terap B40 Sektor Kereta Api;
- Pilot *Project Green Building* dan Sertifikasi EDGE; dan
- Penilaian *Life Cycle Assessment* (LCA) dengan BRIN.

## 2. Sosial

- Kegiatan CSR: *Program Rail Clinic* dan *Rail Library*;
- Peresmian *Rail Kids Daycare* PT KAI;
- Komitmen Direksi KAI Tentang Penerapan Kebijakan Hak Asasi Manusia (HAM);
- Penyusunan *Contractor Safety Management System* (CSMS); dan
- Melakukan pemberdayaan UMK.

Throughout 2024, KAI implemented several initiatives related to sustainable aspects, which were in line with the KAI Sustainability Work Program Plan for 2024. The implementation and achievement of KAI's sustainability performance in 2024 are as follows:

## 1. Environment

The Company's sustainability measures in the environmental sector are carried out periodically every year through tree planting, both through company programs and CSR assistance activities. In 2024, there were a total of 5,216 tree plantings throughout the KAI group and also for external/CSR programs.

In terms of energy efficiency, the Company switched from using B100 to B30 in 2023, B35 in 2024 and to B40 in 2025. This is a form of transition from fossil fuel energy to biofuels. In addition, for the efficiency of electricity use, several stations and service centers have installed solar panels to reduce electricity consumption and the *face recognition* and *eboarding* features also reduce paper use for tickets. Meanwhile, in the office, the use of RDS for the Company's internal letter process also reduces paper use significantly.

Other activities carried out by KAI in the environmental sector include:

- Provision of *Water Stations* at Stations;
- Application of *Face Recognition Technology*;
- Tree Planting;
- Utilization of New Renewable Energy (EBT): Implementation of PLTS;
- Implementation and Monitoring of Plastic and Paper Usage Restrictions in the KAI Group Environment;
- Calculation and Carbon Footprint Feature Menu for Train Passengers;
- Implementation of B40 Application Test in the Railway Sector;
- Green Building Pilot Project and EDGE Certification; and
- Life Cycle Assessment (LCA) with BRIN.

## 2. Social

- CSR Activities: *Rail Clinic* and *Rail Library* Programs;
- Inauguration of PT KAI's *Rail Kids Daycare*;
- KAI Board of Directors' Commitment to the Implementation of Human Rights (HAM) Policy;
- Preparation of *Contractor Safety Management System* (CSMS); and
- SME Funding.

### 3. Tata Kelola

- l. Integrasi Implementasi ESG di Anak Perusahaan;
- m. Penghargaan terkait *Sustainability/ ESG*;
- n. Kerja sama dan atau undangan Lembaga Eksternal (Nasional/Global); dan
- o. Pengembangan *website sustainability*.

KAI memahami bahwa usaha untuk meningkatkan keberlanjutan kinerja akan selalu menghadapi serangkaian tantangan. Oleh karena itu, PT KAI (Persero) berkomitmen secara berkala melakukan evaluasi terhadap penerapan strategi keberlanjutan di ruang lingkup perusahaan. Hal ini dilakukan dengan tujuan untuk memastikan seluruh inisiasi yang disusun masih relevan dan berdampak positif terhadap pertumbuhan bisnis Perseroan, termasuk pemberian manfaat kepada seluruh pemangku kepentingan.

### INOVASI BERKELANJUTAN

## Board of Commissioners' Report

### Para Pemegang Saham dan Pemangku Kepentingan yang terhormat,

Our Esteemed Shareholders and Stakeholders,

Puji syukur kami panjatkan kepada Tuhan Yang Maha Esa, atas rahmat dan karunia-Nya PT Kereta Api Indonesia (Persero) berhasil mencatatkan kinerja yang positif selama periode 2024. Bersamaan dengan itu, seluruh Dewan Komisaris juga telah menjalankan tugas dan tanggung jawabnya untuk melakukan pengawasan atas kinerja Direksi. Pada tahun ini kami berupaya menghadirkan layanan yang lebih berkualitas dengan meningkatkan kenyamanan dan keamanan bagi para pengguna.

Kami memahami, perkembangan zaman dan perubahan gaya hidup masyarakat merupakan sebuah tantangan yang perlu dikaji dan disesuaikan dengan layanan yang diberikan oleh KAI. Oleh karena itu, kami mengapresiasi setiap kebijakan yang dilaksanakan oleh Direksi selama tahun 2024. Sehingga Perseroan berhasil adaptif dan memiliki daya saing yang tinggi di bidang transportasi perkeretaapian di Indonesia.

Melalui Laporan ini, kami akan menyampaikan informasi mengenai pengawasan yang telah Dewan Komisaris lakukan secara independen, sesuai dengan prinsip-prinsip tata kelola perusahaan yang baik terhadap pengelolaan Perseroan yang dilakukan oleh Direksi selama periode 2024, dalam rangka mencapai tujuan Rencana Kerja Anggaran Perusahaan (RKAP) 2024. Laporan ini juga mencerminkan komitmen kami terhadap transparansi dan akuntabilitas, serta memastikan bahwa KAI dapat terus berkembang secara berkelanjutan.

## Tinjauan Ekonomi 2024

### 2024 Economic Overview

Dewan Komisaris memandang kondisi ekonomi nasional dan global pada tahun 2024 dengan optimisme dan hati-hati, mengingat pemulihan ekonomi domestik yang didukung oleh konsumsi dan investasi infrastruktur, namun tetap waspada terhadap tantangan seperti inflasi, fluktuasi harga energi, dan ketegangan geopolitik yang berpotensi mempengaruhi stabilitas ekonomi.

We begin by expressing our sincere gratitude to the Almighty God for His blessings, which enabled PT Kereta Api Indonesia (Persero) to achieve positive performance throughout 2024. Concurrently, the Board of Commissioners has diligently fulfilled its oversight responsibilities to monitor the execution of duties by the Board of Directors. This year, we strived to elevate service quality by prioritizing passenger comfort and safety.

We recognize that evolving societal trends and lifestyle changes present challenges requiring careful assessment and alignment with our services. Thus, we commend the strategic policies implemented by the Board of Directors in 2024, which strengthened the Company's adaptability and competitive edge in Indonesia's railway transportation sector.

This Report outlines the Board of Commissioners' independent oversight activities, conducted in adherence to good corporate governance principles, to ensure effective management by the Board of Directors in achieving the 2024 Work Plan and Corporate Budget (RKAP) targets. This report reflects our unwavering commitment to transparency, accountability, and sustainable growth—cornerstones of KAI's long-term success.

The Board of Commissioners views the 2024 national and global economic conditions with cautious optimism. While domestic recovery remains supported by consumption and infrastructure investment, we remain vigilant against challenges such as inflation, energy price volatility, and geopolitical tensions that may impact economic stability.

President Commissioner/Independent Commissioner

Berdasarkan World Economic Outlook (WEO) yang dirilis oleh Internasional Monetary Fund (IMF), di tahun 2024 pertumbuhan ekonomi global hanya mencapai 3,2%. Perlambatan ini dipicu oleh melemahnya pertumbuhan ekonomi di negara-negara maju yang hanya tumbuh mencapai 1,8% yang diakibatkan oleh kebijakan fiskal dan moneter serta gejolak geopolitik di sepanjang tahun 2024. Namun, terlihat adanya pertumbuhan ekonomi di sejumlah negara berkembang sebesar 4,2%.

Pada ruang lingkup domestik, Badan Pusat Statistik (BPS) melaporkan pertumbuhan ekonomi nasional tumbuh sebesar 5,03%. Keberhasilan ini didorong oleh laju pertumbuhan di sejumlah sektor industri, serta didukung oleh permintaan domestik yang tetap stabil dan pemulihan permintaan global. Seiring dengan pencapaian ini, laju inflasi nasional juga berhasil ditekan menjadi 1,57% (YoY) pada tahun 2024. Keberhasilan ini menjadi wujud nyata sinergi pemerintah bersama Bank Indonesia dalam mengelola kebijakan moneter dan fiskal, sehingga dapat mengendalikan inflasi dari tingkat pusat sampai daerah.

Di sektor transportasi, Dewan Komisaris memandang PT KAI (Persero) sebagai Badan Usaha Milik Negara (BUMN) yang secara terus berkontribusi untuk negeri. Oleh karena itu, Dewan Komisaris mendorong PT KAI (Persero) untuk fokus pada transformasi bisnis, digital, dan operasional melalui optimalisasi kualitas pelayanan, peningkatan efisiensi, dan pengembangan teknologi serta sumber daya manusia, dengan keyakinan bahwa strategi dan pengelolaan risiko yang baik. Sehingga memungkinkan PT KAI (Persero) mampu mengatasi tantangan dan memanfaatkan peluang untuk terus tumbuh dan berkembang secara berkelanjutan.

## Penilaian Terhadap Kinerja Direksi

*Assessment of the Board of Directors' Performance*

Dalam rangka menjalankan fungsi pengawasan dan memastikan penyelenggaraan kegiatan usaha yang baik, Dewan Komisaris secara konsisten melakukan penilaian terhadap kinerja Direksi sebagai organ pengelola PT KAI (Persero). Penilaian ini dilakukan secara berkala melalui rapat gabungan Dewan Komisaris dan Direksi, dengan menggunakan parameter yang mencakup pencapaian kinerja produksi, operasional, keuangan, dan investasi perusahaan.

According to the International Monetary Fund (IMF)'s World Economic Outlook (WEO), global economic growth in 2024 reached only 3.2%. This slowdown was driven by weakened growth in advanced economies, which expanded by just 1.8% due to fiscal and monetary policy adjustments and ongoing geopolitical uncertainties. In contrast, emerging markets demonstrated stronger growth at 4.2%.

On the domestic front, Statistics Indonesia (BPS) reported national economic growth reaching 5.03%. This success was driven by growth acceleration in several industrial sectors, supported by stable domestic demand and recovering global demand. Alongside this achievement, national inflation rate was successfully controlled at 1.57% (YoY) in 2024. This success demonstrates tangible synergy between the government and Bank Indonesia in managing monetary and fiscal policies, enabling inflation control from the central to regional levels.

In the transportation sector, the Board of Commissioners recognizes PT KAI (Persero) as a State-Owned Enterprise (SOE) that continues to deliver significant national contributions. Accordingly, the Board urges PT KAI (Persero) to prioritize business, digital, and operational transformation through service quality optimization, efficiency improvements, and technological and human capital development. With robust strategies and risk management, PT KAI (Persero) is well-positioned to navigate challenges, capitalize on opportunities, and achieve sustainable growth.

In carrying out its supervisory function and ensuring sound business operations, the Board of Commissioners consistently evaluates the performance of the Board of Directors as the governing body of PT KAI (Persero). This assessment is conducted periodically through joint meetings of the Board of Commissioners and the Board of Directors, using parameters that encompass production, operational, financial, and investment performance.

Dari sisi produksi, Dewan Komisaris mencatat bahwa sepanjang tahun 2024, PT KAI (Persero) menunjukkan pertumbuhan yang positif. Volume angkutan penumpang mencapai 453,34 juta orang, atau setara 103,0% dari target RKAP 2024, serta meningkat sebesar 16,6% dibandingkan realisasi tahun 2023. Peningkatan serupa juga tercermin pada volume angkutan barang yang mencapai 69,20 juta ton atau 101,3% dari RKAP 2024, naik 8,6% dari tahun sebelumnya. Capaian ini menunjukkan efektivitas Direksi dalam mengelola layanan transportasi secara optimal dan adaptif terhadap kebutuhan pasar.

Kinerja operasional perusahaan juga menunjukkan tren perbaikan yang positif. Sejumlah indikator utama mencerminkan peningkatan efisiensi dan keandalan layanan, dengan realisasi kinerja yang umumnya berada di bawah batas toleransi yang telah ditetapkan. Hal ini menunjukkan bahwa operasional perusahaan dikelola secara lebih optimal, dengan perbaikan pada aspek ketepatan waktu, keandalan, dan efisiensi perputaran aset operasional. Capaian tersebut menjadi indikasi bahwa Direksi berhasil menjaga kualitas operasional secara konsisten dalam mendukung peningkatan kinerja perusahaan secara keseluruhan.

Bersamaan dengan kinerja produksi dan operasional yang baik, Dewan Komisaris turut mencermati kinerja keuangan PT KAI (Persero) pada tahun 2024 yang juga mengalami peningkatan dibandingkan tahun sebelumnya di tengah tantangan yang sedang dihadapi. Pendapatan perusahaan tercatat sebesar Rp35,93 triliun atau 108,3% dari RKAP 2024, meningkat 29,4% dibandingkan tahun 2023. Beban usaha mencapai Rp28,32 triliun atau 102,8% dari RKAP, naik 18,5% dari tahun sebelumnya. Laba yang diatribusikan kepada pemilik entitas induk sebesar Rp2,21 triliun atau 183,5% dari RKAP 2024, mengalami peningkatan 18,0% dibandingkan tahun lalu. Total aset perusahaan juga tumbuh menjadi Rp97,10 triliun, melampaui target RKAP dan mencatatkan kenaikan sebesar 19,3% dari posisi tahun sebelumnya. Pencapaian ini menunjukkan pengelolaan keuangan yang hati-hati dan berorientasi pada keberlanjutan.

From a production standpoint, the Board of Commissioners noted that throughout 2024, PT KAI (Persero) demonstrated positive growth. Passenger transport volume reached 453.34 million, or 103.0% of the 2024 RKAP (Work Plan and Budget) target, reflecting a 16.6% increase compared to 2023. Similarly, freight transport volume reached 69.20 million tons, achieving 101.3% of the 2024 RKAP target and marking an 8.6% year-on-year growth. These achievements demonstrate the Board of Directors' effectiveness in managing transportation services optimally and responsively to market demands.

The Company's operational performance also demonstrated a positive improvement trend. Key indicators reflected enhanced efficiency and service reliability, with most performance metrics remaining within established tolerance limits. This indicates that operations were managed more optimally, with improvements in punctuality, reliability, and operational asset turnover efficiency. Such achievements signify that the Board of Directors successfully maintained consistent operational quality in supporting overall corporate performance.

Alongside strong production and operational performance, the Board of Commissioners also observed PT KAI (Persero)'s improved financial performance in 2024 despite ongoing challenges. The Company recorded revenues of Rp35.93 trillion, or 108.3% of the 2024 RKAP, a 29.4% increase from 2023. Operating expenses reached Rp28.32 trillion, or 102.8% of the RKAP, an increase of 18.5% year-on-year. Income attributable to the parent entity amounted to Rp2.21 trillion, achieving 183.5% of the 2024 RKAP and reflecting an 18.0% increase from the previous year. Total assets also grew to Rp97.10 trillion, surpassing the RKAP target and marking a 19.3% increase from the previous year. These results demonstrate prudent and sustainability-oriented financial management.

Dalam aspek investasi, PT KAI (Persero) mencatatkan pertumbuhan nilai investasi yang positif dibandingkan tahun sebelumnya. Realisasi investasi mencapai Rp11,07 triliun, meningkat 3,5% dibandingkan tahun 2023. Capaian ini mencerminkan komitmen Direksi dalam memperkuat pembangunan infrastruktur dan mendukung pengembangan bisnis jangka panjang secara berkelanjutan, sebagai bagian dari strategi transformasi dan peningkatan daya saing perusahaan.

Dewan Komisaris juga menilai bahwa Direksi telah menjalankan prinsip kehati-hatian dalam pengelolaan keuangan dan risiko, serta menunjukkan respons yang cepat dan tepat terhadap dinamika industri. Direksi mampu merumuskan kebijakan dan strategi yang adaptif, termasuk mengintegrasikan aspek keberlanjutan dan inovasi ke dalam rencana bisnis, serta mengelola risiko yang timbul, termasuk yang berkaitan dengan penugasan pemerintah dan Proyek Strategis Nasional (PSN).

Tahun 2024 merupakan periode penting bagi PT KAI (Persero), seiring dengan dimulainya operasional penuh dua proyek strategis nasional, yaitu LRT Jabodebek dan Kereta Cepat Jakarta-Bandung (KCJB) atau Whoosh, yang sebelumnya telah diresmikan pada tahun 2023. LRT Jabodebek menjadi transportasi urban pertama di Indonesia yang menggunakan teknologi CBTC dengan sistem operasi GoA 3 (driverless), yang diresmikan oleh Presiden Republik Indonesia pada 28 Agustus 2023. Sementara itu, PT KAI (Persero) juga ditunjuk oleh Pemerintah sebagai pimpinan konsorsium BUMN dalam mempercepat penyelesaian proyek KCJB, yang merupakan proyek kereta cepat pertama di Indonesia dan Asia Tenggara, diresmikan pengoperasiannya pada 2 Oktober 2023. Keberhasilan ini menjadi pencapaian strategis yang tidak hanya memperkuat peran PT KAI (Persero) dalam ekosistem transportasi nasional, namun juga memperkuat posisi Indonesia di tingkat regional dalam bidang infrastruktur perkeretaapian.

Atas dasar keseluruhan capaian tersebut, Dewan Komisaris memberikan apresiasi atas kinerja Direksi dalam mengelola PT KAI (Persero) sepanjang tahun 2024. Direksi dinilai telah menjalankan tugasnya secara profesional, berintegritas, dan berorientasi pada hasil yang berkelanjutan. Kendati demikian, Dewan Komisaris memandang bahwa capaian tersebut perlu terus diiringi dengan upaya perbaikan dan

In terms of investment, PT KAI (Persero) recorded positive growth in investment value compared to the previous year. Investment realization reached Rp11.07 trillion, a 3.5% increase from 2023. This reflects the Board of Directors' commitment to strengthening infrastructure development and supporting sustainable long-term business growth as part of the Company's transformation and competitiveness enhancement strategy.

The Board of Commissioners also assessed that the Board of Directors exercised prudence in financial and risk management while demonstrating swift and appropriate responses to industry dynamics. The Board of Directors successfully formulated adaptive policies and strategies, integrating sustainability and innovation into business plans, and effectively managing risks, including those related to government assignments and National Strategic Projects (PSN).

2024 was a pivotal year for PT KAI (Persero), marked by the full operational launch of two national strategic projects: the Jabodebek LRT and the Jakarta-Bandung High-Speed Railway (KCJB) or "Whoosh," which were inaugurated in 2023. The Jabodebek LRT became Indonesia's first urban transport system to utilize CBTC technology with GoA 3 (driverless) operation, officially launched by the President of the Republic of Indonesia on August 28, 2023. Meanwhile, PT KAI (Persero) was appointed by the Government as the leader of a state-owned enterprise (SOE) consortium to accelerate the completion of the KCJB project, Indonesia's and Southeast Asia's first high-speed railway, which commenced operations on October 2, 2023. These successes represent strategic milestones that not only reinforce PT KAI (Persero)'s role in the national transportation ecosystem but also strengthen Indonesia's regional standing in railway infrastructure.

Based on these comprehensive achievements, the Board of Commissioners commends the Board of Directors for their management of PT KAI (Persero) throughout 2024. The Board of Directors is deemed to have executed its duties professionally, with integrity, and a focus on sustainable results. Nevertheless, the Board of Commissioners emphasizes that these accomplishments must be accompanied by continuous

penyempurnaan secara berkelanjutan guna mengantisipasi berbagai tantangan dan risiko ke depan, serta menjaga kesinambungan pertumbuhan kinerja PT KAI (Persero). Dewan Komisaris berharap Direksi senantiasa melanjutkan langkah-langkah strategis dan inovatif untuk mendorong peningkatan pendapatan, mutu layanan, keselamatan, serta daya saing perusahaan, demi mewujudkan pertumbuhan yang berkelanjutan dan memberikan nilai tambah bagi pemegang saham serta seluruh pemangku kepentingan.

## Kendala yang Dihadapi oleh Dewan Komisaris

*Challenges Faced by the Board of Commissioners*

Operasional yang dijalankan di sepanjang tahun 2024 tak luput dari kendala dan tantangan. Dewan Komisaris mencermati di tahun 2024, kendala yang dihadapi meliputi keterbatasan akses informasi yang lengkap dan *real-time* terkait operasional perusahaan, kompleksitas pengelolaan PSN yang melibatkan berbagai pemangku kepentingan, serta dinamika perubahan regulasi yang membutuhkan penyesuaian cepat dalam tata kelola perusahaan. Selain itu, tantangan komunikasi dan koordinasi dengan Direksi dan organ pendukung lainnya juga sewaktu-waktu menjadi hambatan dalam memastikan pengawasan yang optimal.

Sebagai bentuk respons terhadap tantangan tersebut, Dewan Komisaris melakukan sejumlah langkah strategis. Dewan Komisaris meningkatkan intensitas komunikasi dengan Direksi melalui penyelenggaraan rapat rutin dan pembahasan agenda strategis secara berkala. Selain itu, penguatan fungsi komite-komite di bawah Dewan Komisaris dilakukan dengan memperluas cakupan telaahan dan memperdalam substansi rekomendasi. Dewan Komisaris juga mendorong implementasi sistem pelaporan yang terintegrasi dan transparan. Upaya ini dilakukan untuk meningkatkan komunikasi dan menjalin hubungan baik kepada setiap organ.

Lebih lanjut, Dewan Komisaris juga terus berupaya memperkuat kapasitas internalnya melalui partisipasi aktif dalam pelatihan, seminar, dan program pengembangan kompetensi yang relevan. Langkah ini penting untuk menjaga dan meningkatkan kapabilitas pengawasan, serta memperkuat kemampuan adaptasi terhadap perubahan regulasi, tren industri, dan tantangan global yang dinamis.

improvement efforts to anticipate future challenges and risks, ensuring the sustainability of PT KAI (Persero)'s performance growth. The Board of Commissioners expects the Board of Directors to persist in implementing strategic and innovative measures to enhance revenue, service quality, safety, and corporate competitiveness, thereby achieving sustainable growth and delivering added value to shareholders and all stakeholders.

The operations carried out throughout 2024 were not without obstacles and challenges. The Board of Commissioners observed that the challenges faced in 2024 included limited access to comprehensive and real-time information regarding company operations, the complexity of managing National Strategic Projects (PSN) involving multiple stakeholders, and the dynamic changes in regulations requiring swift adjustments in corporate governance. Additionally, communication and coordination challenges with the Board of Directors and other supporting organs occasionally hindered optimal oversight.

In response to these challenges, the Board of Commissioners implemented several strategic measures. The Board increased the frequency of communication with the Board of Directors through regular meetings and periodic discussions on strategic agendas. Furthermore, the Board of Commissioners strengthened the functions of its committees by expanding the scope of reviews and deepening the substance of recommendations. The Board of Commissioners also encouraged the implementation of an integrated and transparent reporting system. These efforts were undertaken to enhance communication and foster strong relationships with each corporate organ.

Moreover, the Board of Commissioners continued to strengthen its internal capacity through active participation in relevant training programs, seminars, and competency development initiatives. This step was essential to maintaining and enhancing oversight capabilities while reinforcing adaptability to regulatory changes, industry trends, and dynamic global challenges.

Dengan strategi tersebut, Dewan Komisaris menilai bahwa tantangan yang dihadapi sepanjang tahun 2024 telah berhasil dikelola dengan baik. Berbagai kendala tersebut menjadi bahan evaluasi yang konstruktif dan mendorong lahirnya langkah-langkah improvisasi untuk perbaikan berkelanjutan.

Keberhasilan Dewan Komisaris dalam mengelola tantangan ini telah memperkuat peran dan fungsi pengawasan sebagai organ perusahaan yang solid, adaptif, dan responsif. Hal ini berkontribusi langsung terhadap terciptanya sistem pengawasan yang lebih efektif, efisien, dan bernilai tambah dalam mendukung keberhasilan perusahaan mencapai tujuan strategisnya.

Through these strategies, the Board of Commissioners assessed that the challenges faced throughout 2024 had been effectively managed. These obstacles served as constructive evaluation material, driving improvised measures for continuous improvement.

The Board of Commissioners' success in addressing these challenges has reinforced its role and oversight function as a solid, adaptive, and responsive corporate organ. This has directly contributed to establishing a more effective, efficient, and value-added oversight system, supporting the Company's achievement of its strategic objectives.

## Pengawasan Dewan Komisaris Dalam Perumusan dan Implementasi Strategi yang dilakukan oleh Direksi, serta Mekanisme Pemberian Nasihat

*Board of Commissioners' Supervision in Strategy Formulation and Implementation by the Board of Directors, and Advisory Mechanisms*

Sepanjang tahun 2024, Dewan Komisaris telah melaksanakan fungsi pengawasan secara optimal, disertai pemberian nasihat dan masukan konstruktif kepada Direksi. Pemberian nasihat tersebut dimaksudkan untuk menjaga kesinambungan pertumbuhan usaha serta menjadi arahan strategis bagi Direksi dalam meningkatkan efektivitas pelaksanaan tugas dan tanggung jawabnya.

Dalam pelaksanaannya, Dewan Komisaris memiliki mekanisme yang memadai untuk memberikan nasihat kepada Direksi, antara lain melalui rapat koordinasi rutin antara Dewan Komisaris dan Direksi, yakni dalam bentuk Rapat Gabungan Dewan Komisaris dan Direksi (*BOD-BOC Meeting*); penyampaian surat resmi dari Dewan Komisaris kepada Direksi terkait pelaksanaan strategi atau isu-isu tertentu; serta melalui laporan/rekomendasi dari komite-komite di bawah Dewan Komisaris yang dibahas dalam rapat Dewan Komisaris sebelum diteruskan kepada Direksi.

Sepanjang tahun 2024, Dewan Komisaris telah memberikan nasihat kepada Direksi dalam Rapat Gabungan Dewan Komisaris dan Direksi sebanyak 15 kali, penyampaian surat resmi sebanyak 33 surat, dan laporan/rekomendasi dari komite-komite di bawah Dewan Komisaris yang dibahas dalam rapat Dewan Komisaris sebanyak 16 kali, mencakup berbagai aspek strategis perusahaan seperti penguatan transformasi bisnis, efisiensi operasional, optimalisasi Anak Perusahaan, serta percepatan PSN yang dijalankan oleh PT KAI (Persero).

Throughout 2024, the Board of Commissioners performed its oversight function optimally while providing constructive advice and input to the Board of Directors. Such advisory guidance was intended to ensure business growth continuity and serve as strategic direction for the Board of Directors in enhancing the effectiveness of their duties and responsibilities.

In carrying out this function, the Board of Commissioners established adequate mechanisms for advising the Board of Directors, including regular coordination meetings between the Board of Commissioners and the Board of Directors in the form of Joint Meetings of the Board of Commissioners and Board of Directors; the submission of formal letters from the Board of Commissioners to the Board of Directors regarding strategy implementation or specific issues; as well as reports and recommendations from the Board's committees, which were discussed in Board of Commissioners meetings before being forwarded to the Board of Directors.

Throughout 2024, the Board of Commissioners provided advisory input to the Board of Directors through 15 Joint Meetings of the Board of Commissioners and Board of Directors, 33 formal letters, and 16 committee reports and recommendations reviewed in Board meetings. These covered various strategic aspects of the Company, including strengthening business transformation, operational efficiency, subsidiary optimization, and the acceleration of National Strategic Projects (PSN) undertaken by PT KAI (Persero).

Sebagai bagian dari pelaksanaan tugas pengawasan dan pemberian nasihat, Dewan Komisaris turut menyampaikan sejumlah saran dan arahan atas pelaksanaan kinerja Direksi selama tahun 2024, antara lain:

1. Mendorong agar pengembangan bisnis dilakukan secara selaras dengan visi, misi, RJP dan RKAP, sehingga Perusahaan tetap adaptif dan tangguh dalam menghadapi dinamika lingkungan bisnis, baik nasional maupun global;

19. Menindaklanjuti secara tuntas temuan-temuan auditor eksternal tahun 2024 dan tahun-tahun sebelumnya baik di PT KAI (Persero) maupun di anak-anak perusahaan, serta mencegah pengulangan temuan serupa melalui penegakan disiplin dan perbaikan proses; dan
20. Memastikan pelaksanaan prinsip-prinsip tata kelola perusahaan yang baik (GCG) berjalan tertib dan berkelanjutan di seluruh lini organisasi, sesuai Peraturan Menteri BUMN No. PER-02/MBU/03/2023 tentang Pedoman Tata Kelola dan Kegiatan Korporasi Signifikan Badan Usaha Milik Negara.
14. Enhancing the implementation of SMARTKA, *Enterprise Risk Management* (ERM), and internal control effectiveness through periodic testing;
15. Ensuring thorough follow-up on internal and external audit findings, including *Internal Control over Financial Reporting* (ICoFR) implementation;
16. Aligning organizational restructuring with human capital development and sound governance principles;
17. Implementing *employee well-being* programs, *merit systems*, and capacity-building initiatives to strengthen performance and corporate culture;
18. Adopting the SOE Human Capital Architecture policy per Minister of SOEs Decree No. SK-286/MBU/11/2024 dated November 28, 2024 across the Group's human resource management;
19. Resolving all 2024 and prior-year external audit findings at PT KAI (Persero) and subsidiaries, preventing recurrence through process improvements and disciplinary enforcement; and
20. Ensuring consistent and sustainable implementation of Good Corporate Governance (GCG) principles across all organizational levels, in compliance with Minister of SOEs Regulation No. PER-02/MBU/03/2023 on Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises.

## Pandangan atas Prospek Usaha Perseroan yang Disusun oleh Direksi

*Outlook on the Company's Business Prospects Prepared by the Board Of Directors*

Keberhasilan Direksi dalam menjalankan tugas di tahun 2024 telah sesuai dengan langkah dan kebijakan strategis yang telah disusun dan ditetapkan. Lebih lanjut, untuk tahun mendatang PT KAI (Persero) telah menyusun dan menetapkan rencana kerja jangka panjang untuk tahun 2025-2029. Penyusunan ini telah disesuaikan dengan kondisi perseroan dan perekonomian global saat ini dan perkiraan di masa mendatang.

The Board of Directors' successful execution of duties in 2024 has aligned with the established strategic steps and policies. Furthermore, for the coming years, PT KAI (Persero) has prepared and established a long-term work plan for 2025-2029. This planning has been adjusted to accommodate both the Company's current condition and the global economic situation, including future projections.

Berdasarkan data Bank Dunia, memperkirakan pertumbuhan ekonomi Indonesia dapat mencapai 5,1% di tahun 2025. Hal ini membuka potensi keuangan Indonesia tetap stabil di tengah volatilitas ekonomi global yang masih terus dipengaruhi oleh geopolitik. Proyeksi ini juga didorong oleh kebijakan pemerintahan yang baru dalam mewujudkan hilirisasi industri dan Proyek Strategis Nasional (PSN) yang optimal. Selain itu, penerapan digitalisasi secara menyeluruh dan investasi di sektor-sektor strategis juga menjadi faktor pendorong lainnya yang membawa pertumbuhan ekonomi domestik di tahun mendatang.

Dalam cakupan sektor bisnis Perusahaan, Dewan Komisaris memandang prospek industri transportasi kereta api di tahun 2025 cukup menjanjikan dengan berbagai peluang dan tantangan yang harus diantisipasi secara strategis. Pertumbuhan ekonomi yang membaik serta dukungan pemerintah terhadap pengembangan infrastruktur transportasi nasional menjadi faktor pendorong utama meningkatnya permintaan layanan kereta api. Lebih lanjut, tren digitalisasi dan inovasi teknologi membuka peluang bagi PT KAI (Persero) untuk meningkatkan efisiensi operasional dan kualitas layanan, sekaligus memperluas produk dan pasar.

Di tengah peluang yang menjanjikan tersebut, Dewan Komisaris juga memahami bahwa PT KAI (Persero) sedang menghadapi tantangan yang signifikan, khususnya terkait penugasan pemerintah atau pelaksanaan PSN yang memerlukan investasi besar dengan dampak finansial yang cukup berat bagi Perusahaan. Penugasan ini berpotensi menekan likuiditas dan profitabilitas, sehingga perlu dikelola dengan hati-hati agar tidak mengganggu kesehatan keuangan Perusahaan secara keseluruhan. Oleh karena itu, Dewan Komisaris mendorong Direksi untuk memperkuat strategi adaptasi dan inovasi, meningkatkan sinergi antar Anak Perusahaan, serta fokus pada keberlanjutan dan keselamatan sebagai keunggulan kompetitif, sekaligus memastikan pengelolaan risiko keuangan yang *prudent* dalam menghadapi dinamika industri dan tuntutan penugasan di tahun 2025.

According to World Bank data, Indonesia's economic growth is projected to reach 5.1% in 2025. This indicates potential for Indonesia's financial stability amidst ongoing global economic volatility still influenced by geopolitical factors. This projection is further supported by the new government's policies in realizing industrial downstreaming and optimizing National Strategic Projects (PSN). Additionally, comprehensive digitalization implementation and investments in strategic sectors serve as other driving factors that will propel domestic economic growth in the coming year.

Within the scope of the Company's business sector, the Board of Commissioners views that the railway transportation industry prospects for 2025 appear quite promising, with various opportunities and challenges that must be strategically anticipated. Improving economic growth coupled with government support for national transportation infrastructure development serves as the main driving factor for increasing railway service demand. Moreover, digitalization trends and technological innovations present opportunities for PT KAI (Persero) to enhance operational efficiency and service quality while expanding products and markets.

Amid these promising opportunities, the Board of Commissioners also recognizes that PT KAI (Persero) faces significant challenges, particularly regarding government assignments or implementation of National Strategic Projects (PSN) that require substantial investments with considerable financial impact on the Company. These assignments may potentially pressure liquidity and profitability, thus requiring careful management to avoid compromising the Company's overall financial health. Therefore, the Board of Commissioners encourages the Board of Directors to strengthen adaptation and innovation strategies, enhance synergies among subsidiaries, and focus on sustainability and safety as competitive advantages, while ensuring prudent financial risk management in facing industry dynamics and assignment demands in 2025.

Dewan Komisaris menargetkan agar PT KAI (Persero) dapat terus memperkuat posisi sebagai penyedia layanan transportasi kereta api yang andal, efisien, dan berkelanjutan pada tahun 2025. Dewan Komisaris berharap PT KAI (Persero) mampu meningkatkan pertumbuhan pendapatan yang sehat melalui ekspansi layanan, inovasi produk, dan optimalisasi operasional, sekaligus menjaga profitabilitas di tengah tantangan industri dan penugasan pemerintah yang kompleks. Dewan Komisaris juga menginginkan PT KAI (Persero) untuk semakin memantapkan tata kelola perusahaan yang baik, meningkatkan kapabilitas sumber daya manusia, serta mengedepankan aspek keselamatan dan kualitas layanan sebagai prioritas utama.

Dalam menghadapi peluang dan tantangan bisnis yang tersedia di tahun yang akan datang, Dewan Komisaris meyakini bahwa Direksi telah melakukan analisis mendalam terhadap prospek bisnis yang sejalan dengan sektor bisnis Perusahaan. Dewan Komisaris melihat bahwa rencana strategis yang disusun oleh Direksi untuk tahun mendatang telah sejalan dengan Visi, Misi, dan RJPP.

Dewan Komisaris berharap PT KAI (Persero) mampu memanfaatkan peluang digitalisasi dan transformasi teknologi untuk meningkatkan daya saing dan responsivitas terhadap kebutuhan pelanggan. Secara keseluruhan, Dewan Komisaris berkeinginan agar PT KAI (Persero) tidak hanya tumbuh secara bisnis, tetapi juga dapat berkontribusi positif bagi pembangunan nasional dan keberlanjutan lingkungan, sehingga menjadi BUMN yang unggul dan terpercaya di tahun 2025.

The Board of Commissioners targets for PT KAI (Persero) to continue strengthening its position as a reliable, efficient, and sustainable railway service provider in 2025. The Board hopes PT KAI (Persero) can achieve healthy revenue growth through service expansion, product innovation, and operational optimization, while maintaining profitability amidst complex industry challenges and government assignments. The Board also expects PT KAI (Persero) to further solidify good corporate governance, improve human resource capabilities, and prioritize safety aspects and service quality as main priorities.

In facing the business opportunities and challenges ahead, the Board of Commissioners believes that the Board of Directors has conducted thorough analysis of business prospects aligned with the Company's business sector. The Board observes that the strategic plans prepared by the Board of Directors for the coming year are consistent with the Company's Vision, Mission, and Long-Term Development Plan (RJPP).

The Board of Commissioners hopes PT KAI (Persero) can leverage digitalization and technological transformation opportunities to enhance competitiveness and responsiveness to customer needs. Overall, the Board aspires for PT KAI (Persero) to not only grow business-wise but also contribute positively to national development and environmental sustainability, thus becoming an excellent and trusted State-Owned Enterprise (SOE) in 2025.

## Pandangan atas Penerapan Tata Kelola Perusahaan yang Baik

*Assessment on the Implementation of Good Corporate Governance*

Di sepanjang tahun 2024, Dewan Komisaris menilai bahwa penerapan tata kelola perusahaan di PT KAI (Persero) telah berjalan dengan baik. Hal ini ditunjukkan dengan adanya perbaikan dan penguatan yang signifikan, khususnya dalam hal transparansi, akuntabilitas, dan pengelolaan risiko. Peningkatan tersebut tercermin dari peningkatan kualitas pelaporan manajemen, kepatuhan terhadap peraturan perundang-undangan, serta penguatan fungsi audit internal dan manajemen risiko.

Throughout 2024, the Board of Commissioners assessed that the implementation of corporate governance at PT KAI (Persero) has been carried out effectively. This is demonstrated by significant improvements and enhancements, particularly in transparency, accountability, and risk management. These improvements are reflected in the enhanced quality of management reporting, compliance with laws and regulations, as well as the strengthening of internal audit and risk management functions.

Dewan Komisaris juga mencatat adanya peningkatan koordinasi antara Direksi dan Dewan Komisaris, termasuk melalui komite-komite pendukung Dewan Komisaris yang telah menjalankan perannya secara lebih aktif dalam memberikan telaahan dan rekomendasi yang relevan terhadap berbagai isu strategis perusahaan.

Keberhasilan-keberhasilan tersebut tidak terlepas dari peran Dewan Komisaris yang berupaya untuk meningkatkan penerapan Tata Kelola Perusahaan yang Baik (GCG) melalui sejumlah *improvement* strategis sepanjang tahun 2024 di antaranya:

1. Dewan Komisaris memperkuat peran komite-komite di bawahnya, yaitu Komite Audit, Komite Pemantau Manajemen Risiko, serta Komite Nominasi dan Remunerasi, dengan meningkatkan intensitas rapat, kualitas telaahan, dan tindak lanjut atas hasil pengawasan.
2. Dewan Komisaris beserta komite-komite di bawahnya melakukan peningkatan kapabilitas melalui pelatihan dan *workshop* terkait isu-isu terkini GCG, manajemen risiko, dan keberlanjutan (*sustainability*).
3. Dewan Komisaris juga meningkatkan komunikasi dan koordinasi strategis dengan Direksi melalui rapat gabungan yang lebih terstruktur dan berbasis agenda strategis, sehingga pengawasan dan penasihat dapat lebih tepat sasaran dan bernilai tambah.
4. Sebagai bagian dari upaya perbaikan berkelanjutan, Dewan Komisaris juga melakukan peningkatan dalam aspek tata kelola administratif, khususnya dengan menjaga keteraturan tata persuratan serta dokumentasi risalah rapat dan rekomendasi, sehingga seluruh proses pengawasan terdokumentasi secara baik dan dapat dipertanggungjawabkan.
5. Dewan Komisaris melakukan pengawasan terhadap efektivitas pengelolaan *Whistle Blowing System* (WBS) PT KAI (Persero), termasuk mendorong peningkatan aksesibilitas, perlindungan terhadap pelapor, serta efektivitas tindak lanjut atas pengaduan yang masuk, guna mendukung budaya integritas dan pencegahan pelanggaran di lingkungan perusahaan.

The Board of Commissioners also noted improved coordination between the Board of Directors and the Board of Commissioners, including through the supporting committees of the Board of Commissioners which have played a more active role in providing relevant reviews and recommendations on the Company's strategic issues.

These achievements are inseparable from the role of the Board of Commissioners in striving to improve the implementation of Good Corporate Governance (GCG) through several strategic improvements during 2024, including:

1. The Board of Commissioners strengthened the role of its committees - the Audit Committee, Risk Management Monitoring Committee, and Nomination and Remuneration Committee - by increasing meeting frequency, improving review quality, and enhancing follow-up on supervision results.
2. The Board of Commissioners and its committees enhanced capabilities through training and workshops on current issues of GCG, risk management, and sustainability.
3. The Board of Commissioners improved strategic communication and coordination with the Board of Directors through more structured joint meetings with strategic agendas, enabling more targeted and value-added supervision and advisory.
4. As part of continuous improvement efforts, the Board of Commissioners also enhanced administrative governance aspects, particularly by maintaining proper correspondence procedures and documentation of meeting minutes and recommendations, ensuring all supervision processes are well-documented and accountable.
5. The Board of Commissioners oversees the effectiveness of the management of the Whistle Blowing System (WBS) of PT KAI (Persero), including encouraging increased accessibility, protection for whistleblowers, and the effectiveness of follow-up on complaints received, in order to support a culture of integrity and prevention of violations in the company environment.

Secara umum, Dewan Komisaris juga menilai tingkat efisiensi dan efektivitas sistem tata kelola perusahaan berada pada level yang cukup baik dan menunjukkan tren positif. Sistem tata kelola telah mampu mendukung pengambilan keputusan yang lebih akuntabel dan terukur, serta memperkuat koordinasi antara Direksi, Dewan Komisaris, dan seluruh organ pendukungnya. Hal ini juga tercermin dari meningkatnya digitalisasi proses kerja, penguatan pengendalian internal, serta pengurangan potensi duplikasi fungsi dan prosedur di berbagai lini.

Dewan Komisaris juga melihat bahwa komunikasi yang semakin terbuka dan sistem dokumentasi yang tertata baik telah memungkinkan pengawasan dan pemberian nasihat ditindaklanjuti dengan lebih cepat dan tepat. Di tahun mendatang, Dewan Komisaris mendorong agar sistem tata kelola perusahaan terus diperkuat melalui integrasi antar unit kerja, optimalisasi pemanfaatan teknologi informasi, serta pengembangan budaya kepatuhan dan integritas di seluruh lini perusahaan.

In general, the Board of Commissioners assessed that the efficiency and effectiveness of the corporate governance system remained at a satisfactory level and demonstrated positive trends. The governance system has effectively supported more accountable and measurable decision-making processes while strengthening coordination between the Board of Directors, Board of Commissioners, and all supporting organs. This progress is reflected in the increased digitalization of work processes, enhanced internal controls, and reduced potential for functional and procedural duplication across various business lines.

The Board of Commissioners also observed that more transparent communication and well-structured documentation systems have enabled faster and more precise follow-up on oversight activities and advisory recommendations. Looking ahead, the Board of Commissioners encourages continuous strengthening of the corporate governance system through improved inter-departmental integration, optimized utilization of information technology, and the development of a culture of compliance and integrity across all organizational levels of the Company.

## Pandangan atas Penerapan Sistem Pelaporan Pelanggaran

### *Assessment on the Whistleblowing System Implementation*

Dewan Komisaris secara aktif mengawasi pelaksanaan Sistem Pelaporan Pelanggaran (*Whistle Blowing System*) yang bertujuan untuk mendeteksi kecurangan ataupun pelanggaran internal. Pengawasan ini dilakukan dalam rangka mewujudkan komitmen Perusahaan untuk mendukung Pemerintah melakukan pemberantasan tindak pidana korupsi, serta mengantisipasi tindakan-tindakan yang dapat merugikan Perusahaan, baik secara material maupun non-material.

Sepanjang tahun 2024, terdapat beberapa pengaduan yang diterima terkait pelaksanaan operasional KAI. Namun demikian, pengaduan-pengaduan tersebut umumnya bersifat non-material dan tidak berdampak signifikan terhadap kelangsungan usaha. Perusahaan telah memiliki mekanisme penanganan pengaduan yang terstruktur melalui *Whistle Blowing System* dan layanan pelanggan, yang memungkinkan pelaporan dilakukan secara terbuka. Setiap pengaduan yang masuk kemudian ditindaklanjuti oleh unit terkait sesuai prosedur yang berlaku.

The Board of Commissioners actively oversees the implementation of the Whistleblowing System, which aims to detect fraud or internal violations. This supervision supports the Company's commitment to assisting the Government in eradicating corruption and preventing actions that may harm the Company, both materially and non-materially.

Throughout 2024, several operational complaints were received regarding KAI's operations. However, these complaints were generally non-material and did not significantly impact business continuity. The Company has established a structured complaint-handling mechanism through the Whistleblowing System and customer service, enabling open reporting. Each complaint is addressed by the relevant unit according to applicable procedures.

Dewan Komisaris memantau penanganan pengaduan tersebut melalui laporan berkala dari Direksi serta hasil evaluasi dari Komite Audit, guna memastikan bahwa setiap isu ditangani secara profesional, adil, dan transparan, serta menjadi bahan perbaikan berkelanjutan dalam sistem tata kelola perusahaan.

The Board of Commissioners monitors complaint resolution through periodic reports from the Board of Directors and evaluation results from the Audit Committee. This ensures all issues are handled professionally, fairly, and transparently, while serving as material for continuous improvement in the corporate governance system.

Dalam implementasinya, Dewan Komisaris menilai di tahun 2024 sistem pelaporan pelanggaran yang diimplementasikan telah berfungsi dengan baik. Hal ini tercermin dari terdapatnya sejumlah pengaduan yang diterima dan berhasil ditindaklanjuti. PT KAI (Persero) berkomitmen dalam memberikan perlindungan bagi pelapor juga memberikan dampak signifikan terhadap penerapan sistem, sehingga tujuan Perusahaan untuk melaksanakan praktik bisnis yang transparan dan bertanggung jawab dapat terwujud.

In practice, the Board of Commissioners assesses that the Whistleblowing System implemented in 2024 has functioned effectively. This is evidenced by the number of complaints received and successfully resolved. PT KAI (Persero)'s commitment to protecting whistleblowers has also significantly contributed to the system's implementation, helping the Company achieve its goal of transparent and responsible business practices.

## Penilaian Kinerja Dewan Komisaris Tahun 2024

### *Assessment on Board of Commissioners Performance in 2024*

Pada tahun 2024, Dewan Komisaris memperoleh hasil penilaian kinerja dengan tingkat realisasi sebesar 100% pada seluruh aspek *Key Performance Indicators* (KPI) yang telah ditetapkan dalam RUPS Tahunan Pengesahan RKAP Tahun 2024. Dengan pencapaian tersebut, kinerja Dewan Komisaris dikategorikan dalam predikat **"Sangat Baik"**. Capaian ini mencerminkan dedikasi, komitmen, dan konsistensi Dewan Komisaris dalam menjalankan perannya secara optimal sebagai organ pengawas perusahaan, sekaligus menunjukkan efektivitas pelaksanaan fungsi pengawasan dan pemberian nasihat dalam mendukung pencapaian tujuan strategis perusahaan.

In 2024, the Board of Commissioners achieved a 100% realization rate across all Key Performance Indicators (KPIs) established in the Annual General Meeting of Shareholders for the 2024 Work Plan and Budget (RKAP) approval. This outstanding performance earned the Board of Commissioners the **"Excellent"** performance rating. These results demonstrate the Board's dedication, commitment, and consistency in optimally fulfilling its role as the Company's supervisory body, while also reflecting the effectiveness of its oversight and advisory functions in supporting the achievement of corporate strategic objectives.

Penilaian kinerja Dewan Komisaris didasarkan pada tiga aspek utama. Pertama, aspek pengawasan dan penasihat, yang mencakup antara lain pelaksanaan reviu dan analisis terhadap berbagai komponen kinerja perusahaan, seperti penelaahan terhadap dokumen RJP dan RKAP, evaluasi atas pelaksanaan RKAP tahun sebelumnya, pemantauan kinerja Direksi, tanggapan terhadap perubahan lingkungan bisnis, tindak lanjut atas saran dan keluhan pemangku kepentingan, serta penilaian atas gejala penurunan kinerja perusahaan dan usulan calon pengurus anak perusahaan. Dalam aspek ini, Dewan Komisaris juga melaksanakan pengawasan dan pemberian

The performance evaluation of the Board of Commissioners was based on three main aspects. First, the oversight and advisory aspect, which included conducting reviews and analyses of various corporate performance components such as examining the Long-Term Plan (RJP) and Work Plan & Budget (RKAP) documents, evaluating the implementation of the previous year's RKAP, monitoring the Board of Directors' performance, responding to business environment changes, following up on stakeholder suggestions and complaints, and assessing signs of corporate performance decline as well as proposing candidates for subsidiary management. In this

nasihat atas sejumlah kebijakan strategis perusahaan, mulai dari kebijakan satuan pengawas internal, manajemen risiko, teknologi informasi, akuntansi dan laporan keuangan, pengelolaan SDM, pengadaan barang dan jasa, mutu dan pelayanan, hingga kepatuhan terhadap regulasi, pengelolaan anak perusahaan, serta penerapan prinsip-prinsip tata kelola perusahaan. Selain itu, pemantauan terhadap tindak lanjut temuan audit juga dilakukan secara aktif melalui proses penunjukan auditor serta pengawasan terhadap efektivitas pelaksanaan audit internal dan eksternal serta pengelolaan pengaduan. Kinerja pengawasan Dewan Komisaris juga terlihat melalui pelaksanaan monitoring terhadap penugasan *Project Director* dan proyek pengembangan investasi, serta penyelenggaraan rapat internal dan rapat gabungan dengan Direksi, yang realisasinya melampaui target.

Kedua, aspek pelaporan, yang meliputi penyampaian Rencana Kerja dan Anggaran Dewan Komisaris Tahun 2025 yang telah dilakukan tepat waktu sesuai target. Dewan Komisaris juga telah menyampaikan laporan dan pendapat kepada RUPS terkait kinerja dan remunerasi Direksi dengan realisasi sebesar 150% dari target. Selain itu, laporan atas kinerja manajemen tahun buku 2023 (*audited*) juga telah disampaikan sesuai ketentuan.

Ketiga, aspek dinamis atau aspek lain-lain, yang mencakup peningkatan kompetensi Dewan Komisaris dan organ pendukungnya melalui pelatihan, seminar, dan *benchmarking* sebanyak lima kali sesuai target. Dewan Komisaris juga mencatatkan capaian 100% dalam memberikan tanggapan atau rekomendasi terhadap seluruh usulan yang disampaikan oleh Direksi sepanjang tahun.

Pencapaian ini tidak hanya menggambarkan efektivitas pelaksanaan tugas dan fungsi pengawasan, namun juga menunjukkan bahwa Dewan Komisaris telah berperan aktif dalam mendorong penguatan tata kelola, pengendalian internal, dan akuntabilitas di seluruh lini perusahaan. Meskipun hasil kinerja ini telah menunjukkan capaian maksimal, Dewan Komisaris menyadari bahwa tantangan dan dinamika bisnis di masa mendatang akan semakin kompleks. Oleh karena itu, hasil penilaian ini harus menjadi motivasi untuk terus melakukan perbaikan dan peningkatan kinerja secara berkelanjutan, guna memastikan bahwa

aspect, the Board of Commissioners also exercised oversight and provided advice on several strategic corporate policies, ranging from internal audit unit policies, risk management, information technology, accounting and financial reporting, human resource management, procurement of goods and services, quality and service, to regulatory compliance, subsidiary management, and the implementation of good corporate governance principles. Additionally, active monitoring of audit findings follow-up was conducted through the auditor appointment process and supervision of internal and external audit effectiveness as well as complaint management. The Board's oversight performance was also evident through its monitoring of Project Director assignments and investment development projects, along with conducting internal meetings and joint meetings with the Board of Directors, all of which exceeded set targets.

Second, the reporting aspect, which included the timely submission of the 2025 Board of Commissioners' Work Plan and Budget, completed on schedule as targeted. The Board of Commissioners also submitted reports and opinions to the GMS regarding the performance and remuneration of the Board of Directors, achieving 150% of the target. Furthermore, the audited management performance report for 2023 fiscal year was submitted in accordance with regulations.

Third, the dynamic or miscellaneous aspect, which covered competency enhancement of the Board of Commissioners and its supporting organs through five training sessions, seminars, and benchmarking activities as targeted. The Board of Commissioners also achieved 100% in providing responses or recommendations to all proposals submitted by the Board of Directors throughout the year.

These achievements not only demonstrate the effective execution of oversight duties and functions but also show that the Board of Commissioners has played an active role in promoting governance strengthening, internal controls, and accountability across all company levels. While these performance results represent maximum achievement, the Board of Commissioners recognizes that future business challenges and dynamics will become increasingly complex. Therefore, these evaluation results should serve as motivation for continuous improvement and sustainable performance enhancement, ensuring that the oversight and advisory

fungsi pengawasan dan pemberian nasihat tidak hanya adaptif terhadap perubahan, tetapi juga mampu memberikan kontribusi strategis yang semakin relevan dan bernilai tambah bagi perusahaan. Dengan capaian kinerja yang sangat baik ini, hasil penilaian Dewan Komisaris dapat menjadi dasar pertimbangan bagi pemegang saham dalam menentukan arah kebijakan pengelolaan organ pengawas ke depan, serta sebagai bukti nyata kontribusi Dewan Komisaris terhadap pencapaian kinerja perusahaan secara keseluruhan.

functions remain adaptive to changes while providing increasingly relevant and value-added strategic contributions to the company. With this excellent performance achievement, the Board of Commissioners' evaluation results can serve as a consideration basis for shareholders in determining future supervisory organ management policies, as well as tangible evidence of the Board of Commissioners' contribution to the company's overall performance achievements.

## Penilaian Kinerja Komite-Komite di Bawah Dewan Komisaris

*Assessment on Performance of Committees Under the Board of Commissioners*

Untuk mendukung efektivitas pelaksanaan fungsi pengawasan, Dewan Komisaris memiliki Komite pendukung meliputi Komite Audit, Komite Nominasi dan Remunerasi, serta Komite Pemantau Manajemen Risiko.

To support the effectiveness of supervisory functions, the Board of Commissioners has supporting committees consisting of the Audit Committee, Nomination and Remuneration Committee, and Risk Management Monitoring Committee.

Di tahun 2024, Komite-komite tersebut telah menjalankan tugas dan fungsinya secara efektif, serta memberikan kontribusi yang signifikan dalam memperkuat fungsi pengawasan dan pemberian nasihat Dewan Komisaris. Penilaian ini mengacu pada kinerja seluruh komite yang dilaksanakan secara independen, profesional, dan berbasis telaahan yang mendalam terhadap isu-isu strategis Perusahaan, serta pengembangan Tata Kelola SDM.

In 2024, these committees have effectively carried out their duties and functions, making significant contributions to strengthening the Board of Commissioners' supervisory and advisory roles. This assessment refers to the performance of all committees which was conducted independently, professionally, and based on in-depth reviews of the Company's strategic issues, as well as Human Resources Governance development.

### a. Komite Audit

Dewan Komisaris menilai bahwa Komite Audit telah berperan secara aktif dalam menjalankan tugas dan tanggung jawabnya. Fungsi yang dijalankan meliputi kecukupan sistem pengendalian internal, kecukupan pelaporan, dan pengungkapan laporan keuangan. Selain itu, Komite Audit juga telah memberikan rekomendasi yang strategis mengenai penyempurnaan sistem pengendalian manajemen dan mengidentifikasi hal-hal yang memerlukan perhatian khusus dari Dewan Komisaris.

### a. Audit Committee

The Board of Commissioners assesses that the Audit Committee has played an active role in carrying out its duties and responsibilities. The functions performed include adequacy of internal control systems, adequacy of reporting, and financial report disclosures. Additionally, the Audit Committee has provided strategic recommendations regarding improvements to management control systems and identified matters requiring special attention from the Board of Commissioners.

### b. Komite Nominasi dan Remunerasi

Di tahun 2024, Komite Nominasi dan Remunerasi juga membantu Dewan Komisaris dalam melaksanakan fungsi nominasi dan remunerasi. Komite Nominasi dan Remunerasi telah berperan dalam meningkatkan kapabilitas Dewan Komisaris melalui penyusunan program pengembangan kemampuan Anggota Direksi dan/atau Anggota Dewan Komisaris yang menjabat. Lebih lanjut, Komite juga telah menyusun kebijakan dan besaran remunerasi yang sesuai dengan prosedur yang ditetapkan, baik untuk Direksi maupun Dewan Komisaris.

### b. Nomination and Remuneration Committee

In 2024, the Nomination and Remuneration Committee also assisted the Board of Commissioners in carrying out nomination and remuneration functions. The Nomination and Remuneration Committee has contributed to enhancing the capabilities of the Board of Commissioners through developing competency programs for serving Directors and/or Board of Commissioners members. Furthermore, the Committee has formulated appropriate remuneration policies and amounts in accordance with established procedures, for both Board of Directors and the Board of Commissioners.

### c. Komite Pemantau Manajemen Risiko

Komite Pemantau Manajemen Risiko telah melakukan penilaian dan memberikan rekomendasi tentang risiko usaha, tata cara mengurangi risiko, investasi, hingga pelaksanaan *Enterprise Risk Management* (ERM) perusahaan. Di sepanjang tahun 2024, Dewan Komisaris menilai Komite Pemantau Manajemen Risiko telah menjalankan tugas dan fungsinya secara optimal, sesuai piagam komite yang telah ditetapkan.

Secara berkala, Dewan Komisaris mendorong agar setiap komite mampu meningkatkan kualitas dalam menjalankan fungsinya dengan mengikuti program kompetensi. Upaya ini dilakukan untuk memperkuat koordinasi lintas komite, serta lebih adaptif terhadap isu-isu terkini, seperti transformasi digital, keberlanjutan, dan ESG (*Environmental, Social, and Governance*). Hal ini bertujuan untuk memastikan komite pendukung tetap relevan dan responsif terhadap dinamika bisnis dan standar tata kelola perusahaan yang baik.

### c. Risk Management Monitoring Committee

The Risk Management Monitoring Committee has conducted assessments and provided recommendations regarding business risks, risk mitigation methods, investments, and implementation of the Company's Enterprise Risk Management (ERM). Throughout 2024, the Board of Commissioners assesses that the Risk Management Oversight Committee has optimally carried out its duties and functions in accordance with the established committee charter.

The Board of Commissioners periodically encourages each committee to improve the quality of their functions by participating in competency programs. These efforts aim to strengthen cross-committee coordination and increase adaptability to current issues such as digital transformation, sustainability, and ESG (*Environmental, Social, and Governance*). This is intended to ensure the supporting committees remain relevant and responsive to business dynamics and good corporate governance standards.

## Pandangan Dewan Komisaris Terhadap Komitmen dan Implementasi Kinerja Keberlanjutan

*Board of Commissioners' Perspective on Sustainability Commitment and Implementation Performance*

Dewan Komisaris memahami konsep keberlanjutan sangat penting untuk diterapkan dalam melaksanakan bisnis yang bertanggung jawab. Lebih lanjut, Dewan Komisaris senantiasa memberikan nasihat kepada Direksi untuk senantiasa menyelaraskan seluruh aktivitas bisnis yang dilakukan dengan nilai-nilai berkelanjutan.

Di tahun 2024, Dewan Komisaris memandang bahwa komitmen dan implementasi kinerja keberlanjutan telah menunjukkan perkembangan yang positif. Langkah strategis untuk mengintegrasikan strategi bisnis Perseroan dengan keseimbangan lingkungan diharapkan mampu memberikan dampak positif terhadap kinerja PT KAI (Persero).

Perseroan secara konsisten mengadopsi prinsip-prinsip keberlanjutan dalam operasionalnya melalui penguatan aspek keselamatan dan pelayanan kepada pelanggan. Selain itu, PT KAI (Persero) juga menunjukkan komitmen terhadap aspek sosial dengan menjalankan program Tanggung Jawab Sosial dan Lingkungan (TJSL) yang selaras dengan kebutuhan masyarakat dan tujuan pembangunan berkelanjutan (SDGs).

The Board of Commissioners is aware of the critical importance of implementing sustainability concepts in conducting responsible business practices. Furthermore, the Board consistently advises the Board of Directors to align all business activities with sustainable values.

In 2024, the Board of Commissioners observes that sustainability commitment and implementation performance have demonstrated positive progress. Strategic measures to integrate the Company's business strategy with environmental balance are expected to positively impact PT KAI (Persero)'s performance.

The Company has consistently adopted sustainability principles in its operations by strengthening safety aspects and customer service. Additionally, PT KAI (Persero) has demonstrated commitment to social aspects by implementing Social and Environmental Responsibility (TJSL) programs aligned with community needs and Sustainable Development Goals (SDGs).

Dewan Komisaris menilai bahwa kinerja keberlanjutan KAI dilakukan secara bertanggung jawab transparan dan akuntabel, serta didukung dengan pelaporan data yang terukur dan konsisten. Ke depan, Dewan Komisaris senantiasa mendorong agar kinerja keberlanjutan menjadi nilai strategis yang melekat dalam setiap pengambilan keputusan, termasuk dalam investasi, pengembangan infrastruktur, dan transformasi bisnis Perusahaan di tahun mendatang.

The Board of Commissioners assesses that KAI's sustainability performance has been conducted responsibly, transparently and accountably, supported by measurable and consistent data reporting. Moving forward, the Board of Commissioners will continue to advocate for sustainability performance to become an inherent strategic value in all decision-making processes, including investments, infrastructure development, and the Company's business transformation in the coming years.

## Brand Perusahaan

Corporate Brand

- **BENTUK**

Terinspirasi dari bentuk REL KERETA yang digambarkan dengan garis menyambung ke atas pada huruf A, KAI diharapkan terus maju dan menjadi solusi ekosistem transportasi terbaik yang terintegrasi, terpercaya, bersinergi, dan kelak dapat menghubungkan Indonesia dari Sabang sampai Merauke.

Dengan menggunakan *typeface italic* yang dinamis dan di modifikasi pada huruf A menggambarkan karakter KAI yaitu progresif, berpikiran terbuka, dan terpercaya. Grafik yang tegas namun ramah dengan perbedaan warna pada huruf diharapkan dapat mencerminkan hubungan yang harmonis dan kompeten antara KAI dan seluruh pemangku kepentingan.

- **WARNA**

Perpaduan antara warna biru tua yang menunjang stabilitas, profesionalisme, amanah dan kepercayaan diri, yang ditambah dengan aksen warna oranye, yang menunjukkan antusiasme, kreativitas, tekad, kesuksesan dan kebahagiaan.

- **DESIGN**

Inspired by the shape of RAIL which is depicted with a line connecting upwards in the letter A, KAI is expected to continue to advance and become a transportation ecosystem solution that is integrated, reliable, synergistic, and can one day connect Indonesia from Sabang to Merauke.

By using a dynamic italic typeface and modified in the letter A which describes the character of KAI, namely progressive, open-minded, and trusted. The graphic is firm but with different colors in the letters is expected to reflect a harmonious and competent relationship between KAI and all stakeholders.

- **COLOR**

The combination of dark blue that supports stability, professionalism, trustworthy and confidence, coupled with orange accents, which shows enthusiasm, creativity, determination, success and happiness.

## Riwayat Singkat Perusahaan

### *Brief History of the Company*

Sejarah perkeretaapian di Nusantara telah dimulai sejak tahun 1854 ketika Namlooze Venootschap Nederlanche Indische Spoorweg Maatschappij membangun jalan kereta api pertama dari Semarang ke Surakarta, Jawa Tengah. Setelah itu, 3 (tiga) perusahaan Belanda yang lain yaitu Staat Spoorwegen, Verenigde Spoorwegenbedrijf, dan Deli Spoorwegen Maatschappij ikut membangun jalur-jalur kereta api yang berlokasi baik di Jawa maupun luar Jawa.

PT Kereta Api Indonesia (Persero) didirikan pada tanggal 28 September 1945 sebagai Djawatan Kereta Api Repoeblik Indonesia (DKARI) setelah para pejuang kemerdekaan bergerak cepat melakukan pengambilalihan kantor pusat kereta api di Bandung dari penguasaan Jepang. Pada awal tahun 1946, dikeluarkan Maklumat Kementerian Perhubungan Republik Indonesia (RI) No. 1/KA yang secara resmi mengesahkan DKARI dengan Ir. Djuanda dan Mr. Soewahjo Soemodilogo diangkat sebagai Kepala dan Wakil Kepala DKARI pada struktur organisasinya.

Setelah resmi beroperasi, DKARI mengalami perubahan seiring pengambilalihan aset-aset Pemerintah Hindia Belanda melalui perjanjian Konferensi Meja Bundar (KMB) menjadi Djawatan Kereta Api (DKA) per tahun 1950. DKA kembali berganti menjadi Perusahaan Negara Kereta Api (PNKA) pada 25 Mei 1963 menjadi Perusahaan Nasional Kereta Api (PNKA) berdasarkan Peraturan Pemerintah RI No. 22 Tahun 1963. Dengan perubahan tersebut, PNKA memperkenalkan logo Wahana Daya Pertiwi yang mengekspresikan transformasi perkeretaapian Indonesia sebagai sarana transportasi yang andal bagi kesejahteraan tanah air. PNKA kemudian berubah menjadi Perusahaan Jawatan Kereta Api (PJKA) pada tahun 1971 berdasarkan Peraturan Pemerintah RI No. 61 Tahun 1971.

The history of railways in the archipelago began in 1854 when Namlooze Venootschap Nederlanche Indische Spoorweg Maatschappij built the first railroad from Semarang to Surakarta, Central Java. After that, 3 (three) other Dutch companies, namely Staat Spoorwegen, Verenigde Spoorwegenbedrijf, and Deli Spoorwegen Maatschappij, took part in building railroad lines located both in Java and outside Java.

PT Kereta Api Indonesia (Persero) was established on September 28th, 1945 as the Railway Department of the Republic of Indonesia (DKARI) after the freedom fighters moved quickly to take over the railway headquarters in Bandung from Japanese occupation. In early 1946, the Declaration of the Ministry of Transportation of the Republic of Indonesia (RI) No. 1/KA was issued which officially passed DKARI with Ir. Juanda and Mr. Soewahjo Soemodilogo were appointed as Head and Deputy Head of DKARI in its organizational structure.

After officially operating, DKARI underwent changes following the takeover of Dutch East Indies Government assets through the Dutch-Indonesian Round Table Conference (KMB) agreement to become the Railways Department (DKA) in 1950. Then, DKA changed to the State Railway Company (PNKA) on May 25th, 1963 based on Regulation of the Government of the Republic of Indonesia No. 22 of 1963. With these changes, PNKA introduced the WahanaDaya Pertiwi logo which expresses the transformation of Indonesian railways as a reliable means of transportation for the welfare of the homeland. PNKA then changed to the Railway Department Company (PJKA) in 1971 based on Regulation of the Government of the Republic of Indonesia No. 61 of 1971.

## Riwayat Singkat Perusahaan

### Brief History of the Company

Sebagai upaya peningkatan layanan jasa angkutan, PJKA diubah menjadi Perusahaan Umum Kereta Api (Perumka) pada tahun 1999, untuk kemudian diubah kembali menjadi Perseroan Terbatas dengan nama PT Kereta Api Indonesia (Persero) pada tahun 1998 berdasarkan Peraturan Pemerintah RI No. 19 Tahun 1998.

Hingga kini, KAI mengalami beberapa kali perubahan Anggaran Dasar, dengan perubahan terakhir dilakukan berdasarkan Keputusan Menteri Negara Badan Usaha Milik Negara (BUMN) selaku Rapat Umum Pemegang Saham Perseroan yang dicatat dalam Akta No. 278 tanggal 31 Desember 2021. Akta perubahan tersebut telah mendapat persetujuan dari Menteri Hukum dan Hak Asasi Manusia dengan Surat Keputusan No. AHU-01.03-0494898 tanggal 31 Desember 2021.

#### INFORMASI PERUBAHAN NAMA

Sejak awal didirikan, KAI telah mengalami beberapa kali perubahan nama dengan perincian sebagai berikut:

As an effort to improve transportation services, PJKA was changed to the Railway Public Corporation (Perumka) in 1999, which was then changed to a Limited Liability Company under the name PT Kereta Api Indonesia (Persero) in 1998 based on Regulation of the Government of the Republic of Indonesia No. 19 of 1998.

As of today, KAI's Articles of Association have undergone several amendments with the last amendment made based on the Decree of the State Minister for State-Owned Enterprises (SOE) as the Company's General Meeting of Shareholders which is recorded in Deed No. 278 dated December 31st, 2021. The deed of amendment was approved by the Minister of Law and Human Rights in Decree No. AHU-01.03-0494898 on December 31, 2021.

Sesuai maksud dan tujuan Perseroan, kegiatan usaha KAI adalah beroperasi di bidang transportasi, serta optimalisasi pemanfaatan sumber daya yang dimiliki Perusahaan untuk menghasilkan barang dan/atau jasa yang bermutu tinggi dan berdaya saing kuat untuk mendapatkan/mengejar keuntungan guna meningkatkan nilai Perusahaan dengan menerapkan prinsip-prinsip Perusahaan Terbatas.

### PRODUK DAN JASA [OJK C.4][GRI 2-6]

Perseroan merupakan BUMN yang menyediakan, mengatur, dan mengurus jasa angkutan kereta api di Indonesia. Seiring perkembangan dinamika dunia usaha dan perkembangan pasar, Perseroan juga menyelenggarakan kegiatan usaha penunjang lain dengan memanfaatkan sumber daya yang dimilikinya.

Kegiatan usaha KAI dibagi ke dalam beberapa segmen usaha yang menjadi sumber-sumber pendapatan bagi Perseroan. Segmen usaha tersebut adalah angkutan penumpang, angkutan barang, pendukung angkutan kereta api, pendapatan non-angkutan dan subsidi Pemerintah yang terdiri dari PSO, IMO, dan Perintis.

#### • ANGKUTAN PENUMPANG KERETA

Sebagai perusahaan yang mengelola perkeretaapian di Indonesia, KAI banyak mengoperasikan KA penumpang, baik KA Utama (Komersial dan Non-Komersial), maupun KA lokal di Jawa dan Sumatera.

Pengoperasian layanan KA penumpang, selain dilakukan oleh KAI sebagai induk perusahaan, juga dilaksanakan oleh anak perusahaan yakni PT Kereta Commuter Indonesia, PT Railink, serta PT Kereta Api Pariwisata.

PT Kereta Commuter Indonesia (KAI Commuter) atau yang lebih dikenal dengan KAI Commuter, merupakan anak perusahaan KAI yang dipercaya untuk mengelola KRL Commuter Line Jakarta, Bogor, Depok, Tangerang, dan Bekasi (Jabodetabek). Sejak 1 Oktober 2020, KAI menugaskan KAI Commuter untuk mengoperasikan kereta api lokal di wilayah Daop 1 Jakarta.

- y. Land preparation services.
- z. Management of privately owned museums.
- aa. Travel agency operations.
- ab. Capital participation in other companies to enhance and develop the Company's business processes.

In alignment with the Company's objectives, KAI's operations are focused on the transportation sector while optimizing the use of its resources to deliver high-quality, competitive goods and/or services to achieve profitability and enhance the Company's value, adhering to the principles of a Limited Company.

### PRODUCTS AND SERVICES [OJK C.4][GRI 2-6]

The Company is a state-owned enterprise that provides, regulates, and manages railway transportation services across Indonesia. In response to evolving business dynamics and market trends, the Company also engages in additional supportive business activities to optimize its resource utilization.

KAI's operations are categorized into several business segments, each serving as a source of income for the Company. These segments include passenger transportation, freight transportation, railway support services, non-transportation income, and government subsidies encompassing PSO, IMO, and Pioneer.

#### • PASSENGER TRAIN TRANSPORTATION

As a railway operator in Indonesia, KAI manages an extensive range of passenger trains, including both Main Trains (Commercial and Non-Commercial) and local services across Java and Sumatra.

The operation of passenger train services is not only carried out by KAI as the parent company but also by its subsidiaries, namely PT Kereta Commuter Indonesia, PT Railink, and PT Kereta Api Pariwisata.

PT Kereta Commuter Indonesia (KAI Commuter), commonly known as KAI Commuter, is a subsidiary of KAI entrusted with managing the KRL Commuter Line in Jakarta, Bogor, Depok, Tangerang, and Bekasi (Jabodetabek). Since October 1, 2020, KAI has assigned KAI Commuter to operate local trains in the Jakarta Area Operation District (Daop 1 Jakarta).

Seiring berlakunya Grafik Perjalanan Kereta Api (Gapeka) Tahun 2021 per 1 Maret 2021, KAI Commuter mengoperasikan KRL di luar wilayah Jabodetabek yaitu KRL relasi Yogyakarta - Solo Balapan (PP) menggantikan KA Prambanan Ekspres yang saat ini hanya melayani Yogyakarta - Kutoarjo (PP).

Ekspansi KAI Commuter tidak berhenti di 2 wilayah tersebut, pada April 2022, KA Lokal di Wilayah 2 Bandung dan Wilayah 8 Surabaya dengan izin operasi di November semakin memperluas wilayah operasi KAI Commuter. Di akhir tahun 2022 KAI Commuter diberikan tugas untuk mengoperasikan Kereta Bandara.

Setelah *Switch Over* (SO) 5 Manggarai pada 2022, pola operasi di Wilayah Jabodetabek mengalami perubahan. Perjalanan pada lintas Bogor/Nambo/Depok hanya ke Jakarta Kota, sedangkan lintas Cikarang/Bekasi perjalanan terbagi atas *full racket* (Cikarang/Bekasi-Kampung Bandan via Manggarai untuk kembali ke Cikarang/Bekasi via Pasar Senen dan Cikarang/Bekasi-Kampung Bandan via Pasar Senen untuk kembali ke Cikarang/Bekasi via Manggarai). Untuk *half racket* (Cikarang/Bekasi-Kampung Bandan/Angke via Manggarai untuk kembali ke Cikarang/Bekasi via Manggarai). Sementara untuk lintas Tanah Abang-Rangkasbitung dan lintas Duri-Tangerang masih tetap sama.

Sementara untuk kereta bandara selain Bandara Soekarno-Hatta, KAI mendelegasikan kepada PT Railink (KAI Bandara), anak perusahaan KAI yang menghadirkan layanan transportasi publik berbasis *railway* berupa Kereta Api Bandara.

Sejak didirikan pada 28 September 2006, KAI Bandara mengoperasikan KA Bandara Kualanamu sebagai KA Bandara pertama di Indonesia pada 25 Juli 2013. KAI Bandara mendatangkan 4 (empat) rangkaian kereta eksklusif dan modern yang berstandar internasional dengan rute Stasiun Medan - Stasiun Kualanamu (PP).

Pada 28 September 2022 KAI Bandara Kualanamu membuka layanan baru di Stasiun Bandar Khalipah Medan, sehingga rute perjalanan menjadi Stasiun Medan - Stasiun Bandar Khalipah - Stasiun Kualanamu (PP). Setahun kemudian, pada 1 September 2023 KA Bandara kembali menambah rute perjalanan dari Stasiun Medan - Kualanamu (PP) dengan penambahan 2 (dua) stasiun pemberhentian yaitu Araskabu, dan Batangkuis, sehingga rute saat ini menjadi Stasiun Medan- Stasiun Bandar

With the implementation of the 2021 Train Schedule (Gapeka) as of March 1, 2021, KAI Commuter operates commuter trains outside the Jabodetabek area, namely the Yogyakarta - Solo Balapan commuter train, replacing the Prambanan Express train, which currently only serves the Yogyakarta - Kutoarjo route.

KAI Commuter's expansion doesn't stop at these two areas; in April 2022, local trains in Region 2 Bandung and Region 8 Surabaya, with operating permits granted in November, further expand KAI Commuter's operational area. At the end of 2022, KAI Commuter was tasked with operating Airport Trains.

Following the *Switch Over* (SO) at Manggarai 5 in 2022, there have been operational changes in the Jabodetabek area. For the Bogor/Nambo/Depok routes, the journey is now only to Jakarta Kota, while for the Cikarang/Bekasi routes, the journey is divided into *full racket* (Cikarang/Bekasi-Kampung Bandan via Manggarai to return to Cikarang/Bekasi via Pasar Senen and Cikarang/Bekasi-Kampung Bandan via Pasar Senen to return to Cikarang/Bekasi via Manggarai). As for *half racket* routes (Cikarang/Bekasi-Kampung Bandan/Angke via Manggarai to return to Cikarang/Bekasi via Manggarai). Meanwhile, the Tanah Abang-Rangkasbitung and Duri-Tangerang routes remain unchanged.

Regarding airport trains other than Soekarno-Hatta Airport, KAI has delegated the task to PT Railink (KAI Airport), a subsidiary of KAI that provides public transportation services based on railway infrastructure in the form of Airport Trains.

Established on September 28, 2006, KAI Airport operates the Kualanamu Airport Train as Indonesia's first Airport Train on July 25, 2013. KAI Airport introduced 4 (four) exclusive and modern train sets with international standards on the route from Medan Station to Kualanamu Station (round trip).

On September 28, 2022, KAI Airport Kualanamu opened a new service at Bandar Khalipah Medan Station, thus expanding the travel route to Medan Station-Bandar Khalipah Station-Kualanamu Station (round trip). A year later, on September 1, 2023, the Airport Train added another route from Medan Station to Kualanamu Station (round trip) with the addition of 2 (two) additional stops at Araskabu and Batangkuis stations, making the current route from Medan Station to Bandar Khalipah Station-

Khalipah – Stasiun Batangkuis – Stasiun Araskabu – Stasiun Kualanamu (PP). Pada tanggal 1 September 2023 pula KA Lokal Srilelawangsa mulai dioperasikan oleh KAI Bandara dengan sistem yang sama dengan KA Bandara yaitu berbasis *Airport Railway Ticketing System* (ARTS) dengan relasi Medan, Binjai, Kuala Bingai.

Pada tanggal 26 Desember 2017, KAI Bandara menambah perjalanan KA Bandara Soekarno Hatta (Basoetta) yang kini pengelolaannya telah beralih ke KAI Commuter.

Mulai 1 April tahun 2022, KAI Bandara mendapatkan penugasan sebagai penyedia layanan dan sistem pembelian tiket di Kereta Api Bandara Yogyakarta International Airport. KAI Bandara YIA melayani tiga stasiun yaitu stasiun Yogyakarta, Wates, dan YIA. Pada November 2022 KAI Bandara mendapatkan izin operasi untuk menjadi operator penuh KA Bandara Yogyakarta.

Kemudian, KAI Wisata dijalankan oleh PT Kereta Api Pariwisata yang menawarkan produk jasa/layanan meliputi paket perjalanan wisata untuk perorangan (FIT) ataupun rombongan dengan sistem pola carter, dengan menggunakan kereta api sebagai transportasi utama. Sejumlah yang disewakan antara lain Kereta Istimewa, Kereta Panoramic, Kereta Wisata Bali, Kereta Wisata Imperial, Kereta Wisata Jawa, Kereta Wisata Nusantara, Kereta Wisata *Priority*, Kereta Wisata Sumatera, Kereta Wisata Toraja dan Kereta Uap di Museum Ambarawa.

KAI Wisata yang diberikan kepercayaan fokus pada bidang jasa pariwisata kereta api telah memiliki 12 lini bisnis saat ini diantaranya mengelola:

1. Kereta wisata.
2. Hotel Transit Gambir.
3. Lounge Anggrek.
4. *Luxury Lounge*.
5. *Shower n Locker*.
6. *Heritage Building* Lawang Sewu & Indonesia Railway Museum Ambarawa.

9. *Tour & Mice*.
10. Periklanan, *Podcast* & Pengelolaan Social Media.
11. Aplikasi *E-Porter*.
12. Sewa Kendaraan Restorasi.

Batangkuis Station–Araskabu Station–Kualanamu Station (round trip). On September 1, 2023, the Srilelawangsa Local Train also began operating under KAI Airport with the same system as the Airport Train, based on the Airport Railway Ticketing System (ARTS), with routes covering Medan, Binjai, and Kuala Bingai.

On December 26, 2017, KAI Airport added flights for the Soekarno–Hatta Airport Train (Basoetta), which is now managed by KAI Commuter.

Starting April 1, 2022, KAI Airport was tasked with providing ticketing services and ticket purchasing systems for the Yogyakarta International Airport Train. KAI Airport YIA serves three stations: Yogyakarta Station, Wates Station, and YIA Station. In November 2022, KAI Airport obtained an operating permit to become the full operator of the Yogyakarta Airport Train.

Furthermore, KAI Wisata, operated by PT Kereta Api Pariwisata, offers tourism service products, including travel packages for individuals (FIT) or groups with a charter pattern system, using trains as the main mode of transportation. Some of the trains available for rent include the Special Train, Panoramic Train, Bali Tourism Train, Imperial Tourism Train, Java Tourism Train, Nusantara Tourism Train, Priority Tourism Train, Sumatra Tourism Train, Toraja Tourism Train, and Steam Train at the Ambarawa Museum.

KAI Wisata, entrusted with focusing on railway tourism services, currently manages 12 business lines, including:

1. Tourist train services.
2. Gambir Transit Hotel.
3. Anggrek Lounge.
4. *Luxury Lounge*.
5. Shower and Locker facilities.
6. Heritage attractions like Lawang Sewu & the Indonesia Railway Museum in Ambarawa.
7. Ticketing and travel document management.
8. Frontliner and contact center staff.
9. Tour and MICE.
10. Advertising, podcasting, and social media management.
11. *E-Porter* application services.
12. Vehicle rental services.

- **RESTORASI**

Setiap rangkaian kereta api milik KAI dilengkapi dengan kereta yang berfungsi sebagai restorasi, atau gerbong restoran. Restorasi pada rangkaian kereta api tersebut menyediakan layanan makan dan minum bagi pelanggan selama perjalanan.

KAI memiliki anak perusahaan PT Reska Multi Usaha (KAI Services) sebagai pelaksana restorasi yang juga menunjang kebijakan dan program KAI selaku perusahaan induk pada usaha restoran kereta api serta usaha terkait lainnya. Bidang usaha KAI Services terbagi ke dalam 3 (tiga) bisnis inti, yaitu:

1. **On Board Services**

Terdiri dari restoran kereta dan jasa kebersihan di kereta serta fasilitas penunjang lainnya (*passenger amenities*).

2. **Integrated Facility Service**

Terdiri dari keamanan, parkir, jasa kebersihan, dan alih daya.

3. **Commercial Services**

Terdiri dari kafe, catering, dan layanan umum

- **ANGKUTAN BARANG**

Selain angkutan penumpang, Perseroan juga menyediakan jasa angkutan barang mulai dari skala kecil hingga skala besar termasuk komoditas industri. Untuk layanan angkutan barang, KAI melalui anak perusahaannya, PT Kereta Api Logistik (KAI Logistik) sebagai Badan Usaha Angkutan Multimoda, melakukan usaha di bidang layanan distribusi logistik dengan berbagai segmentasi produk diantaranya KALOG Express untuk layanan kurir dan kargo, KALOG Plus untuk mengakomodir kebutuhan pengiriman barang dalam jumlah yang lebih besar, serta layanan penunjang untuk memastikan terpenuhinya kebutuhan logistik yang beragam seperti angkutan kontainer, *Freight Forwarding*, depot/*warehousing* dan kegiatan keterminalan lainnya. Selain itu, KAI Logistik juga menghadirkan KALOG Pro untuk segmentasi logistik *business to business* dengan menawarkan keunggulan dan pelayanan prima serta menyediakan layanan *one stop solution/end to end services* guna mewujudkan layanan *total logistics solution* seperti layanan angkutan *multi commodity, project logistic*, keterminalan dan penanganan batu bara.

- **RESTORATION**

Every train set owned by KAI is equipped with a carriage serving as a restaurant, or dining car. These dining cars provide food and beverage services for passengers during their journey.

KAI has a subsidiary named PT Reska Multi Usaha (KAI Services) tasked with executing the restoration services while also supporting KAI's policies and programs as the parent company in the train restaurant business and other related ventures. The business sectors of KAI Services are divided into 3 (three) core businesses, namely:

1. **On Board Services**

This includes train restaurants and cleaning services onboard.

2. **Integrated Facility Services**

This covers security, parking, cleaning services, and outsourcing solutions.

3. **Commercial Services**

This encompasses cafes, catering, and various public services.

- **FREIGHT TRANSPORTATION**

In addition to passenger transportation, the Company also provides freight transportation services ranging from small to large scale, including industrial commodities. For freight transportation services, KAI, through its subsidiary PT Kereta Api Logistik (KAI Logistics) as a Multimodal Transportation Business Entity, engages in logistics distribution services with various product segmentations. This includes KALOG Express for courier and cargo services, KALOG Plus to accommodate larger shipment quantities, as well as supporting services to ensure diverse logistics needs are met, such as container transportation, Freight Forwarding, depot/*warehousing*, and other terminal activities. Moreover, KAI Logistics also introduces KALOG Pro for business-to-business logistics segmentation, offering superior advantages and premium services, as well as providing one-stop solutions/ end-to-end services to realize total logistics solutions such as multi-commodity transportation services, project logistics, terminal operations, and coal handling.

KAI Logistik memiliki orientasi pengembangan bisnis sebagai penyedia jasa layanan distribusi logistik secara total (*Total Logistics Solution*) melalui *End-to-End Services* atau sebagai *SCM Service Provider* dengan dukungan teknologi informasi. Untuk memfasilitasi layanan logistik secara terpadu, KAI Logistik telah membangun sejumlah infrastruktur jasa logistik, antara lain terminal kereta api di pulau Jawa serta fasilitas dan infrastruktur yang dimodernisasi untuk penanganan batu bara di Sumatera Selatan.

KAI Logistics has a business development orientation as a total logistics distribution service provider through *End-to-End Services* or as an *SCM Service Provider* with IT support. To facilitate integrated logistics services, KAI Logistics has built several logistics service infrastructures, including railway terminals in Java and modernized facilities and infrastructure for coal handling in South Sumatra.

## Hubungan Afiliasi Anggota Direksi

### Affiliation of the Board of Directors

KAI memastikan bahwa masing-masing anggota Direksi tidak memiliki hubungan afiliasi, baik berupa hubungan keuangan maupun keluarga, dengan anggota Dewan Komisaris, sesama anggota Direksi, ataupun pemegang saham dan pengendali Perseroan. Selain itu, anggota Direksi juga dipastikan tidak memiliki hubungan kepengurusan dalam bentuk apa pun yang dapat mengganggu independensi dan/atau berpotensi menghadirkan benturan kepentingan dalam pelaksanaan tugas dan tanggung jawab masing-masing.

KAI menjamin bahwa seluruh anggota Direksi dapat senantiasa bertindak independen dan terbebas dari intervensi. Hal tersebut dilaksanakan dalam rangka menjamin terjaganya objektivitas Direksi dalam menjalankan tugas dan tanggung jawabnya dalam mengelola Perseroan.

Informasi hubungan afiliasi masing-masing anggota Direksi di tahun 2024 adalah sebagai berikut:

KAI ensures that each member of the Board of Directors does not have any affiliation, whether in the form of financial or familial relationships, with members of the Board of Commissioners, fellow members of the Board of Directors, or shareholders and controllers of the Company. Additionally, members of the Board of Directors are also ensured not to have any management relationships in any form that could compromise independence and/or potentially create conflicts of interest in the execution of their respective duties and responsibilities.

KAI ensures that all members of the Board of Directors can always act independently and free from intervention. This is done to ensure the objectivity of the Board of Directors in carrying out their duties and responsibilities in managing the Company.

Information on the affiliate relationships of each member of the Board of Directors in 2024 is as follows:

# Hubungan Afiliasi Dewan Komisaris

## Board of Commissioners Affiliate Relations

KAI telah memastikan bahwa masing-masing anggota Dewan Komisaris tidak memiliki hubungan afiliasi, baik berupa hubungan keuangan maupun keluarga, dengan sesama anggota Dewan Komisaris, anggota Direksi, ataupun pemegang saham dan pengendali Perseroan. Selain itu, anggota Dewan Komisaris juga dipastikan tidak memiliki hubungan kepengurusan dalam bentuk apa pun yang dapat mengganggu independensi dan/atau berpotensi menghadirkan benturan kepentingan dalam pelaksanaan tugas dan tanggung jawab masing-masing.

KAI menjamin bahwa seluruh anggota Dewan Komisaris dapat senantiasa bertindak independen dan terbebas dari intervensi. Hal tersebut dilaksanakan dalam rangka menjamin terjaganya independensi Dewan Komisaris dalam menjalankan tugas dan tanggung jawabnya sebagai organ pengawas dalam tata kelola Perseroan.

Informasi hubungan afiliasi masing-masing anggota Dewan Komisaris di tahun 2024 adalah sebagai berikut:

KAI has ensured that each member of the Board of Commissioners does not have any affiliation, whether in the form of financial or familial relationships, with fellow members of the Board of Commissioners, members of the Board of Directors, or shareholders and controllers of the Company. Additionally, members of the Board of Commissioners are also ensured not to have any management relationships in any form that could compromise independence and/or potentially create conflicts of interest in the execution of their respective duties and responsibilities.

KAI guarantees that all members of the Board of Commissioners can always act independently and free from intervention. This is done to ensure the independence of the Board of Commissioners in carrying out their duties and responsibilities as the supervisory body in the governance of the Company.

Information on the affiliate relationships of each member of the Board of Commissioners in 2024 is as follows:

### Tinjauan Perekonomian dan Industri

#### Economic and Industrial Review

Ekonomi global mengalami perlambatan secara signifikan di tahun 2024. Dana Moneter Internasional (IMF) menyampaikan perlambatan ekonomi global terjadi akibat adanya peningkatan inflasi dan penguatan dolar Amerika Serikat (AS). IMF mencatatkan pertumbuhan ekonomi dunia pada tahun 2024 sebesar 3,5%, sedikit meningkat dari tahun 2023 sebesar 3,2%. Meskipun mengalami peningkatan, nilai ini masih berada di bawah rata-rata pertumbuhan historis sebelum pandemi yang berkisar di angka 3,8% hingga 4%. Hal ini mencerminkan bahwa pemulihan ekonomi global masih menghadapi tantangan, seperti ketegangan geopolitik, suku bunga tinggi, serta ketidakpastian pasar keuangan.

Di awal tahun, ketegangan politik global diketahui masih tergolong tinggi akibat berlanjutnya konflik Rusia-Ukraina. Kondisi ini membuat dinamika geopolitik dunia cepat berubah dan berdampak pada perkembangan pasar global, dan diperkirakan akan terus berlanjut.

Berdasarkan data Bank Indonesia, pertumbuhan ekonomi global melambat berada di kisaran 3,2%. Pertumbuhan ekonomi sejumlah negara maju seperti AS juga mengalami perlambatan dari 2,9% pada tahun 2023 menjadi 2,8% di tahun 2024. Lebih lanjut, di kawasan Eropa kondisi ekonomi masih tergolong lemah dengan capaian angka di bawah historis yaitu 0,8%. Begitu pula dengan pertumbuhan ekonomi Jepang yang berkontraksi 0,1% setelah tumbuh 1,9% pada tahun 2023.

Berbeda dengan beberapa negara maju, ekonomi negara berkembang justru mengalami penguatan di sepanjang tahun 2024. Pertumbuhan ekonomi negara berkembang seperti Indonesia, Singapura, Malaysia, Thailand dan Filipina (ASEAN-5) menunjukkan pertumbuhan yang meningkat. Di tahun 2024, pertumbuhan ekonomi ASEAN-5 mengalami peningkatan dari 4,0% menjadi 4,8%.

The global economy experienced a significant slowdown in 2024. According to the International Monetary Fund (IMF), this slowdown was attributed to rising inflation and the strengthening of the United States (US) dollar. The IMF recorded world economic growth at 3.5% for 2024, a slight increase from 3.2% in 2023. However, this growth remained below the pre-pandemic average of 3.8% to 4%, indicating that the global economic recovery continued to face challenges, including geopolitical tensions, high interest rates, and uncertainty in financial markets.

At the beginning of the year, political tensions worldwide remained high due to the ongoing Russia-Ukraine conflict. This situation has caused rapid changes in global geopolitics, affecting market developments, and it is expected to persist.

Data from Bank Indonesia indicates that global economic growth has slowed to approximately 3.2%. The economic growth of several developed countries, including the US, has also declined, from 2.9% in 2023 to 2.8% in 2024. Economic conditions in the European region remain relatively weak, with growth figures below the historical level of 0.8%. Japan's economy contracted by 0.1% after growing by 1.9% in 2023.

In contrast, several developing countries have experienced economic strengthening throughout 2024. The economies of the ASEAN-5 countries, namely Indonesia, Singapore, Malaysia, Thailand, and the Philippines, showed increased growth, with the economic growth of the ASEAN-5 rising from 4.0% to 4.8% in 2024. According to Statistics Indonesia, Indonesia's economy grew by 5.03%, with

## Analisis dan Pembahasan Manajemen Management Discussion and Analysis

Menurut Badan Pusat Statistik, ekonomi Indonesia tumbuh sebesar 5,03% dengan capaian Produk Domestik Bruto (PDB) per kapita sebesar Rp78,6 juta atau USD4.960,3. Pertumbuhan ekonomi ini ditopang oleh adanya kenaikan investasi dan terjaganya konsumsi rumah tangga serta peningkatan belanja Pemerintah pada akhir tahun.

Lebih lanjut, pada Industri Transportasi dan Pergudangan berhasil mencatatkan pertumbuhan baik sebesar 8,6%. Hal ini menjadi menjadikan lapangan usaha dengan pertumbuhan tertinggi kedua setelah Jasa Lainnya sebesar 9,80%. Kemudian, terlihat adanya peningkatan pada volume penumpang di sepanjang tahun 2024 sebesar 17,81%, dari 388,78 juta orang menjadi 504,6 juta

a Gross Domestic Product (GDP) per capita of Rp78.6 million, or USD4,960.3. This growth was supported by increased investment, sustained household consumption, and a rise in government spending at the year's end.

Furthermore, the Transportation and Warehousing Industry recorded positive growth of 8.6%, making it the sector with the second highest growth rate after Other Services, which grew by 9.80%. In 2024, the passenger volume also saw an increase of 17.81%, rising from 388.78 million to 504.6 million people. Similarly, freight transportation experienced a volume increase of 9.42%,

orang. Begitu pula dengan angkutan barang yang mengalami peningkatan volume sebesar 9,42% menjadi 73,5 ton.

Dalam industri transportasi, perkeretaapian di tahun 2024 mengalami kondisi yang baik. Terlihat adanya peningkatan terhadap permintaan perjalanan domestik dan logistik barang di Indonesia. Kondisi ini memberikan peluang besar bagi KAI untuk dapat mengoptimalkan dan memanfaatkan perannya pada industri.

## Tinjauan Operasi

### *Operational Review*

Di tahun 2024, KAI berhasil mencatatkan pertumbuhan cemerlang. Capaian ini didorong oleh berbagai program strategis yang telah dijalankan secara konsisten, termasuk optimalisasi operasional, penguatan layanan, serta inovasi produk yang adaptif terhadap kebutuhan pasar. Strategi yang ditetapkan menjadi faktor penting dalam tercapainya target setiap segmen usaha. Lebih lanjut, di sepanjang tahun 2024, KAI terus meningkatkan layanan Kereta Cepat Jakarta Bandung (KCJB) *Whoosh* dan LRT Jabodebek yang merupakan Proyek Strategis Nasional amanat Pemerintah Indonesia.

Dalam menjalankan usahanya, KAI membagi kegiatan operasional ke dalam beberapa segmen usaha sesuai dengan Pernyataan Standar Akuntansi Keuangan (PSAK) yang berlaku di Indonesia (PSAK 5) tentang Segmen Operasi. Segmen usaha KAI terdiri dari Jasa Angkutan, Jasa Non-Angkutan, dan Konstruksi. Segmen usaha tersebut dibagi ke dalam beberapa segmen usaha turunan yang menjadi sumber pendapatan bagi Perseroan, yaitu angkutan penumpang, angkutan barang, serta pendukung angkutan kereta api, pendapatan non- angkutan, dan kompensasi Pemerintah yang terdiri dari *Public Service Obligation* (PSO), *Infrastructure Maintenance and Operation* (IMO), dan Perintis.

reaching 73.5 tons.

In the transportation sector, railways in 2024 encountered favorable conditions, demonstrated by an increase in demand for domestic travel and goods logistics in Indonesia. This situation presents significant opportunities for KAI to optimize and enhance its role within the industry.

In 2024, KAI achieved remarkable growth, driven by various strategic programs that were consistently implemented. These include operational optimization, service enhancement, and product innovations that align with market needs. The strategies established were crucial in meeting the targets across each business segment. Throughout 2024, KAI continued to enhance the services of the Jakarta-Bandung High-Speed Train (KCJB) *Whoosh* and the Jabodebek (Jakarta, Bogor, Depok, Bekasi) LRT, both of which are National Strategic Projects mandated by the Indonesian Government.

In conducting its business, KAI organizes its operational activities into various business segments, as stipulated by the applicable Financial Accounting Standards Statement (PSAK 5) in Indonesia. KAI's business segments include Transportation Services, Non-Transportation Services, and Construction. These segments further comprise several derivative business areas that generate income for the Company, including passenger transportation, freight transportation, railway transportation support, non-transportation income, and government compensation, which consists of Public Service Obligations (PSO), Infrastructure Maintenance and Operation (IMO), and Pioneers.

**ANGKUTAN PENUMPANG**

Di tahun 2024, KAI melakukan sejumlah inovasi produk layanan seperti Kereta *Panoramic*, Kereta Kompartemen dan modifikasi kursi kereta ekonomi menjadi *New Generation*. KAI berkomitmen untuk terus menghadirkan inovasi yang mendukung kebutuhan pelanggan di era digital, salah satunya dengan menghadirkan *Access by KAI* dan *face recognition boarding gate* untuk mempermudah para pelanggan. Hal ini merupakan bukti nyata bahwa KAI terus berkomitmen memberikan pelayanan terbaik kepada pelanggan baik dari sisi operasional, digitalisasi maupun inovasi keberlanjutan.

Moda transportasi kereta api ringan LRT memiliki lintasan sepanjang 41,2 kilometer yang diharapkan menjadi alternatif transportasi nyaman dan aman bagi masyarakat. Selain layanan prima, sejumlah stasiun LRT juga sudah terintegrasi dengan berbagai moda transportasi lain, antara lain dengan Kereta Rel Listrik (KRL), *Bus Rapid Transit*/Bus Raya Terpadu (BRT), Transjakarta, JakLingko/MikroTrans, hingga KCJB.

**PASSENGER TRANSPORTATION**

In 2024, KAI implemented several service innovations, including Panoramic Trains, Compartment Trains, and an upgrade of economy class train seats to a New Generation. KAI is committed to continually introducing innovations that meet customer needs in the digital age. This includes initiatives like Access by KAI and the introduction of face recognition boarding gates, designed to enhance customer convenience. These efforts demonstrate KAI's commitment to providing the best service to customers, focusing on operations, digitalization, and sustainable innovation.

The LRT (Light Rail Transit) has a total track length of 41.2 kilometers, offering a comfortable and safe transportation alternative for the community. In addition to excellent service, several LRT stations are integrated with various other transportation modes, including the Electric Rail Train (KRL), Bus Rapid Transit/Integrated Bus Raya (BRT), Transjakarta, JakLingko/MikroTrans, and the KCJB.

Sementara KCJB *Whoosh* yang merupakan kereta cepat pertama di Indonesia dan Asia Tenggara dengan kecepatan 350 kilometer perjam. Keberadaan LRT dan KCJB juga menjadi perwujudan komitmen Pemerintah melakukan modernisasi transportasi massal yang efisien, ramah lingkungan, serta terintegrasi dengan moda transportasi lainnya. Keberadaan LRT Jabodebek dan KCJB *Whoosh* mendapatkan sambutan positif dari masyarakat.

Informasi kinerja jasa angkutan di tahun 2024 adalah berikut:

Meanwhile, the KCJB *Whoosh* is Indonesia's first fast train and the fastest in Southeast Asia, reaching speeds of up to 350 kilometers per hour. The introduction of the LRT and KCJB reflects the government's commitment to modernizing mass transportation to be efficient, environmentally friendly, and integrated with other travel options. Both the LRT Jabodebek and the KCJB *Whoosh* have received positive feedback from the public.

Pada tahun 2024, KAI mencatatkan volume penumpang KA utama sebesar 453.343.189 orang. Jumlah ini meningkat 16,6% dari tahun sebelumnya sebesar 388.776.604 orang dan mampu mencapai 103,0% dari target. Peningkatan penumpang KA utama didorong oleh penumpang KA utama kelas eksekutif yang mencatatkan peningkatan 15,23% dari 16.427.175 orang pada tahun 2023 menjadi 18.923.496 orang pada tahun 2024. Peningkatan ini disebabkan oleh animo masyarakat dan wisatawan asing menggunakan moda jasa angkutan kereta api meningkat sehingga dapat dilakukan optimalisasi rangkaian, optimalisasi frekuensi KA, optimalisasi tarif, dan penyesuaian alokasi *subclass* tempat duduk pada saat *peak season* (angkutan Lebaran, libur sekolah, angkutan Nataru), beberapa KA tambahan pada relasi-relasi potensial dapat dijalankan dan penambahan KA Luxury di beberapa KA. Selain itu dilakukan *rerouting* KA Argo Parahyangan menjadi 3 KA Baru yaitu KA Malabar 2, KA Pangandaran dan KA Papandayan, perpanjangan relasi KA Blambangan Ekspres sampai dengan stasiun Pasar Senen per 25 Juli 2024 sebagai upaya untuk peningkatan volume dan pendapatan di rute-rute yang potensial.

In 2024, KAI recorded a main train passenger volume of 453,343,189 people. This figure increased by 103.0% from the previous year's total of 388,776,604 passengers, achieving 103.0% of the target. The growth in main train passengers was mainly driven by the executive class, which reported an increase of 15.23%, rising from 16,427,175 passengers in 2023 to 18,823,496 in 2024. This increase was attributed to This increase is due to the increasing enthusiasm of the public and foreign tourists to use the railway transportation mode so that optimization of the series, optimization of train frequency, optimization of fares, and adjustment of subclass allocation of seats during the peak season (Lebaran transportation, school holidays, Nataru transportation) can be carried out, several additional trains on potential relations can be run and the addition of Luxury trains on several trains. In addition, the Argo Parahyangan train was rerouted into 3 new trains, namely the Malabar 2 train, the Pangandaran train and the Papandayan train, the extension of the Blambangan Ekspres train relationship to Pasar Senen station as of July 25, 2024 as an effort to increase volume and income on potential routes.

Peningkatan volume penumpang juga terjadi pada KA utama kelas bisnis. Di tahun 2024, penumpang KA utama kelas bisnis tercatat sebesar 1.804.265 orang, meningkat 9,8% dibandingkan capaian tahun 2023 sebesar 1.642.947 orang.

KA utama kelas ekonomi turut mencatatkan kinerja baiknya. KA utama kelas ekonomi melayani 30.524.135 orang, meningkat 12,1% dibandingkan dengan tahun sebelumnya sebesar 27.233.710 orang. Volume penumpang KA lokal ekonomi juga mencatatkan peningkatan 17,1%, dari 343.472.771 orang pada tahun 2023 menjadi 402.091.293 orang pada tahun 2024.

### Pangsa Pasar Angkutan Penumpang

KAI mengidentifikasi pangsa pasar angkutan penumpang dapat dilihat berdasarkan segmentasi pasar dan metode pembelian tiket. Target pasar pengguna jasa kereta api terbagi ke dalam 2 (dua) kategori, yaitu pelanggan yang melakukan pembelian tiket melalui aplikasi (*online*) dan pelanggan yang melakukan pembelian tiket secara langsung pada loket yang ada di stasiun (*offline*). Seiring dengan digitalisasi yang terus berkembang dan perubahan gaya hidup Masyarakat, pembelian tiket secara *online* mengalami peningkatan. Masyarakat cenderung melakukan pembelian tiket secara *online* dengan berbagai variasi aplikasi yang beragam. Mendukung hal tersebut, KAI melakukan berbagai strategi untuk memberikan kemudahan bagi pelanggan yang ingin melakukan pembelian tiket.

Informasi terkait pangsa pasar KA penumpang berdasarkan jumlah penumpang dapat dilihat pada tabel berikut.

### Langkah Strategis KAI Pada Jasa Angkutan Penumpang

Dalam upaya meningkatkan daya saing dan memperkuat posisi di pasar, berikut adalah langkah strategis yang dilakukan oleh KAI sepanjang tahun 2024:

- Strategi tarif pada masa angkutan Lebaran, Libur Idul Adha, liburan sekolah, angkutan Natal 2024 dan Tahun Baru 2025, serta pada masa peak season lainnya.
- Penyesuaian alokasi subclass TD.

Business class main train passengers also saw a rise in numbers. In 2024, there were 1,804,265 business class main train passengers, marking an increase of 9.8% compared to that of 2023 at 1,642,947 passengers.

Economy class main trains also performed well, serving 30,524,135 passengers in 2024, an increase of 12.1% from the previous year's total of 27,233,710 passengers. Furthermore, the volume of local economy train passengers recorded an increase of 17.1%, rising from 343,472,771 passengers in 2023 to 402,091,293 in 2024.

### Passenger Transportation Market Share

KAI analyzed the passenger transportation market share based on market segmentation and ticket purchasing methods. The target market for train service users is divided into 2 (two) categories: customers who purchase tickets through applications (*online*) and customers who buy tickets directly at the station counter (*offline*). With the ongoing development of digitalization and changing lifestyles, online ticket purchases have seen growth. People increasingly prefer to buy tickets online through various applications. To facilitate this trend, KAI has implemented several strategies to enhance the convenience of ticket purchases for its customers.

Information related to the passenger train market share, outlined by the number of passengers, can be found in the accompanying table.

### KAI's Strategic Initiatives in Passenger Transportation Services

In an effort to increase competitiveness and strengthen its position in the market, the following are strategic initiatives taken by KAI throughout 2024:

- Tariff strategy during the Lebaran transportation period, Eid al-Adha holidays, school holidays, Christmas transportation in 2024 and New Year 2025, and during other peak seasons.
- Adjustment of TD subclass allocation.

Segmen jasa angkutan penumpang berhasil merealisasikan pendapatan sebesar Rp 11,91 triliun pada tahun 2024. Realisasi ini meningkat 19,9% atau mampu mencapai 109,2% dari target. Secara keseluruhan, capaian ini didorong oleh pendapatan KA utama kelas eksekutif sebesar Rp 5,19 triliun, naik 15,3% dari tahun sebelumnya sebesar Rp4,51 triliun. KA utama kelas eksekutif dengan pendapatan tertinggi diantaranya KA Taksaka, KA Sembrani, KA Argo Bromo Anggrek, KA Argo Semeru, dan KA Bima.

In 2024, the passenger transportation service segment generated revenue of Rp11.91 trillion, an increase of 19.9% or 109.2% of the target. Overall, the growth was primarily driven by the revenue from the executive class main train, which reached Rp5.19 trillion, reflecting an increase of 15.3% compared to that of the previous year at 4.51 trillion. The executive class main train with the highest revenue is the KA Taksaka, KA Sembrani, KA Argo Bromo Anggrek, KA Argo Semeru, and KA Bima.

### ANGKUTAN BARANG

Segmen angkutan barang pada umumnya berfokus pada angkutan batu bara yang merepresentasikan lebih dari 75% porsi pendapatan angkutan barang pada KAI selama periode 2018-2022. Selain batu bara, KAI juga mengangkut beberapa komoditas lain seperti peti kemas, semen, dan bahan bakar minyak mentah (BBM) atau minyak sawit mentah (CPO).

### FREIGHT TRANSPORTATION

The freight transportation segment mainly focuses on coal, which accounts for over 75% of KAI's freight revenue from 2018 to 2022. In addition to coal, KAI also transports various other commodities, including containers, cement, crude oil (BBM), and crude palm oil (CPO).

Di sepanjang tahun 2024, sektor angkutan barang berhasil mencatatkan kinerja positif. Volume barang tercatat sebesar 69,2 ton barang, naik 8,65% dibandingkan dengan volume tahun 2023 sebesar 63.694.966 ton barang dan berhasil mencapai 1,29% dari target yang telah ditentukan.

Peningkatan volume barang didorong oleh realisasi batu bara yang mencapai 55.645.263 ton, disusul oleh peti kemas sebesar 5.821.791 ton, semen sebesar 3.489.261 ton, BBM sebesar 2.667.441 ton, barang lainnya sebesar 1.353.049 ton dan *General Cargo* dan BHP sebesar 224.865 ton.

KAI memberikan layanan dengan fasilitas yang memberikan nilai tambah bagi pelanggan, seperti pelayanan yang tepat waktu, layanan *first mile* dan *last mile* yang *cost-competitive*, serta kapasitas angkut yang besar dan bahkan disertai dengan layanan *pick up*. Pelayanan yang masih terkonsentrasi di Jawa dan Sumatra membuka peluang yang sangat besar bagi KAI untuk melakukan ekspansi bisnis ke luar Jawa dan Sumatra.

Potensi pasar batu bara, serta potensi pengembangan kapasitas bongkar muat, seperti pengembangan Terminal Kramasan, menawarkan peluang untuk meningkatkan kapabilitas operasional dan memperluas jaringan. Selain itu, munculnya teknologi ramah lingkungan juga menjadi kesempatan bagi KAI untuk menggaet pangsa pasar yang lebih besar mengingat kereta api cenderung lebih ramah lingkungan jika dibandingkan dengan moda transportasi darat lainnya

In 2024, the freight transportation sector demonstrated positive performance, with a recorded volume of 69,201,670 tons of goods. This reflects an increase of 8.6% compared to the previous year's volume of 63,694,966 tons and achieved 1.3% of the set target.

The increase in goods volume was attributed to coal transportation reaching 55,645,263 tons, followed by containers at 5,821,791 tons, cement at 3,489,261 tons, fuel at 2,667,441 tons, plantations at 693,412 tons, other goods at 635,457 tons, General Cargo and BHP at 224,865 tons, and fertilizers of 24,180 tons.

KAI provides services by offering value-added features, such as timely delivery, cost-effective first mile and last mile services, large transport capacity, and pickup services. Services concentrated in Java and Sumatra present significant opportunities for KAI to expand its operations beyond Java and Sumatra.

The coal market's potential, along with the opportunities for developing loading and unloading capacity, such as the development of the Kramasan Terminal, will present opportunities to improve operational capabilities and facilitate network expansion. Additionally, the introduction of environmentally friendly technology offers KAI a chance to capture a larger market share, especially since trains are generally more environmentally friendly compared to other land transportation modes.

### Pangsa Pasar Angkutan Barang

Melayani jasa angkut barang, KAI memiliki pangsa pasar yang terdiri dari beberapa Perusahaan di antaranya :

- Perusahaan produsen seperti semen, BBM dan batu bara;
- Perusahaan perkebunan seperti CPO dan latex;
- Perusahaan logistik seperti peti kemas dan limbah Bahan Berbahaya Beracun (B3).

Perusahaan tersebut memilih menggunakan kereta api dibandingkan dengan moda transportasi lainnya karena kereta api memiliki daya angkut yang besar serta tingkat ketepatan waktu pengiriman barang. Pada lingkup nasional, jalur kereta api KAI tersedia di Pulau Jawa dan Sumatera.

Informasi terkait pangsa pasar KA Barang berdasarkan jumlah barang dapat dilihat pada tabel berikut.

Pada segmen usaha jasa angkutan barang, KAI berupaya memperluas angkutan ekspor-impor *multicommodity*, membangun terminal bongkar muat *multi user* di Kramasan, melanjutkan pengembangan *container yard* Batubara Merapi 2, hingga mengoptimalkan dan memperluas bisnis kurir termasuk pengiriman keluar Pulau Jawa dan Sumatera.

KAI telah menentukan sejumlah langkah strategis untuk meningkatkan produktivitas jasa angkutan barang. Dengan demikian KAI dapat menjaga stabilitas usaha sehingga dapat bertahan dan berkembang di tengah berbagai ancaman.

### Langkah Strategis Pada Jasa Angkutan Barang

Dalam upaya meningkatkan daya saing dan memperkuat posisi di pasar, berikut adalah langkah strategis yang dilakukan oleh KAI sepanjang tahun 2024:

1. Kenaikan Tarif Batubara sebesar 4% dan Non Batubara sebesar 2-5%;

### Freight Transportation Market Share

KAI provides freight transportation services and holds a market share that includes several types of companies, such as:

- Manufacturing companies such as cement, fuel, and coal;
- Plantation companies such as CPO and latex;
- Logistics companies such as container transport and hazardous waste (B3)

These companies prefer using trains over other modes of transportation due to trains' large carrying capacity and high punctuality in delivering goods. At the national level, KAI operates railway lines on the islands of Java and Sumatra.

Information on the market share of freight trains based on the volume of goods transported is available in the following table:

In the freight transportation service sector, KAI strives to expand its multicommodity export-import transportation. construct a multi-user loading and unloading terminal in Kramasan, continue the development of the Batubara Merapi 2 container yard, and optimize the courier business, which includes shipping services outside of Java and Sumatera.

KAI has outlined several strategic measures to enhance the productivity of its freight transportation services. Therefore, KAI aims to maintain business stability, ensuring that it can thrive and grow despite various challenges.

### Strategic Initiatives in Freight Transportation Services

To increase competitiveness and strengthen its market position, KAI implemented the following strategic initiatives throughout 2024:

1. Increase in Coal Tariff by 4% and Non-Coal by 2-5%;

- Optimalisasi KA Batubara Sumsel dengan pemindahan Sarana ex KA merugi dari Jawa ke Sumatera Selatan, penambahan SF KA Batubara, modifikasi trainset/gerbong KKBW, dan efektivitas waktu tunggu terminal (WTT);
- Investasi Sarana 54 Lokomotif CC205, 1.125 GD 54 Ton dan 966 GB 50 Ton;
- Pengoperasian jalur 11 CY FMS dan jalur 12 CY WBS di Stasiun Simpang;
- Pembangunan CY MIP di Stasiun Merapi dan TULS Kramasan oleh PT KAI LOGISTIK;
- Menjalankan uji coba program angkutan *National Logistics Ecosystem* (NLE); dan
- Menjalankan program Sinergi Produk General Cargo (GenCo) oleh KAI Group, ASDP Group dan DAMRI.

Sejumlah langkah strategis yang dijalankan KAI untuk meningkatkan kinerja jasa angkutan barang turut mendorong pendapatan pada segmen ini mencapai 98,7% target. Informasi pendapatan jasa angkutan barang adalah sebagai berikut:

- Optimization of South Sumatra Coal Train by moving ex-loss-making Train Facilities from Java to South Sumatra, adding Coal Train SF, modifying KKBW trainset/carriages, and effectiveness of terminal waiting time (WTT);
- Investment in Facilities of 54 CC205 Locomotives, 1,125 GD 54 Tons and 966 GB 50 Tons;
- Operation of 11 CY FMS line and 12 CY WBS line at Simpang Station;
- Construction of CY MIP at Merapi Station and TULS Kramasan by PT KAI LOGISTIK;
- Running a trial of the National Logistics Ecosystem (NLE) transportation program; and
- Running the General Cargo Product Synergy (GenCo) program by KAI Group, ASDP Group and DAMRI.

These strategic steps taken by KAI to improve the performance of freight services have also driven revenue in this segment to reach 98.7% target. Information on freight service revenue is as follows:

#### Freight Transportation Services Revenue

(In Thousand of Rupiah)

#### Batu Bara

Volume batu bara yang diangkut pada tahun di tahun 2024 sebesar 55,6 juta ton atau mencapai 100,2% dari target sebesar 55,5 juta ton. Pendapatan batu bara tercatat sebesar Rp11,3 triliun, meningkat dari tahun sebelumnya sebesar 11,2%. Terdapat beberapa kendala yang dihadapi KAI pada segmen in, di antaranya:

#### Coal

In 2024, the volume of coal transported reached 55.6 million tons, accounting for 100.2% of the target of 55.5 million tons. Revenue from coal amounted to Rp11.3 trillion, marking an increase of 11.2% from the previous year. KAI encountered several challenges in this segment, including:

#### Justifikasi :

1. Rawatan terencana dan gangguan *Train Loading System* (TLS), *Rotary Coal Dumper* (RCD) dan *Apron Feeder* (AF);
2. Dampak Kecelakaan Kereta Api (KKA) dan Non Kecelakaan Kereta Api (NKKA);
3. Dampak *Window Time* (WT);
4. Terdapat mitra yang tidak berjalan maksimal (PT Bima Putra Abadi Citranusa, PT Bukit Bara Alam, PT Bara Manunggal Sakti, PT Golden Great Borneo) dampak penurunan harga batubara dunia.
5. Pembatasan *hauling* pada saat Lebaran, Natal dan tahun baru selama 24 hari.

#### Upaya :

1. Minimalisir kendala alat produksi *Train Loading System* (TLS), *Rotary Coal Dumper* (RCD) dan *Apron Feeder* (AF).
2. Efektivitas waktu perjalanan kereta api (WPKA) semula 1,92 menjadi 1,82 untuk KA Baratarahan dan efektifitas WPKA semula 0,87 menjadi 0,71 untuk KA Barapati.
3. Optimasi penambahan SF 61 KA Baratarahan.
4. Modif gerbong KKBW 45 Ton sebagai pengganti trainset (TS) Rumania.
5. Penambahan stamformasi (SF) semula 30 GB menjadi 32 GB KA Barapati.
6. Optimasi TS Idle Mitra Swasta.
7. Optimalisasi 2 TS GD 42 dari Jawa pada KA Baraswasta.
8. Pengoperasian *Double Track* ME-MLI.
9. Uji coba Angkutan Batubara Swasta PT Kereta Api Logistik relasi Muaralawai – Simpang tmt 20 Desember 2024 dengan SF 61.

#### Peti Kemas

Hingga 31 Desember 2024, realisasi pendapatan peti kemas mencapai Rp475,9 miliar atau 108,6% dari target sebesar Rp438,3 miliar. Volume tercapai 5,8 juta ton atau 109,5 % dari target sebesar 5,3 juta ton. Realisasi pendapatan dan volume peti kemas mencapai anggaran dikarenakan:

1. Penambahan Hari Operasi pada beberapa mitra antara lain PT KALOG dan PT BWI.
2. Optimasi potensi market dengan mengakomodir Angkutan Balen Limbah B3.
3. Peningkatan volume Petikemas PT SMNT dan PT PIL di Divre I.
4. Penambahan SF KA Kalmas semula 20 GD menjadi 30 GD.

#### Justification:

1. Planned maintenance and disruption of *Train Loading System* (TLS), *Rotary Coal Dumper* (RCD) and *Apron Feeder* (AF);
2. Impact of Train Accidents (KKA) and Non-Train Accidents (NKKA);
3. Impact of *Window Time* (WT);
4. There are partners that are not running optimally (PT Bima Putra Abadi Citranusa, PT Bukit Bara Alam, PT Bara Manunggal Sakti, PT Golden Great Borneo) due to the decline in world coal prices.
5. *Hauling* restrictions during Eid, Christmas and New Year for 24 days.

#### Efforts:

1. Minimizing the constraints of *Train Loading System* (TLS), *Rotary Coal Dumper* (RCD) and *Apron Feeder* (AF) production tools.
2. Effectiveness of train travel time (WPKA) originally 1.92 to 1.82 for KA Baratarahan and effectiveness of WPKA originally 0.87 to 0.71 for KA Barapati.
3. Optimization of the addition of SF 61 KA Baratarahan.
4. Modification of KKBW 45 Ton carriages as a replacement for the Rumanian trainset (TS).
5. Addition of stamformation (SF) originally 30 GB to 32 GB KA Barapati.
6. Optimization of TS Idle Private Partners.
7. Optimization of 2 TS GD 42 from Java on KA Baraswasta.
8. Operation of *Double Track* ME-MLI.
9. Trial of Private Coal Transportation of PT Kereta Api Logistik on the Muaralawai – Simpang route on December 20, 2024 with SF 61.

#### Containers

As of December 31, 2024, the realized container revenue totaled Rp475.9 billion, which is 108.6% of the budgeted amount of Rp438.3 billion. The volume achieved was 5.8 million tons, representing 109.5% of the target of 5.3 million tons. The realization of revenue and container volume met/did not meet the budget for the following reasons:

1. Additional Operating Days for several partners including PT KALOG and PT BWI.
2. Optimization of market potential by accommodating B3 Waste Balen Transportation.
3. Increase in the volume of PT SMNT and PT PIL Containers in Divre I.
4. Addition of SF KA Kalmas from 20 GD to 30 GD.

### BBM

Realisasi pendapatan sebesar Rp387,1 miliar atau 103,8% dari target sebesar Rp372,8 miliar dan volume tercapai 2,6 juta ton atau 102,9% dari target sebesar 2,5 juta ton. Capaian volume dan pendapatan ini disebabkan oleh meningkatnya angkutan bahan bakar minyak (BBM) dari PT Pertamina khususnya pada masa Peak Season (masa liburan Natal, Tahun Baru, Idul Fitri, Idul Adha dan masa liburan sekolah/hari besar keagamaan).

### Semen

Hingga 31 Desember 2024, realisasi pendapatan semen mencapai 97,5% dari target sebesar Rp220,8 miliar. Volume tercapai 3,4 juta ton atau 91,9 % dari target sebesar 3,7 juta ton.

#### Justifikasi :

1. Angkutan Semen PT ITP relasi Nambo – Kalimas stop beroperasi bulan Februari 2024 dan Arjawinangun – Semarang Poncol stop operasi bulan Maret 2024 (armada kirim Sumsel).
2. Penurunan volume KA Semen Padang dampak kebijakan Holding Semen Indonesia membatasi area penjualan.

#### Upaya:

1. Koordinasi antara KAI, KALOG dan PT ITP terkait isu-isu dan peningkatan PO Angkutan Semen dari Stasiun Arjawinangun dan Nambo.
2. Melakukan negosiasi dengan PT Semen Padang untuk meningkatkan volume angkutan dari 75.000 gerbong menjadi 79.000 gerbong dan meminimalisir gangguan alat produksi.

### Perkebunan

Realisasi pendapatan perkebunan sebesar Rp139 miliar atau 95,8% dari target sebesar Rp145 miliar dan volume tercapai 693 ribu ton atau 85,1% dari target sebesar 815 ribu ton. Ketidakcapaian volume dan pendapatan ini disebabkan oleh:

- **Justifikasi:**  
Angkutan CPO PTPN III belum maksimal dikarenakan market CPO lebih banyak yang menggunakan Truk (tidak ada jalur KA).
- **Upaya:**  
Melakukan negosiasi dengan PTPN untuk penerapan target minimum dan mengoptimalkan DO sesuai dengan program angkutan.

### Fuel

The realization of revenue of Rp387.1 billion or 103.8% of the target of Rp372.8 billion and the volume achieved 2.6 million tons or 102.9% of the target of 2.5 million tons. The achievement of volume and revenue was due to the increase in fuel transportation from PT Pertamina, especially during the Peak Season (Christmas, New Year, Eid al-Fitr, Eid al-Adha holidays and school holidays/religious holidays).

### Cement

Until December 31, 2024, cement revenue realization reached 97.5% of the target of Rp220.8 billion. Volume reached 3.4 million tons or 91.9% of the target of 3.7 million tons.

#### Justification:

1. PT ITP Cement Transportation on the Nambo – Kalimas route will stop operating in February 2024 and Arjawinangun – Semarang Poncol will stop operating in March 2024 (South Sumatra delivery fleet).
2. The decrease in the volume of Semen Padang trains is the impact of the Semen Indonesia Holding policy to limit sales areas.

#### Efforts:

1. Coordination between KAI, KALOG and PT ITP regarding issues and improvements in PO Angkutan Semen from Arjawinangun and Nambo Stations.
2. Negotiating with PT Semen Padang to increase the volume of transportation from 75,000 carriages to 79,000 carriages and minimize disruptions to production equipment.

### Plantation

The realization of plantation income was Rp139 billion or 95.8% of the target of Rp145 billion and the volume achieved was 693 thousand tons or 85.1% of the target of 815 thousand tons. The failure to achieve volume and income was caused by:

- **Justification:**  
PTPN III CPO transportation is not yet optimal because the CPO market uses more trucks (there are no railway lines).
- **Efforts:**  
Negotiating with PTPN for the implementation of minimum targets and optimizing DO in accordance with the transportation program.

### General Cargo dan BHP

Hingga 31 Desember 2024, realisasi pendapatan sebesar Rp162 miliar atau 94,2% dari target sebesar Rp172 miliar dan volume tercapai 224 ribu ton atau 84,8% dari target sebesar 265 ribu ton. Ketidakcapaian volume dan pendapatan ini disebabkan oleh :

- **Justifikasi:**  
KA Parcel Selatan (ONS), KA BHP Tawangalun dan KA BHP Joglosemarkerto di tahun 2024 tidak beroperasi dampak penurunan market.
- **Upaya :**
  1. Menjalankan BHP KA Pandalungan relasi Gambir – Jember mulai bulan Januari 2024.
  2. Menjalankan BHP KA Blambangan Ekpress relasi Pasar Senen – Ketapang mulai bulan Agustus 2024.

### Angkutan Barang Lainnya

Realisasi pendapatan pupuk mencapai Rp2,7 miliar atau 79,9% dari target sebesar Rp3,4 miliar. Volume tercapai 24 ribu ton atau 64,5% dari target sebesar 37 ribu ton. Realisasi pendapatan dan volume angkutan barang lainnya tidak mencapai target dikarenakan :

- **Justifikasi :**
  1. Angkutan Pupuk relasi Cilacap – Pupuk berhenti menggunakan Kereta Api (dampak peralihan distribusi pupuk semula dari PT Pusri Cilacap menjadi PT Pupuk Kujang dan tidak menggunakan KA).
  2. Persentase Pendapatan lebih tinggi dari Volume dikarenakan adanya kenaikan tarif.
- **Upaya :**  
Penambahan Perjalanan KA Pupuk relasi Cilacap – Ceper dari yang sebelumnya seminggu sekali menjadi seminggu 3(tiga)kali.

### Upaya Peningkatan Kinerja Angkutan Barang

Untuk meningkatkan kinerja angkutan barang, KAI menjalin kerja sama dengan pelaku usaha di bidang logistik maupun pemilik barang untuk menciptakan sistem logistik yang efektif dan efisien. Kerja sama yang dijalin oleh KAI di antaranya:

1. Kerja sama jasa pengangkutan barang komoditi batu bara, peti kemas, semen, BBM/ BBK Pertamina, CPO, Pupuk, Pulp, dan angkutan barang paketan pada kereta bagasi. Pada 2024.
2. Integrasi aplikasi komoditi batu bara antara PT KAI dengan PT Bukit Asam.

### General Cargo and BHP

As of December 31, 2024, the realization of revenue was Rp162 billion or 94.2% of the target of Rp172 billion and the volume achieved was 224 thousand tons or 84.8% of the target of 265 thousand tons. The failure to achieve this volume and revenue was caused by:

- **Justification:**  
The South Parcel Train (ONS), BHP Tawangalun Train and BHP Joglosemarkerto Train will not operate in 2024 due to the impact of the market decline.
- **Efforts:**
  1. Running the BHP of the Pandalungan train on the Gambir – Jember route starting in January 2024.
  2. Running the BHP of the Blambangan Express train on the Pasar Senen – Ketapang route starting in August 2024.

### Other Freight Transportation

The realization of fertilizer revenue reached IDR2.7 billion or 79.9% of the target of IDR3.4 billion. The volume achieved was 24 thousand tons or 64.5% of the target of 37 thousand tons. The realization of revenue and volume of other goods transportation did not reach the target due to:

- **Justification:**
  1. Fertilizer transportation on the Cilacap – Pupuk route stopped using the Train (the impact of the transfer of fertilizer distribution from PT Pusri Cilacap to PT Pupuk Kujang and no longer using the Train).
  2. The percentage of Revenue was higher than the Volume due to an increase in tariffs.
- **Efforts:**  
Additional Fertilizer Train Trips on the Cilacap – Ceper route from once a week to 3 (three) times a week.

### Other Freight Transportation

To improve the performance of freight transportation, KAI collaborates with business actors in the logistics sector and goods owners to create an effective and efficient logistics system. The collaborations established by KAI include:

1. Cooperation in the transportation services of coal commodities, containers, cement, BBM/BBK Pertamina, CPO, Fertilizer, Pulp, and package goods transportation on baggage trains. In 2024.
2. Integration of coal commodity applications between PT KAI and PT Bukit Asam.

3. Kerja sama non-angkutan kereta api, yaitu kesepakatan kerja sama dengan anak perusahaan KAI Logistik atau pihak ketiga lainnya untuk menangani Lo-Lo.
4. Implementasi program NLE untuk integrasi dan sinergi program NLE untuk integrasi dan sinergi jalur KA dengan pelabuhan melalui MoU antara PT Kereta Api Indonesia (Persero) dengan PSA Indonesia PTE, LTD
5. Sinergi produk untuk integrasi angkutan *general cargo* (Genco) *end to end* multimoda lintas pulau dengan melibatkan anak perusahaan KAI Logistik dan pihak ketiga lainnya
3. Non-railway transportation cooperation, namely a cooperation agreement with KAI Logistik subsidiaries or other third parties to handle Lo-Lo.
4. Implementation of the NLE program for the integration and synergy of the NLE program for the integration and synergy of railway lines with ports through an MoU between PT Kereta Api Indonesia (Persero) and PSA Indonesia PTE, LTD
5. Product synergy for the integration of end-to-end multimodal general cargo (Genco) transportation across islands by involving KAI Logistik subsidiaries and other third parties

### KINERJA JASA PENDUKUNG ANGKUTAN KA

Jasa pendukung angkutan KA terdiri dari layanan prapurna dan bongkar muat, *service on train* dan restorasi, serta jasa pendukung lainnya. Pendapatan pada segmen ini umumnya berasal dari pendapatan suplesi, bagasi, pendapatan administrasi pembatalan tiket, *loading unloading*, jasa prapurna, *service on train* serta restorasi dari anak perusahaan.

Pada tahun 2024 pendapatan jasa pendukung angkutan KA mencapai Rp1,01 triliun atau 98,1% dari target. Realisasi pendapatan mengalami penurunan dikarenakan oleh penurunan komoditi dan pemberhentian sementara kegiatan bongkar muat di beberapa relasi sehingga berdampak pada pendapatan *loading* dan *unloading*.

### KINERJA JASA NON-ANGKUTAN

Segmen jasa non-angkutan KAI meliputi beberapa komponen, yaitu pendapatan optimalisasi aset, pekerjaan pihak ketiga dan lainnya dengan rincian sebagai berikut:

- **Pendapatan Optimalisasi Aset**  
Pendapatan optimalisasi aset merupakan pendapatan sewa menyewa properti di dalam dan di luar stasiun. Pendapatan ini meliputi sewa sarana, sewa lahan parkir, sewa bufet/kios stasiun, sewa gudang/ruang stasiun, sewa rumah peristirahatan, sewa mes dan wisma, sewa rumah perusahaan, sewa bangunan, dan sewa tanah.
- **Pekerjaan Pihak Ketiga**  
Pekerjaan pihak ketiga merupakan pendapatan yang berasal dari penjualan jasa teknis. Pendapatan ini meliputi perawatan kereta makan, perawatan rangka dasar, dan pendapatan penjualan jasa pekerjaan teknis.
- **Pendapatan Non-Angkutan Lainnya**  
Pendapatan non-angkutan lainnya meliputi periklanan/*advertising*, percetakan, kesehatan medis, pengembalian kas TGR.

### RAILWAY TRANSPORTATION SUPPORTING SERVICES PERFORMANCE

Railway transportation supporting services consist of pre-finish, loading and unloading services, on-train services, and restoration services, among others. Revenue in this segment primarily comes from supply revenue, baggage fees, ticket cancellation administration, loading/unloading, pre-finish services, on-train services, and restoration services from subsidiaries.

In 2024, revenue from supporting services for rail transportation reached Rp1.01 trillion, which is 98.1% of the target. Revenue realization decreased due to a decrease in commodities and the temporary suspension of loading and unloading activities in several relations, which had an impact on loading and unloading revenue.

### NON-TRANSPORTATION SERVICES PERFORMANCE

KAI's non-transportation service segment includes several components, namely asset optimization revenue, third-party work, and others, detailed as follows:

- **Asset Optimization Revenue**  
Asset Optimization Revenue consists of rental income from properties inside and outside stations. It includes rental of Rolling Stock, parking spaces, station buffets/kiosks, warehouses/station rooms, rest houses, dormitories and guesthouses, company houses, buildings, and land.
- **Third-Party Work**  
Third-Party Work consists of revenue from the sale of technical services. It includes the maintenance of dining cars, underframe maintenance, and revenue from the sale of technical work services.
- **Other Non-Transportation Income**  
This includes advertising, printing, medical health services, and TGR cash refunds.

### Kinerja Jasa Non Angkutan

Selama tahun 2024, KAI mencatatkan kinerja jasa non angkutan mengalami kenaikan sebesar 7%.

### Non-Transportation Service Performance

In 2024, KAI recorded an increase in non-transportation service performance of 7%.

### Sarana Produksi

Dalam upaya mendukung usaha Perseroan, KAI juga memiliki beragam sarana atau alat produksi seperti lokomotif, KRDE/I, KRL, kereta dan gerbong. Uraian mengenai sarana produksi KAI untuk tahun 2023 dan 2024 dapat dilihat pada tabel berikut ini.

### Production Rolling Stock

To support the company's operations, KAI has a variety of production Rolling Stock such as locomotives, Diesel Multiple Units (KRDE/I), Electric Multiple Units (KRL), coaches, and freight cars. The details of KAI's production Rolling Stock for 2023 and 2024 can be seen in the following table.

### Lokomotif

Realisasi siap operasi (SO) lokomotif tahun 2024 terealisasi 464 unit atau 103,6% dari anggaran 448 unit. Ketercapaian ini disebabkan adanya percepatan perawatan sarana lokomotif di Depo dan Balai Yasa sehingga menambah sarana Siap Operasi guna mendukung operasional angkutan Nataru akhir tahun 2024.

### Locomotive

In 2024, the operational readiness (SO) of locomotives was realized at 464 units or 103.6% of the budget of 448 units. This achievement was due to the acceleration of locomotive maintenance at the Depot and Railway Workshops, thus adding Ready for Operation facilities to support Nataru transportation operations at the end of 2024.

### Kereta Rel Diesel (KRD) dan Kereta Rel Listrik (KRL)

Realisasi siap operasi (SO) KRD dan KRL tahun 2024 terealisasi 994 unit atau 88,0% dari anggarannya 1.129 unit. Realisasi di bawah anggaran dikarenakan adanya beberapa rangkaian yang statusnya masuk konservasi dan terdapat beberapa KRL yang sedang dalam perawatan roda.

### Diesel Rail Train (KRD) and Electric Rail Trains (KRL)

In 2024, the operational readiness (SO) of KRD units reached 994 units or 88.0% of the budget of 1,129 units. The realization was below budget due to several series whose status was in conservation and there were several KRLs that were undergoing wheel maintenance.

### Kereta

Realisasi siap operasi (SO) kereta tahun 2024 terealisasi 1.985 unit atau 122,5% dari anggarannya 1.621 unit. Ketercapaian ini dikarenakan adanya beberapa kereta dengan status konservasi sementara diubah statusnya menjadi SG kembali, adanya penambahan kereta baru INKA, dan selesainya beberapa pekerjaan modifikasi kereta makan.

### Gerbong

Realisasi siap operasi (SO) gerbong tahun 2024 terealisasi 7.725 unit atau 109,5% dari anggarannya 7.055 unit. Realisasi di atas anggaran dikarenakan adanya penambahan armada gerbong yang dianggarkan pada tahun sebelumnya, perawatan di Depo dan Balai Yasa tidak mengalami gangguan atau hambatan sehingga tersedia gerbong SO lebih banyak, dan adanya beberapa gerbong dengan status konservasi sementara diubah statusnya menjadi SG kembali.

### LRT

Realisasi siap operasi (SO) LRT tahun 2024 terealisasi 144 unit atau 77,4% dari anggarannya 186 unit. Realisasi di bawah anggaran dikarenakan 2 trainset belum BAST dan 5 trainset masih menunggu sparepart dari INKA.

### Train

In 2024, the operational readiness (SO) for trains was realized at 1,985 units or 122.5% of the budget of 1,621 units. This achievement was due to the fact that several trains with temporary conservation status had their status changed back to SG, the addition of new INKA trains, and the completion of several modification works for the dining car.

### Carriage

In 2024, the operational readiness (SO) of carriages was achieved at 7,725 units or 109.5% of the budget of 7,055 units. The realization above the budget was due to the addition of the carriage fleet budgeted for the previous year, maintenance at the Depot and Balai Yasa did not experience any disruptions or obstacles so that more SO carriages were available, and several carriages with temporary conservation status had their status changed back to SG.

### LRT

In 2024, the operational readiness (SO) for LRT units was realized at 144 units or 77.4% of the budget of 186 units. The realization was below the budget because 2 trainsets had not yet been BAST and 5 trainsets were still waiting for spare parts from INKA.

### Kilometer Angkutan Penumpang

Realisasi sebesar 28.770.159 Km-pnp atau 103,1% dari anggarannya sebesar 27.912.529 Km-pnp. Kilometer penumpang adalah perkalian antara kilometer tempuh dengan jumlah volume penumpang. Realisasi di atas anggaran, dikarenakan tercapainya target volume penumpang KRL dan volume KA jarak jauh lainnya, serta terdapat rerouting KA Argo Parahyangan menjadi KA rute baru dengan jarak lebih jauh, perpanjangan relasi KA Blambangan Ekspres sampai dengan Stasiun Pasarsenen dan Perpanjangan relasi KA Bandara BIAS semula relasi Klaten - Stasiun Bandara Adi Soemarmo menjadi Stasiun Bandara Adi Soemarmo - Madiun per 10 Desember 2024.

### Kilometer Ton Angkutan Barang

Secara total realisasi sebesar 19.995.600 Km-ton atau 103,4% dari anggarannya sebesar 19.343.689 Km-ton. Kilometer ton angkutan barang adalah perkalian antara kilometer tempuh dengan jumlah ton. Realisasi km-ton barang di atas anggaran dikarenakan oleh:

- Tercapainya Angkutan Batubara PT BA Tarahan dan Kertapati;
- Terdapat kerjasama dengan mitra baru peti kemas di tahun berjalan;
- Peningkatan Angkutan BBM di beberapa daerah

### Passenger Transportation Kilometers

The total achieved was 28,770,159 Km-pnp, which is 103.1% of the budgeted amount of 27,912,529 Km-pnp. Passenger kilometers are calculated by multiplying the kilometers traveled by the number of passengers. The budget surplus is attributed to several factors, including the successful achievement of KRL passenger targets and an increase in long-distance train volumes. Additionally, the rerouting of the Argo Parahyangan train to a longer route, the extension of the Blambangan Ekspres train service to Pasarsenen Station, and the expansion of the BIAS Airport Train service, which now travels from Adi Soemarmo Airport Station to Madiun instead of just from Klaten to Adi Soemarmo Airport Station, effective December 10, 2024, all contributed to this increase.

### Freight Transportation Ton Kilometers

The total achieved was 19,995,600 Km-tons, which is 103.4% of the budgeted amount of 19,343,689 Km-tons. Kilometer-tons for goods transport are calculated by multiplying the kilometers traveled by the number of tons transported. The reasons for exceeding the budget include:

- Successful transportation of coal by PT BA at Tarahan and Kertapati.
- New partnerships established with container transport companies this year.
- An increase in fuel transportation across several areas.

\*) Untuk bagian ini, semakin tinggi fakta menunjukkan kinerja yang menurun / The higher the value of this factor, the worse the performance was.

### Waktu Peredaran Gerbong (WPG)

Realisasi waktu peredaran gerbong rata-rata 1,44 hari atau 71,8% terhadap toleransi yaitu 2,01 hari. Fakta di bawah toleransi menandakan kinerja operasi baik hal ini dikarenakan terpenuhinya gerbong SO untuk memenuhi stamformasi KA barang atas permintaan customer, berkurangnya kelambatan KA barang, serta memaksimalkan penggunaan gerbong SO, dan program WPG 2024.

### Carriage Circulation Time (WPG)

The average carriage circulation time achieved is 1.44 days, which represents 71.8% of the tolerance limit of 2.01 days. This performance, being below the tolerance threshold, indicates good operational efficiency. This success can be attributed to the effective deployment of SO carriages to meet freight train transformations as requested by customers. Additionally, it reflects reduced delays in freight trains, maximized utilization of SO carriages, and the initiatives outlined in the 2024 WPG program.

### Lokomotif Mogok

Realisasi frekuensi lokomotif mogok tahun 2024 terdapat 218 kejadian atau 42,8% terhadap normal kendalanya (toleransi) sebanyak 509 kejadian. Realisasi lokomotif mogok di bawah toleransi. Kategori gangguan yang terjadi pada lokomotif selama tahun 2024 yaitu sistem kontrol listrik (L) 74 kali, motor diesel (MD) 61 kali, traksi motor (TM) 31 kali, sistem udara tekan (SUT) 18 kali, main generator (MG) 14 kali, Gubernur (GOV) sebanyak 9 kali, mekanik bawah (MB) 7 kali, dan mekanik atas (MA) 4 kali. Fakta di bawah toleransi menunjukkan kinerja yang lebih baik, disebabkan karena peningkatan frekuensi perawatan lokomotif yang dilakukan secara berkala dan optimal serta adanya kontrak kerjasama spare part perawatan sarana dengan pabrik.

### Kecelakaan KA

Selama periode tahun 2024 terjadi 5 kali kejadian kecelakaan KA yang terdiri dari: Daop 1 Jakarta 1 kejadian, Daop 2 Bandung 2 kejadian, Daop 8 Surabaya 1 kejadian, dan Divre I Sumatera Utara 1 kejadian. Manajemen senantiasa melakukan evaluasi penyebab kecelakaan tersebut dan memastikan kejadian tersebut tidak terjadi lagi melalui koordinasi dengan pihak eksternal, memastikan budaya keselamatan telah dipahami dan diterapkan oleh seluruh Insan KAI, serta mengimplementasikan sistem manajemen keselamatan perkeretaapian.

### Kinerja Pelayanan dan Keselamatan

Manajemen memastikan kejadian tersebut tidak terjadi lagi melalui koordinasi dengan pihak eksternal serta memastikan budaya keselamatan telah dipahami dan diterapkan oleh seluruh Insan KAI.

### Locomotive Breakdowns

In 2024, there were 218 incidents of locomotive breakdowns, which is 42.8% of the expected norm (tolerance) of 509 incidents. This figure is below the tolerance limit, indicating improved performance. The breakdown incidents were categorized as follows: electrical control system (L) - 74 times, diesel motor (MD) - 61 times, traction motor (TM) - 31 times, compressed air system (SUT) - 18 times, main generator (MG) - 14 times, governor (GOV) - 9 times, lower mechanics (MB) - 7 times, and upper mechanics (MA) - 4 times. This improved performance is due to an increase in the frequency and quality of periodic locomotive maintenance, as well as a cooperative maintenance contract for spare parts with the manufacturer.

### Train Accidents

In 2024, there were a total of 5 train accidents: 1 incident in Daop 1 Jakarta, 2 incidents in Daop 2 Bandung, 1 incident in Daop 8 Surabaya, and 1 incident in Divre I North Sumatra. Management is actively evaluating the causes of these accidents to prevent future occurrences. This includes coordination with external parties, ensuring that a safety culture is properly understood and implemented by all KAI personnel, and the execution of a comprehensive railway safety management system.

### Service and Safety Performance

Management is committed to preventing future incidents through collaboration with external parties and by reinforcing a safety culture that is well understood and implemented by all KAI personnel.

## RATA-RATA KELAMBATAN KA

### Kelambatan KA Penumpang

KA penumpang berangkat mengalami rata-rata keterlambatan 0,09 menit dari toleransi 0,30 menit, sedangkan KA penumpang datang mengalami rata-rata keterlambatan (3,54) menit dari toleransi 2,00 menit. Realisasi persentase kelambatan KA penumpang berangkat berada di atas toleransi disebabkan oleh optimalnya kesiapan dari sarana yang dipergunakan, keandalan prasarana, pengaturan flow penumpang dan informasi kepada penumpang di stasiun keberangkatan yang baik, keteraturan dalam pengaturan dan pengendalian operasi KA, serta rendahnya gangguan yang terjadi di stasiun-stasiun keberangkatan KA.

### Kelambatan KA Barang

KA barang berangkat mengalami rata-rata keterlambatan (76,37) menit dari toleransi 5,00 menit, sedangkan KA barang datang mengalami rata-rata keterlambatan (75,41) menit dari toleransi 10,00 menit. Realisasi persentase kelambatan KA barang berangkat berada di atas toleransi yang disebabkan oleh optimalisasi kapasitas emplasemen stasiun keberangkatan KA barang yang didukung oleh keandalan sarana dan prasarana serta peran dari unit angkutan barang dalam koordinasi dan pemberian informasi kepada ekspenditur atau pengguna jasa angkutan KA barang.

## RATA-RATA KETEPATAN KA

### Ketepatan KA Penumpang

KA penumpang berangkat mengalami rata-rata ketepatan 99,77% menit dari toleransi 99,10 menit, sedangkan KA penumpang datang mengalami rata-rata ketepatan 96,05 menit dari toleransi 92,00 menit. Realisasi persentase ketepatan KA penumpang berangkat berada di atas toleransi

## AVERAGE TRAIN DELAY

### Passenger Train Delay

Passenger trains departing experienced an average delay of 0.09 minutes, exceeding the tolerance of 0.30 minutes. Meanwhile, passenger trains arriving had an average delay of (3.54) minutes, also surpassing the tolerance of 2.00 minutes. The percentage of departing passenger trains that exceeded the delay tolerance was attributed to the optimal readiness of the facilities used, the reliability of the infrastructure, the arrangement of passenger flow and information to passengers at the departure station which was good, the regularity in the arrangement and control of train operations, and the low level of disruptions that occurred at the train departure stations.

### Freight Train Delay

Freight trains departing experienced an average delay of (76.37) minutes, exceeding the tolerance of 5.00 minutes. On the other hand, freight trains arriving had an average delay of (75.41) minutes, which was above the tolerance of 10.00 minutes. The percentage of departing freight trains that exceeded the delay tolerance was due to the optimization of the capacity of the freight train departure station yard supported by the reliability of facilities and infrastructure as well as the role of the freight transportation unit in coordinating and providing information to expeditors or users of freight train transportation services.

## AVERAGE TRAIN PUNCTUALITY

### Passenger Train Punctuality

Departing passenger trains had an average punctuality of 99.77 minutes, from a tolerance of 99.10 minutes. Arrival passenger trains experienced an average punctuality of 96.05 minutes, from a tolerance of 92.00 minutes. The percentage of departing passenger trains achieving punctuality above

disebabkan oleh rendahnya gangguan yang disebabkan oleh unit sarana dan prasarana, ketepatan dalam pengaturan dan pengendalian operasi KA walaupun masih terjadi gangguan yang disebabkan oleh faktor eksternal dan Alam (*Uncontrollable*).

### Ketepatan KA Barang

KA barang berangkat mengalami rata-rata ketepatan 95,12 menit dari toleransi 88,00 menit, sedangkan KA barang datang mengalami rata-rata ketepatan 90,18 menit dari toleransi 85,00 menit. Realisasi persentase ketepatan KA barang berangkat berada di atas toleransi yang disebabkan oleh rendahnya gangguan yang disebabkan oleh unit sarana dan prasarana, ketepatan dalam pengaturan dan pengendalian operasi KA walaupun masih terjadi gangguan yang disebabkan oleh faktor eksternal dan Alam (*Uncontrollable*).

the tolerance was caused by the facilities and infrastructure units, accuracy in the arrangement and control of train operations even though there were still disruptions caused by external and natural factors (*Uncontrollable*).

### Freight Train Punctuality

Departing freight trains experienced an average punctuality of 95.12 minutes, compared to a tolerance of 88.00 minutes. Meanwhile, arrival freight trains had an average punctuality of 90.18 minutes relative to a tolerance of 85.00 minutes. The percentage of departing freight trains attaining punctuality above the tolerance was caused by the facilities and infrastructure units, accuracy in the arrangement and control of train operations even though disruptions caused by external and natural factors (*Uncontrollable*) still occurred.

### Okupansi KA Penumpang

Sepanjang tahun 2024 okupansi KA penumpang terealisasi sebesar 48,5 %, naik sebesar 11,0% dari tahun 2023 sebesar 43,7%. Jumlah ini berada di atas target yaitu 48,5% atau tercapai 106,5% dari anggaran yang telah ditetapkan sebesar 45,5%. Hal ini disebabkan oleh animo masyarakat

### Passenger Train Occupancy

Throughout 2024, passenger train occupancy was realized at 48.5%, up 11.0% from 2023 at 43.7%. This number is above the target of 48.5% or 106.5% of the budget that has been set at 45.5%. This is due to the increasing enthusiasm of the public and foreign tourists to use the railway transportation mode

dan wisatawan asing menggunakan moda jasa angkutan kereta api meningkat sehingga okupansi penumpang juga mulai bertambah, juga dampak dari banyaknya libur dan cuti bersama yang ditetapkan oleh Pemerintah sehingga merangsang pertumbuhan jumlah penumpang pada *peak season* dan memungkinkan untuk dilakukan penambahan frekuensi dan maksimalisasi stamformasi disesuaikan dengan *demand*.

### ASPEK PEMASARAN

Menghadapi dinamika pasar yang semakin kompetitif, Perseroan terus berupaya memperkuat strategipemasarannya secara terintegrasi. Fokus utama KAI adalah melanjutkan strategi penetrasi pasar yang sudah berjalan sebelumnya baik pada angkutan penumpang maupun angkutan barang. Langkah ini dilakukan untuk memastikan produk dan layanan Perseroan dapat menjangkau target konsumen secara efektif dan berkelanjutan.

KAI memiliki media sosial, *website* dan *Access by KAI* sebagai sarana komunikasi terkait produk dan jasa. KAI juga mengomunikasikan perkembangan ketentuan-ketentuan yang berlaku sebagai syarat naik kereta api serta informasi layanan terbaru dari KAI. KAI melakukan penjualan secara langsung kepada konsumen melalui sejumlah *event* dan kegiatan promosi.

Terdapat 2 (dua) aspek pemasaran yang dilakukan oleh KAI yaitu pemasaran *above the line* dan pemasaran *below the line*. Pemasaran *above the line* dilakukan dengan cara sosialisasi dan promosi melalui media sosial dengan memanfaatkan trafik tinggi sehingga dapat langsung berinteraksi dengan target konsumen melalui media sosial dan media internal KAI. KAI juga membuat video berisi konten liputan khusus, peluncuran fitur *Access by KAI*, maupun inovasi terbaru dari KAI lainnya yang ditayangkan melalui media sosial, di stasiun-stasiun, serta di kereta api.

Sedangkan aspek pemasaran *below the line* dilakukan dengan sosialisasi maupun aktivasi yang meningkatkan *brand image* KAI. Misalnya melalui *event* yang dijalankan dengan menyasar kaum milenial, meningkatkan *engagement* KAI dengan pelanggan dengan kegiatan *Sapa Pelanggan*; *surprise gift* bagi pelanggan yang *loyal*; *member Access by KAI*; serta melakukan *sponsorship* untuk menambah aktivasi bagi pengguna KAI *Access*.

so that passenger occupancy has also started to increase, as well as the impact of the many holidays and joint leave set by the Government so that it stimulates the growth of the number of passengers during the peak season and allows for additional frequencies and maximization of stamformation adjusted to demand.

### MARKETING ASPECT

In response to increasingly competitive market dynamics, the Company is committed to strengthening its integrated marketing strategy. KAI's primary focus is to continue the market penetration strategies for both passenger and freight transportation, ensuring that the Company's products and services effectively and sustainably reach target consumers.

KAI utilizes social media, a dedicated website, and the *Access by KAI* application to communicate information about its products and services. They also provide updates on policies and conditions for boarding trains, along with the latest service information. Direct sales to consumers are conducted through various events and promotional activities.

KAI employs 2 (two) marketing strategies: above-the-line marketing and below-the-line marketing. Above-the-line marketing includes social media outreach and promotions utilizing high-traffic platforms, ensuring that KAI's internal media can directly interact with target consumers. KAI produces videos featuring special coverage, launches of the *Access by KAI* feature, and other innovations, which are shared on social media, at train stations, and on trains.

Below-the-line marketing is carried out through outreach and activation activities to enhance KAI's brand image. This includes events targeting millennials, customer engagement initiatives like *Sapa Pelanggan*, surprise gifts for loyal customers, *Access by KAI* membership benefits, and sponsorship activities to enhance KAI *Access* user engagement.

### Integrasi dan Aliansi

KAI terus berupaya meningkatkan kerja sama dengan berbagai pihak untuk memaksimalkan saluran penjualan, baik di *channel Business to Business (B2B)* dan *e-commerce*. Sepanjang tahun 2024 KAI menjalin kerja sama mitra B2B dan mitra lainnya guna meningkatkan layanan di *Access by KAI*. Selain itu, KAI juga menjalin kerja sama intermoda untuk layanan *first mile* dan *last mile* untuk memberikan pelayanan lebih kepada pelanggan. KAI juga telah melakukan integrasi dengan sejumlah pihak ketiga.

### Strategi Harga

KAI telah menerapkan strategi penentuan tarif harga pada segmen angkutan penumpang, dengan rincian sebagai berikut:

1. *Setting* tarif masih pada *range* TBA (Tarif Batas Atas)–TBB (Tarif Batas Bawah).
2. Penyesuaian tarif pada masa *low* dan *peak season*.
3. Penerapan tarif promo pada masa- masa tertentu.
4. Promosi tarif khusus.
5. Memberikan potongan harga tiket bagi lansia, wartawan dan berbagai instansi lainnya yang sudah bekerja sama dengan Perusahaan (TNI, POLRI, LVRI, Alumni dan Civitas Universitas).

### Pemasaran & Branding

Dalam mencapai visi dan misinya, KAI telah merumuskan sejumlah inisiatif strategis dan juga *enabler* untuk KAI. KAI berhasil mengembangkan *enablers* yang mencakup Budaya & SDM, Manajemen Sarana, Manajemen Prasarana & Fasilitas, Manajemen Pihak eksternal, Ketangguhan Finansial, Teknologi Informasi, Keunggulan Operasi serta pemasaran & *Branding*. Adapun langkah pemasaran dan *branding* yang dilakukan oleh KAI di antaranya:

#### Pemasaran

- *Targeted campaigns* dengan *marketing automation*.
- *Cross-promotion* dan *marketing* bersama dengan mitra usaha (termasuk mitra transportasi antarmoda).
- Implementasi *green-oriented marketing*.
- Pengembangan dan implementasi customer reward and appreciation program.
- Layanan Entertainment *on Board*.

#### Branding

- Penyusunan strategi komunikasi jangka panjang.
- Pemenuhan KPI TJSL yang telah ditetapkan oleh RUPS setiap tahun.

### Integration and Alliances

KAI is committed to improving cooperation with various stakeholders to maximize sales channels for both Business to Business (B2B) and e-commerce. Throughout 2024, KAI collaborated with B2B partners and others to enhance services through Access by KAI. In addition, KAI also established intermodal cooperation for first mile and last mile services to provide better service to customers. KAI has also integrated with a number of third parties.

### Pricing Strategy

KAI has implemented a pricing strategy for the passenger transportation segment, which includes the following components:

1. Tariff setting within the range of TBA (Upper Limit Tariff) to TBB (Lower Limit Tariff).
2. Adjustments to tariffs during low and peak seasons.
3. Special promotional tariffs during certain periods.
4. Specific tariff promotions.
5. Ticket discounts for the elderly, journalists, and various agencies collaborating with the Company, including TNI, POLRI, LVRI, and university alumni.

### Marketing & Branding

To achieve its vision and mission, KAI has formulated several strategic initiatives and enablers. The Company has developed supports that include Culture & HR, Facilities Management, Infrastructure & Facilities Management, External Party Management, Financial Resilience, Information Technology, Operational Excellence, and Marketing & Branding. KAI's marketing and branding initiatives include:

#### Marketing

- Targeted campaigns utilizing marketing automation.
- Cross-promotion with business partners, including those in intermodal transportation.
- Implementation of green-oriented marketing.
- Development of customer reward and appreciation programs.
- Onboard entertainment services.

#### Branding

- Long-term communication strategy development.
- Fulfillment of CSR KPIs set by the GMS each year.

In 2024, the Company's cash ratio was recorded at 29.77%. This percentage increased by 1.10% compared to the previous year at 28.67%. The change in the cash ratio was due to the increase in the Company's revenue in 2024.

Meanwhile, the Company recorded a current ratio in 2024 of 11.69%, an increase of 29.02% compared to 2023 of 72.67%.

#### Ability to Pay Long-Term Debt (Solvency)

The solvency level indicates the Company's ability to pay its short-term debt. The Company measures the solvency level by calculating the *Debt-Service Coverage Ratio* (DSCR), *Debt to Equity Ratio* (DER) and *Debt to Asset Ratio* (DAR).

Based on these ratios, the Company's ability to pay long-term debt remains relatively strong.

#### Ability to Pay Debt from Issued Securities

The quality of issued securities is primarily determined by the issuing company's capability to repay these securities at maturity and to pay interest or coupons throughout the term of the issuance. One useful indicator for assessing the Company's quality is the ratings provided by an Independent Rating Agency.

### KOLEKTIBILITAS PIUTANG

Dalam menjalankan operasionalnya, pengelolaan keuangan yang efektif menjadi kunci keberlanjutan usaha. Salah satu aspek penting adalah pengelolaan piutang, yang berperan dalam menjaga kestabilan modal kerja agar tetap berada pada tingkat yang sehat dan mendukung kelancaran aktivitas bisnis Perseroan.

*Collection period* mengukur waktu yang dibutuhkan Perseroan untuk menerima pembayaran atas tagihan dari suatu usaha, sehingga semakin rendah *collection period*, maka semakin baik. Skor tertinggi diperuntukkan untuk kinerja dengan *collection period* sama atau kurang dari 60 hari. Di tahun 2024, *Collection period* Perseroan selama 0-30 hari, sama seperti tahun 2023.

### RECEIVABLES COLLECTIBILITY

In its operations, effective financial management is crucial for business sustainability, and one key aspect of this is managing receivables. This management is essential for maintaining stable working capital at a healthy level, which in turn supports the smooth operation of the Company's business activities.

The collection period measures the time it takes for the Company to receive payments for its invoices. A shorter collection period is preferable; thus, the best performance is indicated by a collection period of 60 days or less. In 2024, the Company's collection period was 0-30 days, the same as in 2023.

### Capital Structure Management Policy

The Company is committed to maintaining a healthy capital structure, which enables effective financial management and enhances its appeal to investors. By setting product and service prices that align with the level of risk, the Company aims to provide adequate returns to shareholders.

KAI secara rutin mengidentifikasi dan mengelola struktur modal yang dimiliki untuk memastikan pengembalian yang optimal bagi pemegang saham dengan mempertimbangkan efisiensi penggunaan modal berdasarkan arus kas operasi dan belanja modal, serta mempertimbangkan kebutuhan modal di masa yang akan datang. Pengelolaan struktur modal KAI senantiasa mempertahankan kelangsungan usaha serta memaksimalkan manfaat bagi pemegang saham dan pemangku kepentingan lainnya.

Peraturan Menteri Keuangan Republik Indonesia No. 169 Tahun 2015 Pasal 2 Ayat 1 menyebutkan bahwa perbandingan antara utang dan modal ditetapkan paling tinggi sebesar 4:1 atau maksimal 400%. Mengacu pada peraturan tersebut, Manajemen KAI menilai bahwa struktur modal tahun 2024 dengan kondisi yang baik.

#### Dasar Pemilihan Kebijakan Manajemen atas Struktur Modal

Kebijakan manajemen atas struktur modal berlandaskan Undang-Undang Republik Indonesia No. 36 Tahun 2008 tahun 2008 Pasal 18 ayat 1 tentang Perubahan Keempat Atas Undang-Undang No. 7 Tahun 1983 tentang Pajak Penghasilan, yang menyebutkan bahwa Menteri Keuangan berwenang untuk mengeluarkan keputusan tentang besarnya perbandingan antara utang dan modal perusahaan yang dapat dibenarkan untuk keperluan penghitungan Pajak Penghasilan. Adapun dasar perhitungan besarnya perbandingan antara utang dan modal perusahaan mengacu pada Peraturan Menteri Keuangan Republik Indonesia No. 169 Tahun 2015 tentang Penentuan Besarnya Perbandingan Antara Utang Dan Modal Perusahaan Untuk Keperluan Penghitungan Pajak Penghasilan.

Dalam menyusun kebijakan atas struktur modal Perseroan membuat penyesuaian dengan memperhatikan dinamika ekonomi, kebutuhan modal masa depan, profitabilitas baik masa sekarang maupun yang akan datang, perkiraan arus kas operasi, estimasi belanja modal, proyeksi peluang investasi yang strategis, dan karakteristik risiko aset yang mendasari.

Manajemen secara berkala mengevaluasi struktur permodalan dengan mempertimbangkan risiko, biaya modal, serta kebutuhan pendanaan jangka pendek dan panjang. Pendekatan ini bertujuan untuk menjaga stabilitas keuangan sekaligus mendukung pertumbuhan usaha secara berkelanjutan.

KAI consistently assesses and manages its capital structure to ensure optimal shareholder returns, taking into account the efficiency of capital utilization based on operating cash flow and capital expenditures, as well as future capital requirements. This management approach focuses on ensuring business continuity while maximizing benefits for shareholders and other stakeholders.

According to Regulation of the Minister of Finance of the Republic of Indonesia No. 169 of 2015, Article 2, Paragraph 1, the maximum allowable debt-to-capital ratio is set at 4:1 or 400%. Referring to this regulation, KAI Management has determined that the capital structure for 2024 was in a good condition.

#### Basis for Selecting Management Policy on Capital Structure

The management policy on capital structure is based on Law of the Republic of Indonesia No. 36 of 2008 Article 18 paragraph 1 concerning the Fourth Amendment to Law No. 7 of 1983 concerning Income Tax, which states that the Minister of Finance is authorized to issue a decision on the amount of the ratio between debt and company capital that can be justified for the purpose of calculating Income Tax. The basis for calculating the amount of the ratio between debt and company capital refers to Regulation of the Minister of Finance of the Republic of Indonesia No. 169 of 2015 concerning Determination of the Amount of the Ratio Between Debt and Company Capital for the Purpose of Calculating Income Tax.

In preparing the policy on the Company's capital structure, adjustments are made by considering economic dynamics, future capital needs, profitability both now and in the future, estimated operating cash flow, estimated capital expenditures, projections of strategic investment opportunities, and the risk characteristics of the underlying assets.

Management regularly evaluates the capital structure while considering risk factors, cost of capital, and both short-term and long-term funding requirements. This comprehensive approach helps maintain financial stability while fostering sustainable business growth.

## Ikatan Material atas Investasi Barang Modal

*Material Commitments to Capital Goods Investments*

Di tahun 2024, KAI melakukan ikatan material atas investasi barang modal sebagai bagian dari upaya mendukung pengembangan usaha jangka panjang. Investasi atas barang modal ditujukan untuk mendukung efektivitas kerja Perseroan serta kebutuhan investasi Perseroan baik di bidang sarana, prasarana maupun fasilitas, dengan menjalin kerja sama dengan sejumlah pihak untuk mencapai sasaran kinerja yang telah ditetapkan.

### Tujuan Ikatan Material

Investasi Perseroan difokuskan pada pengembangan bisnis yang telah berjalan terutama pada angkutan barang baik di Jawa maupun Sumatra, serta pembaruan kereta-kereta penumpang. Ikatan material termasuk perjanjian-perjanjian pengadaan sarana, prasarana dan fasilitas yang dilakukan Perseroan dan entitas anak.

### Nama Pihak yang Melakukan Ikatan

Sepanjang tahun 2024, Perseroan melakukan ikatan material dengan beberapa pihak. Informasi ikatan material telah disampaikan dalam Laporan Keuangan Perusahaan tahun 2024.

### Sumber Dana dan Mata Uang yang Menjadi Denominasi

Dalam melakukan ikatan material, sumber dana yang digunakan oleh KAI berasal dari internal maupun eksternal Perseroan. Sedangkan mata uang yang menjadi denominasi adalah Rupiah.

### Langkah yang Direncanakan untuk Melindungi Risiko dari Posisi Mata Uang Asing

Risiko mata uang merupakan risiko di mana nilai wajar atau arus kas masa datang dari suatu instrumen keuangan akan berfluktuasi akibat perubahan nilai tukar mata uang asing. Perseroan menanggung risiko nilai tukar uang asing atas transaksi dan saldo yang didenominasi dalam mata uang selain Rupiah. Mata uang yang menimbulkan risiko ini adalah terutama Dolar AS. Risiko nilai tukar mata uang asing dikelola sebaik mungkin dengan lindung nilai alami yaitu menyeimbangkan nilai kekayaan dan kewajiban masing-masing mata uang.

Untuk melindungi risiko dari posisi mata uang asing, KAI merencanakan langkah-langkah mitigasi melalui pembelian dan penjualan yang dilakukan dalam mata uang yang sama serta dilakukan pada saat yang hampir bersamaan. Perseroan

In 2024, KAI did not make material commitments to capital goods investments to support long-term business development. These investments will enhance the Company's operational effectiveness and meet the investment needs in facilities, infrastructure, and resources by collaborating with various partners to meet established performance targets.

### Purpose of Material Commitment

The Company's investment strategy is focused on expanding its existing businesses, particularly in freight transportation across Java and Sumatra, as well as renewing its passenger train fleet. Material commitments include contracts for the procurement of facilities and infrastructure made by the Company and its subsidiaries.

### Name of the Party Making the Commitment

Throughout 2024, the Company entered into material commitments with several parties. Information on material commitments has been submitted in the Company's 2024 Financial Statements.

### Source of Funds and Currency Denomination

In fulfilling its material commitments, KAI sources its funds from both internal and external avenues. The monetary denomination used for these funds is Rupiah.

### Planned Initiatives to Mitigate Foreign Currency Risk

Currency risk refers to the potential fluctuations in the fair value or future cash flow of a financial instrument due to changes in foreign exchange rates. The Company is exposed to foreign exchange risk from transactions and balances denominated in currencies other than Rupiah, with the US Dollar being the primary currency causing this risk. Foreign exchange rate risk is managed as effective as possible with natural hedging, by balancing the value of assets and liabilities in each currency.

To protect against risks associated with foreign currency positions, mitigation initiatives are implemented by executing purchases and sales in the same currency and nearly simultaneously. Additionally, the Company adheres

menerapkan kebijakan utang yang digunakan untuk membiayai kegiatan usaha dengan melakukan transaksi dalam mata uang yang sama (lindung nilai alami).

Secara berkala, KAI rutin melakukan pemantauan fluktuasi dari nilai tukar mata uang asing dan memastikan manajemen mengimplementasikan kebijakan untuk melindungi risiko dari posisi mata uang asing.

to a debt policy that finances its business activities through transactions conducted in the same currency (natural hedging).

KAI also routinely monitors fluctuations in foreign exchange rates and ensures that management implements effective policies to safeguard against risks from foreign currency positions.

## Prospek Usaha 2025

*Business Outlook for 2025*

### Proyeksi Makroekonomi

Berdasarkan laporan IMF dalam *World Economic Outlook*, Pertumbuhan ekonomi global diperkirakan masih akan berjalan stagnan sebesar 3,3% pada tahun 2025. Suku bunga global diprediksi masih tergolong tinggi dan berdampak pada pengetatan likuiditas dan terbatasnya arus modal masuk ke negara-negara berkembang. Konflik geopolitik antara Rusia-Ukraina dan konflik di Timur Tengah belum mereda serta persaingan antara Amerika Serikat-Tiongkok masih berlanjut.

Perekonomian global masih sangat dinamis dengan risiko dan ketidakpastian yang perlu terus diantisipasi. Ke depan, pertumbuhan ekonomi global diperkirakan masih stagnan di level rendah (di bawah level prapandemi). Faktor risiko dan ketidakpastian bersumber dari tingkat suku bunga yang masih tinggi, eskalasi konflik geopolitik, peningkatan tensi perang dagang akibat isu overproduksi di Tiongkok, serta risiko yang berdampak struktural, terutama yang bersumber dari perubahan iklim, digitalisasi, serta penuaan demografi (*aging population*). Namun dengan demikian Kementerian Keuangan memperkirakan bahwa ekonomi Indonesia akan tumbuh kuat dan berkelanjutan pada tahun 2025 dengan tingkat pertumbuhan sebesar 5,2%. Bank Indonesia (BI) memproyeksikan inflasi pada tahun 2025 akan tetap terkendali dalam kisaran target 2,5%±1%, mencerminkan stabilitas harga yang mendukung pertumbuhan ekonomi.

### Macroeconomic Projections

According to the IMF report in the *World Economic Outlook*, global economic growth is expected to remain stagnate at 3.3% in 2025. Global interest rates are predicted to stay relatively high, which may tighten liquidity and limit capital inflows to developing countries. The geopolitical conflicts between Russia and Ukraine, as well as tensions in the Middle East, have not subsided, and the competition between the United States and China continues.

The global economy remains dynamic, with various risks and uncertainties that require ongoing attention. Looking ahead, global economic growth is anticipated to stagnate at levels below those seen before the pandemic. Contributing factors to these risks and uncertainties include persistently high interest rates, escalating geopolitical conflicts, and increased trade tensions due to China's overproduction issues. Additionally, structural risks related to climate change, digitalization, and an aging population are also concerns. However, the Ministry of Finance estimates that the Indonesian economy will experience strong and sustainable growth in 2025, with a projected growth rate of 5.2%. Bank Indonesia (BI) forecasts that inflation in 2025 will remain under control, staying within the target range of 2.5% ± 1%, reflecting price stability that supports economic growth.

**STRATEGI TAHUN 2025**

Mengacu pada asumsi proyeksi ekonomi yang telah dijabarkan di atas, KAI melihat bahwa perekonomian 2025 masih diliputi dengan ketidakpastian. Menghadapi dinamika eksternal yang ada, KAI merumuskan strategi yang responsif dan adaptif untuk menghadapi tantangan dan memanfaatkan peluang di pasar kereta api yang semakin kompetitif.

1. Meningkatkan pertumbuhan pendapatan melalui manajemen harga yang dinamis, optimalisasi rute, serta diferensiasi layanan dan penawaran premium.
2. Meningkatkan efektivitas pemasaran melalui strategi berbasis digital dan data, kemitraan strategis, serta pemasaran berkelanjutan dan ramah lingkungan.

**STRATEGY FOR 2025**

Based on the economic projections outlined, KAI anticipates that the economy in 2025 will continue to be fraught with uncertainty. In response to existing external dynamics, KAI has developed a responsive and adaptive strategy aimed at overcoming challenges and seizing opportunities in the increasingly competitive railway market, as follows:

1. Enhancing revenue through dynamic pricing, route optimization, and differentiated premium service offerings.
2. Increasing marketing effectiveness by leveraging digital and data-driven strategies, forming strategic partnerships, and adopting sustainable, eco-friendly marketing practices.

## STRATEGI KAI SESUAI RJPP

Sebagai BUMN yang bergerak dalam industri transportasi, rencana bisnis KAI perlu di kembangkan selaras dengan rencana strategis dan tema pengembangan pemerintah dalam mendukung agenda transportasi nasional. Rencana bisnis KAI harus dapat mengakomodasi rencana strategis Kementerian BUMN, Kementerian Perhubungan, serta Rencana Induk Perkeretaapian Nasional (RIPNAS).

RIPNAS merupakan rencana Pembangunan jangka panjang dalam sistem perkeretaapian Indonesia hingga 2030 yang termasuk pengembangan jaringan, sarana dan prasarana, teknologi, strategi investasi, dan sebagainya. Arah pengembangan yang di targetkan oleh RIPNAS di antaranya:

- Pengembangan jaringan perkeretaapian nasional yang mencapai 10.524 Km akumulatif total pada 2030, dimana sepanjang 3.755 Km adalah untuk jaringan kota/ perkotaan
- Menerapkan skenario penggunaan energi pada transportasi perkeretaapian pada 2030 yang berbasis pulau dengan porsi listrik 90% dan berbasis perkotaan dengan porsi listrik sebesar 100%.
- Adopsi teknologi berupa penguasaan teknologi prasarana dan konstruksi, pengembangan *roadmap* teknologi & industri kereta, penguasaan teknologi perawatan prasarana kereta standar internasional, dan lain-lain.
- Keselamatan dan keamanan berupa *monitoring* dan evaluasi penyelenggaraan perkeretaapian, pengembangan manajemen sistem keamanan dalam penyelenggaraan perkeretaapian, pengujian dan sertifikasi sarana dan prasarana, serta fasilitas pendukung lainnya, dan lain-lain.

Penyusunan RJPP dilakukan dengan mempertimbangkan kebijakan dan regulasi pemerintah terkait perkeretaapian. Dokumen-dokumen yang diterbitkan oleh DJKA, BAPPENAS, Kementerian BUMN, Kemenko Perekonomian, dan Kemenko Marves menjadi bagian dari asumsi eksternal penyusunan RJPP 2025-2029.

Dalam RJPP 2025-2029, KAI menetapkan empat tujuan strategis utama, yaitu keunggulan operasional (*Operational excellence*), loyalitas pelanggan (*Customer loyalty*), ESG, dan keberlanjutan keuangan (*Financial sustainability*). Tujuan-tujuan strategis ini berkaitan langsung dengan visi KAI dan akan menjadi panduan bagi KAI di mana setiap pilar strategi dan inisiatif harus dapat mencapai satu atau lebih dari satu tujuan strategis ini, sehingga memastikan bahwa setiap investasi dan aktivitas yang dilakukan oleh KAI selaras dengan visi KAI.

## KAI'S STRATEGY IN LINE WITH RJPP

As a state-owned enterprise (BUMN) engaged in the transportation sector, KAI's business plan must align with the government's strategic vision and development themes in support of the national transportation agenda. The plan must also accommodate the strategic objectives of the Ministry of State-Owned Enterprises, the Ministry of Transportation, and the National Railway Master Plan (RIPNAS).

RIPNAS is a long-term development plan in the Indonesian railway system until 2030 which includes the development of networks, facilities and infrastructure, technology, investment strategies, and so forth. The development directions targeted by RIPNAS include:

- Developing a national railway network with a cumulative total of 10,524 km by 2030, including 3,755 km designated for urban networks.
- Implementing an energy usage model for railway transportation in 2030, with 90% of energy sourced from electricity for island-based services and 100% for urban services.
- Embracing technology advancements, including infrastructure and construction technology mastery, the development of a railway technology and industry roadmap, and adherence to international standards for infrastructure maintenance.
- Ensuring safety and security through rigorous monitoring and evaluation of railway management, development of security system management, and testing and certification of facilities and infrastructure, along with other related facilities.

The preparation of the RJPP is conducted while taking into account government policies and regulations related to railways. Various documents issued by DJKA, BAPPENAS, the Ministry of State-Owned Enterprises (SOEs), the Coordinating Ministry for Economic Affairs, and the Coordinating Ministry for Maritime Affairs and Investment are considered as external assumptions in the formulation of the 2025-2029 RJPP.

In the 2025-2029 RJPP, KAI has established four main strategic objectives: operational excellence, customer loyalty, Environmental, Social, and Governance (ESG), and financial sustainability. These strategic objectives are directly aligned with KAI's vision and will guide KAI's initiatives, ensuring that every investment and activity undertaken is in harmony with its overall vision.

## Informasi Penting Lainnya

### Other Important Information

#### 1. Track Charge Access (TAC) Perusahaan

Pada tanggal 20 Februari 2025, Berdasarkan *self assessment* Perusahaan telah melakukan pembayaran atas penggunaan *Track Access Charge* (TAC) tahun 2024 kepada pemerintah dengan dasar kemampuan Perusahaan mempertahankan nilai *Net Profit Margin* dan memperoleh keuntungan yang optimal dalam melaksanakan penugasan proyek strategis nasional seperti proyek Kereta Cepat Jakarta Bandung, LRT Jabodebek, dan Kereta Api Bandara Soekarno Hatta.

#### 1. The Company's Track Charge Access (TAC)

On February 20, 2025, based on the Company's self-assessment, it has made a payment for the use of the 2024 Track Access Charge (TAC) to the government based on the Company's ability to maintain the Net Profit Margin value and obtain optimal profits in carrying out national strategic project assignments such as the Jakarta-Bandung High-Speed Train project, Jabodebek LRT, and Soekarno Hatta Airport Train.

#### 2. Backlog Biaya Perawatan dan Pengoperasian Prasarana Perkeretaapian Milik Negara (IMO)

Perusahaan saat ini sedang melakukan upaya untuk melakukan penagihan atas *Backlog* Biaya Perawatan dan Pengoperasian Prasarana Perkeretaapian Milik Negara (IMO) Tahun Anggaran 2015-2022.

#### 2. Backlog of Maintenance and Operation Costs for State-Owned Railway Infrastructure (IMO)

The Company is currently making efforts to collect the Backlog of Maintenance and Operation Costs for State-Owned Railway Infrastructure (IMO) for the 2015-2022 Fiscal Year.

Backlog Biaya IMO muncul dikarenakan realisasi Biaya IMO yang dikeluarkan oleh Perusahaan berdasarkan kebutuhan biaya yang mutlak harus dikeluarkan untuk melakukan perawatan dan pengoperasian prasarana perkeretaapian dalam rangka menjamin keamanan dan keselamatan perjalanan kereta api, sementara penggantian biaya IMO yang dilakukan oleh Pemerintah sebesar nilai kontrak dimana nilai tersebut dibatasi oleh alokasi anggaran dalam APBN sebagaimana Peraturan Presiden (Perpres) No. 53/2012.

Perusahaan mendapat dukungan dari Kementerian BUMN sebagai pemegang saham utama Perusahaan melalui surat tanggal 29 Desember 2023 kepada BPKP untuk melakukan review atas Backlog IMO.

The IMO Cost Backlog arose due to the realization of IMO Costs incurred by the Company based on the absolute cost requirements that must be incurred to carry out maintenance and operation of railway infrastructure in order to ensure the safety and security of train travel, while the reimbursement of IMO costs carried out by the Government is the amount of the contract value where the value is limited by the budget allocation in the State Budget as per Presidential Regulation (Perpres) No. 53/2012.

The Company received support from the Ministry of SOEs as the Company's main shareholder through a letter dated December 29, 2023 to BPKP to conduct a review of the IMO Backlog.

## Tinjauan Fungsi Penunjang Bisnis

### *Business Support Functions Review*

Pemanfaatan Teknologi Informasi (TI) memiliki peran sangat penting dalam kegiatan bisnis KAI. Implementasi TI yang optimal dapat meningkatkan kinerja operasional Perseroan sehingga menjadi lebih produktif dan berdaya saing di tengah ketatnya kompetisi industri transportasi di Indonesia. Upaya peningkatan kinerja KAI senantiasa berorientasi pada keselamatan, ketepatan waktu, pelayanan, dan kenyamanan melalui implementasi rencana kerja berbasis TI. Meskipun demikian, KAI memahami bahwa manfaat penggunaan TI selalu disertai dengan risiko yang perlu diantisipasi secara serius. Untuk itu, KAI telah menerapkan Tata Kelola TI yang baik agar memperoleh nilai manfaat secara optimal, sekaligus mengelola risiko-risiko yang mungkin timbul.

Hingga 1 Desember 2024, KAI telah menerapkan pengelolaan TI secara baik dengan dukungan infrastruktur dan Tata Kelola Teknologi Informasi yang kuat.

The role of Information Technology (IT) in KAI's business activities is crucial. Effective implementation of IT can enhance the company's operational performance, making it more productive and competitive in the highly competitive transportation industry in Indonesia. KAI is committed to improving its performance with a focus on safety, punctuality, service, and comfort through IT-based work plans. However, KAI recognizes that while the benefits of using IT are significant, they come with associated risks that need to be proactively managed. Therefore, KAI has established robust IT governance to maximize the benefits while effectively managing potential risks.

As of December 1, 2024, KAI has successfully implemented strong IT management supported by a solid infrastructure and effective Information Technology Governance.

Berdasarkan Asesmen Indonesia Industry Readiness Index 4.0 (INDI 4.0) Assessment yang dilakukan pada tahun 2022 oleh Asesor dari Balai Besar Bahan dan Barang Teknik (B4T) dengan skor INDI 4.0, KAI mendapatkan skor sebesar 3.35. Nilai tersebut belum memenuhi target yang dipersyaratkan oleh Kementerian BUMN sebesar 3.5, maka Perseroan wajib menyusun dan mengimplementasikan rencana pemenuhan gap perbaikan INDI 4.0, seperti dijelaskan berikut ini.

Based on the Indonesia Industry Readiness Index 4.0 (INDI 4.0) Assessment conducted in 2022 by Assessors from the Center for Materials and Technical Goods (B4T) with an INDI score of 4.0, KAI received a score of 3.35. This value has not met the target required by the Ministry of SOEs of 3.5, so the Company is required to prepare and implement a plan to fulfill the INDI 4.0 improvement gap, as explained below.

# Tata Kelola Perusahaan

*Good Corporate Governance*

## Tata Kelola Perusahaan Yang Baik

*Good Corporate Governance*

Sebagai entitas Badan Usaha Milik Negara (BUMN), KAI memahami pentingnya pencapaian pertumbuhan bisnis yang sehat dan berkelanjutan. KAI berkomitmen melaksanakan pengelolaan aktivitas operasional dan bisnis sesuai praktik-praktik terbaik (*best practices*) penerapan prinsip-prinsip tata kelola yang baik (*Good Corporate Governance/GCG*). KAI berharap dapat tumbuh sebagai operator transportasi berstandar internasional, seiring pengelolaan hubungan baik dengan segenap pemangku kepentingan sebagai aspek fundamental bagi Perseroan.

Dalam implementasinya, KAI menerapkan GCG sebagai bagian yang tidak terpisahkan dari penerapan *Core Values* AKHLAK sesuai Surat Edaran Menteri BUMN Nomor SE-7/MBU/07/2020 mencakup Amanah, Kompeten, Harmonis, Loyal, Adaptif, Kolaboratif. Penerapan GCG KAI dilaksanakan searah dengan pencapaian visi Perseroan untuk tumbuh sebagai solusi ekosistem transportasi terbaik untuk Indonesia. Implementasi GCG KAI memiliki orientasi jangka panjang berupa penciptaan nilai tambah bagi seluruh unsur pemangku kepentingan mencakup pelanggan, pemegang saham, regulator, pekerja, mitra usaha, hingga masyarakat secara luas.

As a State-Owned Enterprise (BUMN), KAI recognizes the significance of achieving healthy and sustainable business growth. KAI is committed to managing its operational and business activities in accordance with best practices of Good Corporate Governance (GCG). KAI aims to develop into an internationally recognized transportation operator while maintaining strong relationships with all stakeholders, which is a fundamental aspect to the Company's mission.

In practice, KAI integrates GCG as an essential component of its Core Values, AKHLAK, as outlined in the Circular Letter from the Minister of BUMN Number SE-7/MBU/07/2020. These values include Amanah (Trustworthy), Kompeten (Competent), Harmonis (Harmonious), Loyal, Adaptif (Adaptive), and Kolaboratif (Collaborative). The implementation of KAI's GCG aligns with the company's vision to become the leading transportation ecosystem solution in Indonesia. KAI's commitment to GCG has a long-term focus on creating added value for all stakeholders, including customers, shareholders, regulators, employees, business partners, and the wider community.

## Dasar Penerapan Tata Kelola Perusahaan

*Basis of Good Corporate Governance Implementation*

Penerapan GCG KAI didasarkan pada sejumlah peraturan perundang-undangan yang berlaku yaitu:

1. Undang-Undang Republik Indonesia No. 40 Tahun 2007 tentang Perseroan Terbatas;
2. Undang-Undang Republik Indonesia No. 19 Tahun 2003 tentang Badan Usaha Milik Negara (BUMN);

The implementation of GCG at KAI is based on several applicable laws and regulations, as follows:

1. Law of the Republic of Indonesia No. 40 of 2007 concerning Limited Liability Companies;
2. Law of the Republic of Indonesia No. 19 of 2003 concerning State-Owned Enterprises (SOEs);

## Tata Kelola Perusahaan Good Corporate Governance

3. Peraturan Menteri BUMN No. PER-2/MBU/03/2023 tanggal 24 Maret 2023 tentang Pedoman Tata Kelola dan Kegiatan Korporasi Signifikan Badan Usaha Milik Negara;
4. Undang-Undang No. 1 Tahun 2025 tentang Perubahan Ketiga atas Undang-Undang Nomor 19 Tahun 2003 tentang Badan Usaha Milik Negara;

Penerapan GCG KAI juga mengacu kepada praktik-praktik terbaik yang berlaku, mencakup standar penerapan sebagai berikut:

1. Pedoman Umum GCG Indonesia oleh Komite Nasional Kebijakan Governansi (KNKG);
2. ASEAN Corporate Governance Scorecard;

3. Minister of State-Owned Enterprises Regulation No. PER-2/MBU/03/2023 dated March 24th, 2023, concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises;
4. Law No. 1 of 2025 concerning the Third Amendment to Law No. 19 of 2003 concerning State-Owned Enterprises.

KAI's GCG implementation also refers to applicable best practices, including the following implementation standards:

1. General Guidelines for Indonesian GCG by the National Committee on Governance Policy (KNKG)
2. ASEAN Corporate Governance Scorecard;

3. Pedoman tata kelola perusahaan yang ditetapkan melalui Peraturan Otoritas Jasa Keuangan (POJK) dan Surat Edaran Peraturan Otoritas Jasa Keuangan (SEOJK);
4. Pedoman tata kelola perusahaan yang ditetapkan oleh Badan Usaha Milik Negara dan yang relevan dengan bisnis usaha.
5. Prinsip *Environmental, Sustainability, dan Governance* atau ESG.

3. Corporate governance guidelines established through Financial Services Authority Regulations (POJK) and Financial Services Authority Circular Letters (SEOJK);
4. Corporate governance guidelines established by State-Owned Enterprises and relevant to business activities.
5. Environmental, Sustainability, and Governance (ESG) Principles.

## Mekanisme Tata Kelola Perusahaan

### *Corporate Governance Mechanism*

KAI menerapkan tata kelola perusahaan melalui mekanisme yang terdiri atas 2 (dua) komponen utama, yaitu struktur dan *soft-structure*. Struktur tata kelola KAI terdiri dari sejumlah organ utama dan pendukung, sedangkan *soft-structure* tata kelola KAI terdiri atas sejumlah peraturan internal yang berlaku sebagai acuan penerapan GCG bagi masing-masing organ di dalam struktur tata kelola.

Implementasi tata kelola menggunakan sistem *Two-Tier*, dimana terdapat pemisahan fungsi manajemen yang dijalankan oleh Direksi dan fungsi pengawasan yang dijalankan oleh Dewan Komisaris. Hal tersebut telah sesuai dengan Undang-Undang No. 40 Tahun 2007 tentang Perseroan Terbatas.

Mekanisme tata kelola KAI diterapkan sebagai upaya berkelanjutan dalam rangka menghasilkan *governance outcome* bagi seluruh pemangku kepentingan, dengan *core values* AKHLAK dan empat pilar governansi Indonesia yaitu ETAK (Etika, Transparansi, Akuntabilitas dan Keberlanjutan) yang berlaku sebagai landasan.

KAI implements corporate governance through a mechanism consisting of 2 (two) main components, namely structure and soft-structure. KAI's governance structure consists of a number of main and supporting organs; while soft-structure KAI's governance consists of a number of internal regulations that apply as a reference for implementing GCG for each organ in the governance structure.

The implementation of governance uses a Two-Tier system, where there is a separation of management functions carried out by the Board of Directors and supervisory functions carried out by the Board of Commissioners. This is in accordance with Law No. 40 of 2007 concerning Limited Liability Companies.

The KAI governance mechanism is implemented as a sustainable effort in order to produce governance outcomes for all stakeholders, with core values AKHLAK and four pillars of the Indonesian Governance ETAK (Ethics, Transparency, Accountability, and Sustainability) serving as the foundation.

### Pilar ETAK dalam PUGKI 2021

| Etika / Ethics | Transparansi / Transparency | Akuntabilitas / Accountability | Keberlanjutan / Sustainability |
|----------------|-----------------------------|--------------------------------|--------------------------------|
|----------------|-----------------------------|--------------------------------|--------------------------------|

### Pillars of ETAK in PUGKI 2021

#### ORGAN UTAMA RUPS, DEWAN KOMISARIS, DAN DIREKSI

**Organ Pendukung:** Sekretaris Dewan Komisaris, Komite Dewan Komisaris (Komite Audit, Komite Pemantau Manajemen Risiko, Komite Nominasi dan Remunerasi), Sekretaris Perusahaan, Satuan Pengawas Internal.

**Pemangku Kepentingan:** Pemangku Kepentingan yang merasakan asas manfaat atau kepentingan atas berjalannya roda bisnis perusahaan (Pemegang Saham, masyarakat, pekerja, mitra, Pemerintah).

#### GMS, BOARD OF COMMISSIONERS AND BOARD OF DIRECTORS MAIN ORGANS

**Supporting Organs:** Secretary of The Board of Commissioners, Board of Commissioners Committee (Audit Committee, Risk Management Monitoring Committee, Nomination and Remuneration Committee), Corporate Secretary, Internal Audit Unit.

**Stakeholders:** Stakeholders who benefit from the principle of interest in the Company's business include shareholders, the community, workers, partners, and the government.

### STRUKTUR TATA KELOLA PERUSAHAAN [GRI 2-9]

Struktur tata kelola KAI terdiri atas sejumlah organ utama dan pendukung GCG. Organ-organ utama di dalam struktur tata kelola KAI terdiri dari Rapat Umum Pemegang Saham (RUPS), Dewan Komisaris, dan Direksi. Adapun, organ-organ pendukung terdiri dari Sekretaris Dewan Komisaris, Sekretaris Perusahaan, Komite-Komite, serta Satuan Pengawas Internal.

### CORPORATE GOVERNANCE STRUCTURE [GRI 2-9]

KAI's governance structure consists of a number of main and supporting GCG organs. The main organs in KAI's governance structure consist of the General Meeting of Shareholders (GMS), the Board of Commissioners and the Board of Directors. Meanwhile, the supporting organs consist of the Commissioner's Secretary, Corporate Secretary, Committees and Internal Audit Unit.

Dewan Komisaris dan Direksi memiliki wewenang dan tanggung jawab yang jelas sesuai fungsinya masing-masing sebagaimana diamanatkan dalam Anggaran Dasar dan peraturan perundang-undangan. Komite-komite yang mendukung tugas Dewan Komisaris diketuai oleh anggota Dewan Komisaris. Adapun komite-komite pendukung Direksi telah dipastikan tidak memiliki afiliasi dengan anggota Direksi, anggota Dewan Komisaris, ataupun pemegang saham pengendali, serta bukan bagian dari pemegang saham Perseroan. Sebagai organ pendukung Direksi, komite-komite tersebut secara khusus memiliki tugas dan tanggung jawab untuk melaksanakan hal-hal yang diperlukan oleh Direksi dalam pelaksanaan sistem manajemen kinerja pekerja Perseroan.

Direksi merupakan pejabat eksekutif senior dan Direktur Utama merupakan pejabat eksekutif tertinggi yang bertanggungjawab atas pengelolaan Perseroan. KAI telah memiliki sejumlah kebijakan mengenai pengelolaan potensi konflik kepentingan yang tertuang di dalam Peraturan Direksi No. PER.U/KC.202/XII/1/KA-2020 tentang Pedoman Tata Kelola Perusahaan yang Baik. Penjelasan mengenai hal ini terdapat pada Pengelolaan Potensi Benturan Kepentingan dalam bab ini. **[GRI 2-11]**

#### SOFT-STRUCTURE TATA KELOLA PERUSAHAAN

*Soft-structure* tata kelola KAI terdiri atas sejumlah peraturan internal yang berlaku sebagai acuan bagi masing-masing organ di dalam struktur tata kelola. *Soft-structure* tata kelola KAI meliputi:

The Board of Commissioners and the Board of Directors have clear authorities and responsibilities as defined by the Articles of Association and applicable laws and regulations. Committees that assist the Board of Commissioners are chaired by its members. In contrast, the committees that support the Board of Directors are confirmed to have no affiliations with members of either the Board of Directors or the Board of Commissioners, nor with controlling shareholders, and they do not hold shares in the Company. These committees function as supporting bodies for the Board of Directors, specifically tasked with executing activities required by the Board in managing the Company's employee performance management system.

The Board of Directors serves as the senior executive body, with the President Director acting as the highest-ranking executive responsible for the Company's management. KAI has established several policies to manage potential conflicts of interest, as outlined in the Board of Directors Regulation No. PER.U/KC.202/XII/1/KA-2020, which provides guidelines for Good Corporate Governance. Further details can be found in the section on the Management of Potential Conflict-of-Interest within this chapter. **[GRI 2-11]**

## Rapat Umum Pemegang Saham

### *General Meeting Of Shareholders*

Rapat Umum Pemegang Saham (RUPS) merupakan organ tertinggi di dalam struktur tata kelola Perseroan. Atas hal itu, RUPS memiliki kewenangan yang tidak diberikan kepada Dewan Komisaris ataupun Direksi, dengan batas-batas yang ditetapkan di dalam Undang-Undang ataupun Anggaran Dasar. RUPS sekaligus merupakan forum bagi pemegang saham untuk menyalurkan hak dalam mendapatkan informasi terkait KAI oleh Dewan Komisaris ataupun Direksi, sesuai pemenuhan kepentingan Perseroan. **[GRI 2-11]**

### PEMEGANG SAHAM

Pemegang saham utama dan pengendali KAI adalah Pemerintah Republik Indonesia, hal ini dikarenakan KAI merupakan Badan Usaha Milik Negara (BUMN) yang 100% sahamnya milik negara.

### WEWENANG RUPS

Berdasarkan peraturan perundang-undangan dan Anggaran Dasar Perseroan, RUPS memiliki sejumlah kewenangan, antara lain:

1. Melakukan pengangkatan dan pemberhentian Direksi dan Dewan Komisaris;
2. Memberikan keputusan yang diperlukan untuk menjaga kepentingan usaha Perseroan dalam jangka panjang dan jangka pendek sesuai dengan peraturan perundang-undangan dan Anggaran Dasar Perseroan;
3. Memberikan persetujuan Laporan Tahunan termasuk pengesahan Laporan Keuangan sesuai peraturan perundang-undangan dan Anggaran Dasar Perseroan;
4. Mengambil keputusan melalui proses yang terbuka dan adil serta dapat dipertanggungjawabkan;

The General Meeting of Shareholders (GMS) is the highest organ within the Company's governance structure. Consequently, the GMS possesses authority not granted to the Board of Commissioners or the Board of Directors, within the limits set forth by laws or the Articles of Association. The GMS also serves as a forum for shareholders to exercise their rights in obtaining information about KAI from the Board of Commissioners or the Board of Directors, in accordance with the interests of the Company. **[GRI 2-11]**

### SHAREHOLDERS

The major and controlling shareholder of KAI is the Government of the Republic of Indonesia, as KAI is a State-Owned Enterprise (BUMN) whose shares are 100% owned by the state.

### GMS AUTHORITIES

Based on laws and regulations and the Company's Articles of Association, the GMS has several authorities, including:

1. Appointing and dismissing the Board of Directors and the Board of Commissioners;
2. Making necessary decisions to safeguard the Company's business interests in the long and short term in accordance with laws and regulations and the Company's Articles of Association;
3. Approving the Annual Report, including ratifying the Financial Statements in accordance with laws and regulations and the Company's Articles of Association;
4. Making decisions through a transparent, fair, and accountable process;

5. Melaksanakan Tata Kelola Perusahaan yang Baik sesuai dengan wewenang dan tanggung jawabnya.

### JENIS-JENIS RUPS

Berdasarkan penyelenggaraannya, RUPS terdiri dari 2 (dua) jenis yaitu RUPS Tahunan (RUPST) dan RUPS Luar Biasa (RUPSLB).

#### RUPS TAHUNAN (RUPST)

RUPS Tahunan (RUPST) diselenggarakan setiap tahun meliputi:

1. RUPS mengenai laporan tahunan dan perhitungan tahunan. Diadakan paling lambat bulan Juni setelah penutupan tahun buku yang bersangkutan. Dalam RUPS Tahunan ini dibahas laporan Direksi mengenai Laporan Tahunan, perhitungan tahunan, keadaan dan jalannya Perseroan, usulan penggunaan laba bersih Perseroan serta hal-hal lain yang perlu persetujuan RUPS demi kepentingan Perseroan.
2. RUPS untuk menyetujui Rencana Kerja dan Anggaran Perusahaan (RKAP). Diadakan paling lambat 30 (tiga puluh) hari setelah tahun anggaran berjalan (tahun anggaran Rencana Kerja dan Anggaran Perseroan yang bersangkutan). Dalam RUPS Tahunan ini dibahas Rancangan Rencana Kerja dan Anggaran Perseroan termasuk Proyeksi Laporan Keuangan, dan hal-hal lain yang perlu persetujuan RUPS untuk kepentingan Perseroan yang belum dicantumkan dalam RKAP.

#### RUPS LUAR BIASA (RUPSLB)

RUPS Luar Biasa (RUPSLB) dapat diadakan setiap waktu berdasarkan kebutuhan untuk kepentingan Perseroan. Pemanggilan dan penyelenggaraan RUPSLB dilakukan dengan melalui surat tercatat dan/atau dengan iklan dalam surat kabar dengan mencantumkan tanggal, waktu, tempat dan mata acara rapat disertai pemberitahuan bahwa bahan yang akan dibicarakan dalam Rapat Umum Pemegang Saham tersedia di Kantor Perseroan sejak tanggal dilakukan pemanggilan Rapat Umum Pemegang Saham sampai dengan tanggal Rapat Umum Pemegang Saham diadakan.

#### PELAKSANAAN RUPS TAHUNAN

Di tahun 2024, KAI menyelenggarakan RUPST Pengesahan Rencana Kerja dan Anggaran Perusahaan (RKAP) tahun 2024 dan RUPST Kinerja Tahun Buku 2023. Informasi RUPST KAI di tahun 2024 adalah sebagai berikut:

5. Implementing Good Corporate Governance in accordance with its authority and responsibilities

### GMS TYPES

Based on its implementation, the GMS consists of 2 (two) types: the Annual GMS (AGMS) and the Extraordinary GMS (EGMS).

#### ANNUAL GMS (AGMS)

Annual GMS (AGMS) is held every year and includes:

1. GMS regarding annual reports and annual calculations. Held no later than June after the close of the relevant financial year. In this Annual GMS, the Directors' report regarding the Annual Report, annual calculations, the condition and running of the Company, proposals for the use of the Company's net profit and other matters that require approval from the GMS are discussed in the Company's interests.
2. GMS to approve the Company's Work Plan and Budget (RKAP). Held no later than 30 (thirty) days after the current fiscal year (the budget year of the Company's Work Plan and Budget concerned). In this Annual GMS, the Company's Draft Work Plan and Budget, including Projected Financial Reports, and other matters that require GMS approval for the Company's interests are discussed which have not been included in the RKAP.

#### EXTRAORDINARY GMS (EGMS)

Extraordinary General Meeting of Shareholders (EGMS) may be held at any time based on the needs for the interests of the Company. The invitation and holding of the EGMS shall be made by registered letter and/or by advertisement in a newspaper stating the date, time, place and agenda of the meeting accompanied by a notification that the materials to be discussed in the General Meeting of Shareholders are available at the Company's Office from the date of the invitation to the General Meeting of Shareholders until the date of the General Meeting of Shareholders.

#### IMPLEMENTATION OF THE ANNUAL GMS

In 2024, KAI conducted its Annual General Meeting of Shareholders (AGMS) to ratify the 2024 Company Work Plan and Budget (RKAP) and to review the performance for the 2023 fiscal year. Details regarding the KAI AGMS in 2024 are as follows:

## BOARD OF DIRECTORS MANUAL

The Board of Directors fulfills its duties and responsibilities in accordance with the procedures outlined in the Board Manual. This Board Manual provides a structured and systematic overview of the various stages of the Board's activities, presented in an easy-to-understand format that ensures consistent implementation. It serves as a vital guideline for each Director in carrying out their responsibilities. The Board Manual is developed in alignment with principles of corporate law, the Company's Articles of Association, relevant laws and regulations, shareholder directives, and recognized best practices in Good Corporate Governance. It was formalized through the Joint Decree of the Board of Commissioners and Board of Directors No. 04/CH/KOM/III/2017 and No. KEP. U/KO.101/III/15/KA-2017, which outlines the Work Procedure Guidelines for the Board of Commissioners and Board of Directors (Board Manual) of PT Kereta Api Indonesia (Persero), dated March 16, 2017.

The Board Manual contains the work procedures of the Board of Directors with the following details:

- Requirements, Membership and Term of Office of Directors;
- Introduction and Capacity Building Program;
- Responsibilities of the Board of Directors;
- Duties, Authorities and Obligations of the Board of Directors;
- Directors' Rights;

6. Etika Jabatan;
7. Pendelegasian Wewenang di antara Anggota Direksi;
8. Pembagian Tugas Direksi;
9. Penggunaan Saran Profesional;
10. Rapat Direksi;
11. Sekretaris Perusahaan; dan
12. Hubungan dengan Anak Perusahaan dan Perusahaan Patungan.

#### **MANAGEMENT OF POTENTIAL CONFLICTS OF INTEREST FOR THE BOARD OF DIRECTORS [GRI 2-15]**

A conflict of interest for the Board of Directors arises when there is a personal interest that potentially conflicts with the interests of the Company in increasing its value, earning profits, and achieving the Company's vision and mission as mandated by the shareholders. The management of conflicts of interest within the Company is governed by the Board of Directors' Regulation No. PER.D/Ke.202/XII/I/KA-2020 on Good Corporate Governance Guidelines, as follows:

1. The Board of Directors establishes policies and mechanisms for preventing personal gain or benefits to other parties arising from conflicts of interest;
2. The Board of Directors conducts socialization and education regarding the policy mechanisms to prevent personal gain for the Board and structural officials within the Company;
3. The Board of Directors issues a declaration stating that they do not have any conflict of interest between their personal/family interests, other positions, or affiliations with the interests of the Company at the start of their appointment, and this declaration must be updated at the beginning of each year (for annual declarations, they can be included in the management contract signed by the Board of Directors and the Shareholders);
4. The Board of Directors submits a report on their share ownership in the Company and other companies to the Company through the Corporate Secretary for recording in a Special Register;
5. The Board of Directors must sign an integrity pact, which is attached to every proposal for actions by the Board requiring approval from the Board of Commissioners and/ or a recommendation from the Board of Commissioners with the approval of the General Meeting of Shareholders (GMS);
6. The Company ensures that no transactional decisions are made that involve conflicts of interest, including:

- Pelanggaran sehubungan dengan transaksi kesempatan Perusahaan (*corporate opportunity*);
- Pelanggaran sehubungan dengan transaksi dengan Perusahaan baik secara langsung maupun melalui anggota keluarganya atau keluarga dekatnya (*self dealing*);
- Pelanggaran sehubungan transaksi yang mengandung benturan kepentingan (*conflict of interest*); dan
- Pelanggaran sehubungan transaksi yang dibantu orang dalam (*insider information*).

- Violations related to corporate opportunity transactions;
- Violations related to transactions with the Company, either directly or through their family members or close relatives (*self-dealing*);
- Violations related to transactions involving conflicts of interest; and
- Violations related to insider information transactions.

## BOARD OF DIRECTORS MEETING

### Meeting Policy

According to the provisions in the Articles of Association and the Board Manual, the Company has also established Director Regulation No. PER.U/KC.202/X/1/KA-2020 dated October 26th, 2020, concerning the Rules of Procedure for Board Meetings, with the following details:

- The Board of Directors must hold regular meetings at least 1 (one) time a month according to the meeting plan prepared referring to the annual budget work plan.
- Board of Directors meetings can be held at any time if:
  - deemed necessary by one or more members of the Board of Directors;
  - held upon written request from one or more members of the Board of Commissioners; or
  - held upon written request from the Shareholder.
- Calls for meetings of the Board of Directors are made in writing via electronic service notes by members of the Board of Directors who have the right to represent them.
- In case of compelling circumstances, the Board of Directors meeting can be held without a summons. A meeting is considered valid if the meeting is attended by all members of the Board of Directors.
- Board of Directors meetings are chaired by the President Director.
- Directors' meetings can be held face-to-face or virtual meetings via electronic media which allows all Directors' meeting participants to see and hear each other directly and participate in the Board of Directors' meetings.
- Each member of the Board of Directors who attends the meeting has the right to submit comments at the meeting which are recorded in the minutes of the meeting including different opinions (*dissenting opinions*) if any.

8. Direksi berkewajiban menghadiri setiap rapat Direksi. Dalam hal terdapat Direksi yang berhalangan hadir harus memberikan alasan ketidakhadirannya dalam risalah rapat, Direksi yang tidak hadir dapat memberikan kuasa kepada salah satu anggota Direksi yang hadir sekaligus kewenangan pemegang kuasa tersebut untuk memberikan suara dalam rapat Direksi. Seorang anggota Direksi hanya dapat mewakili seorang anggota Direksi lainnya.
  9. Rapat Direksi adalah sah dan berhak mengambil keputusan yang mengikat apabila dihadiri oleh lebih dari ½ (satu perdua) jumlah seluruh anggota Direksi.
  10. Dalam mata acara lain-lain, rapat Direksi tidak berhak mengambil keputusan kecuali seluruh anggota Direksi hadir dan menyetujui penambahan mata acara rapat.
  11. Semua keputusan dalam rapat Direksi diambil dengan musyawarah untuk mufakat.
  12. Dalam hal keputusan tidak dapat diambil dengan musyawarah mufakat, maka keputusan diambil dengan suara terbanyak.
  13. Dalam hal jumlah suara yang setuju dan yang tidak setuju sama banyaknya, maka keputusan rapat adalah yang sesuai dengan pendapat pimpinan rapat dengan tetap memperhatikan ketentuan mengenai pertanggungjawaban.
  14. Dalam hal usulan lebih dari dua alternatif dan hasil pemungutan suara belum mendapatkan satu alternatif dengan suara lebih dari ½ (satu per dua) bagian dari jumlah suara yang dikeluarkan, maka dilakukan pemilihan ulang terhadap dua usulan yang memperoleh suara terbanyak sehingga salah satu usulan memperoleh suara lebih dari ½ (satu per dua) bagian dari jumlah suara yang dikeluarkan.
  15. Direksi yang tidak memberikan suara maka dianggap menyetujui usul yang diajukan dalam rapat.
  16. Keputusan rapat Direksi adalah keputusan tertinggi yang tidak dapat diubah kecuali dengan rapat Direksi.
  17. Terkait dengan rapat Direksi bersama Dewan Komisaris dapat dilakukan atas undangan Dewan Komisaris atau atas permintaan Direksi.
8. Directors are obliged to attend every Board of Directors meeting. In the event that a Director who is unable to attend must provide a reason for his or her absence in the minutes of the meeting, the Director who is not present can give power of attorney to one of the members of the Board of Directors who is present as well as the authority of the power of attorney holder to vote at the Board of Directors meeting. A member of the Board of Directors can only represent another member of the Board of Directors.
  9. Board of Directors Meetings are valid and entitled to make binding decisions when attended by more than ½ (one half) of all members of the Board of Directors.
  10. In other agenda items, the Board of Directors meeting does not have the right to make decisions unless all members of the Board of Directors are present and agree to add additional meeting agenda items.
  11. All decisions at Board of Directors meetings are taken by deliberation to reach consensus.
  12. In the event that a decision cannot be taken by consensus, the decision is taken by majority vote.
  13. In the event that the number of votes agreeing and disagreeing is the same, then the decision of the meeting is in accordance with the opinion of the chairman of the meeting while still paying attention to the provisions regarding accountability.
  14. In the event that there are more than two alternative proposals and the results of the voting have not obtained one alternative with more than ½ (one-half) of the total votes cast, then a re-vote will be carried out on the two proposals that received the most votes so that one of the proposals gets votes are more than ½ (one half) of the total votes cast.
  15. Directors who do not vote are deemed to have approved the proposal submitted at the meeting.
  16. The decision of the Board of Directors meeting is the highest decision which cannot be changed except by the Board of Directors meeting.
  17. The meetings between the Board of Directors and the Board of Commissioners can be held at the invitation of the Board of Commissioners or at the request of the Board of Directors.

## ASSESSMENT OF THE PERFORMANCE OF THE BOARD OF DIRECTORS COMMITTEE AND THE BASIS FOR THE ASSESSMENT

In 2024, the Board of Directors carries out its duties and responsibilities assisted by committees under the Board of Directors. An explanation of this matter along with the performance assessment of each committee is as follows:

### 1. Komite Verifikasi Kinerja Pekerja

Komite ini dibentuk guna mendukung percepatan progres verifikasi kinerja pekerja dan dalam rangka mewujudkan pelaksanaan sistem manajemen kinerja pekerja.

### 2. Komite Keselamatan Tingkat Pusat

Komite ini dibentuk untuk mengatur mengenai Sistem Manajemen Keselamatan Perkeretaapian. Dalam melaksanakan tugasnya, Komite Keselamatan bertanggung jawab kepada Direktur Utama.

### 3. Komite Teknologi Informasi

Komite ini dibentuk untuk mendukung strategi bisnis dalam keseluruhan upaya pengembangan Perseroan. Diperlukan adanya kerja sama dan koordinasi seluruh bagian KAI agar pengembangan teknologi informasi dapat selaras dengan kebutuhan bisnis.

### 4. Komite Penyelesaian dan Tindak Lanjut Hasil Investigasi dan Hasil CO/Pemeriksaan Daerah atas Kejadian Kecelakaan KA

Komite ini dibentuk untuk menindaklanjuti hasil investigasi dan CO atas terjadinya kecelakaan kereta api, menetapkan pejabat yang bertanggung jawab sesuai dengan penyebab yang tertulis di dalam hasil investigasi/CO, menetapkan sanksi, dan menetapkan penghargaan kepada pekerja/ masyarakat yang dinilai telah ikut mencegah atau melakukan upaya sehingga kecelakaan KA dapat dihindari. Hasil kerja anggota komite ini dilaporkan kepada Direktur Utama.

### 5. Komite Eksekutif

Komite ini dibentuk untuk mengantisipasi perkembangan dan tuntutan perusahaan di masa depan, sehingga perlu dipersiapkan kader pimpinan yang kompeten. Komite Eksekutif bertugas untuk merumuskan, mengelola, dan melaksanakan, serta mempersiapkan kaderisasi pimpinan masa yang akan datang. Selain itu, juga membahas hal-hal strategis Perseroan.

Secara berkala, Direksi melakukan penilaian terhadap kinerja masing-masing komite secara periodik, dengan prosedur penilaian yang diterapkan melalui pelaksanaan rapat kerja. Secara mendasar, Direksi melakukan penilaian terhadap kinerja masing-masing komite berdasarkan pelaksanaan tugas selama 1 (satu) periode penilaian, yang hasilnya akan digunakan sebagai dasar pertimbangan bagi peningkatan kinerja komite di periode selanjutnya.

### 1. Employee Performance Verification Committee

**PEMBAGIAN TUGAS DEWAN KOMISARIS**

KAI telah menerapkan pembidangan tugas bagi masing-masing Dewan Komisaris. Pembidangan tugas Dewan Komisaris diatur dalam *Board Manual* dan secara berkala disesuaikan dengan perkembangan kondisi Perseroan dan pengembangan struktur organisasi sesuai arah kebijakan Perseroan. Pembagian tugas masing-masing Dewan Komisaris di tahun 2024 adalah sebagai berikut:

**DIVISION OF DUTIES OF THE BOARD OF COMMISSIONERS**

KAI has established a division of duties for each member of the Board of Commissioners. This division is set out in the Board Manual and is periodically updated to reflect changes in the Company's conditions and its organizational structure, in accordance with the Company's policies. The division of duties for each Board of Commissioner in 2024 is as follows:

| Nama /<br>Name  | Jabatan /<br>Position                             | Pembagian Tugas /<br>Division of Duties                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## BOARD MANUAL DEWAN KOMISARIS

Board Manual merupakan pedoman yang menjelaskan tahapan aktivitas kerja Dewan Komisaris secara terstruktur, sistematis, mudah dipahami, dan dapat dijalankan secara konsisten, sehingga dapat menjadi pedoman pelaksanaan tugas bagi masing-masing anggota Dewan Komisaris.

Dalam menjalankan tugasnya, Dewan Komisaris mengacu pada tata laksana kerja yang termuat di dalam Board Manual. Board Manual disusun berdasarkan prinsip-prinsip hukum korporasi, ketentuan Anggaran Dasar Perseroan, peraturan perundang-undangan yang berlaku, arahan Pemegang Saham serta praktik-praktik terbaik (*best practices*) Good Corporate Governance. Board Manual Perseroan ditetapkan melalui Keputusan Bersama Dewan Komisaris dan Direksi No. 04/CH/KOM/ III/2017 dan No. KEP.U/KO.101/III/15/KA-2017 tentang Panduan Tata Kerja Dewan Komisaris dan Direksi (Board Manual) PT Kereta Api Indonesia (Persero) tanggal 16 Maret 2017.

## BOARD MANUAL OF THE BOARD OF COMMISSIONERS

The Board Manual is a guideline that explains the stages of the Board of Commissioners' work activities in a structured, systematic, easy to understand and can be carried out consistently. Therefore, it can serve as a guideline for carrying out the duties of each member of the Board of Commissioners.

In fulfilling its responsibilities, the Board of Commissioners adheres to the work procedures specified in the Board Manual. This manual is based on the principles of corporate law, the provisions of the Company's Articles of Association, applicable laws and regulations, Shareholder directives, and best practices in Good Corporate Governance. The Company's Board Manual is established through the Joint Decree of the Board of Commissioners and Directors No. 04/CH/KOM/III/2017 and No. KEP.U/KO.101/III/15/KA-2017, which outlines the Work Procedure Guidelines for the Board of Commissioners and Directors (Board Manual) of PT Kereta Api Indonesia (Persero), dated March 16, 2017.

Di dalam *Board Manual* memuat pedoman kerja Dewan Komisaris, dengan perincian berikut:

Komposisi Dewan Komisaris per 31 Desember 2024 berjumlah 8 orang yang terdiri dari 1 orang Komisaris Utama yang juga Komisaris Independen, 4 orang Komisaris dan 3 orang Komisaris Independen. Jumlah Komisaris Independen mencapai 4 orang atau 50% dari keseluruhan anggota Dewan Komisaris, telah memenuhi syarat minimal 30% yang ditetapkan pada POJK No. 33/POJK.04/2014 tentang Jumlah anggota Dewan Komisaris Perseroan.

#### **PENGLOLAAN BENTURAN KEPENTINGAN DEWAN KOMISARIS [GRI 2-15]**

Pengelolaan benturan kepentingan Dewan Komisaris Perseroan telah mematuhi ketentuan POJK No. 42/POJK.04/2020 tentang Transaksi Afiliasi dan Transaksi Benturan Kepentingan. Perseroan menerapkan sejumlah prinsip untuk mencegah terjadinya benturan kepentingan dan implikasi lanjutan yang sering ditimbulkannya antara lain sebagai berikut:

1. Dewan Komisaris selalu menghindari adanya benturan kepentingan di dalam melaksanakan tugasnya. Dewan Komisaris tidak akan memanfaatkan jabatan untuk kepentingan pribadi atau untuk kepentingan orang atau pihak lain yang terkait;
2. Dewan Komisaris harus menghindari setiap aktivitas yang dapat mempengaruhi independensinya dalam tugas pengawasan Perseroan;

2. The Board of Commissioners has met the formal requirements, including:
  - a. Individuality;
  - b. Ability to engage in legal transactions;
  - c. No declaration of bankruptcy within the 5 (five) years prior to appointment;
  - d. No prior membership in a Board of Directors or Board of Commissioners/Supervisory Board that was found responsible for causing a state-owned enterprise, subsidiary, and/or other entity to be declared bankrupt within 5 (five) years prior to appointment; and
  - e. No conviction for crimes that harm the finances of the state, state-owned enterprises, subsidiaries, and/or the financial sector within the 5 (five) years prior to appointment.

The Company ensures that all members of the Board of Commissioners currently in office meet these formal and material requirements and possess the necessary competence and expertise to achieve the company's goals and best interests. As of December 31, 2024, the composition of the Board of Commissioners includes 8 members, consisting of 1 President Commissioner who also serves as an Independent Commissioner, 4 Commissioners, and 3 Independent Commissioners. The number of Independent Commissioners reaches 4 persons, representing 50% of the total members of the Board of Commissioners, thus meeting the minimum requirement of 30% as stipulated in POJK No. 33/POJK.04/2014 regarding the Number of Members of the Company's Board of Commissioners.

#### **MANAGEMENT OF CONFLICTS OF INTEREST FOR THE BOARD OF COMMISSIONERS [GRI 2-15]**

The management of conflicts of interest for the Board of Commissioners of the Company is in accordance with the provisions of POJK No. 42/POJK.04/2020 concerning Affiliated Transactions and Conflict of Interest Transactions. The Company implements several principles to prevent conflicts of interest and the potential consequences that may arise, including the following:

1. The Board of Commissioners always avoids conflicts of interest while performing its duties. Members will not leverage their positions for personal benefit or for the benefit of related individuals or parties;
2. The Board of Commissioners must refrain from any activities that may compromise its independence in supervising the Company's operations;

3. Dewan Komisaris berkewajiban mengisi Daftar Khusus yang berisikan kepemilikan sahamnya dan atau keluarganya pada perusahaan lain;
  4. Apabila terjadi benturan kepentingan, maka harus diungkapkan, dan Dewan Komisaris yang bersangkutan tidak boleh melibatkan diri dalam proses pengambilan keputusan Perseroan; dan
  5. Dewan Komisaris berkewajiban membuat pernyataan mengenai benturan kepentingan terhadap hal-hal yang termaktub dalam Rencana Kerja dan Anggaran Perusahaan.
3. Members of the Board are required to complete a Special List detailing their and/or their family's share ownership in other companies;
  4. In the event of a conflict of interest, it must be disclosed, and the concerned Board member will abstain from participating in the Company's decision-making process; and
  5. The Board of Commissioners is required to provide a statement regarding any conflicts of interest related to the matters outlined in the Company's Work Plan and Budget.

#### 1. Umum

- Rapat Dewan Komisaris harus diadakan secara berkala, sekurang-kurangnya sekali dalam setiap bulan, dan dalam rapat tersebut Dewan Komisaris dapat mengundang Direksi.
- Dewan Komisaris harus menetapkan tata tertib rapat Dewan Komisaris.
- Segala keputusan Dewan Komisaris diambil dalam rapat Dewan Komisaris.
- Keputusan dapat pula diambil di luar rapat Dewan Komisaris sepanjang seluruh anggota Dewan Komisaris setuju tentang cara dan materi yang diputuskan.
- Mekanisme pemanggilan rapat:
  - 1) Panggilan rapat gabungan disampaikan secara tertulis oleh Komisaris Utama atau oleh anggota Dewan Komisaris yang ditunjuk oleh Komisaris Utama dan disampaikan dalam jangka waktu paling lambat 3 (tiga) hari sebelum rapat diadakan atau dalam waktu yang lebih singkat jika dalam keadaan mendesak, dengan memperhitungkan tanggal panggilan dan tanggal rapat.
  - 2) Panggilan rapat sebagaimana dimaksud pada huruf a harus mencantumkan acara, tanggal, waktu dan tempat rapat.
  - 3) Panggilan rapat tersebut tidak disyaratkan apabila semua anggota Dewan Komisaris dan Direksi hadir dalam rapat.
- Dalam setiap rapat Dewan Komisaris harus dibuat risalah rapat berisi hal-hal yang dibicarakan (termasuk pendapat berbeda/ *dissenting opinion*).

## BOARD OF COMMISSIONERS MEETING

### Meeting Policy

The Board of Commissioners meeting policy is prepared based on the provisions of the Articles of Association, Board Manual and applicable regulations. The Board of Commissioners holds a meeting with the following policy description:

#### 1. General

- Board of Commissioners meetings must be held periodically, at least once a month, and at these meetings the Board of Commissioners can invite the Directors.
- The Board of Commissioners must determine the rules for meetings of the Board of Commissioners.
- All decisions of the Board of Commissioners are taken at Board of Commissioners meetings.
- Decisions can also be taken outside the Board of Commissioners meeting as long as all members of the Board of Commissioners agree.
- Meeting invitation mechanism:
  - 1) The invitation to a joint meeting is delivered in writing by the President Commissioner or by a member of the Board of Commissioners appointed by the President Commissioner and delivered no later than 3 (three) days before the meeting is held or within a shorter time if in urgent circumstances, taking into account the date call and meeting date.
  - 2) The invitation to the meeting as referred to in letter a must include the agenda, date, time and place of the meeting.
  - 3) The summons to the meeting is not required if all members of the Board of Commissioners and Directors are present at the meeting.
- At each meeting of the Board of Commissioners, minutes of the meeting must be prepared containing the matters discussed (including dissenting opinion members of the Board of Commissioners, if any) and matters decided.

- g. Risalah rapat harus menggambarkan jalannya rapat. Hal ini penting untuk dapat melihat proses pengambilan keputusan dan sekaligus menjadi dokumen hukum dan alat bukti yang sah untuk menentukan akuntabilitas dari hasil suatu keputusan rapat. Untuk itu risalah rapat harus mencantumkan:
- 1) Tempat, tanggal dan waktu rapat diadakan;
  - 2) Agenda yang dibahas;
  - 3) Daftar hadir yang ditandatangani oleh setiap peserta rapat;
  - 4) Berbagai pendapat yang terdapat dalam rapat termasuk *dissenting opinion*;
  - 5) Siapa yang mengemukakan pendapat;
  - 6) Proses pengambilan keputusan;
  - 7) Keputusan yang diambil; dan
  - 8) Pernyataan keberatan terhadap keputusan rapat apabila tidak terjadi kebulatan pendapat.
- h. Risalah rapat ditandatangani oleh Ketua Rapat dan seluruh anggota Dewan Komisaris yang hadir dalam rapat.
- i. Asli risalah rapat Dewan Komisaris disampaikan kepada Direksi untuk disimpan dan dipelihara, sedangkan Dewan Komisaris menyimpan salinannya.
- j. Rapat Dewan Komisaris dianggap sah apabila diadakan di tempat kedudukan Perseroan atau di tempat lain di dalam wilayah Republik Indonesia.
- k. Dewan Komisaris mengadakan rapat paling sedikit setiap bulan sekali, dalam rapat tersebut Dewan Komisaris agar dan/atau dapat mengundang Direksi.
- l. Dewan Komisaris dapat mengadakan rapat sewaktu-waktu atas permintaan 1 (satu) atau beberapa anggota Dewan Komisaris, permintaan Direksi, atau atas permintaan tertulis dari 1 (satu) atau beberapa Pemegang Saham yang mewakili sekurang-kurangnya 1/10 (satu per sepuluh) jumlah saham dengan hak suara, dengan menyebutkan hal-hal yang akan dibicarakan.
- m. Panggilan rapat Dewan Komisaris disampaikan secara tertulis oleh Komisaris Utama atau oleh anggota Komisaris yang ditunjuk oleh Komisaris Utama dan disampaikan dalam jangka waktu paling lambat 3 (tiga) hari sebelum rapat diadakan atau dalam waktu yang lebih singkat jika dalam keadaan mendesak, dengan tidak memperhitungkan tanggal panggilan dan tempat rapat.
- n. Panggilan rapat harus mencantumkan acara, tanggal waktu dan tempat rapat.
- g. Meeting minutes should describe the proceedings of the meeting. This is important to be able to see the decision-making process and at the same time be a legal document and valid evidence to determine accountability for the results of a meeting decision. For this reason, the minutes of the meeting must include:
- 1) Place, date and time of meeting held;
  - 2) Agenda discussed;
  - 3) Attendance list signed by each meeting participant;
  - 4) Various opinions found in the meeting include dissenting opinion;
  - 5) Who presented the opinion;
  - 6) Decision making process;
  - 7) Decisions taken; and
  - 8) Statement of objection to the decision of the meeting when there is no unanimity of opinion.
- h. The minutes of the meeting are signed by the Chairman of the Meeting and all members of the Board of Commissioners who were present at the meeting.
- i. The original minutes of the Board of Commissioners' meetings are submitted to the Board of Directors to be kept and maintained, while the Board of Commissioners keeps a copy.
- j. Meetings of the Board of Commissioners are considered valid when held at the Company's location or at another location within the territory of the Republic of Indonesia.
- k. The Board of Commissioners holds a meeting at least once a month, at which meeting the Board of Commissioners may invite and/or invite the Board of Directors.
- l. The Board of Commissioners may hold meetings at any time at the request of 1 (one) or several members of the Board of Commissioners, at the request of the Board of Directors, or at the written request of 1 (one) or several Shareholders representing at least 1/10 (one tenth) of the total shares with voting rights, stating the matters to be discussed.
- m. Summons for meetings of the Board of Commissioners are delivered in writing by the President Commissioner or by members of the Board of Commissioners appointed by the President Commissioner and delivered no later than 3 (three) days before the meeting is held or within a shorter time if in urgent circumstances, without taking into account the date of the summons. and meeting place.
- n. The meeting summons must include the event, date, time and place of the meeting.

- 10) The number of meetings of the Board of Commissioners and the number of attendance of each member of the Board of Commissioners must be included in the Company's Annual Report

## 5. Mekanisme Pengambilan Keputusan Secara Sirkuler

Dewan Komisaris mengakui bentuk rapat tanpa melalui kehadiran fisik, atau disebut Rapat Sirkuler, dengan ketentuan sebagai berikut:

- a. Keputusan yang diambil dalam bentuk Rapat Sirkuler bukanlah keputusan yang bersifat strategis;
- b. Bukan merupakan sebuah keputusan atas suatu tindakan Direksi yang memerlukan persetujuan RUPS setelah mendapatkan tanggapan tertulis Dewan Komisaris serta semua perbuatan Direksi yang harus mendapatkan persetujuan tertulis Dewan Komisaris;
- c. Permasalahan telah diketahui sebelumnya/ pernah dibahas;
- d. Keputusan yang diambil disetujui secara tertulis dan ditandatangani oleh seluruh Anggota Dewan Komisaris; dan
- e. Tanggal keputusan secara sirkuler yang berlaku adalah tanggal anggota Dewan Komisaris yang terakhir menandatangani keputusan tersebut. Keputusan yang diambil dengan cara demikian mempunyai kekuatan yang sama dengan keputusan yang diambil dengan sah dalam rapat Dewan Komisaris.

## 5. Circular Decision-Making Mechanism

The Board of Commissioners recognizes a form of meeting without physical presence, or called a Circular Meeting, with the following conditions:

- a. Decisions taken in the form of Circular Meetings are not strategic decisions;
- b. It is not a decision regarding an action of the Board of Directors which requires approval from the GMS after receiving a written response from the Board of Commissioners and all actions of the Board of Directors which must obtain written approval from the Board of Commissioners;
- c. The problem has been previously known/has been discussed;
- d. The decisions taken are approved in writing and signed by all members of the Board of Commissioners; and
- e. The applicable circular decision date is the date the last member of the Board of Commissioners signed the decision. Decisions taken in this way have the same force as decisions legally taken at a meeting of the Board of Commissioners.

## 6. Perbedaan Pendapat (*Dissenting Opinion*)

Perbedaan pendapat diatur sebagai berikut:

- Perbedaan pendapat yang terjadi dimasukkan dalam Keputusan Rapat, dan Anggota Dewan Komisaris yang berbeda pendapat harus mengungkapkan alasan atas terjadinya perbedaan pendapat terhadap hasil keputusan tersebut.
- Perbedaan pendapat tidak berarti memberikan hak kepada Anggota Dewan Komisaris yang bersangkutan untuk tidak melaksanakan hasil keputusan rapat. Meskipun terdapat perbedaan pendapat, namun seluruh Anggota Dewan Komisaris tetap berkewajiban untuk mengikuti dan melaksanakan hasil keputusan rapat.
- Dewan Komisaris secara tanggung renteng bertanggung jawab penuh secara pribadi apabila terbukti bersalah atau lalai menjalankan tugasnya untuk kepentingan dan usaha Perseroan, kecuali Anggota Dewan Komisaris yang melakukan *dissenting opinion* dapat membuktikan bahwa ia telah mengambil tindakan untuk mencegah timbul atau berlanjutnya kerugian tersebut.
- Perbedaan pendapat yang dicantumkan di dalam keputusan dan risalah rapat dapat menjadi bukti bahwa Anggota Dewan Komisaris yang bersangkutan telah melakukan tindakan untuk mencegah timbul atau berlanjutnya kerugian tersebut dengan tidak menyetujui hasil keputusan rapat. Hal ini berarti bahwa Anggota Dewan Komisaris yang bersangkutan dapat terbebas dari tuntutan atas timbul atau berlanjutnya kerugian tersebut sebagai hasil pelaksanaan keputusan rapat.

## 7. Rapat Melalui Elektronik

- Rapat Dewan Komisaris dapat diselenggarakan dengan cara konferensi antara Anggota Dewan Komisaris yang berada di tempat yang berbeda, melalui telepon konferensi, video konferensi, atau peralatan komunikasi lainnya yang memungkinkan setiap Anggota Rapat Dewan Komisaris dapat saling mendengar dan berpartisipasi dalam rapat.
- Setiap Anggota Dewan Komisaris yang ikut serta dianggap hadir dalam Rapat untuk menentukan terpenuhinya persyaratan kuorum kehadiran dan keputusan rapat Dewan Komisaris.
- Tempat di mana Ketua Rapat ikut serta dianggap sebagai tempat dilangsungkannya Rapat Dewan Komisaris.

## 6. Dissenting Opinion

Dissenting opinion is regulated as follows:

- Any differences of opinion that occur are included in the Meeting Decision, and Members of the Board of Commissioners who have different opinions must express the reasons for the differences of opinion regarding the results of the decision.
- A difference of opinion does not mean giving the relevant member of the Board of Commissioners the right not to implement the results of the meeting decision. Even though there are differences of opinion, all members of the Board of Commissioners are still obliged to follow and implement the results of the meeting decisions.
- The Board of Commissioners is jointly and severally liable personally if proven guilty or negligent in carrying out their duties for the interests and business of the Company, unless the Member of the Board of Commissioners who provides a dissenting opinion can prove that he or she has taken action to prevent the occurrence or continuation of such losses.
- Differences of opinion included in the decisions and minutes of meetings can be evidence that the member of the Board of Commissioners concerned has taken action to prevent the occurrence or continuation of such losses by not agreeing to the results of the meeting decisions. This means that the member of the Board of Commissioners concerned can be free from claims regarding the occurrence or continuation of such losses as a result of implementing meeting decisions.

## 7. Electronic Meetings

- Board of Commissioners meetings can be held by means of a conference between members of the Board of Commissioners who are in different places, via telephone conference, video conference, or other communication equipment that allows each member of the Board of Commissioners meeting to hear each other and participate in the meeting.
- Each Member of the Board of Commissioners who participates is deemed to be present at the Meeting to determine whether the attendance quorum requirements and decisions of the Board of Commissioners meeting are met.
- The place where the Chairman of the Meeting participates is considered the place where the Board of Commissioners Meeting is held.

- d. Risalah Rapat harus diedarkan serta ditandatangani oleh Ketua Rapat dan Seluruh Anggota Dewan Komisaris yang ikut serta, sesuai dengan tanggal Rapat dilaksanakan.
- e. Penggunaan media elektronik dalam penyelenggaraan Rapat ini ditetapkan oleh Dewan Komisaris dengan mengacu pada perundang-undangan dan peraturan perseroan tentang informasi dan transaksi elektronik yang berlaku.

## 8. Prosedur Penyusunan Risalah Rapat Internal Dewan Komisaris

Penyusunan risalah Rapat Internal Dewan Komisaris dilakukan dengan prosedur sebagai berikut:
